## Home Page

ProTronics is a AS9120 certified full service distributor.

ProTronics has leading edge test systems to meet rigorous quality standard.

Our testing procedures ensure that every part that passes through our site process is thoroughly tested by the technical staff.

#### Test and Inspection

Passive in-circuit testing

Orientation testing

Shorts and opens

Low-voltage / Run-at-speed

Multi-functional testing

Fast turn-around

Engineering and technical expertise

Test diagnosis

Off-line analysis time

Accuracy of repair

Test Equipment

Our test equipment is qualified to meet industry specifications. We consistently utilize custom modeling and tests to reach the highest possible test coverage.

#### X-Ray Technology Systems

Utilizes the high performance Glenbrook Technologies real-time X-Ray Technology System as an effective advanced inspection tool.

It is the only system not subject to voltage blooming. It measures BGA solder joint integrity and other leadless packages that cannot be inspected by conventional vision systems.
