

## Discover us

**Ormazabal** is the leading provider of personalized solutions to electrical utilities, to electrical end users as well as renewable energy systems applications based on its own technology.

We encourage the development of the electrical sector towards the challenges of the future energy needs. We cooperate with the world's leading local, regional and global companies in the electrical sector with a strong commitment to innovation towards personal safety, network reliability, energy efficiency, and sustainability.

Our highly qualified and focused team of innovation-motivated professionals have developed our own products and solutions during our more than a century long consolidated history, always by establishing close relationship with our customers aimed at achieving mutual long term benefits.

**Ormazabal** is the origin of **Velatia**, a family-run, industrial, technological and benchmark global group which operates in the areas of electrical networks, electronics and communication networks as well as in the consulting, security and aeronautics component sectors, where safety, efficiency and reliability are valued.

## Corporate responsibility

Protecting the environment is part of **Ormazabal's** firm commitment to both preventing environmental damage and promoting initiatives that encourage greater environmental responsibility while spreading responsible technologies.

These actions form part of our Quality, Environmental, Health & Safety Policy.

**Ormazabal's** strategy includes the principles of respecting and protecting human rights as part of our business culture, and we promote these principles throughout our sphere of influence.

## Mission

We are a company specialized in the electric sector focused on innovation. We provide reliable solutions anywhere thanks to our capacity to anticipate the needs of the sector and our commitment and involvement with our customers, partners, employees and society.

## Vision

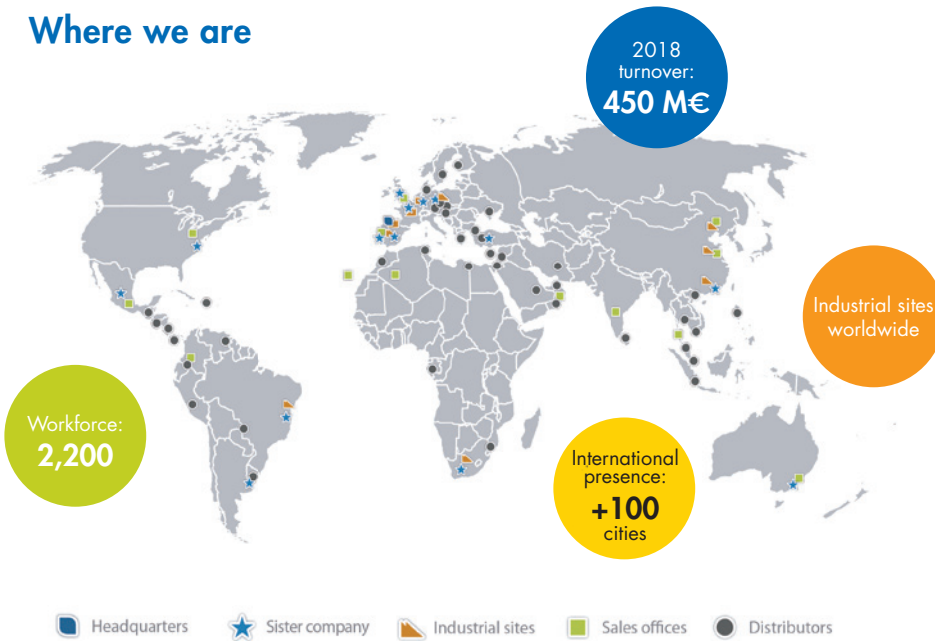

We encourage the development of the electric sector to solve future energy needs.

## Where we are

## Global technology. Local solutions.

- » Foundation: 1967
- » Our key success factor: +100 years\* of consolidated experience and knowledge of electrical networks
- » Pioneers in extensible GIS switchgear
- » One of the four leading GIS switchgear suppliers in the world
- » World's top 36 kV GIS switchgear manufacturer
- » World's largest prefabricated transformer substation manufacturer
- » Connecting +64 GW renewable power to the grids

\* In 2004 Ormazabal enhanced its global and competitive capabilities with the acquisition of Moeller Anlagentechnik GmbH – former F&G.

## Own technology

- » Highly qualified team
- » +4% investment in R&D
- » 30% turnover from new products
- » 2.5 GVA high power laboratory (HPL): Since 2008, the most modern worldwide
- » Demonstration and experimentation unit (UDEX) in 2014: Our unique 15 km network, highly configurable and independent from the grid

## Milestones

- » Product installed in +110 countries
- » +1,674,000 cubicles distributing electricity
- » +105,000 prefabricated transformer substations installed (+10,300 underground type)
- » +15,000 fully automated transformer substations

## Innovation & development
