The company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 May 2020.

The members have not required the company to obtain an audit of its financial statements for the year ended 31 May 2020 in accordance with Section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for:

- (a) ensuring that the company keeps accounting records which comply with Sections 386 and 387 of the Companies Act 2006 and
- (b) preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company.

The financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies regime.

In accordance with Section 444 of the Companies Act 2006, the Income Statement has not been delivered.

The financial statements were approved by the Board of Directors and authorised for issue on 18 March 2021 and were signed on its behalf by:

R A Kwasny - Director

**Notes to the Financial Statements  
for the year ended 31 May 2020**

---

1. **Statutory information**

Evolution Artificial Intelligence Ltd is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. **Accounting policies**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

**Turnover**

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Hire purchase and leasing commitments**

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

**Pension costs and other post-retirement benefits**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

2. Accounting policies - continued

**Going concern**

The financial statements have been prepared on a going concern basis. The Directors have reviewed and considered relevant information, including the annual budget and future cash flows in making their assessment. In particular, in response to the COVID-19 pandemic, the Directors have tested their cash flow analysis to take into account the impact on their business of possible scenarios brought on by the impact of COVID-19, alongside the measures that they can take to mitigate the impact. Based on these assessments, given the measures that could be undertaken to mitigate the current adverse conditions, and the current resources available, the Directors have concluded that they can continue to adopt the going concern basis in preparing the annual report and accounts.

**Post balance sheet events**

In the view of the Directors given the timing of the outbreak, COVID-19 is considered to be a non-adjusting event as at 31 May 2020 and consequently no adjustment is made to these financial statements.

**Financial instruments**

Financial assets and liabilities are recognised when the Company becomes party to the contractual provisions of the financial instrument. The Company holds both basic and complex financial instruments which comprise cash and cash equivalents, trade and other receivables, equity investments derivative financial instruments, trade and other payables, convertible loan notes and loans and borrowings. The company has chosen to apply the provisions of Section 11 Basic Financial Instruments and Section 12 Other Financial Instruments in full.

Financial assets - classified as basic financial instruments

(i) Cash and cash equivalents include cash in hand, deposits held with banks, and other short-term highly liquid investments with original maturities of three months or less.

(ii) Trade and other receivables

Trade and other receivables are initially recognised at the transaction price, including any transaction costs, and subsequently measured at amortised cost including the effective interest method, less any provision for impairment. Amounts that are receivable within one year are measured at the undiscounted amount of the cash expected to be received, net of any impairment.

At the end of each reporting period, the Company assesses whether there is objective evidence that an receivable amount may be impaired. A provision for impairment is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised immediately in profit or loss.

(iii) Trade and other payables and loans and borrowings

Trade and other payables and loans and borrowings are initially measured at the transaction price, including any transaction costs, and subsequently measured at amortised cost using the effective interest method. Amounts that are payable within one year are measured at the discounted amount of the cash expected to be paid.

2. Accounting policies - continued

**Critical accounting judgements and key sources of estimation uncertainty**

In applying the Company's accounting policies, the directors are required to make judgements, estimates and assumptions in determining the carrying amounts of assets and liabilities. The directors' judgements, estimates and assumptions are based on the best and most reliable evidence available at the time when the decisions are made, and are based on historical experience and other factors that are considered to be applicable. Due to the inherent subjectivity involved in making such judgements, estimates and assumptions, the actual results and outcomes may differ.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, if the revision affects only that period, or in the period of the revision and future periods, if the revision affects both current and future periods.

Critical judgements in applying the Company's accounting policies

The critical judgement that the directors have made in the process of applying the Company's accounting policies that have the most significant effect on the amounts recognised in the statutory financial statements are discussed below:

(i) Assessing indicators and impairment

In assessing whether there have been any indicators or impairment of assets, the directors have considered both external and internal sources of information such as market conditions, counterparty credit ratings and experience or recoverability. There have been no indicators or impairments identified during the current financial year.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(ii) Revenue recognition in respect of services

The company uses the percentage of completion method to recognise project revenue for fixed-priced contracts. This method requires the directors to estimate the level of services performed at each reporting date as a proportion of the total services to be performed to complete the contract. Variations to estimates could result in the over or under recognition of revenue.

(iii) Estimating value in use

Where an indication of impairment exists the directors will carry out an impairment review of to determine the recoverable amount, which is the higher of fair value less cost to sell and value in use. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the asset or the cash generating unit and a suitable discount rate in order to calculate present value.

(iv) Recoverability of receivables

The Company establishes a provision for receivables that are estimated not to be recoverable. When assessing recoverability the directors consider factors such as the aging of the receivables, past experience and recoverability, and the credit profile of individual or groups of customers.

(v) Determining residual values and useful economic lives of property, plant and equipment

The Company depreciates tangible assets over their estimated useful lives. The estimation of the useful lives is based on historical performance as well as expectations about future use and therefore requires estimates and assumptions to be applied by management. The actual lives of these assets can vary depending on a variety of factors, including technological innovation, product life cycles and maintenance programmes.

Judgement is applied by management when determining the residual values for plant, machinery and equipment. When determining the residual value management aim to assess the amount that the company would currently obtain for the disposal of the asset, if it were already of the condition expected at the end of its useful economic life. Where possible this is done with reference to external market prices.

Notes to the Financial Statements - continued  
for the year ended 31 May 20203. **Employees and directors**

The average number of employees during the year was 8 (2019 - 7) .
