MANAGEMENT REPORT

The Financial Statements contained in this Statement of Financial Information under the *Financial Information Act* have been prepared by management in accordance with International Financial Reporting Standards, and the integrity and objectivity of these statements are management's responsibility. Management is also responsible for all the statements and schedules, and for ensuring that this information is consistent, where appropriate, with the information contained in the financial statements.

Management is also responsible for implementing and maintaining a system of internal controls to provide reasonable assurance that reliable financial information is produced.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control and exercises this responsibility through the Finance and Audit Committee of the Board. The Finance and Audit Committee meets with management a minimum of four times a year.

The external auditors, the Auditor General of British Columbia, conduct an independent examination, in accordance with generally accepted auditing standards, and express their opinion on the financial statements. Their examination does not relate to the other schedules and statements required by the Act. Their examination includes a review and evaluation of the corporation's system of internal control and appropriate tests and procedures to provide reasonable assurance that the financial statements are presented fairly. The external auditors have the responsibility for assessing the management systems and practices of the corporation. The external auditors have full and free access to the Finance and Audit Committee of the Board and meet on a regular basis.

On behalf of Columbia Power Corporation,

A handwritten signature in black ink, appearing to be "M. Jillings".

COLUMBIA POWER CORPORATION

CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2022

Statement of Management Responsibility

The consolidated financial statements of Columbia Power Corporation have been prepared by management in accordance with International Financial Reporting Standards (IFRS) and fairly present Columbia Power Corporation's consolidated financial position, financial performance and cashflows. The integrity of the information presented in the consolidated financial statements, including estimates and judgments relating to matters not concluded by fiscal year end, is the responsibility of management.

Management is responsible for establishing and maintaining appropriate systems of internal control (which include policies and procedures) to provide reasonable assurance that Columbia Power Corporation's assets are safeguarded and that reliable financial records are maintained.

The Auditor General of British Columbia has been appointed by the Board of Directors to audit the consolidated financial statements. The report of the Auditor General of British Columbia is attached, outlining the scope of his examination and providing his opinion on the consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

*To the Board of Directors of the Columbia Power Corporation, and
To the Minister of Forests, Province of British Columbia*

Opinion

I have audited the accompanying consolidated financial statements of Columbia Power Corporation Group (“the Group”), which comprise the consolidated statement of financial position at March 31, 2022, and the consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as at March 31, 2022, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

I conducted my audit in accordance with Canadian generally accepted auditing standards. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of my report. I am independent of the Group in accordance with the ethical requirements that are relevant to my audit of the consolidated financial statements in Canada, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other Accompanying Information

Management is responsible for the other information. The other information comprises the information included in the 2021/22 Annual Service Plan Report but does not include the consolidated financial statements and my auditor's report thereon. The Annual Service Plan Report is expected to be made available to us after the date of the auditor's report.

My opinion on the consolidated financial statements does not cover the other information accompanying the financial statements and I do not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated financial statements, my responsibility is to read the other information that I have obtained prior to the date of my auditor's report and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or my knowledge obtained during the audit or otherwise appears to be materially misstated.

When I read the Annual Service Plan Report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements.

Those charged with governance are responsible for the oversight of the financial reporting process. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards (IFRS), and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting when the Group will continue its operations for the foreseeable future.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

My objectives are to obtain reasonable assurance about whether the Group's consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement, when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decision of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit and I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

Stuart Newton, CPA, CA
Assistant Auditor General

Victoria, British Columbia, Canada

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2022
(Tabular amounts in thousands)

1. Reporting entity:

Columbia Power Corporation (Columbia Power) is a company incorporated in British Columbia and domiciled in Canada. The address of Columbia Power's registered office is Suite #200, 445 – 13th Avenue, Castlegar, British Columbia. Columbia Power is wholly owned by the Province of British Columbia (the Province). As an agent for the Province, Columbia Power committed to entering into joint ventures to develop and operate hydroelectric power projects as set out in the Agreement signed in 1995 (the Agreement) between the Province and the Columbia Basin Trust (the Trust), also wholly owned by the Province.

The Agreement anticipated that several power projects would be undertaken through joint ventures between Columbia Power and subsidiaries of the Trust (the shareholders). The entities holding legal title to the power projects and their governance structures are described in note 5 – Description of equity accounted joint arrangements.

Columbia Power is appointed the manager of the joint ventures with the authority to manage the day-to-day activities of the joint ventures, subject to the direction of their boards and annual capital and operating budgets approved by their boards. Columbia Power's material transactions and agreements require the approval of the Province's Treasury Board.

2. Basis of preparation:

(a) Statement of compliance:

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) which have been adopted by the Canadian Accounting Standards Board as Canadian generally accepted accounting principles for publicly accountable enterprises.

The accounting policies set out in note 3 – Significant accounting policies, have been applied in preparing the consolidated financial statements for the year ended March 31, 2022, and the comparative information presented in these consolidated financial statements for the year ended March 31, 2021. The consolidated financial statements were authorized for issue by the board of directors on May 18, 2022.

(b) Basis of measurement:

The consolidated financial statements have been prepared on the historical cost basis except for financial instruments at fair value through profit or loss which are measured at fair value

(c) Functional and presentation currency:

These consolidated financial statements are presented in Canadian dollars, which is Columbia Power's functional currency. All financial information presented in Canadian dollars has been rounded to the nearest thousand except when otherwise indicated.

(d) Use of estimates and judgments:

The preparation of the consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities,

income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Information about critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the consolidated financial statements is included in the following notes:

- Note 2(e) – Determination of fair values
- Note 3(a) – Investments in joint arrangements and in associates (equity accounted investees)
- Note 3(c) – Designation of financial instruments
- Note 3(e) – Leased assets

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Note 3(f) – Impairment
- Note 24 – Contingencies

(e) Determination of fair values:

Certain of Columbia Power's accounting policies and disclosures require the determination of fair value, for financial assets and liabilities. The fair value of other investments (non-current), loans and borrowings and provisions are estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date. The fair value for other investments (current) is determined as the quoted market prices of those investments. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

3. Significant accounting policies:

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements unless otherwise indicated.

(a) Basis of consolidation:

These consolidated financial statements and notes include Columbia Power's operations, account balances and operations of Columbia Power's interests in jointly controlled operations and investments in associates accounted for under the equity method.

(i) Investments in joint arrangements and associates (equity accounted investees):

Joint ventures are those joint arrangements over whose activities Columbia Power has joint control, established by contractual agreement (see note 5 – Description of equity accounted joint arrangements).

Joint ventures and investments in associates (equity accounted investees) are accounted for using the equity method and are recognized initially at cost. The consolidated financial statements include Columbia Power’s share of the income and expenses and equity movements of equity accounted investees, after adjustments to align the accounting policies with those of Columbia Power, from the date that joint control or significant influence commences until the date that joint control or significant influence ceases.

(ii) Elimination of transactions with equity accounted investees:

Unrealized income and expenses arising from intra-company transactions with equity accounted investees are eliminated in preparing the consolidated financial statements to the extent that one of the parties has capitalized the unrealized income or expenses. Unrealized gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of Columbia Power’s interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment. Transactions that do not involve the assets of the equity accounted investee are not eliminated.

(b) Foreign currency transactions:

Transactions in foreign currencies are translated to the functional currency of Columbia Power at exchange rates at the dates of the transactions. Foreign currency denominated monetary assets and liabilities are translated into the functional currency at the rate of exchange prevailing at the reporting date.

(c) Designation of financial instruments:

IFRS requires financial instruments to be classified as one of the following: amortized cost, fair value through other comprehensive income or fair value through profit or loss (FVTPL).

Columbia Power's instruments and their classifications are specified in the table below.

Financial Asset	Classification
Cash and cash equivalents	FVTPL
Accounts receivable	Amortized cost
Other investments	Amortized cost
Financial Liability	Classification
Accounts payable and accrued liabilities	Amortized cost
Long-term debt	Amortized cost
Due to Waneta Expansion Power Corporation	Amortized cost

(i) Financial assets:

Columbia Power initially recognizes financial assets (including assets designated at fair value through profit or loss) on the trade date at which Columbia Power becomes a party to the contractual provisions of the instrument.

Columbia Power derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by Columbia Power is recognized as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the Consolidated Statement of Financial Position when, and only when, Columbia Power has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

(ii) Financial liabilities:

Columbia Power's non-derivative financial liabilities include accounts payable and accrued liabilities, and loans and borrowings. Columbia Power initially recognizes debt securities issued and subordinated liabilities on the date that they are originated. All other financial liabilities (including liabilities designated at fair value through profit or loss) are recognized initially on the trade date at which Columbia Power becomes a party to the contractual provisions of the instrument. Columbia Power derecognizes a financial liability when its contractual obligations are discharged, cancelled or expire.

Financial liabilities are recognized initially at fair value net of any directly attributable transaction costs. Subsequent to initial recognition, financial liabilities are measured at amortized cost using the effective interest method. Transaction costs are amortized at the same rate as the repayment on the financial liability.

(iii) Fair value hierarchy:

Financial assets and liabilities are classified using a fair value hierarchy. The hierarchy prioritizes inputs used in valuation techniques to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities. The three levels of the hierarchy are as follows:

- Level 1 - values are quoted prices in active markets for identical assets and liabilities.
- Level 2 - inputs (other than quoted prices included in level 1) that are observable for the asset or liability, either directly (as prices), or indirectly (as derived from prices).
- Level 3 - inputs that are not based on observable market data.

(d) Property, plant and equipment:

(i) Recognition and measurement:

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income or other expenses in profit or loss.

(ii) Subsequent costs:

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to Columbia Power, and its cost can be measured reliably. The carrying amount of the replaced part is derecognized. The costs of the day-to-day servicing of property, plant and equipment are recognized in profit or loss as incurred.

(iii) Depreciation:

Items of property, plant and equipment are recorded at cost and are depreciated annually at rates calculated to expense the cost of assets over their estimated useful lives. Depreciation begins when assets are available for use.

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for the current and comparative periods are as follows:

Computer and software	3 years
Furniture and equipment	5 years
Leasehold improvements	Term of lease
Vehicles	8 years

Depreciation methods, useful lives and residual values are reviewed at each financial year end and adjusted if applicable.

(e) Leased assets:

Columbia Power identifies a lease as a contract that conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The lease is recognized as an asset representing the right to use the leased asset, and a liability for its obligation to make lease payments. Exceptions are permitted for short-term leases and leases of low-value assets. A lease asset is initially measured at cost, and is then depreciated similarly to property, plant and equipment. A lease

liability is initially measured at the present value of the unpaid lease payments.

(f) Impairment:

(i) Financial assets:

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to Columbia Power on terms that Columbia Power would not consider otherwise or indications that a debtor will enter bankruptcy. Management has determined that there is no evidence indicating that Columbia Power's financial assets are impaired as at March 31, 2022, and March 31, 2021.

(ii) Non-financial assets:

The carrying amounts of Columbia Power's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of the impairment loss. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized immediately in profit or loss. Management has determined that there is no evidence indicating that Columbia Power's non-financial assets are impaired as at March 31, 2022, and March 31, 2021.

(g) Revenue recognition:

(i) Cost recoveries:

Columbia Power as the manager of the joint ventures, charges amounts to each joint venture on a cost recovery basis for staff compensation, office space and project overhead. These recovery amounts are recognized in Revenue in the Consolidated Statement of Comprehensive Income on a monthly basis.

(h) Asset Management Services:

The Trust and Columbia Power implemented an Asset Management Services Agreement effective January 1, 2020, wherein the Trust provides support in all areas of facility operations for the jointly owned power assets including human resources, accounting, payroll, records management, information technology and other support functions to Columbia Power. Columbia Power remains the appointed Manager of the four power assets under the Agreement. Staff are employed directly by the

Trust and all employment benefits and related costs are paid by the Trust. There are no direct employees of Columbia Power.

(i) Finance income and finance costs:

Finance income comprises interest income on cash and cash equivalents, and changes in the fair value of financial assets at fair value through profit or loss. Finance costs comprise interest expense on borrowings, the unwinding of the discount on provisions, bank fees and changes in the fair value of financial assets at fair value through profit or loss. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss.

(j) Share capital:

Common shares are classified as equity. Incremental costs directly attributable to the issue of common shares are recognized as a deduction from equity.

(k) Income tax:

As a Crown corporation Columbia Power is exempt from corporate income taxes.

(l) New standards and interpretations not yet adopted:

A number of annual improvements to existing standards issued by the International Accounting Standards Board (IASB) are not yet effective for the year ended March 31, 2022, and have not been applied in preparing these consolidated financial statements. As of the reporting date, Management is assessing any impacts of updates to standards on Columbia Power's Consolidated Financial Statements.

4. Changes in joint ventures:

The Waneta Expansion was previously owned by the Waneta Expansion Limited Partnership (WELP), of which Fortis Inc. held a 51% interest, Columbia Power a 32.5% interest, and the Trust a 16.5% interest. On April 17, 2019 Columbia Power and CBT Waneta purchased Fortis Inc.'s 51% interest in WELP. The purchase agreement was completed through a series of transactions and amalgamations, which resulted in the creation of WEPC through a business combination to hold Columbia Power and CBT Waneta's interest (a 50/50 partnership).

The acquisition transaction was identified as a business combination with WEPC identified as the acquirer. A purchase price allocation was performed to measure the fair value of identifiable assets acquired and liabilities assumed by WEPC at the acquisition date. Any residual value of the purchase consideration was allocated to goodwill (see note 5 – Description of equity accounted joint arrangements).

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 March 31, 2022
 (Tabular amounts in thousands)

Each partner contributed their original equity interest in WELP as part of the business combination. A Fiscal Agency Loan (FAL) through the Province, funded the purchase of Fortis Inc.'s 51% interest (see note 12 – Loans and borrowings). Through an intercompany loan arrangement, the proportionate share of the FAL was allocated to each partner to create a 50/50 ownership structure. The terms of the long-term loan agreement mirror the terms of the long-term FAL. The table below shows the original ownership, the additional interest acquired and each owners share of the FAL at the date of incorporation April 17, 2019.

Partner	WELP Ownership	Additional Interest	WEPC Ownership	Allocation of Debt	Long-term Promissory Note
Columbia Power	32.5%	17.5%	50.0%	34.3%	341,014
CBT Waneta	16.5%	33.5%	50.0%	65.7%	652,798
	49.0%	51.0%	100.0%	100.0%	993,812

5. Description of equity accounted joint arrangements:

Columbia Power carries out its mandate to operate hydroelectric facilities through its interest in the following jointly controlled operations which were incorporated in British Columbia, Canada:

Jointly Owned Power Subsidiaries

- ***Arrow Lakes Power Corporation (ALPC)***

The purpose of ALPC is to operate the 185 megawatt (MW) Arrow Lakes Generating Station (ALGS) adjacent to the Hugh Keenleyside Dam at Castlegar, British Columbia and a 48 km transmission line from the power plant to British Columbia Hydro and Power Authority's (BC Hydro, a provincial Crown corporation) Selkirk substation. ALPC sells the entitlement energy and capacity from ALGS.

- ***Brilliant Expansion Power Corporation (BEPC)***

The purpose of BEPC is to operate the Brilliant Expansion Project (Brilliant Expansion), a 120 MW power generation facility adjacent to the Brilliant Dam at Castlegar, British Columbia. BEPC sells the entitlement energy and capacity generated from this facility.

- ***Brilliant Power Corporation (BPC)***

The purpose of BPC is to act as lessor of the Brilliant Dam and Generating Station (Brilliant Power Facility) and Brilliant Terminal Station (BTS) assets. The Brilliant Power Facility and BTS are currently leased to FortisBC Inc., a regulated utility operating in British Columbia, according to the terms of finance leases. The Brilliant Power Facility is located on the Kootenay River, 3 kilometres upstream of the confluence with the Columbia River.

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 March 31, 2022
 (Tabular amounts in thousands)

- **Waneta Expansion Power Corporation (WEPC)**

Incorporated on April 17, 2019, the purpose of WEPC is to operate the 340 MW Waneta Expansion (WAX) adjacent to the Waneta Dam near Trail, British Columbia and a 10 kilometre transmission line from the power plant to British Columbia Hydro and Power Authority's (BC Hydro, a provincial Crown corporation) Selkirk substation. WEPC sells the entitlement energy and capacity for WAX.

All four corporations are jointly owned on a 50/50 basis by Columbia Power and the Trust through its wholly owned subsidiaries. The shareholders direct activities for each corporation through the corporation's board of directors with an equal number of directors appointed by each shareholder. All decisions of the boards of directors require the unanimous approval of the directors.

Revenues in ALPC, BEPC and WEPC, and finance income in BPC are determined by terms specified in long-term power purchase agreements. As such, these corporations have no significant exposure to commercial risk.

For BPC and ALPC, which have issued project bonds, Columbia Power's access to its investment is secondary to the bondholders' claims on the assets of BPC and ALPC.

6. Summary financial information for equity accounted joint arrangements:

Columbia Power's share of profit in its equity accounted joint arrangements for the year was \$78,977 thousand (2021 - \$77,435 thousand) as follows:

	Ownership	2022	2021
ALPC	50%	\$ 18,644	\$ 18,584
BEPC	50%	9,694	9,468
BPC	50%	14,215	13,794
WEPC*	50%	36,424	35,589
		\$ 78,977	\$ 77,435

*This amount includes a consolidation adjustment at March 31, 2022 for \$5,863 thousand (2021 - \$5,854 thousand). In applying the equity basis of accounting to its interest in WEPC, Columbia Power makes annual adjustments for differences in the fair value for depreciation/amortization and any impairments. Columbia Power's original investment in WELP of 32.5% is accounted for on a cost basis with the additional 17.5% investment accounted for at fair value at acquisition. The annual consolidation adjustments will be applied until the end of the useful life of the acquired assets.

In 2022, Columbia Power received \$80,735 thousand in dividends from its investments in equity accounted joint arrangements (2021 - \$84,075 thousand) as follows:

	Ownership	2022	2021
ALPC	50%	\$ 15,600	\$ 16,275
BEPC	50%	11,600	10,800
BPC	50%	7,905	6,400
WEPC	50%	45,630	50,600
		\$ 80,735	\$ 84,075

* Elimination Entry:

ALPC

(\$39) thousand interest charged by Columbia Power to ALPC on funding provided by Columbia Power for the construction of the Arrow Lakes Generating Station and Transmission Line. The elimination of interest is being reversed at the average rate of depreciation on the Arrow Lakes Generating Station and Transmission Line assets.

**In applying the equity basis of accounting to its interest in WEPC, Columbia Power makes annual adjustments for related party transactions where the underlying investment remains within the reporting entity. Columbia Power's original investment in WELP of 32.5% is accounted for on a cost basis, with the additional 17.5% investment accounted for at fair value at acquisition. The entire amount of the investment is recorded at fair value within WEPC. The fair value increment on the original investment, adjusted for annual amortization of related assets, is eliminated on consolidation. The adjustment to eliminate the inter-entity gain on WEPC assets is \$379,487 million for the year ending March 31, 2022 (2021 - \$385,350 million).

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

March 31, 2022

(Tabular amounts in thousands)

ALPC negative equity

In fiscal 2012, ALPC issued \$350 million principal amount Series B bonds, due in April 2041. The proceeds of the Series B bond issue were used to pay for the \$45.6 million owing on ALPC's series A bond redemption, and the net proceeds of \$285.6 million were distributed by dividend to the owners, Columbia Power and CBT Arrow Lakes, for investment in the Waneta Expansion and future project development. The dividend to the owners created a deficit in ALPC of \$56.1 million. ALPC ended fiscal 2012 with a deficit of \$60.3 million after incurring net losses of \$4.2 million that year. Total cumulative dividends of \$241.5 million less cumulative net income of \$214.2 million since fiscal 2012 have increased the deficit in ALPC to \$87.6 million at the end of fiscal 2022.

Given that ALPC's negative equity position has been caused by the payment of dividends in excess of earnings rather than by net losses, Columbia Power continues to record its investment in ALPC (2022 – (\$43.8) million), (2021 – (\$46.9) million) as a long term asset included in the line item "Investment in equity accounted joint arrangements" on the Consolidated Statement of Financial Position. Columbia Power's future share of ALPC's net income will reduce the negative equity balance and Columbia Power's future share of dividends from ALPC will increase the negative equity balance. Contracts entered into for the delivery of electricity over the next 23 years are expected to generate sufficient revenue and cash flow to fund ongoing operations for the foreseeable future.

7. Cash and cash equivalents:

Cash and cash equivalents consists solely of deposits in banks.

8. Accounts receivable:

	2022	2021
Accounts receivable	\$ 135	\$ 234

Columbia Power's exposure to credit risks and impairment losses related to accounts receivable is disclosed in note 22 – Financial instruments.

9. Other investments:

Other investments comprise of a bond sinking fund held with the province to provide for debt retirement in June 2044 (see note 12 – Loans and borrowings). Columbia Power began to make annual payments of \$5,043 thousand to the sinking fund on June 18, 2015 (see note 23 – Commitments). The sinking fund is recorded at amortized cost.

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2022
(Tabular amounts in thousands)

Columbia Power's interest-bearing loans and borrowings are measured at amortized cost. Columbia Power's exposure to interest rate and liquidity risk is disclosed in note 22 – Financial instruments.

On April 14, 2014, Columbia Power issued a \$335 million Series A debenture to the Province that matures on June 18, 2044. Columbia Power is required to make semi-annual coupon payments of \$5,360 thousand and annual payments of \$5,043 thousand to a sinking fund for debt retirement (see note 23 – Commitments).

	Discount	Interest and Fees	Net Proceeds	Coupon rate	Effective rate	2022 Carrying Amount	2021 Carrying Amount
Series A debenture	35,312	5,892	300,667	3.2%	3.83%	\$ 303,627	\$ 302,744

13. Due to Waneta Expansion Power Corporation:

The purchase of the additional interest in WELP was funded through a FAL with the Province. Each owner contributed their existing equity investment into the business combination, and funded the additional ownership acquired through the long-term loan agreement with WEPC (see note 4 - Changes in joint ventures). The structure of the additional interests acquired requires Columbia Power to make payments to WEPC in an amount approximately equal to 34% of the long-term debt held in WEPC. Columbia Power has recorded an amount Due to Waneta Expansion Power Corporation, this liability matches the terms of the FAL provided to WEPC through the Province.

Columbia Power makes contributions to WEPC annually to mirror the terms of the sinking fund arrangement with the Province for debt repayment in 2050. Columbia Power's share of the annual sinking fund contribution totaled \$3.3 million (2021 - \$3.2 million). Future payments will mirror WEPC's scheduled sinking fund contributions to the Province under the terms of agreement (see note 23 – Commitments).

Columbia Power's share of the fixed semi-annual interest payments is \$4,739 thousand.

The loan is measured at amortized cost. Columbia Power's exposure to interest rate and liquidity risk is disclosed in note 22 – Financial instruments.

The details of the long-term loan are as follows and mirror the terms of WEPC's long-term FAL:

	2022	2021
Non-current liabilities		
WEPC - Series A	\$ 183,663	\$ 183,950
Less: Financing costs	(1,016)	(1,040)

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2022
(Tabular amounts in thousands)

21. Dividends payable:

The following dividends were declared by Columbia Power:

	2022	2021
<u>\$7,833 thousand per qualifying common share (2021 - \$7,833 thousand)</u>	<u>\$ 47,000</u>	<u>\$ 47,000</u>

22. Financial instruments:

(a) Financial risk management:

Columbia Power is exposed to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note presents information about Columbia Power's exposure to each of the above risks, Columbia Power's objectives, policies and processes for measuring and managing risk and Columbia Power's management of capital.

(b) Credit risk:

Credit risks refers to the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Financial assets are neither overdue nor impaired, and Columbia Power does not consider itself to be significantly exposed to credit risk.

The percentage of accounts receivable balance older than 90 days as at March 31, 2022 is 0% (2021 - 0%).

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2022	2021
	Carrying amounts	
Cash and cash equivalents	\$ 71,564	\$ 67,776
Accounts receivable	135	234
Other investments	39,511	33,410
	<u>\$ 111,210</u>	<u>\$ 101,420</u>

(c) Liquidity risk:

Liquidity risk refers to the risk that Columbia Power will encounter difficulty in meeting obligations associated with financial liabilities. Columbia Power regularly monitors its cash flows and balances and maintains a cash surplus which can be utilized by the joint ventures of Columbia Power/the Trust for short-term financing. Under the terms of the Fiscal Agency Loan, Columbia Power is required to make annual sinking fund contributions for debt retirement. Columbia Power management does not believe that it will encounter difficulty in meeting its obligations associated with financial liabilities.

*Note that cash flows do not reflect contributions to the sinking funds set up for debt retirement (see note 23 – Commitments).

(d) Market risks:

Market risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: exchange rate risk, interest rate risk and price risk. Columbia Power does not use derivative products to manage these risks.

(i) Exchange rate risk:

Exchange rate risk refers to the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Columbia Power realizes all significant revenues and expenses in Canadian dollars and is therefore not significantly exposed to currency fluctuations.

(ii) Interest rate risk:

Interest rate risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Columbia Power is exposed to changes in interest rates primarily through its Series A debt and related sinking fund investments. The coupon rate on the Series A debt is fixed, however, the fair value of the bonds is affected by interest rate changes. Columbia Power manages interest rate risk by issuing long-term fixed rate debt, in partnership with the Province's Debt Management Branch for portfolio management.

Sensitivity analysis

An increase of 100 basis points in the interest rate will incite a \$47 million (2021 - \$54 million) decrease in the Series A debenture price a decrease in interest rates of 100 basis points will incite a \$57 million increase (2021 - \$67 million) in the Series A debenture price.

(iii) Price risk:

Price risk refers to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
 March 31, 2022
 (Tabular amounts in thousands)

changes in market prices. None of Columbia Power's financial instruments values will change according to changes in market prices and therefore Columbia Power is not exposed to price risk.

(e) Capital management:

Columbia Power's capital consists of shareholder's equity plus loans and borrowings less investments held in sinking funds.

Columbia Power's capital management objectives are to:

- Maintain a debt to equity ratio that is not lower than 70/30
- Target a long term capital structure with sufficient equity and working capital reserves to maintain commercial viability of Columbia Power and its equity accounted joint ventures

Columbia Power is in close communication with its shareholder to determine appropriate capital reserves and dividend payments in order to achieve management's objectives. Neither Columbia Power, nor any of its equity accounted investments, are subject to externally imposed capital requirements.

(f) Fair values:

The carrying values of financial instruments approximate fair value as at March 31, 2022, and March 31, 2021 except for other investments, loans and borrowings. The fair value of other investments is provided by the Province's Debt Management Branch at March 31, 2022, and 2021. The fair value of loans and borrowings and provisions is calculated by discounting the future cash flows for the same or similar issues at the date of the consolidated statement of financial position, or by using available quoted market prices. The fair values of financial assets and liabilities, together with the carrying amounts shown in the consolidated statement of financial position, are as follows:

	2022		2021	
	Carrying amount	Fair Value	Carrying amount	Fair Value
Assets carried at amortized cost				
Accounts receivable (Level 1)	\$ 135	\$ 135	\$ 234	\$ 234
Other investments - bond sinking fund (Level 1)	39,511	35,429	33,410	33,026
	\$ 39,646	\$ 35,564	\$ 33,644	\$ 33,260
Liabilities carried at amortized cost				
Accounts payable and accrued liabilities (Level 1)	\$ 6,139	\$ 6,139	\$ 6,146	\$ 6,146
Loans and borrowings (Level 2)	303,627	287,982	302,744	326,058
Due to Waneta Expansion Power Corporation (Level 2)	330,158	286,166	333,917	315,444
	\$ 639,924	\$ 580,287	\$ 642,807	\$ 647,648

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2022
(Tabular amounts in thousands)

Columbia Power holds a bond sinking fund with the Province’s Debt Management Branch (DMB) for debt maturity. The amortized book value of the sinking fund at March 31, 2022, is \$39,511 thousand (2021 - \$33,410 thousand) which takes into account actual returns to the fund to date. DMB provided the sinking fund market value of \$35,429 thousand (2021 - \$33,026 thousand).

Management has made the following assumptions in determining the fair value of the 2022 loans and borrowings:

- The discounted cash flow methodology is appropriate given that the amounts and timing of the cashflows are reasonably determinable
- Basing the interest rate used to discount estimated cash flows outstanding on the Series A and Due to Waneta Expansion Power Corporation loan debenture on the government yield curve at the reporting date plus an adequate credit spread is appropriate. At March 31, 2022, management selected interest rates of 3.4% (2021 - 2.8%) and 3.4% (2021 - 2.9%) based on the maturity dates.

23. Commitments:

Under the terms of the Fiscal Agency Loan with the Province, Columbia Power has committed to make annual sinking fund payments over the terms of the loan. Under the long-term loan arrangement with WEPC, Columbia Power is required to fund their proportionate share of WEPC's sinking fund payments over the term of WEPC's loan (see note 4 – Changes in joint ventures and subsidiaries). Payments required over the next 5 years and thereafter are as follows:

	Sinking Fund Series A	Sinking Fund WEPC	Total
2023	\$ 5,043	\$ 3,404	\$ 8,447
2024	5,043	3,706	8,749
2025	5,043	3,921	8,964
2026	5,043	4,205	9,248
2027	5,043	4,542	9,585
Thereafter	90,774	192,556	283,330
	<u>115,989</u>	<u>\$ 212,334</u>	<u>\$ 328,323</u>

24. Contingencies:

Columbia Power may become involved in claims and litigation in the normal course of operations. The Company is aware of one active claim; the outcome of which cannot be reasonably determined based on the current information available.

Columbia Power's operations are affected by federal, provincial and local government laws and regulations, and under agreements with its bondholders, ALPC and BPC agree to comply or cause compliance in all material respects with such laws and regulations as well as to maintain all material franchises. The impact, if any, of future legal or regulatory requirements cannot currently be estimated.

(Tabular amounts in thousands)

25. Related parties and related party transactions:

(a) Parent company:

Columbia Power is related through common ownership to its joint ventures with the Trust. Columbia Power is also related through indirect common ownership to all Province of British Columbia ministries, agencies, Crown corporations and public sector organizations that are included in the provincial government reporting entity.

These consolidated financial statements include amounts receivable from, amounts payable to and transactions with BC Hydro; the Trust and its affiliates; the Province and the joint ventures. All related party transactions are at market rates, except for certain transactions with the joint ventures and Columbia Basin Trust, which are determined on a cost recovery basis. The joint ventures stated in notes 5 and 6 are related parties to Columbia Power. Intercompany transactions between Columbia Power and equity accounted investees are eliminated only to the extent that one of the parties includes the amount in assets. Details of transactions between Columbia Power and related parties which have not been eliminated are summarized in the following tables.

(b) Due to/from and purchases/sales to related parties:

Related party transactions and balances are summarized in the following table:

Statement of Financial Position	2022		2021	
Accounts receivable	\$	-	\$	13
Accounts payable and accrued liabilities		5,733		5,733
Statement of Comprehensive Income	2022		2021	
Revenue	\$	3,550	\$	3,290
Expenses				
Administration and management	\$	3,815	\$	3,541
Community sponsorship		250		250
Total expenses	\$	4,065	\$	3,791

The total accounts payable and accrued liabilities at March 31, 2022, of \$5,733 thousand (2021 - \$5,733 thousand) consists primarily of accrued loan interest due to the Province of \$3,033 thousand (2021 - \$3,033 thousand) and to WEPC of \$2,675 thousand (2021 - \$2,675 thousand).

Amounts included in revenue at March 31, 2022, of \$3,550 thousand (2021 - \$3,290 thousand) include the management fees charged to each of Columbia Power's power subsidiaries.

Amounts included in expenses at March 31, 2022, of \$4,065 thousand (2021 - \$3,791 thousand) (see note 20 - Other expenses) consist primarily of management services paid to Columbia Basin Trust under the Asset Management Services Agreement and community sponsorships and director stipends paid to the Province. The management services are included in the administration and management expense and total \$3,777 thousand for fiscal 2022 (2021 - \$3,500 thousand). The

COLUMBIA POWER CORPORATION
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2022
(Tabular amounts in thousands)

amount includes staff compensation, office space and overhead costs which are billed to Columbia Power on a cost recovery basis and recovered by Columbia Power from each of its power subsidiaries.

(c) Loans from related party:

At March 31, 2022, and March 31, 2021, Columbia Power has a debenture outstanding payable to the Province. Details of these loans are provided in note 12 – Loans and borrowings. Annual contributions to a sinking fund are required for debt retirement with a contribution in fiscal 2022 of \$5,042 thousand (2021 - \$5,042 thousand).

At March 31, 2022, and March 31, 2021, Columbia Power has a loan outstanding payable to WEPC. Details of this loan is provided in note 13 – Due to Waneta Expansion Power Corporation. Columbia Power is required to make annual contributions to WEPC for debt retirement (see note 23 - Commitments).

Total interest expense associated with the loans from related parties of \$20,658 thousand (2021 - \$20,624 thousand) is included in the "Interest on loans and borrowings" line item in note 19 - Finance costs.

(d) Dividends:

During the year, Columbia Power declared and accrued dividends payable of \$47 million to the Province (2021 – \$47 million) (see note 21 – Dividends payable).

(e) Executive management and board compensation:

(i) Executive management compensation:

Executive management personnel and compensation is provided under the Asset Management Services Agreement. There are no employees of Columbia Power.

(ii) Board compensation:

The board has no remuneration agreements other than the director's fee and remuneration for participating in committee work, nor have any loans or pledges been granted to directors of the board or their family members. Total compensation to the board for the year ended March 31, 2022, was \$51 thousand (March 31, 2021 - \$58 thousand) as follows:

	2022	2021
Retainers	\$ 45	\$ 47
Meeting fees	6	11
	<u>\$ 51</u>	<u>\$ 58</u>

26. COVID-19:

While the financial impacts of the COVID-19 pandemic to the global economy are significant, Columbia Power's business is minimally impacted as revenues are secured by the long-term power sales agreements and power generation is classified as an essential service. Columbia Power has maintained its business operations while ensuring it is meeting public health requirements.
