Styrelsen och verkställande direktören för DeLaval International AB avger följande årsredovisning för räkenskapsåret 2021.

Årsredovisningen är upprättad i svenska kronor, SEK. Om inte annat särskilt anges, redovisas alla belopp i hela kronor (kr).

Förvaltningsberättelse

Information om verksamheten

DeLaval levererar integrerade lösningar för mjölkproduktion utformade för att förbättra produktion, djurhälsa och den övergripande livskvaliteten för mjölkproducenter. Vi utvecklar, tillverkar och marknadsför utrustning för mjölkproduktion och djurhållning världen över. Service och ett brett utbud av tillbehör är även en stor del av vårt erbjudande och vi levererar system för mjölkning, driftsledning, kyla, utfodring, utgödsling, ventilation och energiåtervinning.

DeLaval grundades för mer än 135 år sedan av visionären Gustaf de Laval som patenterade mjölkseparatören. Idag har DeLaval 4 500 medarbetare och finns representerat i mer än 100 länder. DeLaval, tillsammans med Tetra Pak och Sidel, är en del av Tetra Lavalgruppen.

DeLaval International AB utgör huvudbolaget i koncernen. DeLaval International AB:s verksamhet innefattar flera av koncernens centrala funktioner, men även verksamhet som tillverkning av exempelvis DeLavals framgångsrika mjölkkningsrobot, VMS™, samt en del av koncernens produktutveckling.

Företaget har sitt säte i Botkyrka.

Väsentliga händelser under räkenskapsåret

Efterfrågan på våra produkter ökade under pandemin. Automatisk mjölkning har blivit ännu mer relevant med tanke på svårigheterna att rekrytera personal till lantbruket.

Försäljningen i våra mjölkkningskaruseller ökade med nästan 50 procent, främst genom försäljning i Kina och USA där lantbrukarna investerade för att möta den växande efterfrågan på mjölk. Vi såg också en stark efterfrågan på våra DeLaval VMS™ V300 och V310 (automatisk mjölkning) och våra servicekoncept med tillbehör.

Under pandemin har vår högsta prioritet varit våra anställdas hälsa och säkerhet. Med många som arbetar hemifrån under året har vi i allt högre grad fokuserat på vår personals mentala hälsa och välbefinnande genom kommunikation och dialog inom företaget, haft regelbundna uppdateringar och diskussioner om ämnet.

Genom våra anställdas engagemang och hårda arbete hade vi endast tre dagars produktionsstopp i våra 14 fabriker runt om i världen under 2021. Eftersom vi arbetar med livsmedelsproduktion har DeLaval setts som en kritisk samhällsfunktion under pandemin vilket har inneburit att vi har kunnat fortsätta att hjälpa våra kunder på fältet under reserestriktioner för COVID-19.

Turbulens i den globala försörjningskedjan relaterad till pandemin medföljde brister på råvaror och reservdelar, vilket störde vår verksamhet och innebar viss anpassning eller förändring av några produkter under året. Men pandemin fick oss också att se saker ur nya perspektiv och vi har hittat nya sätt att arbeta.

Förväntad framtida utveckling samt väsentliga risker och osäkerhetsfaktorer

DeLaval har en stark marknadsposition, en hög kundnöjdhet och en stark innovationsagenda som hjälper lantbrukare att driva sin verksamhet hållbart.

Vi förväntar oss att se en fortsatt stark tillväxt för våra produkter och tjänster under 2022. Den nya jordbrukspolicyn i EU (CAP) 2023 kan komma att påverka investeringar i Europa, men vi förväntar oss inte att marknaden kommer att sakta ner åtminstone inte under första halvåret 2022. Vi kommer att behålla vårt fokus på innovation med automation och digitala lösningar.

Ökad tillväxt

Efter flera år av tillväxt är vi tacksamma för det fortsatta förtroende som våra kunder visar. Vår verksamhet drivs av en stark global efterfrågan på mjölk, där den ökade konsumtionen av mejeriprodukter hos konsumenter kompenserade för nedstängningen av skolor och restauranger runt om i världen under pandemin. Tillväxten ökade med 7,1 % och våra kundorder ökade 10% jämfört med föregående år.

Forskning och utveckling

Forskning och utveckling är och har alltid varit ett viktigt och prioriterat område inom DeLaval. Flera nya produkter lanserades under 2021. Detta inkluderade DeLaval Flow-Responsive™ Milking och digitala tjänster med sensorteknologi som använder artificiell intelligens för att hjälpa mjölkproducenter att få en mer effektiv mjölkproduktion.

Andra icke-finansiella upplysningar

Följande systerbolag har under 2021 drivit rörelsen i kommission för DeLaval international AB: DeLaval Hamra Gård AB, DeLaval Sales AB och DeLaval Export AB. Dessa bolags finansiella räkenskaper utgör en del av DeLaval International AB:s årsredovisning.

DeLaval Hamra Gård AB

År 1894 köpte AB Separator, senare DeLaval International AB, Hamra Gård för att driva ett mönsterjordbruk och en testgård. Avsikten var att förbättra mjölkproduktionen och höja kvaliteten på mjölkprodukterna. Idag utgör Hamra Gård en avgörande roll för utveckling av nya produkter och system, är en visningsgård för kunder och besökare samt en viktig inspirationskälla i företaget.

Idag består mjölkproduktionen av ca 250 mjölkkor och 250 kvigor. Vi bedriver växtodling på ca 1100 ha där vi odlar spannmål på ca 600 ha, 300 ha vall och resteranade areal är beten m.m.

Att DeLaval är en mjölkproducent ökar både vår förståelse för våra kunder och bidrar till utvecklingen av våra nuvarande och framtida produkter. Förutom mjölkproduktion och växtodling på Hamra Gård bedrivs även verksamheter som skogsbruk, grustag och uthyrning av bostäder, lokaler och mark.

DeLaval Sales AB

DeLaval Sales AB utgör DeLavals svenska marknadsbolag med säte i Tumba. DeLaval Sales AB kan genom en rikstäckande organisation av egen försäljnings- och servicepersonal erbjuda sina befintliga och nya kunder service, direkt närhet och trygghet dygnet runt.

DeLaval Export AB

Via DeLaval Export AB sker försäljningen till marknader över hela världen, både direkt till DeLavals slutkunder och genom lokala återförsäljare. DeLaval Export AB har sitt huvudkontor i Tumba.

Ägarförhållanden

DeLaval International AB är ett helägt dotterbolag till DeLaval Holding B.V., organisationsnummer 02060609, med säte i Assen, Nederländerna, som i sin tur ägs av DeLaval Holding AB, organisationsnummer 556258-6981, med säte i Tumba och utgör moderbolaget i DeLaval koncernen. DeLaval koncernen ingår i en koncern vars moderbolag är Tetra Laval International SA, UID: CHE-198.253.298.

Hållbarhetsrapport

I enlighet med ÅRL 6 kap 11§ har moderbolaget DeLaval Holding AB 556258-6981 med säte i Stockholms län, Botkyrka, valt att upprätta den lagstadgade hållbarhetsrapporten som en från årsredovisningen avskild rapport som även omfattar samtliga dotterbolag. Hållbarhetsrapporten har överlämnats till revisorn samtidigt som årsredovisningen. Hållbarhetsrapporten finns tillgänglig på <http://www.delavalcorporate.com/sustainability/our-take/>.

Noter

Not 1 Redovisnings- och värderingsprinciper

Allmänna upplysningar

Årsredovisningen är upprättad i enlighet med Årsredovisningslagen (1995:1554) och BFNAR 2012:1 Årsredovisning och koncernredovisning (K3).

Fordringar och skulder i utländsk valuta har värderats till balansdagens kurs. Kursvinster och kursförluster på rörelsefordringar och rörelseskulder redovisas i rörelseresultatet medan kursvinster och kursförluster på finansiella fordringar och skulder redovisas som finansiella poster.

Säkringsredovisning

Bolaget tillämpar säkringsredovisning med avseende på säkring av valutarisk.

Säkringsredovisningen redovisas i enlighet med kapitel 11, Finansiella instrument värderade utifrån anskaffningsvärde. Avtal har ingåtts med Tetra Laval Finance & Treasury S.A. för säkring av valutarisken, där den underliggande säkrade posten utgörs av monetära poster i utländsk valuta (kundfordringar respektive leverantörsskulder).

De underliggande säkrade posterna utgörs av kundfordringar och leverantörsskulder med andra koncernbolag som regleras genom Tetra Lavals netting system (factoring system) till fastställda valutakurser. Vidare utgörs de säkrade posterna av transaktioner i EUR, USD, TRY, CNY och MXN med externa parter samt koncernbolag som inte inkluderas i Tetra Lavals nettningssystem, för vilka ett så kallat fixed rate agreement har ingåtts med koncernbolaget Tetra Laval Finance & Treasury S.A. Detta avtal löper över en period om 12 månader.

Orealiserade värdeförändringar på säkringsinstrumentet och den säkrade posten som är hänförliga till den säkrade risken redovisas inte givet att kraven för säkringsredovisning uppfylls. Den underliggande tillgången eller skulden som säkras värderas till säkrad kurs.

Redovisningsprinciperna är oförändrade jämfört med föregående år.

Intäktsredovisning

Intäkter

Det inflöde av ekonomiska fördelar som företaget erhållit eller kommer att erhålla för egen räkning redovisas som intäkt. Intäkter värderas till verkligt värde av det som erhållits eller kommer att erhållas, med avdrag för rabatter.

I de fall köpevillkoren innebär att köparen erhåller en finansiering är intäktens verkliga värde nuvärdet av alla framtida betalningar.

Försäljning av varor

Vid försäljning av varor redovisas en intäkt när följande kriterier är uppfyllda:

- De ekonomiska fördelarna som är förknippade med transaktionen sannolikt kommer att tillfalla företaget,
- Inkomsten kan beräknas på ett tillförlitligt sätt,
- Företaget har överfört de väsentliga riskerna och fördelarna som är förknippade med varornas ägande till köparen,
- Företaget har inte längre ett sådant engagemang i den löpande förvaltningen som vanligtvis förknippas med ägande och utövar inte heller någon reell kontroll över de sålda varorna, samt
- De utgifter som har uppkommit eller förväntas uppkomma till följd av transaktionen kan beräknas på ett tillförlitligt sätt.

Intäktsredovisning från en varuförsäljning förutsätter att samtliga dessa villkor är uppfyllda. Sammantaget innebär det att varor redovisas vid leverans och när väsentliga risker och förmåner som är förknippade med varornas ägande har överförts till köparen.

Intäkter från försäljning av varor avser främst försäljning av mjölkningsutrustning, stallinredning och tillhörande reservdelar.

Ränta, royalty och utdelning

Ersättning i form av ränta, royalty eller utdelning redovisas som intäkt när det är sannolikt att företaget kommer att få de ekonomiska fördelar som är förknippade med transaktionen och när inkomsten kan beräknas på ett tillförlitligt sätt.

Ränta redovisas som intäkt enligt den så kallade effektivräntemetoden. Royalty periodiseras i enlighet med den aktuella överenskommelsens ekonomiska innebörd. Utdelning redovisas som intäkt när företagets rätt till betalning är säkerställd.

Tjänste- och entreprenaduppdrag - fast pris

Uppdragsinkomster och uppdragsutgifter för uppdrag till fast pris redovisas som intäkt när arbetet är väsentligen fullgjort enligt den så kallade färdigställandemetoden. Fram till vinstavräkningen redovisas nedlagda utgifter för uppdraget som en tillgång och fakturerade belopp som en skuld, det vill säga pågående ej fakturerade entreprenaduppdrag värderas till direkt nedlagda utgifter med tillägg för indirekta utgifter samt med avdrag för fakturerade dellikvider. Nettovärdet redovisas i posten "Fakturerad men ej upparbetad intäkt".

En befarad förlust redovisas som kostnad eftersom det är sannolikt att de totala uppdragsutgifterna kommer att överstiga den totala uppdragsinkomsten.

Intäkter från tjänsteuppdrag och entreprenadavtal till fast pris avser främst försäljning av installation av mjölkningsutrustning och stallinredning.

Anläggningstillgångar

Immateriella och materiella anläggningstillgångar redovisas till anskaffningsvärde minskat med ackumulerade avskrivningar enligt plan och eventuella nedskrivningar.

Materiella anläggningstillgångar har delats upp på betydande komponenter när komponenterna har väsentligt olika nyttjandeperioder.

Avskrivningsbart belopp utgörs av anskaffningsvärdet minskat med ett beräknat restvärde om detta är väsentligt. Avskrivning sker linjärt över den förväntade nyttjandeperioden.

Följande avskrivningstider tillämpas:

Immateriella anläggningstillgångar

Balanserade utgifter för forsknings-
och utvecklingsarbeten och liknande arbeten 5 år

Materiella anläggningstillgångar

Byggnader	
-Tak	30 år
-Stomme	50 år
-Fasad	30 år
-Fönster	25 år
Markanläggningar	20-25 år
Maskiner och andra tekniska anläggningar	5-10 år
Inventarier, verktyg och installationer	3-10 år

Ovan avskrivningstider har tagits fram baserat på komponenternas beräknade ekonomiska livslängd.

Internt upparbetade immateriella anläggningstillgångar

Företaget tillämpar den s.k. "kostnadsföringsmodellen" avseende internt upparbetade immateriella anläggningstillgångar. Metoden innebär att samtliga interna utgifter för framtagande av en immateriell anläggningstillgång kostnadsförs direkt när de uppkommer.

Låneutgifter

De låneutgifter som uppkommer då företaget lånar kapital kostnadsförs i resultaträkningen i den period de uppstår.

Finansiella instrument

Finansiella instrument värderas utifrån anskaffningsvärdet.

Andelar i intressebolag

Bolaget innehar andelar i det danska handelsbolaget, Lattec I/S, cvr-nr 25971787, med säte i Hillerød, Danmark. DeLaval International AB äger 50 % och DeLaval Export AB äger 50 %. Lattec är värdemässigt inte ett väsentligt innehav för De Laval international AB.

Leasingavtal

Företaget som leasetagare

Företaget redovisar samtliga leasingavtal, såväl finansiella som operationella, som operationella leasingavtal. Operationella leasingavtal redovisas som en kostnad linjärt över leasingperioden.

Varulager

Varulagret har värderats till det lägsta av dess anskaffningsvärde och dess nettoförsäljningsvärde på balansdagen. Med nettoförsäljningsvärde avses varornas beräknade försäljningspris minskat med försäljningskostnader. Den valda värderingsmetoden innebär att inkurans i varulagret har beaktats.

Inkomstskatter

Total skatt utgörs av aktuell skatt och uppskjuten skatt. Skatter redovisas i resultaträkningen, utom då underliggande transaktion redovisas direkt mot eget kapital varvid tillhörande skatteeffekter redovisas i eget kapital.

Aktuell skatt

Aktuell skatt avser inkomstskatt för innevarande räkenskapsår samt den del av tidigare räkenskapsårs inkomstskatt som ännu inte redovisats. Aktuell skatt beräknas utifrån den skattesats som gäller per balansdagen.

Uppskjuten skatt

Uppskjuten skatt är inkomstskatt som avser framtida räkenskapsår till följd av tidigare händelser. Redovisning sker enligt balansräkningsmetoden. Enligt denna metod redovisas uppskjutna skatteskulder och uppskjutna skattefordringar på temporära skillnader som uppstår mellan bokförda respektive skattemässiga värden för tillgångar och skulder samt för övriga skattemässiga avdrag eller underskott.

Uppskjutna skattefordringar nettoredovisas mot uppskjutna skatteskulder endast om de kan betalas med ett nettobelopp. Uppskjuten skatt beräknas utifrån gällande skattesats på balansdagen. Effekter av förändringar i gällande skattesatser resultatförs i den period förändringen lagstadsats. Uppskjuten skattefordran redovisas som finansiell anläggningstillgång och uppskjuten skatteskuld som avsättning.

Uppskjuten skattefordran avseende underskottsavdrag eller andra framtida skattemässiga avdrag redovisas i den omfattning det är sannolikt att avdragen kan avräknas mot framtida skattemässiga överskott.

Fordringar, skulder och avsättningar

Om inget annat anges ovan värderas kortfristiga fordringar till det lägsta av dess anskaffningsvärde och det belopp varmed de beräknas bli reglerade. Långfristiga fordringar och långfristiga skulder värderas efter det första värderingstillfället till upplupet anskaffningsvärde. Övriga skulder och avsättningar värderas till de belopp varmed de beräknas bli reglerade. Övriga tillgångar redovisas till anskaffningsvärde om inget annat anges i denna not.

Ersättningar till anställda

Ersättningar till anställda avser alla typer av ersättningar som företaget lämnar till de anställda. Företagets ersättningar innefattar bland annat löner, betald semester, betald frånvaro, bonus och ersättningar efter avslutad anställning (pensioner). Redovisning sker i takt med intjänandet. Ersättningar till anställda efter avslutad anställning avser avgiftsbestämda eller förmånsbestämda pensionsplaner. Som avgiftsbestämda planer klassificeras planer där fastställda avgifter betalas och det inte finns förpliktelser, vare sig legala eller informella, att betala något ytterligare, utöver dessa avgifter. Övriga planer klassificeras som förmånsbestämda pensionsplaner. Företaget har inga övriga långfristiga ersättningar till anställda.

Utgifter för avgiftsbestämda planer redovisas som en kostnad under den period de anställda utför de tjänster som ligger till grund för förpliktelsen. Företaget har förmånsbestämda pensionsplaner som finansieras via Alecta, vilka redovisas som avgiftsbestämda planer då det inte finns tillräcklig information för att redovisa planen som förmånsbestämd. För ett begränsat antal tidigare anställda finns även en förmånsbestämd pensionsförpliktelse som är knuten till en pensionsstiftelse. Om stiftelsens förmögenhet, värderad till marknadsvärde, understiger förpliktelsen redovisar företaget en avsättning på motsvarande belopp. Vid utgången av föregående och innevarande räkenskapsår har pensionsförpliktelsen varit fullt finansierad. Bolaget har förmånsbestämda pensionsförpliktelser vilka uteslutande är beroende av värdet på de av bolaget ägda kapitalförsäkringar. Kapitalförsäkringarna redovisas som finansiell anläggningstillgång. I enlighet med förenklingsregeln i BFNAR 2012:1 redovisas pensionsförpliktelsen som en avsättning till samma värde som kapitalförsäkringens redovisade värde.

Koncernredovisning

Företaget är ett moderföretag, men med hänvisning till undantagsreglerna i årsredovisningslagen 7 kap 2 § upprättas ingen koncernredovisning.

Närmast överordnade moderföretag som upprättar koncernredovisning i vilken företaget ingår är Tetra Laval International SA, UID: CHE-198.253.298 med säte i Pully, Schweiz.

Nyckeltalsdefinitioner

Nettoomsättning

Rörelsens huvudintäkter, fakturerade kostnader, sidointäkter samt intäktskorrigeringar.

Resultat efter finansiella poster

Resultat efter finansiella intäkter och kostnader men före bokslutsdispositioner och skatter.

Rörelsemarginal (%)

Rörelseresultat i procent av omsättningen.

Avkastning på eget kap. (%)

Resultat efter finansiella poster i procent av justerat eget kapital (eget kapital och obeskattade reserver med avdrag för uppskjuten skatt).

Balansomslutning

Företagets samlade tillgångar.

Soliditet (%)

Justerat eget kapital (eget kapital och obeskattade reserver med avdrag för uppskjuten skatt) i procent av balansomslutning.

Antal anställda

Medelantal anställda under räkenskapsåret.

Uppskattningar och bedömningar

Följande av styrelsens bedömningar har en betydande effekt på redovisade belopp i årsredovisningen:

Beräkningen av lagerinkurans baseras på av koncernens fastställda beräkningsprinciper. Bolagets beräkning görs på artikelnivå och följer en fastställd inkuranstrappa. Modellen bygger både på förväntad förbrukning som fastställd förbrukning. För artiklar som förväntas säljas inom 1 år görs inga reserveringar, inom 2 år reserveras med 50 %, 3–4 år med 75 % och 5 år eller senare görs full reservering. För artiklar för vilket ingen förbrukning påvisats under de senaste 2 åren görs en full reservering. Bolagets redovisade lagerinkurans överstiger återkommande den skattepliktiga accepterade avsättningsnivån, varav justering görs i bolagets beräkning av inkomstskatt.

Avsättningar för garantiåtaganden för DeLaval-gruppens produkter baseras på av koncernens fastställda beräkningsprinciper. Beräkningen bygger på statistisk data av de senaste 2 årens faktiska garantikostnader i förhållande till 2 års historisk försäljning. Beaktad försäljningsperiod påbörjas 1 år före garantikostnadsperioden. Förhållandet i procent multipliceras med bolagets aktuella försäljning för innevarande år. Beräkningen görs på av koncernen fastställda produktgrupper. Bolagets garantiavsättningar överstiger återkommande den skattemässiga accepterade avsättningsnivån, varav justering görs i bolagets beräkning av inkomstskatt.

Not 4 Leasingavtal - leasetagare

Operationell leasing

Framtida leasingavgifter, för icke uppsägningsbara leasingavtal, förfaller till betalning enligt följande:

	2021-12-31	2020-12-31
Inom ett år	14 363 350	19 192 265
Senare än ett år men inom fem år	22 314 615	32 393 176
Senare än fem år	865 414	971 992
	37 543 379	52 557 433
Under perioden kostnadsförda leasingavgifter	18 672 375	21 295 060

I redovisningen utgör den operationella leasingen i allt väsentligt av leasingbilar. Bilar leasas på tre år.

Förutom hyra av lokaler avser avtalen hyra/leasing av truckar, IT-utrustning (koperingsmaskiner, printers, datorer m.m) samt arrende mark.

Not 5 Arvode till revisorer

Med revisionsuppdrag avses granskning av årsredovisningen och bokföringen samt styrelsens och verkställande direktörens förvaltning, övriga arbetsuppgifter som det ankommer på bolagets revisor att utföra samt rådgivning eller annat biträde som föranleds av iakttagelser vid sådan granskning eller genomförandet av sådana övriga arbetsuppgifter.

Upplysningar om uppskjuten skattefordran och skatteskuld

Bolaget redovisar väsentliga uppskjutna skattefordringar hänförliga till bolagets garantiavsättningar, lager samt pensionskostnader. De uppskjutna skattefordringarna på pensionskostnader avser betalda kapitalförsäkringar, vilka är avdragsgilla först vid uttag. Det sammanlagda beloppet redovisas i balansräkningen under posten Uppskjuten skattefordran. Övriga uppskjutna skatter har beräknats till 20,6 %.

Uppgifter om förvaltningsfastigheter		
Redovisat värde	15 468 742	16 429 997
Verkligt värde	47 688 720	44 350 800

Upptagna förvaltningsfastigheternas beskaffenheter skiljer sig delvis väsentligt från varandra. Bedömningen av det verkliga värdet har inte baserats på värdering utförd av en oberoende värderingsman utan baserat utifrån den enskilda fastighetens aktuella taxeringsvärden för respektive räkenskapsår. Taxeringsvärden skall i princip motsvara 75% av fastighetens marknadsvärde två år tidigare. Bolaget har, baserat på egen och lokal fastighetskännedom samt lokal statistik i form av nyckeltalet faktiska försäljningspriser delat på taxeringsvärde från Mäklarsamfundet, fastställt det verkliga värdet för bolagets förvaltningsfastigheter.

*Bolaget ställer ut borgensförbindelser till huvudkoncernens finansieringsbolag för deras finansiering av DeLaval gruppens kunder i utvalda länder. Den genomsnittliga borgensförbindelsen uppgår till 5,56% av det totala borgensåtagandet. För vissa av exportkontrakten finns garantier via EKN uppemot 95% av utestående kreditbelopp.

**Bolaget ställer ut borgen till externa kreditbolag, vilka i sin tur finansierar DeLaval gruppens kunder i ett flertal regioner i världen. Den genomsnittliga borgensförbindelsen uppgår till 4,55% av det totala borgensåtagandet.

***Bolaget har borgensförbindelser gentemot Svenska Handelsbanken för utställda garantier samt gentemot ett externt leasingbolag för den operationella leasingen av bolagets servicebilar i Sverige.

Not 29 Upplysningar om finansiella instrument

Bolaget tillämpar säkringsredovisning med avseende på säkring av valutarisk. Avtal har ingåtts med Tetra Laval Finance & Treasury S.A. för säkring av valutarisken (säkringsinstrumentet), där den underliggande säkrade posten utgörs av monetära poster i utländsk valuta (kundfordringar respektive leverantörsskulder). Nedan presenteras omfattningen och verkliga värdena på de derivat som innehåses per respektive balansdag. De verkliga värdena har fastställts genom estimering av de framtida kassaflödena.

Revisionsberättelse

Till bolagsstämman i DeLaval International AB, org.nr 556012-3928

Rapport om årsredovisningen

Uttalanden

Vi har utfört en revision av årsredovisningen för DeLaval International AB för räkenskapsåret 2021.

Enligt vår uppfattning har årsredovisningen upprättats i enlighet med årsredovisningslagen och ger en i alla väsentliga avseenden rättvisande bild av DeLaval International ABs finansiella ställning per den 31 december 2021 och av dess finansiella resultat och kassaflöde för året enligt årsredovisningslagen. Förvaltningsberättelsen är förenlig med årsredovisningens övriga delar.

Vi tillstyrker därför att bolagsstämman fastställer resultaträkningen och balansräkningen.

Grund för uttalanden

Vi har utfört revisionen enligt International Standards on Auditing (ISA) och god revisionssed i Sverige. Vårt ansvar enligt dessa standarder beskrivs närmare i avsnittet *Revisorns ansvar*. Vi är oberoende i förhållande till DeLaval International AB enligt god revisorssed i Sverige och har i övrigt fullgjort vårt yrkesetiska ansvar enligt dessa krav.

Vi anser att de revisionsbevis vi har inhämtat är tillräckliga och ändamålsenliga som grund för våra uttalanden.

Styrelsens och verkställande direktörens ansvar

Det är styrelsen och verkställande direktören som har ansvaret för att årsredovisningen upprättas och att den ger en rättvisande bild enligt årsredovisningslagen. Styrelsen och verkställande direktören ansvarar även för den interna kontroll som de bedömer är nödvändig för att upprätta en årsredovisning som inte innehåller några väsentliga felaktigheter, vare sig dessa beror på oegentligheter eller misstag.

Vid upprättandet av årsredovisningen ansvarar styrelsen och verkställande direktören för bedömningen av bolagets förmåga att fortsätta verksamheten. De upplyser, när så är tillämpligt, om förhållanden som kan påverka förmågan att fortsätta verksamheten och att använda antagandet om fortsatt drift. Antagandet om fortsatt drift tillämpas dock inte om styrelsen och verkställande direktören avser att likvidera bolaget, upphöra med verksamheten eller inte har något realistiskt alternativ till att göra något av detta.

Revisorns ansvar

Våra mål är att uppnå en rimlig grad av säkerhet om att årsredovisningen som helhet inte innehåller några väsentliga felaktigheter, vare sig dessa beror på oegentligheter eller misstag, och att lämna en revisionsberättelse som innehåller våra uttalanden. Rimlig säkerhet är en hög grad av säkerhet, men är ingen garanti för att en revision som utförs enligt ISA och god revisorssed i Sverige alltid kommer att upptäcka en väsentlig felaktighet om en sådan finns. Felaktigheter kan uppstå på grund av oegentligheter eller misstag och anses vara väsentliga om de enskilt eller tillsammans rimligen kan förväntas påverka de ekonomiska beslut som användare fattar med grund i årsredovisningen.

Som del av en revision enligt ISA använder vi professionellt omdöme och har en professionellt skeptisk inställning under hela revisionen. Dessutom:

- identifierar och bedömer vi riskerna för väsentliga felaktigheter i årsredovisningen, vare sig dessa beror på oegentligheter eller misstag, utformar och utför granskningsåtgärder bland annat utifrån dessa risker och inhämtar revisionsbevis som är tillräckliga och ändamålsenliga för att utgöra en grund för våra uttalanden. Risken för att inte upptäcka en väsentlig felaktighet till följd av oegentligheter är högre än för en väsentlig felaktighet som beror på misstag, eftersom oegentligheter kan innefatta agerande i maskopi, förfalskning, avsiktliga utelämnanden, felaktig information eller åsidosättande av intern kontroll.
- skaffar vi oss en förståelse av den del av bolagets interna kontroll som har betydelse för vår revision för att utforma granskningsåtgärder som är lämpliga med hänsyn till omständigheterna, men inte för att uttala oss om effektiviteten i den interna kontrollen.
- utvärderar vi lämpligheten i de redovisningsprinciper som används och rimligheten i styrelsens och verkställande direktörens uppskattningar i redovisningen och tillhörande upplysningar.
- drar vi en slutsats om lämpligheten i att styrelsen och verkställande direktören använder antagandet om fortsatt drift vid upprättandet av årsredovisningen. Vi drar också en slutsats, med grund i de inhämtade revisionsbevisen, om det finns någon väsentlig osäkerhetsfaktor som avser sådana händelser eller förhållanden som kan leda till betydande tvivel om bolagets förmåga att fortsätta verksamheten. Om vi drar slutsatsen att det finns en väsentlig osäkerhetsfaktor, måste vi i revisionsberättelsen fästa uppmärksamheten på upplysningarna i årsredovisningen om den väsentliga osäkerhetsfaktorn eller, om sådana upplysningar är otillräckliga, modifiera uttalandet om årsredovisningen. Våra slutsatser baseras på de revisionsbevis som inhämtas fram till datumet för revisionsberättelsen. Dock kan framtida händelser eller förhållanden göra att ett bolag inte längre kan fortsätta verksamheten.
- utvärderar vi den övergripande presentationen, strukturen och innehållet i årsredovisningen, däribland upplysningarna, och om årsredovisningen återger de underliggande transaktionerna och händelserna på ett sätt som ger en rättvisande bild.

Vi måste informera styrelsen om bland annat revisionens planerade omfattning och inriktning samt tidpunkten för den. Vi måste också informera om betydelsefulla iakttagelser under revisionen, däribland de eventuella betydande brister i den interna kontrollen som vi identifierat.

Bulldoing a better

2022041912649

Rapport om andra krav enligt lagar och andra författningar

Uttalanden

Utöver vår revision av årsredovisningen har vi även utfört en revision av styrelsens och verkställande direktörens förvaltning för DeLaval International AB för räkenskapsåret 2021 samt av förslaget till dispositioner beträffande bolagets vinst eller förlust.

Vi tillstyrker att bolagsstämman disponerar vinsten enligt förslaget i förvaltningsberättelsen och beviljar styrelsens ledamöter och verkställande direktören ansvarsfrihet för räkenskapsåret.

Grund för uttalanden

Vi har utfört revisionen enligt god revisionsssed i Sverige. Vårt ansvar enligt denna beskrivs närmare i avsnittet *Revisorns ansvar*. Vi är oberoende i förhållande till DeLaval International AB enligt god revisionsssed i Sverige och har i övrigt fullgjort vårt yrkesetiska ansvar enligt dessa krav.

Vi anser att de revisionsbevis vi har inhämtat är tillräckliga och ändamålsenliga som grund för våra uttalanden.

Styrelsens och verkställande direktörens ansvar

Det är styrelsen som har ansvaret för förslaget till dispositioner beträffande bolagets vinst eller förlust. Vid förslag till utdelning innefattar detta bland annat en bedömning av om utdelningen är försvarlig med hänsyn till de krav som bolagets verksamhetsart, omfattning och risker ställer på storleken av bolagets egna kapital, konsolideringsbehov, likviditet och ställning i övrigt.

Styrelsen ansvarar för bolagets organisation och förvaltningen av bolagets angelägenheter. Detta innefattar bland annat att fortlöpande bedöma bolagets ekonomiska situation och att tillse att bolagets organisation är utformad så att bokföringen, medelsförvaltningen och bolagets ekonomiska angelägenheter i övrigt kontrolleras på ett betryggande sätt. Verkställande direktören ska sköta den löpande förvaltningen enligt styrelsens riktlinjer och anvisningar och bland annat vidta de åtgärder som är nödvändiga för att bolagets bokföring ska fullgöras i överensstämmelse med lag och för att medelsförvaltningen ska skötas på ett betryggande sätt.

Revisorns ansvar

Vårt mål beträffande revisionen av förvaltningen, och därmed vårt uttalande om ansvarsfrihet, är att inhämta revisionsbevis för att med en rimlig grad av säkerhet kunna bedöma om någon styrelseledamot eller verkställande direktören i något väsentligt avseende:

- företagit någon åtgärd eller gjort sig skyldig till någon försummelse som kan föranleda ersättningsskyldighet mot bolaget, eller
- på något annat sätt handlat i strid med aktiebolagslagen, årsredovisningslagen eller bolagsordningen.

Vårt mål beträffande revisionen av förslaget till dispositioner av bolagets vinst eller förlust, och därmed vårt uttalande om detta, är att med rimlig grad av säkerhet bedöma om förslaget är förenligt med aktiebolagslagen.

Rimlig säkerhet är en hög grad av säkerhet, men ingen garanti för att en revision som utförs enligt god revisionsssed i Sverige alltid kommer att upptäcka åtgärder eller försummelser som kan föranleda ersättningsskyldighet mot bolaget, eller att ett förslag till dispositioner av bolagets vinst eller förlust inte är förenligt med aktiebolagslagen.

Som en del av en revision enligt god revisionsssed i Sverige använder vi professionellt omdöme och har en professionellt skeptisk inställning under hela revisionen. Granskningen av förvaltningen och förslaget till dispositioner av bolagets vinst eller förlust grundar sig främst på revisionen av räkenskaperna. Vilka tillkommande granskningsåtgärder som utförs baseras på vår professionella bedömning med utgångspunkt i risk och väsentlighet. Det innebär att vi fokuserar granskningen på sådana åtgärder, områden och förhållanden som är väsentliga för verksamheten och där avsteg och överträdelse skulle ha särskild betydelse för bolagets situation. Vi går igenom och prövar fattade beslut, beslutsunderlag, vidtagna åtgärder och andra förhållanden som är relevanta för vårt uttalande om ansvarsfrihet. Som underlag för vårt uttalande om styrelsens förslag till dispositioner beträffande bolagets vinst eller förlust har vi granskat om förslaget är förenligt med aktiebolagslagen.

Stockholm den dag som framgår av vår elektroniska underskrift

DIRECTORS' REPORT

TETRA LAVAL INTERNATIONAL S.A.

Directors' report

The Tetra Laval Group delivered a strong performance in 2021, despite significant increases in raw material costs and continued challenges presented by the Covid-19 pandemic.

The industries in which Tetra Laval operates are generally defined as essential and an integral part of the food supply chain and have therefore continued operations in countries otherwise facing significant restrictions. In response to the pandemic, Tetra Pak, DeLaval and Sidel have each implemented comprehensive measures to protect health and safety, while delivering business continuity.

In this context, Tetra Pak's revenues from packaging material, capital equipment and service businesses all increased. DeLaval and Sidel also both grew in their capital equipment and after-market businesses.

CONSOLIDATED GROUP FINANCIAL PERFORMANCE

Revenue increased by 3.3% to €11,761 million, compared to €11,386 million in 2020, with growth reported by each Industry Group, despite revenues being negatively impacted by the Euro (EUR) strengthening against the Brazilian Real (BRL), the US Dollar (USD) and the Japanese Yen. At comparable rates and scope, revenue increased by 4.6%.

Operating profit increased by €15 million from €1,235 million in 2020 to €1,250 million, despite being negatively impacted by an unprecedented increase in raw material costs and higher logistics costs. The strengthening of the Swedish Krona against the Euro also increased operating costs. Operating profit represented 10.6% of revenue in 2021, compared to the 2020 level of 10.8%.

The Group's investment in Alfa Laval contributed an overall gain of €1,672 million in 2021 (compared to a loss of €9 million in 2020), with €66 million of dividend received (€ nil million in 2020) and a gain of €1,606 million on the revaluation of the Group's investment (loss of €9 million in 2020).

Corporate income taxes decreased from €334 million in 2020 to €279 million in 2021. Overall net profit for the year was €2,516 million (21.4% of revenue compared to 7.6% in 2020).

Cash flow from operating activities decreased by €138 million, from €1,713 million in 2020 to €1,575 million in 2021. The decrease reflects lower net changes in working capital. Overall, net cash flows from operating and investing activities amounted to €1,413 million, compared to €1,267 million in 2020 (after the acquisition of milkrite | InterPuls for an amount of €191 million) due to lower cash outflows on business acquisitions.

TETRA PAK

Revenue was €9,145 million (2020: €9,043 million), an increase of 1.1% mainly due to the increase in volumes partly offset by the less favourable mix and the weakening of BRL, USD and JPY compared to the Euro. At comparable rates and scope, revenue increased by 2.8%.

Operating profit was €1,083 million, below last year (2020: €1,289 million), reflecting increased raw material and logistics costs.

Cash flow from operating and investing activities of €1,120 million was below the level of 2020 (€1,318 million), mainly due to lower operating profit, partly offset by lower investing activities

DELAVAL

Revenue increased by 9.4% from €1,115 million in 2020 to €1,220 million in 2021. At comparable rates and scope, revenue increased by 9.7%, with growth in capital equipment and aftermarket businesses.

Operating profit was €113 million (2020: €104 million), reflecting increased gross profit.

The cash flow from operating and investing activities of €67 million, was below the level of 2020 (€153 million before the €191 million acquisition of milkrite | InterPuls), due to increased cash consumed in working capital and higher taxes paid.

SIDEL

Revenue increased by 13.1%, from €1,251 million in 2020 to €1,415 million in 2021 with increases in both capital equipment and service businesses. At comparable rates and scope, revenue increased by 13.4%.

Operating profit was €27 million (2020: negative €11 million), due to higher gross profit.

Cash flow from operating and investing activities was positive €82 million compared to positive €17 million in 2020, mainly due to increased operating profit and cash generated from working capital, especially down payments on orders received.

TETRA LAVAL INTERNATIONAL S.A.

Directors' report

FINANCIAL POSITION

Shareholders' equity increased by €1,463 million, from €4,905 million in 2020 to €6,368 million in 2021. This principally reflects the profit for the year of €2,499 million (2020: €873 million), offset by the dividends paid of €1,050 million (2020: €350 million) and positive translation effects.

Total borrowings amounted to €1,829 million (2020: €1,893 million), including lease liabilities of €160 million (2020: €165 million). Borrowings under the Group's long-term "T7" credit facility amounted to €262 million (2020: €684 million), other bank borrowings amounted to €870 million (2020: €798 million) and other borrowing with related parties amounted to €537 million (2020: €246 million).

Cash & short-term deposits of €788 million (2020: €734 million) and deposits of €124 million (2020: €100 million) together increased by €78 million compared to 2020. Overall, net borrowings decreased to €917 million at December 31, 2021 compared to €1,059 million in 2020.

OUTLOOK

The Group will continue to face significant increases in raw material costs, the long-term impacts of the Covid-19 pandemic, and unpredictable macro-economic and political conditions. It also continues to make significant investments to address the challenges of sustainability.

This requires continued focus in all areas of the Group on health & safety, security of the food supply chain, innovation, growth, and productivity.

Tetra Pak's packaging material revenues are expected to grow in 2022. Revenues from its capital equipment and services businesses are also expected to be above the levels achieved in 2021. DeLaval expects revenues in 2022 above 2021, based on a healthy orderbook, despite uncertainty relating to implications of the European Union Common Agricultural Policy. Sidel revenues in 2022 are expected to be similar to 2021, also based on a strong orderbook but reflecting concerns over the lead time for key components.

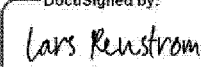

The past year has demonstrated again the strength and resilience of the Group.

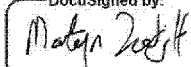

RISK ASSESSMENT

Tetra Laval International SA and its subsidiaries perform a group-wide internal risk assessment process. It is a bottom-up identification process which is then reviewed by the senior management of each industry groups and Tetra Laval International with a top-down allocation of priorities and the follow up on significant risks through the yearly Control Self-Assessment (CSA) process. The Groupwide internal risk assessment process is a yearly review of the potential risks associated to the respective operations. The procedures and actions to identify the risks and where appropriate remediate are performed by specific corporate functions (Treasury, Legal, Internal audit, Group Financial Control, Risk Officer, Corporate Governance Officer, etc) as well as the divisions of the group. These functions and divisions have the responsibility to support and monitor the Group-wide policies, procedures, guidelines and processes to ensure their effective operation. The risk assessment also covers the specific risk related to Tetra Laval International S.A.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

1. SIGNIFICANT ACCOUNTING POLICIES

General

Tetra Laval International S.A. (hereafter referred to as the "Company") is a private company with limited liability, located in Switzerland and registered on July 19, 2019 under the laws of Switzerland. The statutory seat is in Pully and established at avenue General Guisan 70, 1009 Pully, Switzerland. The company is active as a holding company and is responsible for the management and control of its investment activities.

Nature of operations

The Group (as defined below) consists of operating activities organised in three autonomous industry groups: Tetra Pak, DeLaval and Sidel. Tetra Pak develops, produces and markets complete processing, packaging and service solutions for food products. DeLaval is a full-service supplier to dairy farmers. The company develops, manufactures and markets equipment, systems and services for milk production and animal husbandry. Sidel provides solutions for liquid food packaging and covers three major categories of packaging: glass bottles, plastic and cans.

Scope of consolidation

On November 2, 2021, Tetra Pak International S.A. and Tetra Pak Global Supply S.A. (both incorporated in Switzerland) were contributed to the Company by its shareholder. Business combination does not apply, as those two subsidiaries are ultimately controlled by the same parties both before and after the business combination, and the control is not transitory.

The comparative periods are restated as the control existed since before 2020.

The contributed subsidiaries have been preparing IFRS compliant financial reports information for internal purposes in accordance with IFRS since earlier than 2020. Therefore, in preparation of these consolidated financial statements the Company measured the assets and liabilities of these two subsidiaries at the same carrying amounts as in the financial statements of those two subsidiaries (after adjusting for consolidation adjustments), for the full year ended December 31, 2021 and the comparative figures for the year ended December 31, 2020 and January 1, 2020.

The consolidated financial statements include those of Tetra Laval International S.A., Switzerland and its subsidiaries (the "Group"). A list of subsidiaries is included in Note 30.

Basis of presentation

The consolidated financial statements are presented in Euro, due to the fact that more of the Group's business is transacted in Euro than in any other currency. The consolidated financial statements have been prepared under the historical cost convention, unless otherwise specified. Items shown as current assets and liabilities are those receivable or due within the Group's operating cycle which is estimated to be one year from the balance sheet date.

Unless otherwise specified, the amounts in the notes to the consolidated financial statements are expressed in millions of Euro.

Statement of compliance

The Group's consolidated financial statements for the periods ended December 31, 2021 and 2020 are prepared and presented in accordance with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board.

Consolidation principles

Subsidiaries that are controlled by the Group are consolidated. The Group controls a company when it is exposed to, or has rights to, variable returns from its involvement with the company and has the ability to affect those returns through its power over the company. Generally, there is a presumption that a majority of voting rights results in control. The interests of third parties in the net profit for the year and in the net assets of subsidiaries are shown as non-controlling interests. Divested companies are consolidated up to the date of disposal, i.e. the date that control ceases.

Associates are those companies over which the Group has the ability to exercise significant influence over financial and operating policies, but which it does not control. Investments in associates are accounted for using the equity method.

All intercompany balances, transactions and unrealised profits are eliminated.

Changes in accounting policies and disclosures

The accounting policies adopted in the preparation of this report have been updated from January 1, 2021 onwards with all the new IFRSs, interpretations and revised IASs effective on this date.

Interest Rate Benchmark Reform – Phase 2: Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 provide temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR). Based on the amendments the Company decided to use a practical expedient that all

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest.

These amendments had no significant impact on the consolidated financial statements of the Group. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Business combination

The results of acquired subsidiaries are included in the consolidated financial statements from the date on which effective control is transferred to the Group, i.e. the acquisition date. Assets and liabilities of acquired subsidiaries are recorded at their fair values as of the acquisition date and non-controlling interests are stated at the non-controlling interests' portion of the fair value of the net identifiable assets.

Cost of acquisition is measured at the fair value of cash and consideration (including deferred consideration) at date of exchange. The transaction costs of the acquisition are not included in cost of acquisition but are expensed and reported as a non-recurring item.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognised in profit or loss. Goodwill is measured in the entity's functional currency.

Property, plant & equipment

Property, plant & equipment, including investment property and land, are carried at cost less accumulated depreciation and accumulated impairment. Land has an unlimited useful life and therefore is not depreciated. Depreciation is determined using the straight-line method (except for filling equipment leased to customers, for which an accelerated depreciation method is used) over their estimated useful lives, as follows:

Buildings and ground installations	20 - 25 years
Plant and machinery	3 - 10 years
Fixtures and fittings	3 - 10 years
Equipment leased to customers	8 - 12 years

An item of property, plant & equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is calculated in the statement of comprehensive income in the year it is derecognised.

The assets' residual values, useful lives and methods of depreciation are reviewed, and adjusted if appropriate, at each financial year end.

Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Leases - Lessee

The Group applies a single recognition and measurement approach for all leases requiring lessees to recognise right-of-use assets and lease liabilities for all leases except for leases of "low-value" assets and short-term leases (i.e. leases with a lease term of 12 months or less). The Group has leases of certain office equipment (i.e., personal computers, printing and photocopying machines) that are considered of low value. Lease payments on leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term or the cost reflects the exercise of a purchase option, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of the estimated useful lives (see above under Property, plant & equipment) and the lease term. Right-of-use assets are subject to impairment.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time to get ready for its intended use or sale, are capitalised as part of the cost of the asset.

Capitalisation of borrowing costs takes place during the development of the asset and ends when the asset is ready for its intended use or sale. All other borrowings costs are expensed in the period in which they occur.

Intangible assets

Goodwill arising on consolidation, which represents the excess of the purchase price over the fair value of the identifiable net assets acquired, is recognised as an asset in the consolidated financial statements and tested annually for impairment, as well as when there are indications of impairment.

Patents, trademarks and similar assets which are acquired are amortised by a charge against income computed on a straight-line basis over their estimated useful lives, generally 10 years.

Research expenditure is recognised as an expense when it is incurred. Expenditure incurred during the development phase of a project is capitalised and recognised as an intangible asset if, and only if, it is possible both to (1) identify whether, and the point of time when, there is an identifiable asset that will generate future economic benefits; and (2) determine the cost of the asset reliably. Where either one of these criteria is not fulfilled, development expenditure is recognised as an expense when it is incurred. Where the research phase of a project cannot be distinguished from the development phase, the expenditure is treated as if it were incurred in the research phase only. Development expenditure recognised as an intangible asset is amortised over its useful life, being normally 4 years.

Costs for developing computer software programmes that are clearly associated with an identifiable and unique asset, which will be controlled by the Group and have probable benefits exceeding the costs beyond one year, are recognised as an intangible asset. Associated costs that can be directly attributed or allocated on a reasonable and consistent basis, to developing the software include labour costs of the development team and an appropriate portion of relevant overheads. Expenditure on training staff to operate the software is not capitalised. Expenditure which enhances the benefits of computer software programmes beyond their original specifications and lives is recognised as a capital improvement and added to the original cost of the software. Computer software development costs recognised as assets are amortised using the straight-line method over 4 years, their estimated useful life.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of comprehensive income when the asset is derecognised.

Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, an estimate of the asset's recoverable amount is made. The recoverable amount is estimated as the higher of the asset's net selling price (fair value less costs of disposal) and value in use. In assessing value in use, the expected future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets the recoverable amount is determined for the cash-generating unit to which the asset belongs. An impairment loss is recognised whenever the carrying amount of the asset exceeds its recoverable amount.

A previously recognised impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount, however, limited to an amount not higher than the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised in prior years.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

Goodwill is tested for impairment, annually at December 31, and when circumstances indicate that the carrying value may be impaired. Impairment losses relating to goodwill cannot be reversed in future periods.

Equipment leased to customers

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date.

Finance leases, whereby substantially all the risks and rewards incident to the ownership are transferred to the lessee, are treated as outright sales and receivables are recorded at amounts equal to the net investment in the leases. The related lease rentals are treated as repayments of principal and interest income reflecting a constant periodic rate of return on the net investment in the lease.

Equipment leased to customers under operating leases are recognised as property, plant & equipment and depreciated accordingly. Related rental income is included in revenue on a straight-line basis over the lease term.

Other investments

Other long-term equity investments are valued at fair value, determined on an individual investment basis. Adjustments to fair values are taken to the statement of comprehensive income under the heading "Other financial income / (expense), net", except for Alfa Laval which is separately disclosed under "Revaluation of investment in Alfa Laval".

Long-term receivables

Long-term receivables are discounted to their net present value, which equals fair value, at the date of inception with subsequent measurement at amortised cost using the effective interest method.

Inventories

Inventories are carried at the lower of cost and net realisable value. Cost is generally calculated on a moving weighted average basis, except in certain cases where, based upon the nature of the inventories, "First-In-First-Out" (FIFO) is deemed a more appropriate measure. The cost of goods produced includes direct materials, labour and attributable overheads based upon a normal level of activity and taking into account the stage of production of the goods. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

Trade receivables

Trade receivables are valued at their nominal value, less any allowance for expected credit losses (ECLs) or write-offs. Trade receivables are not discounted as they are short-term in nature and the time value of money is not significant.

The Group recognises an allowance for expected credit losses (ECLs) for trade receivables. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are considered in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

A loss allowance is made when there is objective evidence (such as the probability of insolvency or significant financial difficulties of the debtor) that the Group will not be able to collect all of the amounts due under the original terms of the invoice. The carrying amount of the receivable is reduced through use of an allowance account. Trade receivables and allowance are derecognised when they are assessed as uncollectible.

Cash, cash equivalents and borrowings

Cash and cash equivalents include cash at bank, short term, highly liquid deposits due with original maturities of three months or less, recorded at market value, including fixed short-term deposits with related parties due within 3 months. These cash, cash equivalents and borrowings are subject to an insignificant risk of changes in value.

For the purpose of the consolidated cash flow statement, cash and cash equivalents are net of outstanding bank overdrafts, as they are considered an integral part of the Group's cash management.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

When the Group has a legal right of set-off for all related transactions and settlement is intended to take place on a net basis, related financial assets are presented on the balance sheet net of the liability. Amounts borrow from related parties with maturities of less than 12 months are included in fixed short-term borrowing with related parties.

Provisions

Provisions are recognised when: (1) the Group has a present legal or constructive obligation as a result of past events, (2) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations, and (3) a reliable estimate of the amount of the obligations can be made.

Employee benefits

Pension Obligations

The Group maintains a number of defined contribution and defined benefit pension plans in various countries.

Defined contribution plans are post-employment benefit plans under which the Group pays fixed contributions into a legally separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all the employee benefits relating to employee service in the current and prior periods. The Group's contributions to defined contribution pension plans are charged to the operating profit in the year to which they relate.

Defined benefit plans are post-employment benefit funds other than defined contribution plans.

For defined benefit plans, the recognised amount in the balance sheet is determined as the present value of the defined benefit obligation at the reporting date less the fair value of any plan assets. Where this calculation results in a net surplus, the excess of assets is recognised only to the extent that it represents a future economic benefit which is actually available to the Group, for example in the form of refunds from the plan or reduction in future contributions to the plan. When such excess is not available or does not represent a future economic benefit, it is not recognised but is disclosed in the notes.

Actuarial gains and losses are recognised immediately in the statement of financial position with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Actuarial gains and losses are not reclassified to profit or loss in subsequent periods.

Actuarial gains and losses arise mainly from changes in actuarial assumptions and differences between actuarial assumptions and what has actually occurred.

Past service costs are recognised immediately in the operating profit. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset and is recognised as an expense in the operating profit.

The present value of the defined benefit obligations and the related service costs are calculated annually by qualified actuaries using the projected unit credit method. The pension obligation is measured as the present value of the estimated future cash outflows using market yields of high-quality corporate bonds in the country concerned or interest rates of government securities, which have terms to maturity approximating the terms of the related liability.

Other post-retirement obligations

Some Group companies provide post-retirement healthcare benefits to their retirees. The entitlement to these benefits is usually based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment, using an accounting methodology similar to that for defined benefit pension plans. Valuations of these obligations are carried out by independent qualified actuaries.

Revenue recognition

The revenue is recognised when the goods and services are transferred to the customer, net of turnover taxes and value-added taxes and after deduction of discounts, bonuses and similar items.

Goods and equipment recognised at a point in time consist of packaging material, spare parts and consumables, for which the revenue is recognised at the date of shipment from the final production site to the customer (the Incoterm conditions are reviewed to determine the date of transfer, especially for cross border sales); and sale of equipment and installation combined as a single performance obligation, for which the revenue is recognised once the equipment has been delivered, inspected, installed and accepted by the customer. If the installation is a separate performance obligation, then the equipment is recognised once it has been delivered and accepted by the customer. The related installation is recognised as a service when the equipment has been installed and installation is accepted by the customer.

Equipment recognised over time consists of equipment, which are dependent on design, technology or complexity to customer specificities or requirements. For this equipment, the performance obligation is satisfied over time and then the revenue is recognised over time. The Group has an enforceable right to payment, from the customer, for performance completed to date. The revenue is recognised over time by measuring the progress towards complete satisfaction of the performance obligation. The progress towards complete satisfaction of a performance obligation is calculated by using the percentage of completion method which is the proportion of contract costs incurred for work performed compared to estimated total contract costs.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

Rental equipment leased to customers consists of equipment leased to customers under operating leases, recognised as property, plant & equipment and for which the rental income is included in revenue on a straight-line basis over the lease term contracts (between 3 and 8 years).

Services consist principally of maintenance contracts, for which the revenue is recognised over time at delivery date.

Interest income and expense

Interest on cash, deposits and borrowings are included in "Interest income" and "Interest expense". Interest on other items, including the amortisation of discounted receivables and payables, is included in "Administrative expenses".

Income taxes

Tax expense is the aggregate amount taken to the statement of comprehensive income of the period in respect of current tax and deferred tax.

Current tax includes all income taxes based upon taxable profits or tax losses for the period. These taxes are calculated in accordance with the regulations in the countries in which they arise.

Deferred tax liabilities and assets are recognised for taxable and deductible temporary differences arising between the tax basis of assets and liabilities and their carrying value for financial reporting purposes. Deferred taxes are also recognised for the carry forward of unused tax losses and unused tax credits and for irrecoverable withholding taxes on undistributed earnings of subsidiaries to the extent that their future distribution is expected. Deferred tax assets are only recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary difference or the unused tax losses/credits can be utilised. Deferred taxes are measured at the tax rates that are expected to apply to the period when the assets are realised, or the liabilities are settled, based upon the tax legislation that is enacted or substantially enacted at the balance sheet date. These rates are those of the countries in which the related temporary differences or tax losses/credits arise.

Recognition and derecognition of financial instruments

All financial instruments are recognised in the balance sheet at fair value as soon as the Group is committed to a contract (trade date). Financial assets are derecognised as soon as the Group has realised the rights to benefits specified in the contract, the rights expire, or the Group surrenders those rights. Financial liabilities are derecognised as soon as the obligation specified in the contract is discharged, cancelled or expires.

Foreign currencies

The accounting records of consolidated subsidiaries are maintained in their respective functional currencies. Assets and liabilities of entities using functional currencies other than the Euro are translated at the exchange rates at the balance sheet date, while the statement of comprehensive income and cash flows are translated at rates approximating those in existence at dates of transaction. Differences resulting from the use of these different exchange rates are recognised directly in "Translation adjustment arising in the period" in the statement of comprehensive income. The same foreign currency translation principles are applied to the net asset value and share in result of associated companies.

Foreign currency transactions are recorded at the rate of exchange on the date of the transaction. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are reported using the closing exchange rate. Exchange differences arising on the settlement of transactions at rates different from those at the date of the transaction, and unrealised foreign exchange differences on unsettled foreign currency monetary assets and liabilities, are recognised in the statement of comprehensive income.

The effects of changes in exchange rates on cash, deposits and borrowings are included in "Other financial income (expense), net". The effects of changes in exchange rates on other items are included in "Administrative expenses".

Derivative financial instruments

Derivative financial instruments used by the Group include foreign exchange contracts, interest rate swaps, interest rate options, currency options, forward rate agreements, cross currency swaps, commodity swaps and options.

The Group enters into derivative transactions with banks and counterparties to manage foreign currency interest rate exposures and commodity price exposures arising from its operating, investing and financing activities. All derivatives are recognised in the balance sheet at cost as soon as the Group is committed to a contract and are subsequently measured at their fair values. The fair value of a derivative is the equivalent of the unrealised gain or loss from adjusting to market value the derivative using valuation techniques with market observable inputs (inputs hierarchy Level 2). Derivatives with positive market values (unrealised gains) and derivatives with negative market values (unrealised losses) are classified as "Derivative financial instruments" in the consolidated balance sheet.

Hedge accounting is allowed by IFRS only if a number of specific criteria are complied with. As a general rule, the Group does not apply hedge accounting and the changes in fair values of derivatives are recognised in the statement of comprehensive income. Realised gains or losses on derivatives related to operating items are included in "Foreign exchange and hedge result on operating items". Realised gains or losses on derivatives related to net borrowings, as well as all unrealised results on outstanding derivatives are included in "Other financial income (expenses), net".

Key accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The estimates and assumptions that might have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year relate mainly to goodwill, income tax and employee benefits.

Impairment of non-financial assets, such as property, plant and equipment, right-of use assets and goodwill (see Notes 4, 5 and 7)

The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the business plan for the next five years and do not include restructuring activities that the Group is not yet committed to or significant future investments that could enhance the performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used in the discounted cash flow model, the expected future net cash-inflows, the margin and the growth rate used for projections beyond the initial five-year period.

The Group tests annually whether goodwill has suffered any impairment in accordance with the accounting policy stated above. The key assumptions used to determine the recoverable amount for the different cash generating units, including a sensitivity analysis, are further explained in Note 7.

Income taxes (see Note 18)

The Group is subject to income taxes in numerous jurisdictions. Significant judgement is required in determining income tax liabilities and deferred tax assets. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

The Group establishes provisions, based on best estimates, for possible consequences of audits by the tax authorities of the respective countries in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Group Company's domicile.

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Employee benefits (see Note 19)

The Group has defined benefit plans, which are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty. The risk is, however, decreased by the Group reducing the number of defined benefit schemes due to the fact that many of these defined benefit schemes are replaced by defined contribution schemes.

In determining the appropriate discount rate, the interest rates of corporate bonds in the respective currency with at least AA rating are considered, with extrapolated maturities corresponding to the expected duration of the defined benefit obligation. The underlying bonds are further reviewed for quality, and those having excessive credit spreads are removed from the population of bonds on which the discount rate is based, on the basis that they do not represent high quality bonds. The mortality rate is based on publicly available mortality tables for the specific country. Future salary increases, and pension increases are based on expected future inflation rates for the respective country.

Estimates and assumptions have also been applied in areas such as provisions, determination of percentage of completion in work in progress, inventory obsolescence, recoverability of accounts receivable and probabilities in connection with business risks.

3. REVENUE

The disaggregation of revenue by timing of revenue recognition and major businesses as at December 31, 2021 and 2020 were as follows:

	Tetra Pak	DeLaval	Sidel	Corporate and elimination	<u>2021</u>
Goods and equipment recognised at a point in time	7,928	1,163	590	-	9,681
Equipment recognised over time	769	-	726	-27	1,468
Rental, equipment leased to customers	107	-	-	-	107
Services recognised when delivered	341	57	99	8	505
Revenue	<u>9,145</u>	<u>1,220</u>	<u>1,415</u>	<u>-19</u>	<u>11,761</u>

	Tetra Pak	DeLaval	Sidel	Corporate and elimination	<u>2020</u>
Goods and equipment recognised at a point in time	7,723	1,070	532	-	9,325
Equipment recognised over time	877	-	637	-32	1,482
Rental, equipment leased to customers	122	-	-	-	122
Services recognised when delivered	321	45	82	9	457
Revenue	<u>9,043</u>	<u>1,115</u>	<u>1,251</u>	<u>-23</u>	<u>11,386</u>

Management expects that 63% of the transaction price allocated to the open contracts as at December 31, 2021 will be recognised as revenue by December 31, 2022. The remaining will be recognised by December 31, 2023 for 27% and by December 31, 2024 for 10%.

Contract assets consisted of the following balances as at December 31, 2021 and 2020:

	<i>Note</i>	<u>2021</u>	<u>2020</u>
Accrued income on revenue recognised over time		178	175
Accrued income on revenue recognised over time with related parties	26	1	2
Accrued income on revenue recognised at a point in time		5	9
		<u>184</u>	<u>186</u>

The contract assets relate to the Group's rights to consideration for work completed but not billed at the reporting date.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021***All amounts shown are in millions of Euro unless otherwise stated*

Contract liabilities consisted of the following balances as at December 31, 2021 and 2020:

	<i>Note</i>	<u>2021</u>	<u>2020</u>
Deferred income on revenue recognised over time		85	99
Deferred income on revenue recognised over time with related parties	26	1	2
Advances from customers on revenue recognised at a point in time		377	294
Advances from customers on revenue recognised over time		392	148
Deferred income on revenue recognised at a point in time		79	58
		<u>934</u>	<u>601</u>

The contract liabilities relate to contracts billed or to the advance consideration received from customers, for which the performance obligation is not yet satisfied, and the revenue is not recognised.

Net sales and cost of sales include items related to sales of systems for the processing, packaging and distribution of liquid food products, management fee and research and development.

Allocation of net sales was as follows for the years ended December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Net Sales	11,636	11,265
Royalties income from related parties	125	121
	<u>11,761</u>	<u>11,386</u>

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

Equipment leased to customers as at December 31, 2021 and 2020, amounted to €285 million, and €295 million, respectively, mainly consisted of filling and distribution equipment which the Group has leased to customers under various operating lease arrangements. In general, these operating lease contracts have a life of between 3 and 8 years and are automatically extended for a period of 12 months if the parties do not terminate the agreement at the expiry of the rental term (90 days prior written notice). There is no purchase option for the customer at the end of the lease term. As at December 31, 2021 land, buildings and ground installations included approximately €1 million (2020: €1 million) of buildings which the Group has leased to third parties under operating lease arrangements.

Impairment losses included €17 million (2020: €12 million) related to filling equipment leased to customers. The impairment related to equipment leased to customers is reported in cost of goods sold. The impairment charge was calculated as the difference between the recoverable amount and the net book value. The recoverable amount was based on the value in use of the filling equipment concerned, which corresponds to the net present value of the rental fees plus the residual value of the equipment at the end of the lease term, less any removal costs to be incurred by the Group that cannot be recharged to the customer. When packaging material and equipment revenue are part of the same cash generating unit, packaging material revenue, with a high level of realisation certainty has been included in the impairment test.

Included under land, buildings and ground installations are investment properties with a net book value of €1 million (2020: €1 million) and a fair value of €47 million (2020: €45 million), which was based on the discounted future net cash inflow for leased investment properties. A discount rate of 8.5% has been used for the calculation (2020: 7.3%).

Future minimum lease receivables – where the Group is lessor

Future minimum lease receivables under non-cancellable operating leases to customers were as follows:

	<u>2021</u>	<u>2020</u>
No later than one year	101	104
Between one and five years	295	279
Later than five years	53	86
	<u>449</u>	<u>469</u>

Contingent rent included as income was approximately €1 million for the year ended December 31, 2021 (2020: €4 million).

Net book value at end of year	<u>285</u>	<u>61</u>	<u>4</u>	<u>99</u>	<u>449</u>

Cash flow projections used for impairment tests are based on the relevant cash generating units' budget 2022, business plan up to 2024 and profit before interest and taxes of 6.2% of revenue and a revenue growth of 2.8% for 2025 and subsequent years. The discount rate applied to the resulting cash flow projections is 7.5% (2020: 7.4%). Budget 2022 and business plan up to 2024 have been approved by the management of the Group.

The calculation of value in use is sensitive to assumptions of discount rate, profit before interest and taxes, working capital, and investments.

A profit before interest and taxes and a revenue growth lower by 5 percentage points or a discount higher by 2 percentage points would have no significant impact on the impairment calculation.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

8. OTHER INVESTMENTS

Other investments consisted of the following balances as at December 31, 2021 and 2020:

	<u>2021</u>	<u>Net change in Market Value, translation & other</u>	<u>2020</u>
Alfa Laval AB, Sweden	4,344	1,606	2,738
Other long-term equity investments	18	4	14
	<u>4,362</u>	<u>1,610</u>	<u>2,752</u>

Investment in Alfa Laval

At December 31, 2021, the Group held 122'037'736 shares in Alfa Laval representing 29.1% of the issued share capital.

Based upon the December 31, 2021 and December 31, 2020 market price per share (input hierarchy Level 1) of SEK 364.40 and SEK 226.30 respectively, and EUR SEK exchange rates of 10.24 and 10.09 respectively, the value of the Group's investment in Alfa Laval amounted to €4,344 million and €2,738 million, respectively and has been accounted for at fair value through the profit and loss and included in the balance sheet under "Other investments" as it is considered to be a financial investment, separate from the industrial activities of the Group and managed on a fair value basis.

The revaluation of Alfa Laval shares of €1,606 million gain (2020: €9 million loss) and the dividend received of €66 million (2020: € nil million) are shown in the statement of comprehensive income under "Revaluation of investment in Alfa Laval" and "Dividend income from Alfa Laval", respectively.

9. LONG-TERM RECEIVABLES

Long-term receivables consisted of the following balances as at December 31, 2021 and 2020:

	<i>Notes</i>	<u>Maturity</u>		<u>Interest Rates</u>	<u>Carrying amount</u>	
		<u>5 years or less</u>	<u>more than 5 years</u>		<u>2021</u>	<u>2020</u>
Long-term receivables under finance leases		62	18	4.99%	80	184
Receivables on account		122	8	6.27%	130	144
Long-term VAT receivables		67	3	15.31%	70	63
Employee benefit assets	19	2	-		2	4
Blocked deposits		11	1		12	12
Fixed term deposits with related parties	26	-	-	-	-	28
Other long-term receivables		65	11		76	56
					<u>370</u>	<u>491</u>

Fair values of long-term receivables do not differ substantially from their book values as most of the rates are floating and updated on a regular basis to reflect market rates.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021**

All amounts shown are in millions of Euro unless otherwise stated

Future minimum finance lease receivables from customers were as follows:

	<u>2021</u>	<u>2020</u>
Gross investment in finance leases	154	274
Less:		
Accumulated allowance for uncollectible receivables	-4	-4
Unearned interest income	-21	-28
	<u>129</u>	<u>242</u>

Net present value of minimum finance lease payments receivable:

	<u>Gross</u> <u>investment</u>	<u>Accum.</u> <u>Allowance</u>	<u>Unearned</u> <u>interest</u> <u>income</u>	<u>2021</u>	<u>2020</u>
No later than one year	55	-3	-3	49	58
Between one and five years	77	-1	-14	62	153
Later than five years	22	-	-4	18	31
				<u>129</u>	<u>242</u>

Equipment leased to customers under finance leases consisted of distribution equipment and filling equipment. These leases have an average life between 5 and 8 years with renewal terms included in the contracts. In general, these finance lease contracts are automatically extended for a period of 12 months if the parties do not terminate the agreement at the expiry of the contract term or exercise the purchase option (90 days prior written notice). In general, the contract includes a purchase option at the end of the lease term.

10. INVENTORIES

Inventories consisted of the following balances as at December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Raw materials	272	210
Work-in-progress	376	354
Finished goods and goods held for resale	864	733
Payments on account	28	14
	<u>1,540</u>	<u>1,311</u>
Net inventories at the lower of cost and net realisable value		

At December 31, 2021, inventories were shown net of obsolescence provisions amounting to €193 million (2020: €194 million).

During the year ended December 31, 2021 approximately €25 million (2020: €22 million) of obsolescence provisions were released through the statement of comprehensive income.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

11. TRADE RECEIVABLES

Trade receivables consisted of the following balances as at December 31, 2021 and 2020:

	Note	2021	2020
Trade receivables, gross		1,621	1,443
Trade receivables, gross with related parties	26	410	326
Allowance for expected credit losses		-237	-218
		<u>1,794</u>	<u>1,551</u>

The contractual terms governing the relationships with the customers vary from country to country, although these receivables are collected in approximately one to three months.

Movements on the allowance for expected credit losses of trade receivables consisted of the following for the years ended December 31, 2021 and 2020:

	2021	2020
Balance at beginning of year	218	260
Charge during the year	49	44
Utilised	-9	-30
Unused amounts reversed	-24	-34
Effects of changes in foreign currency exchange rates	3	-22
	<u>237</u>	<u>218</u>

The creation and release of allowance for expected credit losses have been included in "administrative expenses" in the statement of comprehensive income (Note 20).

The ageing of trade receivables consisted of the following balances as at December 31, 2021 and 2020:

	2021		
	Trade receivables, gross	Allowance for expected credit losses	Net trade receivables
Not overdue	1,104	-19	1,085
Overdue	517	-218	299
Overdue < 1 month	123	-4	119
Overdue 1 - 3 months	99	-7	92
Overdue 4 - 6 months	39	-7	32
Overdue 7 - 12 months	82	-33	49
Overdue > 1 year	174	-167	7
	<u>1,621</u>	<u>-237</u>	<u>1,384</u>

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021***All amounts shown are in millions of Euro unless otherwise stated*

	2020		
	Trade receivables, gross	Allowance for expected credit losses	Net trade receivables
Not overdue	986	-7	979
Overdue	457	-211	246
Overdue < 1 month	108	-1	107

Total borrowings excluding lease liabilities, bank overdrafts, cash pool and current account		<u>1,584</u>	<u>1,658</u>
Total borrowings excluding, bank overdrafts, cash pool and current account		<u>1,744</u>	<u>1,823</u>

Fair values of long-term debt do not differ substantially from their book values.

Tetra Laval Finance & Treasury S.A., a subsidiary of Tetra Laval International S.A., is the principal borrower under a multi-currency revolving credit facility (T7) of €3,000 million with a consortium of six banks. On October 6, 2021, the sixth and final one-year extension option was approved by all the lenders, bringing the maturity of the facility to July 22, 2026.

The Company together with related parties (the "Guarantors") has a joint and several liability towards financial institutions for a maximum amount of €3,300 million, for facilities granted to related parties. The total outstanding amount of the Group and the related parties on the facility as at December 31, 2021 is €385 million (2020: €761 million).

The Group drawdown under this facility as at December 31, 2021 amounted to €262 million (December 31, 2020: €684 million).

On October 28, 2019, the Guarantors have agreed among themselves on the apportionment of their joint and several liability so that each of the Guarantors is solely liable for the secured obligations relating to itself and, where applicable, its own subsidiaries. No claims arose from the above-mentioned commitments.

The facility is available for general corporate purposes of the Group and bears interest at a margin of 0.25% over USD LIBOR / EURIBOR / STIBOR. Utilisation fees stand at 0.075% for utilisation of the facility lower than 33%, 0.15% for utilisation between 33% and 66% and 0.30% for utilisation above 66%.

On October 5, 2021, the Group signed an undertaking letter taking the irrevocable commitment not to request advances in any other LIBOR currency than US Dollar unless the Facility Agreement has been amended to provide for alternative benchmark interest rates for the respective LIBOR currencies other than US Dollar. Furthermore, the T7 agreement will be amended by March 31, 2023, at the latest, to agree the new USD reference rate to be used instead of USD LIBOR.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

The average effective interest rate on fixed short-term borrowings from related parties of €526 million (December 31, 2020: €221 million) was 0.7% (December 31, 2020: 1.4%).

The average effective interest rate on other fixed short-term borrowings during 2021 of €576 million (December 31, 2020: €559 million) was 6.0% (December 31, 2020: 6.0%).

The average effective interest rate on the other long-term loans outstanding during 2021, excluding lease liabilities, of €220 million (December 31, 2020: €194 million) was 10.4% (December 31, 2020: 4.5%).

The average effective interest rate on lease liabilities of €160 million during 2021 (December 31, 2020: €165 million) was 3.9% (December 31, 2020: 3.9%).

Movement in borrowings excluding bank overdrafts at December 31, 2021 and 2020 consisted of the following:

	<u>Lease liabilities</u>	<u>Borrowings excl. bank overdrafts, cash pool and current accounts</u>	<u>2021</u>	<u>2020</u>

	<u>177</u>	<u>17</u>	<u>160</u>	<u>165</u>

15. PROVISIONS

The movements in provisions consisted of the following for the years ended December 31, 2021 and 2020:

	Claims & warranty	Restructuring	Litigation	Other	<u>2021 Total</u>	<u>2020 Total</u>
Balance at beginning of year	134	20	19	13	186	192
Acquisition of business	-	-	-	-	-	1
New provisions charged to income statement	113	68	18	15	214	159
Excess provisions reversed to income statement	-11	-5	-2	-	-18	-25
Provisions utilised	-96	-26	-12	-2	-136	-121
Effects of changes in foreign currency exchange rates	2	-	-	-	2	-4
Other	-1	1	1	-1	-	-16
Balance at end of year	<u>141</u>	<u>58</u>	<u>24</u>	<u>25</u>	<u>248</u>	<u>186</u>

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021**

All amounts shown are in millions of Euro unless otherwise stated

Expected timing of resulting cash outflows was as follows:

	Claims & warranty	Restructuring	Litigation	Other	<u>2021</u> Total	<u>2020</u> Total
Provisions current	140	58	16	17	231	173
Provisions non-current	1	-	8	8	17	13
	<u>141</u>	<u>58</u>	<u>24</u>	<u>25</u>	<u>248</u>	<u>186</u>

The amount provided corresponds to the best estimate of the obligation of the Group.

As the effect of the time value of money is not material, the provisions have not been discounted.

Claims and warranty

Product sales with warranties give rise to a legal obligation. For these warranties taken as a whole, it is probable that the Group will incur expenditures. A provision is recognised for the best estimate of costs related to items sold before the balance sheet date. The amounts are estimated primarily using historical data and past experience of the level of cash outflows related to claims under warranty. It is expected that most of these costs will be incurred in the next financial year and all will have been incurred within two years of the balance sheet date.

These provisions also include costs remaining on equipment sold and expected losses when it is probable that the total costs of a construction contract will exceed the total revenue.

Restructuring

The Group makes a provision for restructuring providing that the events are linked to a business divestment or elimination, a site or an entity closure, or the dismissal of employees that are not going to be replaced as such. In all cases the decision was communicated prior to December 31.

Restructuring provisions are recognised only when the Group has a constructive obligation, which is when: (1) there is a detailed formal plan that identifies the business or part of the business concerned, the location and number of employees affected, the detailed estimate of the associated costs, and the timeline; and (2) the employees affected have been notified of the plan's main features.

Litigation

Litigation provisions have been recognised to cover legal and administrative proceedings that arise in the ordinary course of business.

16. DEFERRED INCOME AND OTHER NON-CURRENT LIABILITIES

Deferred income and other non-current liabilities consisted of the following balances as at December 31, 2021 and 2020:

	Note	<u>2021</u>	<u>2020</u>
Employee benefit liabilities	19	104	138
Deferred leasing income		1	2
Other		28	32
		<u>133</u>	<u>172</u>

Fair values of deferred income and other non-current liabilities do not differ substantially from their book values.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021***All amounts shown are in millions of Euro unless otherwise stated***17. OTHER PAYABLES AND ACCRUED LIABILITIES**

Other payables and accrued liabilities consisted of the following balances as at December 31, 2021 and 2020:

	<i>Note</i>	<u>2021</u>	<u>2020</u>
Accrued expenses		393	385
Accrued expenses with related parties	26	86	67
Accrued customer discounts		111	97
Payables due to employees		341	300
Social benefits and payroll taxes		169	169
VAT payables		95	76
Other current liabilities with related parties	26	39	29
Other		98	92
		<u>1,332</u>	<u>1,215</u>

18. INCOME TAXES*a) Significant components of tax expense*

	<u>2021</u>	<u>2020</u>
Current tax expense related to current year	284	317
Current tax expense (income) related to prior years	-18	44
Non-recoverable withholding tax on dividends	17	13
Total current tax expense	<u>283</u>	<u>374</u>
Deferred tax expense (income) arising from the recognition / reversal of temporary differences and recognition / utilisation of tax loss carryforwards	-13	-23
Deferred tax expense (income) arising from changes in tax rates	9	-6
Deferred tax income arising from the recognition of previously unrecognised tax loss carryforwards not utilised	-9	-10
Deferred tax expense arising from the write-down (or expiry) of previously recognised tax loss carryforwards	7	1
Deferred tax expense (income) arising from non-recoverable withholding tax on distributable retained earnings of subsidiaries	-2	-1
Other	4	-1
Total deferred tax expense (income)	<u>-4</u>	<u>-40</u>
Income tax expense reported in the statement of comprehensive income	<u>279</u>	<u>334</u>

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021**

All amounts shown are in millions of Euro unless otherwise stated

b) *Tax rate reconciliation*

The average effective tax rate percentage of the Group's profit before tax differs from the applicable tax rate, as follows:

	<u>2021</u>	<u>2020</u>
Applicable tax rate	22.1%	25.3%
Tax effect of expenses that are not deductible for tax purposes and of income not subject to tax	1.6%	1.5%
Impact of Alfa Laval investment	-13.6%	0.1%
Benefits of specific tax agreements with local tax authorities	-1.2%	-6.1%
Impact of unrealised (gain) / loss on hedging	0.6%	-0.2%
Losses not giving rise to a tax loss carryforward or a tax benefit	2.0%	1.3%
Impact of current taxes related to prior years	-1.6%	3.7%
Current and deferred non-recoverable withholding tax on dividends	1.3%	1.0%
Effect of changes in tax rates	0.3%	-0.5%
Recognition of previously unrecognised tax loss carryforwards	-0.3%	-1.3%
Write-down (or expiry) of previously recognised tax loss carryforwards	0.5%	0.1%
Other	-1.7%	2.8%
	<u>10.0%</u>	<u>27.7%</u>
Effective tax rate (tax expense divided by profit before tax)		

The applicable tax rate is the average of the standard income tax rates applicable in the countries in which the Group operates, weighted by the profit (loss) before tax of the subsidiaries in the respective countries as included in the consolidated financial statements.

c) *Current income taxes*

The movement of current income taxes was as follows:

	<u>Tax</u> <u>receivable</u>	<u>Tax</u> <u>payable</u>	<u>2021</u> <u>Net tax</u> <u>payable</u>	<u>2020</u> <u>Net tax</u> <u>payable</u>
At beginning of year	218	-289	-71	439
Effect of changes in foreign currency exchange rates	9	-7	2	-5
Taxes paid / (received)	57	278	335	246
Current tax expense	-17	-266	-283	-374
Temporary withholding tax deposit ⁽¹⁾	-	-	-	-416
Other movements	2	47	49	39
At end of year	<u>269</u>	<u>-237</u>	<u>32</u>	<u>-71</u>

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021**

All amounts shown are in millions of Euro unless otherwise stated

d) *Deferred income taxes*

The following amounts are included in the consolidated balance sheet:

	<u>2021</u>	<u>2020</u>
Deferred tax assets	286	291
Deferred tax liabilities	-116	-90
	<u>170</u>	<u>201</u>

Deferred tax assets are recognised for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that taxable profits will be available against which the unused tax losses/credits can be utilised.

Deferred income tax assets and liabilities are offset when the taxes relate to the same fiscal authority. The Group has a legally enforceable right to set off the recognised amounts and intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

The movement of deferred income taxes was as follows:

	<i>Note</i>	<u>2021</u>	<u>2020</u>
At beginning of year		201	181
Effect of changes in foreign currency exchange rates		2	-21
Changes due to acquisition of business	28	-34	-
Recognition and reversal of deferred taxes, (charged) credited to income		10	34
Effect of changes in tax rates, (charged) credited to income		-6	6
Recognition and reversal of deferred taxes, (charged) credited to OCI		-4	1
Other movements		1	-
At end of year		<u>170</u>	<u>201</u>

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021**

All amounts shown are in millions of Euro unless otherwise stated

Deferred taxes were attributable to the following items:

	At beginning of year	Effects of changes in foreign exch. rates	Effects of changes in tax rates (charged) credited to income	Recognition and reversal of deferred taxes to income and OCI	Changes due to acq./disp. of business	Other Movements	At end of year
Property, plant & equipment	-	-2	-5	6	-1	2	-
Goodwill and other intangibles	12	-	-3	3	-34	2	-20
Right-of-use assets	-16	-	-	1	-	-	-15
Receivables	4	-	-3	8	-	-1	8
Inventories	110	-	-	7	-	1	118
Net employee benefit liabilities	14	1	1	-4	-	-2	10
Provisions	15	-	-	2	1	-	18
Tax loss carryforwards	38	-	-	-14	-	-	24
Non-recoverable withholding tax on undistributed retained earnings of subsidiaries	-9	-	-	2	-	1	-6
Accrued bonus/ discounts	3	-	-	-	-	-	3
Employee payables due to employees	5	-	-	3	-	-	8
Net derivative financial instruments	10	-	-	-6	-	-1	3
Lease liabilities	18	-	-	1	-	-	19
Other accrued expenses and deferred income	-3	3	4	-3	-	-1	-
Net deferred income tax asset	201	2	-6	6	-34	1	170

The Group's tax losses available to carry forward against future taxable income and recognised in deferred tax assets, by year of expiry were as follows:

Years of expiry :	Loss carry-forwards			Deferred tax assets
	Total	Not recognised	Recognised	
2022	9	9	-	-
2023	97	13	84	11
2024	5	4	1	-
2025	8	5	3	1
2026	13	10	3	1
Beyond 2026	1,014	973	41	11
	1,146	1,014	132	24

The theoretical value of unrecognised deferred tax on loss carry-forwards was €280 million (2020: €297 million).

There was no income tax consequence related to the payment of dividends in either 2020 or 2021 by the Group to its shareholders.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

19. EMPLOYEE BENEFITS

The Group has defined benefit commitments to employees and former employees and their survivors. The benefits are referring to old age pension, survivor's pension, disability pension and end of career indemnities.

Apart from legally required social security arrangements, the majority of Group employees are eligible for benefits through pension plans in case of retirement, death in service, disability and in case of resignation. These plans are either defined contribution plans or defined benefit plans. All pension plans comply with local tax and legal restrictions in their respective country, including funding obligations.

Defined benefit plans are in place mainly in Switzerland, France and Germany.

In Switzerland, most of the pension plans are cash balance plans where contributions are expressed as a percentage of the pensionable salary. The pension plan guarantees the amount accrued on the members' savings accounts, as well as a minimum interest on those savings accounts. At retirement date, the savings accounts are converted into pensions. However, members may opt to receive a part of the pension as a lump sum. Increases of pensions in payment are granted on a discretionary basis by the Board of Trustees, subject to the financial situation of the plan.

In France, the defined benefit plans represent "end of career" indemnities where a lump sum is accrued over the career of the employee and then paid when the employee leaves services or retires. There is no pension payable from these plans.

In Germany, the old age pension, survivors' pension and disability pension benefits have all been secured with an insurance. However, legally required increases on these pensions are not secured and are paid for on a year to year basis from the bonuses earned under the insurance. The net pension expense is zero, although the defined benefit obligation and plan assets in the notes include the full liability under the insurance contracts.

Employee benefit expenses incurred during the years ended December 31, 2021 and 2020 were as follows:

	<i>Note</i>	<u>2021</u>	<u>2020</u>
Wages and salaries		2,036	1,999
Termination benefits		5	6
Social security costs		361	342
Pension costs - defined contribution plans		177	153
Depreciation on right-of-use assets		22	21
Wages and salaries, social security costs and defined contribution pension costs		<u>2,601</u>	<u>2,521</u>
Costs for defined benefit retirement plans		17	17
Costs for other post-employment defined benefit plans		1	1
Other long-term employee benefits		1	1
Employee benefits expenses	20	<u>2,620</u>	<u>2,540</u>
Average number of persons employed by the Group during the year		<u>28,958</u>	<u>29,342</u>

In Sweden, employees are covered by a multi-employer plan which, in substance, is a defined benefit plan. The pension provider is unable to allocate the value of plan assets per legal entity. For this reason, the employer's contributions to the plan are reported as prescribed by IAS19, as if the plan is a defined contribution plan.

The Group expects to make regular contributions to multi-employer plans reported as defined contribution plans of €57 million in 2022.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021**

All amounts shown are in millions of Euro unless otherwise stated

The following amounts are included in the consolidated balance sheet:

	<u>2021</u>	<u>2020</u>
Employee benefit liabilities	104	138
Employee benefit assets	-2	-4
Net employee benefit liabilities	<u>102</u>	<u>134</u>

As at December 31, 2021, the Group had net employee benefit liabilities in France (€42 million), Switzerland (€26 million) and other countries (€34 million).

Net employee benefit liabilities as at December 31, 2021 and 2020 related to:

	<u>2021</u>	<u>2020</u>
Retirement benefits	87	120
Other post-employment benefits	5	5
Other long-term employee benefits	10	9
	<u>102</u>	<u>134</u>

Net employee benefit liabilities as at December 31, 2021 and 2020 consisted of the following:

	<u>2021</u>	<u>2020</u>
Present value of funded obligations	436	445
Fair value of plan assets	-393	-370
Present value of unfunded obligations	59	59
Net employee benefit liabilities	<u>102</u>	<u>134</u>

The amounts recognised in the operating profit were as follows:

	<u>2021</u>	<u>2020</u>
Current service cost	17	17
Net interest cost	2	2
Past service cost	-	-
Total expenses	<u>19</u>	<u>19</u>

The above amounts are included in the personnel costs of the functions in operating profit.

The Group expects to make regular contributions of €16 million to its defined benefit pension plans in 2022.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021***All amounts shown are in millions of Euro unless otherwise stated*

The movements in the defined benefit obligation over the year were as follows:

	<u>2021</u>	<u>2020</u>
At beginning of the year	-504	-490
Interest cost	-4	-4
Current service cost	-17	-17
Contributions by employees	-4	-4
Actuarial gain / (loss) on demographic assumptions (recorded in OCI)	11	-1
Actuarial gain / (loss) on financial assumptions (recorded in OCI)	11	-4
Actuarial gain / (loss) due to liability experience (recorded in OCI)	-4	-6
Exchange differences & other	-6	-1
Benefits paid on unfunded defined benefits plan	8	9
Benefits paid on funded defined benefits plan	14	14
	<u>-495</u>	<u>-504</u>
At end of the year		

The movements in the fair value of plan assets for the year were as follows:

	<u>2021</u>	<u>2020</u>
At beginning of the year	370	361
Interest income	2	2
Actuarial gain (loss) on return on plan assets (recorded in OCI)	22	3
Actuarial gain (loss) on insured plan (recorded in OCI)	-9	-
Exchange differences & other	9	3
Employer contributions	9	11
Contributions by employees	4	4
Benefits paid on funded defined benefit plans	-14	-14
	<u>393</u>	<u>370</u>
At end of the year		

The movements in the net defined employee benefit liabilities for the year were as follows:

	<u>2021</u>	<u>2020</u>
At beginning of the year	134	129
Actuarial (gain) / loss	-31	8
Total expenses	19	19
Contributions paid	-9	-11
Pensions paid directly by companies related to unfunded plans	-8	-9
Exchange differences & other	-3	-2
	<u>102</u>	<u>134</u>
At end of the year		

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021***All amounts shown are in millions of Euro unless otherwise stated*

Plan assets were comprised of:

	2021		2020	
Equities	56	14%	42	11%
Bonds	48	12%	37	10%
Shares in investment funds & other quoted	74	19%	69	19%
Investments through insurance companies	206	53%	215	58%
Cash deposits	9	2%	7	2%
	<u>393</u>	<u>100%</u>	<u>370</u>	<u>100%</u>

The principal actuarial information used for accounting purposes was:

	<u>2021</u>	<u>2020</u>
Discount rate	0.2% - 6.5%	0.1% - 6.6%
Effective return on plan assets	0.9% - 8.8%	0.2% - 6.7%
Future salary increases	0.0% - 10.0%	0.0% - 9.0%
Future pension increases	0.0% - 10.0%	0.0% - 9.0%
Current average life expectancy for a 65 year old male / female	18 / 21 years	19 / 22 years
Weighted average duration of defined benefit obligations	11 years	11 years

The main discount rates were as follows:

	<u>2021</u>	<u>2020</u>
Euro Zone	1.2%	0.8%
Switzerland	0.2%	0.1%

Average effective return on significant plan assets of defined benefit schemes were 8.8% for Switzerland (2020: 3.0%).

The expected return on plan assets was determined based on the discount rates applicable to the period over which the obligations are to be settled.

A quantitative sensitivity analysis for significant assumptions as at December 31, 2021 would have had the following impact on the net defined benefit obligation:

	<u>Increase</u>	<u>Decrease</u>
Discount rate 0.5%	-28	33
Future salary rate 0.5%	16	-10
Future pension cost rate 0.5%	7	-6
Life expectancy of 1 year	12	n/a

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021***All amounts shown are in millions of Euro unless otherwise stated***20. OPERATING PROFIT**

The operating profit presented by nature of expenses for the years ended December 31, 2021 and 2020 were as follows:

	<i>Notes</i>	<u>2021</u>	<u>2020</u>
Revenue	3	11,761	11,386
Cost of inventory recognised as expenses		-6,140	-5,700
Employee benefit expenses	19	-2,620	-2,540
Maintenance and utilities		-558	-534
Advertising, promotion and donations		-236	-236
Depreciation of tangible fixed assets	4	-303	-313
Amortisation of intangible fixed assets	7	-23	-5
Depreciation of right-of-use assets	5	-49	-49
Outsourcing		-318	-312
Consulting and fees		-112	-127
Travel and entertainment		-116	-114
Rentals and leases		-17	-18
Taxes other than on income		-69	-81
Bad debt expense		-23	-12
Interest cost on operating capital items		-4	-4
Interest income on operating capital items		23	25
Realised gain / (loss) on hedging of operating items		6	-52
Realised gain / (loss) on hedging of operating items with related parties	26	1	-1
Exchange result on monetary operating assets and liabilities		-25	-19
Exchange result on monetary operating assets and liabilities with related parties	26	45	-55
Restructuring, impairment and other non recurring items	21	27	-4
Operating profit		<u>1,250</u>	<u>1,235</u>

21. RESTRUCTURING, IMPAIRMENT AND OTHER NON-RECURRING ITEMS

Restructuring, impairment and other non-recurring items for the years ended December 31, 2021 and 2020 included:

	<u>2021</u>	<u>2020</u>
Restructuring costs and provisions	-63	-33
Impairment of property, plant and equipment	-4	-4
Litigation costs and other	94	33
	<u>27</u>	<u>-4</u>

Litigation costs and other includes a turnover tax credit for an amount of €105 million in 2021, following a final and enforceable decision by the highest court in Brazil for tax credits relating to overpayments of indirect taxes for the period from 1991 up to and including 2019.

22. OTHER FINANCIAL INCOME (EXPENSE), NET

Other financial income (expense), net for the years ended December 31, 2021 and 2020 included:

	Note	2021	2020
Realised foreign exchange gain / (loss) on financial items		14	6
Unrealised foreign exchange gain / (loss) on financial items		-5	15
Realised gain / (loss) on hedging of financial items		-19	50
Realised gain / (loss) on hedging of financial items with related parties	26	3	-3
Unrealised gain / (loss) on hedging		-19	15
Unrealised gain / (loss) on hedging with related parties	26	-3	-1
Other		-16	-14
Other with related parties	26	5	7
		<u>-40</u>	<u>75</u>

23. INTEREST INCOME AND INTEREST EXPENSE

Interest income and interest expense for the years ended December 31, 2021 and 2020 included:

	Notes	2021	2020
Interest income		1	2
Interest income with related parties	26	5	6
		<u>6</u>	<u>8</u>
Interest expense		-83	-90
Interest expense on lease liabilities	5	-6	-7
Interest expense with related parties	26	-4	-7
		<u>-93</u>	<u>-104</u>

24. FINANCIAL RISKS

In the course of its business, the Group is exposed to a range of financial risks: market (including foreign exchange and interest rate risk, commodity price risk and equity price risk), credit and liquidity related financial risks and counterparty risks inherent in its global activities. The Group's financing activities are aimed at securing an adequate level of financing capacity both centrally and at local subsidiary level in a way that mitigates risks and minimises after tax costs. Significant decisions in the areas of banking, financing, counterparty, liquidity, credit, insurance, foreign exchange and interest rate risk management are centrally managed by Tetra Laval International (TLI) as a support and control function under the supervision of the Tetra Laval Group Board. Significant decisions on hedging of commodity prices are taken jointly between TLI and the Industry Groups.

Management approves key decisions on the implementation of strategies for financial risk management approved by the Board and is supported by a regular Finance Forum to review, implement and follow up on financial risks, objectives, policies and controls.

It is the Group's policy that derivatives are entered into to cover actual or future exposures that materialise either at the Group level or with related parties. Derivatives are therefore not traded for speculative purposes.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021**

All amounts shown are in millions of Euro unless otherwise stated

The derivative assets and liabilities were as follows:

	Note	2021	2020

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

The notional amounts are those of the underlying financial instruments or exposure. These are the basis upon which changes in the values of derivatives are measured. The notional amounts indicate the volume of transactions outstanding and are neither indicative of the market risk nor of the credit risk.

Foreign exchange risk

The Group is exposed to foreign exchange risk from transactions (transaction and balance sheet exposure) and translation.

Transaction exposure

Transaction exposure arises from transactions in foreign currency. TLI focuses on hedging the Group's and related parties' cash flow exposures, i.e. the risk of the Group's and related parties' non-Euro cash flows being adversely affected by changes in exchange rates. The main non-Euro cash flow exposures relate to internal, external and related parties' account payables and account receivables and forecasted dividend exposure.

Derivatives are entered into to mitigate projected cash flow exposures to changes in foreign exchange rates. The Group does not apply hedge accounting, consequently, all derivative contracts are recognised at their fair values in the balance sheet and the gains and losses incurred as a result of changes in these fair values are recognised in the profit and loss at each balance sheet date.

Exposures resulting from internal operational currency flows and those of related parties are largely centralised in TLI by means of an internal netting system and a fixed exchange rate mechanism. Major exposures related to future external currency flows of Group companies and those of related parties are also managed by TLI. The industry groups (Tetra Pak, DeLaval, Sidel companies including those that are related parties) are required to forecast their yearly exposures and are provided with a fixed annual exchange rate. During the hedging period, the Group enters into currency derivative contracts (forwards between 25% and 75% and options between 0% and 50%) and stop loss instruments (between 0% and 25%) to cover the resulting net exposures for the following budget year. In 2018, pre-hedging was approved for SEK exposure up to a maximum of 20% of the previous year's forecast for the 2021 SEK exposures. For the 2021 and 2022 hedging programme, the approved ratios for centrally managed foreign exchange exposure on forecasted business transactions are between 25% and 75%.

The hedging ratios (including forwards and options), for the main actual 2021 and forecasted 2022 cash flows, are as follows:

	<u>Forwards</u>	<u>Stop Loss</u>	<u>Options</u>	<u>2021</u>	<u>Forwards</u>	<u>Stop Loss</u>	<u>Options</u>	<u>2022</u>
USD	98%	0%	1%	99%	51%	0%	10%	61%
SEK	98%	0%	2%	100%	57%	0%	10%	67%
CHF	96%	0%	0%	96%	50%	0%	0%	50%
MXN	93%	0%	0%	93%	50%	0%	0%	50%
JPY	96%	0%	0%	96%	50%	0%	0%	50%
CNH	97%	0%	1%	98%	50%	0%	10%	60%

Selective hedging is also arranged for dividend flows. In 2020, projected 2021 dividends in BRL, USD, JPY, CNH, TRY, SAR, MXN and SEK were all hedged at 50%. In 2021, the hedged amount increased to 100% within two weeks of the confirmation of the exact dividend paid. During 2021, projected 2022 dividends in BRL, USD, JPY, CNH, TRY, SAR, MXN and SEK have all been hedged at 50%. Exposures related to future external currency flows of related parties are also managed by TLI. Selective hedging is also arranged for forecasted financial flows.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021**

All amounts shown are in millions of Euro unless otherwise stated

At December 31, 2021 and 2020, the notional values of the derivatives contracted in relation to internal, external and related parties' currency flows were as follows:

	<u>0 - 6</u> <u>months</u>	<u>6 - 12</u> <u>months</u>	<u>> 12</u> <u>months</u>	<u>2021</u> <u>Total</u>	<u>2020</u> <u>Total</u>

Balance sheet exposure

Balance sheet exposure arises from borrowing transactions in foreign currency. Central borrowing is only conducted in EUR or USD. Derivatives are used to hedge the balance sheet exposure resulting from the financing provided in the subsidiaries' and related parties' local currency.

As at December 31, 2021, the notional amounts of these derivative instruments may be summarised as follows:

	<u>0 - 6</u> <u>months</u>	<u>6 - 12</u> <u>months</u>	<u>> 12</u> <u>months</u>	<u>2021</u> <u>Total</u>	<u>2020</u> <u>Total</u>

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

The notional amounts are those of the underlying financial instrument or exposure. These are the basis upon which changes in the values of derivatives are measured. The notional amounts indicate the volume of transactions outstanding and are neither indicative of the market risk nor of the credit risk.

Foreign exchange hedging fair values (Inputs hierarchy Level 2)

Foreign currency forwards are estimated by using the uploaded spot, forward and non-deliverable forward rates. The pricing model interpolates the rates using a linear variation approach across the forward curves. Foreign currency options are estimated by using the uploaded spot, forward, interest rates and foreign exchange volatility.

Sensitivity impact

The following table demonstrates the sensitivity to a 10% change in exchange rates, with all other variables held constant, of the Group's profit before income taxes due to changes in the fair value of financial instruments related to hedging, together with other monetary assets and liabilities. The impacts of foreign exchange on operating cash flows were not considered:

	<u>Effect of devaluation on</u>		<u>Effect of revaluation on</u>	
	<u>profit before tax</u>		<u>profit before tax</u>	
	<u>2021</u>	<u>2020</u>	<u>2021</u>	<u>2020</u>
SEK	-75	-54	104	86

BRL	3	4	-4	-5
DKK	-4	-9	5	11
SGD	-5	-4	7	5
CHF	-9	-8	11	10

Translation exposure

Translation exposure arises from the consolidation of the financial statements of foreign operations into Euro. The Group mitigates the impact of translation exposure by operating a policy of reducing local equity to the operational and statutory minimum and by directing local operations to fund in their functional currency.

The movements in equity attributable to equity holders of the Group by currency for the year ended December 31, 2021 were as follows:

	<u>Opening</u>	<u>Result</u>	<u>Dividends</u>	<u>Translation</u>	<u>Other</u>	<u>Closing</u>
	<u>Balance</u>				<u>Movements</u>	<u>Balance</u>
EUR	4,185	2,075	-726	-	13	5,547

	<u>4,905</u>	<u>2,499</u>	<u>-1,050</u>	<u>-3</u>	<u>17</u>	<u>6,368</u>

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

Commodity price risk

Commodity price risk arises from the impact of fluctuating base material market prices.

As a manufacturing group, the Group and its related parties' buy a range of different base materials. The Group's commodity price hedging programme aims to reduce the impact of volatility on commodity prices and to contribute to managing the cost. In 2021, 61% of the total base material annual cost was managed via medium to long term contracts with suppliers (2020: 67%).

Aluminium

The Group has entered into non-deliverable swap contracts with financial institutions and counterparties in order to cover the aluminium price exposures of its related parties up to two calendar years. The price exposure on aluminium will be hedged within a 50% to 80% range of the volume. By the means of mirror contracts with a related party, the mark to market value of the contracts fully offset, hence there is no aluminium commodity price risk for the Group. For 2021, 51% of the forecasted annual aluminium volume exposure was hedged in this way (2020: 64%). The Group has similarly hedged 52% of the 2022 forecasted volume exposure and 0% of the 2023 forecasted volume exposure (2020: 50% for 2021 and 0% for 2022 of the forecasted volume exposure).

Polymers

The Group also entered into non-deliverable swap contracts for polymers with financial institutions and counterparties using both direct hedging and indirect naphtha proxy hedging to cover the polymer price exposures of the Group and its related party. For 2021, the Group hedged approximately 21% of the hedgeable polymer exposure (2020: 50%) and has hedged 0% of the hedgeable polymer exposure for 2022. The hedgeable raw material price exposure on polymers will be hedged within a 50% to 80% range of the volume (direct 30% to 50%, indirect 20% to 30%) up to 24 months market conditions permitting. Approximately 4% of the hedged polymer exposures were mirror contracts with a related party, and the other 96% was a commodity price risk for the Group (2020: 60% and 40% respectively).

Sensitivity impact

A +/-10% change in price, with all other variables held constant, would have had no impact on the Group's profit before income tax (2020: no impact).

As at December 31, 2021, the notional amounts and maturities of these commodity derivative instruments may be summarised as follows:

	<u>0 - 6</u> <u>months</u>	<u>6 - 12</u> <u>months</u>	<u>> 12</u> <u>months</u>	<u>2021</u> <u>Total</u>	<u>2020</u> <u>Total</u>
Aluminium	74	83	-	157	101
Commodity Price Risk	74	83	-	157	101

Commodity hedging fair values (Inputs hierarchy Level 2)

Commodity hedging fair values are estimated by using the uploaded spot and forward rates. The pricing model interpolates the rates using a linear variation approach across the forward curves.

Interest rate risk

Interest rate risk arises from the impact of movements in interest rates.

The Group is exposed primarily to fluctuations in USD, EUR and BRL interest rates. In 2021, hedges were gradually implemented to fix interest rates through interest rate swaps (IRS) also for MXN and THB. The objective of the Group's interest rate hedging programme is to ensure the correct balance between optimising funding costs and reducing volatility of interest expense. The Group mitigates the impact of increases in interest rates, in the short and long term, by hedging its and its related parties' debt for each of the key currencies in which the Group is borrowing within a 25% to 75% range and up to 10 years.

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

The above-mentioned derivatives enable interest rates to be fixed as follows:

	<u>Notional Amount</u>		<u>Fixed interest rates</u>	<u>Average remaining duration (months)</u>	<u>Fair value</u>	
	<u>2021</u>	<u>2020</u>			<u>2021</u>	<u>2020</u>
EUR	200	200	1.33%	31	-8	-13
USD	835	589	2.20%	65	-27	-52
BRL	155	16	9.25%	99	11	-2
MXN	34	-	7.27%	108	1	-
THB	22	-	1.30%	87	-	-
Interest Rate Risk	<u>1,246</u>	<u>805</u>			<u>-23</u>	<u>-67</u>

The notional amounts are those of the underlying financial instrument or exposure. These are the basis upon which changes in the values of derivatives are measured. The notional amounts indicate the volume of transactions outstanding and are neither indicative of the market risk nor of the credit risk.

The net realised interest related to the IRS amounted to negative €22 million and is included in interest expense (2020: negative €13 million).

Sensitivity impact

At December 31, 2021, if the interest rate was 1% higher/lower with all other variables held constant, the profit before income taxes would have been €3 million higher / €3 million lower (2020: €3 million higher / €3 million lower).

Interest rate hedging fair values (Inputs hierarchy Level 2)

Interest rates hedging fair values are estimated by using the projected forward value of the cash flow approach, based on the uploaded interest rate curves. Interest rate options are estimated using the uploaded interest rates and interest rates volatility curves.

Customer credit risk

Credit risk is the risk of loss from the default by an obligor or counterpart. This risk is managed primarily based upon reviews of the financial status of each specific counterpart. The Group faces customer credit risk primarily from trade and long-term receivables as well as those and cash and short-term deposits with related parties.

The Group's assets are largely composed of related party balances. The Group is confident that any deficit would be made whole by the related party's shareholders.

The Group does not envisage any risk of non-settlement of related party receivables or payables.

No trade customer accounts for 3% or more of the Group's total net sales. The nominal values less impairment provisions of trade receivables are assumed to be their fair value (Note 11).

Equipment financing to customers is primarily granted in relation to the sales of equipment. The Group maintains close customer relationships and generally requires security for its financing which enables the Group to minimise credit risks. Historically, defaults have been minimal. Regular credit reviews are performed for major customers and new prospects.

Counterparty risk

The Group faces counterparty credit risk primarily from placement of liquid funds and derivative financial instruments. Liquid funds are maintained at banking institutions with minimum Standard & Poor (S&P) credit ratings of A- / Moody's A3 (Notes 13 and 14).

Transactions involving derivative financial instruments are with counterparts that maintain a minimum S&P credit rating of A- / Moody's A3 and a maximum Credit Default Swap (CDS) rate of 300 basis points. Derivative transactions executed by Group Treasury are subject to International Swaps and Derivatives Association (ISDA) Master Agreements with all our bank counterparties to ensure offset of credit exposures in the event of a bank default. Mark to market and total outstanding

TETRA LAVAL INTERNATIONAL S.A.

Notes to the consolidated financial statements – December 31, 2021

All amounts shown are in millions of Euro unless otherwise stated

notional limits are also set and approved for each counterpart thereby reducing the risk that a counterpart will fail to meet its obligations. The Group also has a Continuous Linked Settlement (CLS) foreign exchange settlement procedure which settles foreign exchange transactions in the CLS platform with all our counterparty banks. This enables the Group to settle the net buy & sell position of each CLS eligible currency, instead of settling gross.

The T7 agreement includes a set-off clause by which any T7 borrower shall have the right to set-off any amount it owes to any T7 lender under the T7 agreement or under any other agreement between the T7 borrower and the T7 lender against any amount such T7 lender owes to the T7 borrower.

Capital management and liquidity risk

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern with adequate levels of liquidity. The Group has no specific policy for gearing ratios.

The Board has endorsed a policy to maintain at all times an undrawn amount of €700 million of the central committed facilities for contingency purposes (Note 14).

Equity market risk

The Group is exposed to equity price risk and FX risks due to the investments in shares held by the Group and stated in the consolidated balance sheet (Note 8) at fair value with adjustment for gains or losses taken through the profit and loss for the year.

25. CONTINGENT LIABILITIES

DeLaval is subject to civil litigation in the United States. Such litigation is ongoing, and the potential impacts cannot currently be assessed.

The Group is subject to tax and legal exposures arising in the normal course of business. The Group provides for such exposures when additional costs are probable and can be reliably measured.

The contingencies referred to above could result in outcomes that may have material effects on the Group's financial position, the results of its operations and its cash flows.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021***All amounts shown are in millions of Euro unless otherwise stated***26. RELATED PARTY TRANSACTIONS**

The transactions with the related parties are performed on an "arm's length" basis. The balances transactions with these related parties were summarised below:

	<u>Notes</u>	<u>2021</u>	<u>2020</u>
<u>Assets</u>			
Long-term receivables	9	–	28
Trade receivables	11	410	326

Other payables and accrued liabilities	63	108
	<u>181</u>	<u>278</u>

28. ACQUISITION AND PROCEED OF DISPOSAL OF BUSINESSES

The acquisition of businesses, net of cash at December 31, 2021 and 2020, included:

	<u>2021</u>	<u>2020</u>
Milkrite InterPuls	-	-191
eBeam	-	-7
Other	-5	-
	<u>-5</u>	<u>-198</u>

On September 25, 2020 the Group completed the acquisition of milkrite | InterPuls from Avon Rubber, a global leader providing complete milking point solutions to dairy farmers around the world. This acquisition will further improve the DeLaval dairy farming solutions and services to its customers.

The provisional goodwill of €167 million (purchase price of €163 million, plus net liabilities acquired of €4 million) was allocated to Patents and trademark for €63 million, Other intangibles for €90 million (customer list for €38 million and technology-based IA for €52 million) Goodwill for €44 million (synergies) and deferred tax liability for €34 million.

TETRA LAVAL INTERNATIONAL S.A.**Notes to the consolidated financial statements – December 31, 2021***All amounts shown are in millions of Euro unless otherwise stated*

The fair values of the assets and liabilities at the acquisition date were as follows:

	<u>2020</u>
Property, plant & equipment	15
Right-of-use assets	2
Intangible assets	3
Inventories	7
Trade receivables	8
Cash and cash equivalents	3
Current liabilities	-9
Lease liabilities	-2
Borrowing	-31
Net liabilities acquired	<u>-4</u>
Purchase consideration settled in cash	163
Payment of borrowing	31
Cash and cash equivalents in subsidiary acquired	3
Cash outflow on acquisition	<u>191</u>

On December 1, 2020 the Group acquired the eBeam sterilisation technology from Comet AG, a globally leading Swiss technology firm, through an asset deal. The purchase price of €7 million consists of the acquisition of plant and machinery for €2 million, patent for €3 million and inventories for €2 million.

29. CHANGES IN EQUITY

In December 2020, the Group acquired 94.95% of the companies Tetra Pak GmbH & Co, KG and Tetra Pak Produktions GmbH & Co, KG from its shareholders through a contribution in kind.

Before this transaction, the 94.95% of interests was reported under Non-controlling interests for an amount of €91 million.

To the General Meeting of
Tetra Laval International SA,
Avenue du Général-Guisan 70
1009 Pully

Lausanne, 5 May 2022

Statutory auditor's report on the audit of the consolidated financial statements

Opinion

We have audited the consolidated financial statements of Tetra Laval International SA and its subsidiaries (the Group), which comprise the consolidated statement of comprehensive income as at 31 December 2021 and the consolidated balance sheet, consolidated statement of changes in shareholder's equity and consolidated statement of cash flows for the year then ended 31 December 2021, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements (pages 3 to 63 of the Annual Financial Report 2021) give a true and fair view of the consolidated financial position of the Group as at 31 December 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended 31 December 2021 in accordance with International Financial Reporting Standards (IFRS) and comply with Swiss law.

Basis for opinion

We conducted our audit in accordance with Swiss law, International Standards on Auditing (ISAs) and Swiss Auditing Standards. Our responsibilities under those provisions and standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We are independent of the Group in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, as well as the *International Code of Ethics for Professional Accountants (including International Independence Standards) of the International Ethics Standards Board for Accountants (IESBA Code)* the IESBA Code of Ethics for Professional Accountants, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information in the annual report

The Board of Directors is responsible for the other information in the annual report. The other information comprises all information included in the annual report, but does not include the consolidated financial statements, the stand-alone financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information in the annual report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information in the annual report and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of the Board of Directors for the consolidated financial statements

The Board of Directors is responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS and the provisions of Swiss law, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Swiss law, ISAs and Swiss Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of the consolidated financial statements is located at the website of EXPERTsuisse: <http://www.expertsuisse.ch/en/audit-report-for-public-companies>. This description forms part of our auditor's report.

Building a better
working world

Report on other legal and regulatory requirements

In accordance with article 728a para. 1 item 3 CO and the Swiss Auditing Standard 890, we confirm that an internal control system exists, which has been designed for the preparation of consolidated financial statements according to the instructions of the Board of Directors.

We recommend that the consolidated financial statements submitted to you be approved.
