NOTES TO THE FINANCIAL STATEMENTS  
for the year ended 30 September 2022

---

1. **STATUTORY INFORMATION**

Raster Vision Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. **ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

**Turnover**

Revenue is recognised when it is probable that future economic benefits will flow to the company from the provision of contracts for the sale of goods and is measured as the fair value of consideration which the company expects to receive from those transactions. Revenue is recognised as control of the goods is passed over to the customer. Where the normal criteria for the recognition of revenue are not met or are varied, then revenue is recognised at the point when control has passed to the customer which could be when legal title has passed to the customer or when the business has a right to payment such as on delivery or when cash payment has been made to the company. Revenue is recognised net of returns and of trade discounts and is shown exclusive of value added tax.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Leasehold improvements	- 20% on reducing balance
Plant and machinery	- 25% on cost
Fixtures and fittings	- 20% on cost
Computer equipment	- 25% on cost

**Stock and work in progress**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

**Financial instruments**

The company enters into basic financial instruments that give rise to financial assets and financial liabilities including trade and other debtors, trade and other creditors, bank account balances, bank loans and other loans and borrowings and investments in certain non puttable and non convertible equity instruments.

Debt instruments which are not payable or receivable within one year are initially accounted for at the transaction price and are subsequently accounted for at amortised cost using the effective interest method. Debt instruments payable and receivable within one year are measured at their undiscounted cash amounts. Where the debt instruments are treated as a financing transaction, then the financial asset or liability is measured at the present value of future cash flows based on a market rate of interest. Debt instruments which are treated as financial assets and accounted for at amortised cost are also assessed for impairment.

Equity instruments are initially accounted for at transaction price. They are subsequently accounted for at cost unless they can be accounted for at fair value based on a readily available market price or fair value. Equity instruments which are treated as financial assets and accounted for at cost are also assessed for impairment.

2. **ACCOUNTING POLICIES - continued**

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Research and development**

Expenditure on research and development is written off in the year in which it is incurred.

**Foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

**Pension costs and other post-retirement benefits**

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

**Leases**

Rentals paid under operating leases are charged to the Income Statement on a straight line basis over the period of the lease.

3. **EMPLOYEES AND DIRECTORS**

The average number of employees during the year was 20 (2021 - 20 ) .
