AN/"Dassault Systemes Americas Corp"

PAT. NO.	Title
1 10,860,752	Method and system for vision measure for digital human models
2 10,803,414	Risk identification in supply chain
3 D891,452	Display screen portion with graphical user interface for augmented reality
4 10,628,769	Method and system for a cross-domain enterprise collaborative decision support framework
5 10,621,526	Exporting hierarchical data from a product lifecycle management (PLM) system to a source code management (SCM) system
6 10,621,524	Exporting hierarchical data from a source code management (SCM) system to a product lifecycle management (PLM) system
7 10,621,384	Method and system of constraint-based optimization of digital human upper limb models
8 10,268,978	Methods and systems for intelligent enterprise bill-of-process with embedded cell for analytics
9 10,241,654	Computer method and apparatus for automated scheduling
10 10,180,731	Virtual clay modeling haptic device
11 10,140,350	Bi-directional synchronization of data between a product lifecycle management (PLM) system and a source code management (SCM) system
12 9,898,707	Validation of end-item completeness for product demands
13 9,703,888	Component obsolescence registry
14 9,626,471	Methods and systems for filtering components in hierarchically-referenced data
15 9,582,510	Live Upgrade
16 9,557,989	Comparison and merging of IC design data
17 9,514,447	Multi-horizon time wheel
18 9,256,348	Posture creation with tool pickup
19 9,164,668	Defining object groups in 3D
20 9,058,693	Location correction of virtual objects
21 8,990,175	Related data dependencies
22 8,925,105	Indexed security for use with databases
23 8,832,551	Video-based undo and redo operations
24 8,788,513	Computer method and system providing access to data of a target system
