Omnicom Media Group UK Limited

Strategic Report for the year ended 31 December 2023

The directors present their strategic report for the year ended 31 December 2023.

The purpose of this strategic report is to inform members of the group and help them assess how the directors have performed their duty under section 172 of the Companies Act 2006 (duty to promote the success of the group).

Fair review of the business

Gross billings for the year were £2,106,517,603 (2022: £2,022,160,867), turnover £251,883,403 (2022: £222,328,061) and profit after tax £20,631,976 (2022: £20,685,428). The profit and loss account is shown on page 12.

The key indicators that we review focus on turnover, administrative expenses and operating margin. Our turnover has increased by 13% as a group due to new client wins coupled with an increase in the advertising budgets of existing clients.

As we are a service business, we monitor expenses on a percentage of turnover basis. We measure expenses in two distinct cost categories: staff costs and all other operating expenses. Staff costs are primarily comprised of salaries, social security and employer pension contributions. Other operating expenses are primarily comprised of rent and occupancy costs, technology related costs and depreciation. Staff costs as a percentage of turnover decreased to 44% (2022: 46%), and other administrative costs as a percentage of turnover decreased to 20% (2022: 21%). Our operating margin decreased to 10% (2022: 11%).

The balance sheet continues to be strong with an increase in the value of net assets to £44,060,615 (2022: £43,656,921).

The strict adherence to our credit policies and observance of good working capital management procedures has ensured that we have had minimal amounts of bad debts during the year and we expect this to continue.

We are confident in the group's financial position and future. Accordingly the directors have prepared the financial statements on a going concern basis.

Duty to promote the success of the company

A director of a company must act in the way they consider, in good faith, would be most likely to promote the success of the company for all of the members as a whole. In doing so they should have regard to, amongst other matters, the following:

(a) Decision making and s172 of the Companies Act 2006;

All of Omnicom Media Group's London media agencies continue to be based at one site, in their own distinctive and dedicated spaces across our two buildings. This has provided our agencies with seamless access to all the wider specialist OMG capabilities across data, digital, technology and e-commerce, which continue to be key focus areas for growth. Our people continued to use a hybrid working model during the year, supported by the Company's investments in collaborative tools and systems, and as such, we are still able to seamlessly service both our clients and stakeholders. The health and wellbeing of our people remains paramount and we have reinstated in-person team catch ups and company wide town halls, as well as our people still having the opportunity to attend virtually if chosen.

Omnicom Media Group UK Limited

Strategic Report for the year ended 31 December 2023

(b) the interests of the company's colleagues;

Our employees are our most important asset and our ability to attract and retain key personnel is fundamental to ensuring that we remain competitive. Failure to attract and retain talent could adversely impact upon our ability to provide our services in the manner in which our clients have come to expect. The Board is committed to ensuring that Omnicom Media Group UK is a great place to work. We run a variety of initiatives to support the recruitment and retention of the most talented and diverse workforce, including comprehensive learning and development programs, wellbeing initiatives and the promotion of diversity and inclusion through eight employee lead advisory teams (OMG Multicultural, OMG Women, OMG Minds, OMG LGBTQ+, OMG Disability, OMG Social Mobility, OMG Working Parents and Carers and OMG Age).

(c) the need to foster the company's business relationships with customers;

Retaining existing clients and winning new business depends on our ability to service our clients' needs. Attracting and retaining top talent is paramount to ensuring that we provide our clients with an excellent service. We receive feedback from our clients on an ongoing basis and retaining existing clients and winning new business depends on our ability to service our clients' needs in a constantly evolving environment. Clients periodically review their advertising and marketing requirements and put these up for competitive tender. It is the priority of the Board to ensure that our brands can maintain a competitive advantage by retaining key personnel and maintaining a highly skilled workforce to ensure the highest quality of service for their clients.

(d) the need to foster the company's business relationships with suppliers

The Board recognises the need to foster healthy working relationships with our suppliers as well as our customers. Suppliers keep us up to date with their latest offerings so that we can provide the best recommendations to our clients, enabling them to make better decisions.

(e) the impact of the company's operations on the community and the environment

Omnicom Media Group UK supports our major brands in their contributions to the community, such as OMD's "NSPCC Childhood Day" fundraiser. Environmental initiatives include cycle to work schemes and implementing environmental strategies to increase recycling in the office, as well as local litter picking events. In 2023, we continued to carry out work to reduce our carbon footprint, with continued efforts to improve the energy efficiency of Bankside 2 & 3. For more detail on our environmental strategy, please refer to page 5.

(f) the desirability of the company maintaining a reputation for high standards of business conduct;

Maintaining a reputation for high standards of business conduct is a key priority for Omnicom Media Group UK. Our success doesn't just come from our talent, in our creativity or the work we do. Our success also comes from the way we work and the way we interact with others - with a solid commitment to integrity. Our Code of Business Conduct, which was significantly enhanced in 2018, and has been reviewed and updated where necessary annually thereafter, underscores our commitment to upholding the highest ethical standards. It spells out what we value, what we believe and the policies that Omnicom expects us to all uphold. All staff were required to complete mandatory ethics and business conduct training in 2023 and this is being repeated periodically going forward.

(g) the need to act fairly as between members of the company

Omnicom Media Group UK Limited is a wholly owned subsidiary of Omnicom Media Group Europe Limited. We report our financial performance to Omnicom Media Group Europe on a monthly basis and the management of Omnicom Media Group Europe are consulted on key management decisions at Omnicom Media Group UK Limited.

Omnicom Media Group UK Limited

Strategic Report for the year ended 31 December 2023

Principal risks and uncertainties

The markets in which we participate are highly competitive. Key competitive considerations for keeping existing business and winning new business include our ability to develop creative solutions that meet client needs, the quality and effectiveness of the services we offer and our ability to efficiently service clients. While many of our client relationships are long-standing, companies put their marketing and communications services business up for competitive review from time to time. We have won and lost accounts in the past as a result of these reviews. To the extent that we are not able to remain competitive, our turnover may be adversely effected which could then affect our results and financial condition.

Our employees are our most important assets and our ability to attract and retain key personnel is an important aspect of our competitiveness. If we are unable to attract and retain key personnel, including highly skilled technically proficient personnel, our ability to provide our services in the manner our customers have come to expect may be adversely affected, which could harm our reputation and result in a loss of clients, which could have a material adverse effect on our results and financial position.

Our clients generally are able to reduce advertising and marketing spending or cancel projects at any time on short notice for any reason. It is possible that our clients could reduce spending in comparison to historical patterns, or they could reduce future spending. A significant reduction in advertising and marketing spending by our largest clients, or the loss of several of our largest clients, if not replaced by new clients or an increase in business from existing clients, would adversely affect our turnover and thus affect our results and financial position.

We rely on information technology systems and infrastructure to process transactions, summarise results and manage our business, including maintaining client marketing and advertising information. Our information technology systems are potentially vulnerable to system failures and network disruptions, malicious intrusion and random attack. Likewise, data security incidents and breaches by employees and others with or without permitted access to our systems may pose a risk that sensitive data may be exposed to unauthorised persons or to the public. Additionally, we utilise third parties to store, transfer or process data. While we have taken what we believe are prudent measures to protect our data and information technology systems, there can be no assurance that our efforts will prevent system failures or network disruptions or breaches in our systems, or in systems of third parties we use, that could adversely affect our reputation or business.

Impact of Russia/Ukraine

Omnicom Media Group UK Limited continues to monitor the situation in Ukraine. Although not directly impacted, Omnicom Media Group UK Limited continues to manage our debtors accordingly, as well as our cost base however we are not anticipating any significant areas of concern with regards to this matter.

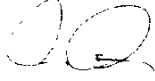

Environmental Strategy

The OMG Green Team continues to be the focus for activities across the Group aimed at optimising environmental sustainability at OMG UK, with the team focussed on quantifying and mitigating emissions as we continue to target reaching net zero omissions by 2030. We remain active in the Advertising Association's Ad Net Zero initiative in its drive to reduce the carbon impact of developing, producing and running advertising to real net zero by the end of the decade and are still a steering group member. As part of this we continue to work to ensure that Bankside is powered by 100% renewable energy by the end of next year and Omnicom has now established a global task force aligned to these objectives. A combination of our role in Ad Net Zero, our work with Bankside's real estate management company Cardinia and the Omnicom global programme on sustainability means we continue to reduce our footprint, including not just how we consume energy in our office, but also in how we travel on business now that business travel is more frequent again, and the environmental impact of advertising activity for our clients.

Omnicom Media Group UK Limited

Strategic Report for the year ended 31 December 2023

Approved and authorised by the Board on 17 December 2024 and signed on its behalf by:

.....
M. Telling
Director

Omnicom Media Group UK Limited

Directors' Report for the year ended 31 December 2023

The directors present their report and the for the year ended 31 December 2023.

Principal activity

The principal activity of the company is to provide independent media planning and buying of advertising space and air time together with offering complimentary specialist marketing services.

Dividends

On 20 December 2023 the directors paid a dividend in respect of the year ended 31 December 2023 of £3,374,126 per share (2022: £3,149,841 per share) totalling £20,244,753 (2022: £18,899,044).

Directors of the group

The directors who held office during the year were as follows:

M. Telling

D. Clays (resigned 1 November 2023)

L. Fenton (appointed 1 November 2023)

Political and charitable donations

During the year the group made political donations of £nil (2022: £nil). Donations to charity amounted to £15,041 (2022: £56,998).

Employment of disabled persons

The group gives full consideration to applications for employment from disabled persons where the candidate's particular aptitudes and abilities are consistent with adequately meeting the requirements of the job. Opportunities are available to disabled employees for training, career development and promotion. Where existing employees become disabled, it is the group's policy to provide continuing employment wherever practicable in the same or an alternative position and to provide appropriate training to achieve this aim.

Environmental report

We have considered the recommendations of the Financial Stability Board's Task Force on Climate-related Financial Disclosures (TCFD) when preparing this report. These recommendations encourage businesses to increase disclosure of climate-related information, with an emphasis on financial disclosure. Omnicom Media Group UK Limited supports these recommendations and are committed to disclosing the relevant information which can be found below.

The company itself consumed less than 40,000 kWh of energy in the UK during the financial year ended 31 December 2023 and so, under the Streamlined Energy and Carbon Reporting Framework implemented by the Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018, is not required to disclose information on energy usage and carbon reporting in these financial statements. Additional information concerning the Group's wider environmental sustainability strategy can be found in the Strategic Report.

Disclosure of information to the auditor

Each director who held office at the date of approval of this directors' report confirms that, so far as they are aware, there is no relevant audit information of which the Company's auditor is unaware; and each director has taken all the steps in order to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information.

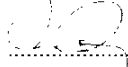

Reappointment of auditor

Pursuant to Section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and KPMG LLP will therefore continue in office.

Omnicom Media Group UK Limited

Statement of Directors' Responsibilities in respect of the Strategic Report, the Directors' Report and the financial statements

The directors are responsible for preparing the Strategic Report, the Directors' Report and the Group and parent Company financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the Group and parent Company financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and parent Company and of the profit or loss of the Group and parent Company for that period. In preparing each of the Group and parent Company financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Group and parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Group or the parent Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent Company's transactions and disclose with reasonable accuracy at any time the financial position of the parent Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Independent Auditor's Report to the Members of Omnicom Media Group UK Limited

Opinion

We have audited the financial statements of Omnicom Media Group Limited ("the Company") for the year ended 31 December 2023 which comprise the Consolidated Profit and Loss account, Consolidated Statement of Comprehensive Income, Consolidated Balance Sheet, Company Balance Sheet, Consolidated Statement of Changes in Equity, Company Statement of Changes in Equity, Consolidated Statement of Cash Flows and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the Group's and of the parent Company's affairs as at 31 December 2023 and of the Group's profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Group in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Group or the Company or to cease their operations, and as they have concluded that the Group and the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the Group's business model and analysed how those risks might affect the Group and Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Group or the Company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Group or the Company will continue in operation.

Independent Auditor's Report to the Members of Omnicom Media Group UK Limited

Fraud and breaches of laws and regulations - ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud ("fraud risks") we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors as to the Company's high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Reading Board minutes.
- Considering remuneration incentives schemes and performance targets for management, directors and staff.
- Using analytical procedures to identify any unusual or unexpected relationships.

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit.

As required by auditing standards, we perform procedures to address the risk of management override of controls and the risk of fraudulent revenue recognition, in particular:

- the risk that certain complex revenue streams are recorded in the wrong period and the risk that management may be in a position to make inappropriate accounting entries; and
- the risk of bias in accounting estimates and judgements such as the accrual of unbilled revenue at year-end.

We did not identify any additional fraud risks.

We performed procedures including:

- Identifying journal entries and other adjustments to test based on risk criteria and comparing the identified entries and supporting documentation. These included those posted with a credit to revenue against an unexpected account pairing.
- Assessing whether the judgements made in making accounting estimates are indicative of a potential bias.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience and through discussion with the directors and other management (as required by auditing standards), and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations.

We communicated identified laws and regulations throughout our team and remained alert to any indications of non-appliance throughout the audit.

The potential effect of these laws and regulations on the financial statement varies considerably.

Firstly, the Group is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation, and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of the procedures on the related financial statement items.

Independent Auditor's Report to the Members of Omnicom Media Group UK Limited

Secondly, the Group is subject to many other laws and regulations, where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: data protection laws, anti-bribery and employment law. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law and regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as fraud may involve collusion, forgery, intentional omissions misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations

Strategic Report and Directors' Report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006, we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent Company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to take advantage of the small companies exemption from the requirement to prepare a strategic report.

We have nothing to report in these respects.

Independent Auditor's Report to the Members of Omnicom Media Group UK Limited

Directors' responsibilities

As explained more fully in their statement set out on page 7, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Group and parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Group or the parent Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

1 Accounting policies

Statement of compliance

These financial statements were prepared in accordance with Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. The following accounting policies have been applied consistently in dealing with items which are considered to be material in relation to the Company's financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

Omnicom Media Group UK Limited (the "Company") is a private company incorporated, domiciled and registered in England and Wales in the UK. The registered number is 04431736 and the registered address is Bankside 3, 90-100 Southwark Street, London, England, SE1 0SW.

The financial statements are presented in sterling the Company's functional currency.

Under Section 408 of the Companies Act 2006 the Company is exempt from the requirement to present its own profit and loss account.

Summary of disclosure exemptions

In these financial statements, the company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures for the parent company financial statements only:

- Reconciliation of the number of shares outstanding from the beginning to end of the period;
- Cash Flow Statement and related notes; and
- Key Management Personnel compensation.

As the consolidated financial statements of Omnicom Group Inc. include the equivalent disclosures, the Company has also taken the exemptions under FRS 102 available in respect of the following disclosures:

- Certain disclosures required by FRS 102.26 Share Based Payments; and,
- The disclosures required by FRS 102.11 Basic Financial Instruments and FRS 102.12 Other Financial Instrument Issues in respect of financial instruments not falling within the fair value accounting rules of Paragraph 36(4) of Schedule 1.

Related party transactions: As a 100% owned subsidiary of Omnicom Group Inc. the Company has taken advantage of the exemption available under FRS 102 Section 33. 1A: Related Party Disclosures, which enable it to exclude disclosure of transactions with Omnicom Group Inc., and its wholly owned subsidiaries.

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

1 Accounting policies (continued)

Basis of consolidation

The consolidated financial statements consolidate the financial statements of the company and its subsidiary undertakings drawn up to 31 December 2023.

A subsidiary is an entity controlled by the company. Control is achieved where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the Profit and Loss Account from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the group.

The purchase method of accounting is used to account for business combinations that result in the acquisition of subsidiaries by the group. The cost of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the business combination. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Any excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised is recorded as goodwill.

Inter-company transactions, balances and unrealised gains on transactions between the company and its subsidiaries, which are related parties, are eliminated in full.

Intra-group losses are also eliminated but may indicate an impairment that requires recognition in the consolidated financial statements.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group. Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the group's equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and the non-controlling shareholder's share of changes in equity since the date of the combination.

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

1 Accounting policies (continued)

Going concern

The financial statements have been prepared on a going concern basis, which assumes the group will be able to meet its liabilities as they fall due, for the foreseeable future. The Directors have concluded that it is appropriate to adopt the going concern basis, having undertaken an assessment of the financial forecasts for the 12 month period after the approval of these financial statements,

The group has net current assets of £44,673,100 at 31 December 2023 (2022: net current assets of £43,608,108).

The directors have made a going concern assessment which covers a period of at least 12 months from the date of approval of these financial statements, taking into account of severe but plausible scenarios (including Ukraine war, supply chain issues, inflation/cost of living increase, increase in foreign exchange, increased interest rates and associated loss of revenue/increase in costs), that indicates the group will have sufficient funds to meet its liabilities as they fall due throughout that period, via the group facilities described above. The directors have prudently considered recent devaluation of the Pound Sterling against US Dollar and recent recovery, although the foreign exchange rate continues to be volatile. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

The group participates in a cash concentration arrangement with its fellow subsidiaries, Omnicom Finance Limited, Omnicom Financial Services Limited, and the group's UK treasury operations, under which bank balances are cleared to zero on a daily basis either by the company depositing cash with Omnicom Finance Limited or Omnicom Financial Services Limited or by Omnicom Finance Limited or Omnicom Financial Services Limited depositing cash with the group. The group's access to borrowings under the cash concentration arrangement is not limited as long as these borrowings are required in the normal course of business and are made in accordance with the Omnicom Group Inc Grant of Authority and includes a period of at least 12 months from the date of approval of these financial statements.

Omnicom Finance Limited, is able to make this commitment because Omnicom Finance Limited is a co-borrower with Omnicom Finance Inc. and Omnicom Capital Inc. under certain group bank facilities which are more fully described in the Omnicom Group Inc. financial statements filed on Form 10-K and available at www.OmnicomGroup.com.

The directors consider the group facilities and expected funding requirements of the Omnicom Media Group Inc. and its subsidiaries provides sufficient access to funding to ensure that the Group is able to meet its liabilities as they fall due for the foreseeable future being 12 months from the date of signing of these accounts. Accordingly, the directors have prepared the financial statements as a going concern.

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Gross billings

Gross billings are recognised when the service is performed, in accordance with the terms and conditions of the contractual arrangement and when collection is reasonably assured.

Gross billings comprises amounts billed to clients in respect of commission based income together with the total of other fees earned and amounts recharged to clients for rebillable costs.

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

1 Accounting policies (continued)

Rebillable costs

Rebillable costs comprise media payments and third party production costs for those services that the Company is arranging for its clients in its capacity as an intermediary. The Company contracts directly with suppliers and is responsible for their payment, recharging its clients for all costs incurred.

Although the Company bears credit risk in respect of these activities, the arrangements with its clients are such that, in effect it acts as an intermediary on behalf of its client. Where the Company acts as an intermediary, costs incurred with external suppliers are excluded from turnover.

Turnover

Consequently, turnover comprises fees and commissions earned in respect of gross billings and direct costs, which meet the Companies Act definition of turnover. Turnover is recognised when services are performed, in accordance with the terms of arrangements reached with each client. Turnover is stated exclusive of VAT, sales taxation and trade discounts. Substantially all income occurs in the UK.

Foreign currency transactions and balances

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

Foreign exchange movements that arise on consolidation of foreign operations are recognised in the Statement of Comprehensive Income.

Tax

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. The following timing differences are not provided for: differences between accumulated depreciation and tax allowances for the cost of a fixed asset if and when all conditions for retaining the tax allowances have been met; and differences relating to investments in subsidiaries, to the extent that it is not probable that they will reverse in the foreseeable future and the reporting entity is able to control the reversal of the timing difference.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date. Deferred tax balances are not discounted.

Fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Leasehold improvements	Life of lease
Furniture, fittings, tools and equipment	3 years
Office equipment	3 years

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

1 Accounting policies (continued)

Intangible assets

Other intangible assets that are acquired by the Company are stated at cost less accumulated amortisation and less accumulated impairment losses.

Amortisation

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life as follows:

Asset class	Amortisation method and rate
Software	5 years

Fixed asset investments

Investments in equity shares which are not publicly traded and where fair value cannot be measured reliably are measured at cost less impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Trade debtors

Trade debtors are amounts due from customers for services performed in the ordinary course of business.

Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the group does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Provisions

Provisions are recognised when the group has an obligation at the reporting date as a result of a past event, it is probable that the group will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments.

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

1 Accounting policies (continued)

Dividends

Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

Defined contribution pension obligation

The Company operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the Company in independently administered funds. The amounts charged against the profit and loss account represent the contributions payable to the scheme in respect of the accounting period.

Financial instruments

Classification

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.

Impairment

Financial assets (including trade and other debtors) not carried at fair value through profit or loss are assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. For financial instruments measured at cost less impairment, an impairment is calculated as the difference between its carrying amount and the best estimate of the amount that the Company would receive for the asset if it were to be sold at the reporting date. Interest on the impaired asset continues to be recognised through the unwinding of the discount. Impairment losses are recognised in profit or loss. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

1 Accounting policies (continued)

Non-financial assets

The carrying amounts of the Company's non-financial assets, other than investment property and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit"). The goodwill acquired in a business combination, for the purpose of impairment testing is allocated to cash-generating units, or ("CGU") that are expected to benefit from the synergies of the combination. For the purpose of goodwill impairment testing, if goodwill cannot be allocated to individual CGUs or groups of CGUs on a non-arbitrary basis, the impairment of goodwill is determined using the recoverable amount of the acquired entity in its entirety, or if it has been integrated then the entire entity into which it has been integrated.

An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to the units, and then to reduce the carrying amounts of the other assets in the unit (group of units) on a pro rata basis.

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

2 Turnover

The whole of the Company's gross billings and turnover for the year related to its principal activity which was that of media planning and buying, and which was carried out in the following locations:

	2023	2022
	£	£
UK	244,690,896	216,193,497
Europe	5,489,572	5,286,295
Rest of world	1,702,935	1,892,579
	251,883,403	222,328,061

3 Operating profit

Arrived at after charging/(crediting)

	2023	2022
	£	£
Depreciation and other amounts written off tangible fixed assets: owned	604,140	628,660
Amortisation of software	81,669	326,676
Foreign exchange gains/(losses)	(66,809)	420,522
Hire of plant and machinery - rentals payable under operating leases	(6,681)	23,756
Hire of other assets - rentals payable under operating leases	11,645,463	11,505,417
Rental income	(342,781)	(370,757)

4 Auditor's remuneration

	2023	2022
	£	£
Audit of these financial statements	185,000	180,600

The above figure includes both the Group Reporting Fee of £119,700 (2022: £116,850) and the Statutory Audit Fee of £65,300 (2022: £63,750).

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

5 Directors' remuneration

	2023	2022
	£	£
Directors' emoluments	1,266,462	1,236,213
Company contributions to money purchase pension schemes	7,000	4,000
	1,273,462	1,240,213

During the year the number of directors who were receiving benefits and share incentives was as follows:

	2023	2022
	No.	No.
Received or were entitled to receive shares under long term incentive schemes	3	2
Accruing benefits under money purchase pension scheme	3	2

In respect of the highest paid director:

	2023	2022
	£	£
Remuneration	640,688	719,519
Company contributions to money purchase pension schemes	6,000	4,000

The Company's directors participate in the restricted stock scheme operated by the Ultimate Parent Undertaking. Shares were received or receivable under this restricted share scheme by 3 directors (2022: 2)

Under this scheme, certain directors have been awarded restricted shares in the ultimate parent undertaking, Omnicom Group Inc. The restricted shares typically vest in 20% annual increments provided the director remains an employee of the Omnicom group. Restricted shares may not be sold, transferred, pledged or otherwise encumbered until the restrictions lapse. Under most circumstances, the director forfeits the shares still subject to restriction, if the director ceases employment prior to the end of the period of restriction.

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

6 Staff costs

The aggregate payroll costs (including directors' remuneration) were as follows:

	2023	2022
	£	£
Wages and salaries	95,566,451	87,177,605
Share related awards	192,087	88,818
Social security costs	11,572,888	10,635,616
Pension and other post-employment benefit costs	4,090,740	3,726,187
	<u>111,422,166</u>	<u>101,628,226</u>

The average number of persons employed by the group (including directors) during the year, analysed by category was as follows:

	2023	2022
	No.	No.
Administration and support	144	115
Sales	1,474	1,395
Marketing	37	35
	<u>1,655</u>	<u>1,545</u>

7 Other interest receivable and similar income

	2023	2022
	£	£
Receivable from group undertakings	<u>3,254,448</u>	<u>1,943,124</u>

8 Interest payable and similar expenses

	2023	2022
	£	£
Payable to group undertakings	964,763	271,766
Other interest payable	100,000	29,620
Finance charges payable in respect of finance leases and hire purchase contracts	35,210	36,104
	<u>1,099,973</u>	<u>337,490</u>

Omnicom Media Group UK Limited

Notes to the Financial Statements for the year ended 31 December 2023

9 Taxation

Tax charged in the profit and loss account

	2023	2022
	£	£
Current taxation		
Current tax on income for the period	6,606,469	4,840,650
Adjustments in respect of previous periods	-	72,850
	<u>6,606,469</u>	<u>4,913,500</u>
Deferred taxation		
Origination and reversal of timing differences	(187,020)	114,724
Effect of increased/decreased tax rate on opening liability	(11,938)	(35,256)
Adjustment in respect of previous periods	-	121,927
Total deferred taxation	<u>(198,958)</u>	<u>201,395</u>
Tax expense in the profit and loss account	<u>6,407,511</u>	<u>5,114,895</u>

The tax on profit before tax for the year is higher than the standard rate of corporation tax in the UK (2022 - higher than the standard rate of corporation tax in the UK) at the 2023 blended rate of 23.5% (2022 - 19%).

The differences are reconciled on the next page.

	2023	2022
	£	£
Profit before tax	<u>27,039,487</u>	<u>25,800,323</u>
Corporation tax at standard rate	6,354,279	4,902,061
Effect of expense not deductible in determining taxable profit (tax loss)	65,170	53,313
Deferred tax credit relating to changes in tax rates or laws	(11,938)	(35,256)
Deferred tax expense from unrecognised temporary difference from a prior period	-	121,927
Increase in UK and foreign current tax from adjustment for prior periods	<u>-</u>	<u>72,850</u>
Total tax charge	<u>6,407,511</u>	<u>5,114,895</u>

A UK corporation tax rate of 25% (effective 1 April 2023) was substantively enacted on 24 May 2021. This will increase the company's future current tax charge accordingly. The deferred tax asset at 31 December 2023 has been calculated at 25% (2022: 25%).

FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K contains forward-looking statements, including statements within the meaning of the Private Securities Litigation Reform Act of 1995. In addition, from time to time, the Company or its representatives have made, or may make, forward-looking statements, orally or in writing. These statements may discuss goals, intentions and expectations as to future plans, trends, events, results of operations or financial position, or otherwise, based on current beliefs of the Company's management as well as assumptions made by, and information currently available to, the Company's management. Forward-looking statements may be accompanied by words such as "aim," "anticipate," "believe," "plan," "could," "should," "would," "estimate," "expect," "forecast," "future," "guidance," "intend," "may," "will," "possible," "potential," "predict," "project" or similar words, phrases or expressions. These forward-looking statements are subject to various risks and uncertainties, many of which are outside the Company's control. Therefore, you should not place undue reliance on such statements. Factors that could cause actual results to differ materially from those in the forward-looking statements include:

- adverse economic conditions, including those caused by geopolitical events, international hostilities, acts of terrorism, public health crises, high and sustained inflation in countries that comprise our major markets, high interest rates, and labor and supply chain issues affecting the distribution of our clients' products;
- international, national or local economic conditions that could adversely affect the Company or its clients;
- losses on media purchases and production costs incurred on behalf of clients;
- reductions in client spending, a slowdown in client payments and a deterioration or disruption in the credit markets;
- the ability to attract new clients and retain existing clients in the manner anticipated;
- changes in client advertising, marketing and corporate communications requirements;
- failure to manage potential conflicts of interest between or among clients;
- unanticipated changes related to competitive factors in the advertising, marketing and corporate communications industries;
- unanticipated changes to, or the ability to hire and retain key personnel;
- currency exchange rate fluctuations;
- reliance on information technology systems and risks related to cybersecurity incidents;
- effective management of the risks, challenges and efficiencies presented by utilizing Artificial Intelligence (AI) technologies and related partnerships in our business;
- changes in legislation or governmental regulations affecting the Company or its clients;
- risks associated with assumptions the Company makes in connection with its acquisitions, critical accounting estimates and legal proceedings;
- the Company's international operations, which are subject to the risks of currency repatriation restrictions, social or political conditions and an evolving regulatory environment in high-growth markets and developing countries; and
- risks related to our environmental, social and governance goals and initiatives, including impacts from regulators and other stakeholders, and the impact of factors outside of our control on such goals and initiatives.

The foregoing list of factors is not exhaustive. You should carefully consider the foregoing factors and the other risks and uncertainties that may affect the Company's business, including those described in Item 1A, "Risk Factors" and Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this report and in other documents filed from time to time with the Securities and Exchange Commission. Except as required under applicable law, the Company does not assume any obligation to update these forward-looking statements.

PART I

Introduction

This report is our 2023 annual report to shareholders and our 2023 Annual Report on Form 10-K, or 2023 Form 10-K.

Omnicom Group Inc., a New York corporation formed in 1986, through its branded networks, practice areas, and agencies provides advertising, marketing and corporate communications services to over 5,000 clients in more than 70 countries. The terms “Omnicom,” “the Company,” “we,” “our” and “us” each refer to Omnicom Group Inc. and its subsidiaries unless the context indicates otherwise.

Item 1. Business

Our Business

Omnicom is a strategic holding company providing advertising, marketing and corporate communications services to many of the largest global companies. Our portfolio of companies includes our global networks, BBDO, DDB, TBWA, Omnicom Media Group, the DAS Group of Companies, and the Communications Consultancy Network. All of our global networks integrate their service offerings with the Omnicom branded practice areas, including Omnicom Health Group, Omnicom Precision Marketing Group, Omnicom Commerce Group, Omnicom Advertising Collective, Omnicom Public Relations Group, and Omnicom Brand Consulting Group, as well as our Experiential businesses and Execution & Support businesses, which includes Omnicom Specialty Marketing Group.

We operate in a highly competitive industry and compete against other global, national and regional advertising and marketing services companies, as well as technology, social media and professional services companies. The proliferation of media channels, including the rapid development and integration of interactive technologies and media, has fragmented consumer audiences targeted by our clients. These developments make it more complex for marketers to reach their target audiences in a cost-effective way, causing them to turn to global service providers such as Omnicom for a customized mix of advertising and marketing services designed to optimize their total marketing expenditure.

On a global, pan-regional, and local basis, our networks, practice areas, and agencies provide a comprehensive range of services in the following fundamental disciplines: Advertising & Media, Precision Marketing, Commerce & Branding, Experiential, Execution & Support, Public Relations, and Healthcare. Advertising & Media includes creative services across digital and traditional media, strategic media planning and buying, performance media, and data analytics services. Precision Marketing includes digital and direct marketing, digital transformation consulting and data and analytics. Commerce & Branding services include brand and product consulting, strategy and research, retail, and e-commerce. Experiential marketing services include live and digital events and experience design and execution. Execution & Support includes field marketing, digital and physical merchandising, point-of-sale, product placement, as well as other specialized marketing and custom communications services. Public Relations services include corporate communications, crisis management, public affairs, and media and media relations services. Healthcare includes corporate communications and advertising and media services to global healthcare and pharmaceutical companies. As a leading global advertising, marketing and corporate communications company, we operate in all major markets and have a large client base. Our geographic markets include the Americas, which includes North America and Latin America, Europe, the Middle East and Africa (EMEA), and Asia-Pacific.

Our business model was built and continues to evolve around our clients. While our networks, practice areas and agencies operate under different names and frame their ideas in different disciplines, we organize our services around our clients. Our fundamental business principle is that our clients’ specific marketing requirements are the central focus of how we structure our service offerings and allocate our resources. This client-centric business model requires that multiple agencies within Omnicom collaborate in formal and informal virtual client networks utilizing our key client matrix organization structure. This collaboration allows us to cut across our internal organizational structures to execute our clients’ marketing requirements in a consistent and comprehensive manner. We use our client-centric approach to grow our business by expanding our service offerings to existing clients, moving into new markets and obtaining new clients. In addition, we pursue selective acquisitions of complementary companies with strong entrepreneurial management teams that currently serve or could serve our existing clients. In addition to collaborating through our client service models, our agencies, practice areas and networks collaborate across internally developed technology platforms. Annalect and Omni, our proprietary data and analytics platforms, serve as the strategic resource for all of our agencies, practice areas and networks to share when developing client service strategies across our virtual networks. These platforms provide precision marketing and insights at scale across creative, media and other disciplines.

We believe generative AI will have a significant effect on how we provide services to our clients and how we enhance the productivity of our people. As with any new technology, we are working closely with our clients and technology partners to take advantage of the benefits of AI while being mindful of its limitations, risks, and privacy concerns. We are committed

to responsible AI practices and collaboration to harness AI's potential, while evaluating related risks, such as ethical considerations, public perception and reputational concerns, intellectual property protection, regulatory compliance, privacy and data security concerns and our ability to effectively adopt this new emerging technology. The rapidly developing nature of AI technology makes it difficult to assess the full impact on our business at this time.

Driven by our clients' continuous demand for more effective and efficient marketing activities, we strive to provide an extensive range of advertising, marketing and corporate communications services through various client-centric networks that are organized to meet specific client objectives.

Our service offerings include:

advertising	marketing research
branding	media planning and buying
content marketing	retail media planning and buying
corporate social responsibility consulting	merchandising and point of sale
crisis communications	mobile marketing
custom publishing	multi-cultural marketing
data analytics	non-profit marketing
database management	organizational communications

investor relations	sports and event marketing

Certain business trends have impacted our business and industry. These trends include clients increasingly expanding the focus of their brand strategies from national markets to pan-regional and global markets and integrating traditional and non-traditional marketing channels, as well as utilizing new communications technologies and emerging digital platforms. As clients increase their demands for marketing effectiveness and efficiency, they tend to continue to consolidate their business within one or a small number of service providers in the pursuit of a single engagement covering all consumer touch points. We have structured our business around these trends. We believe that our key client matrix organization structure approach to collaboration and integration of our services and solutions have provided a competitive advantage to our business in the past and we expect this to continue over the medium and long term. Our key client matrix organization structure facilitates superior client management and allows for greater integration across our service platforms. Our overarching strategy is to continue to use our virtual client networks to grow our business relationships with our largest clients by serving them across our networks, disciplines and geographies.

We continually evaluate our portfolio of businesses to identify areas for investment and acquisition opportunities, as well as to identify non-strategic or underperforming businesses for disposition. For information about our acquisitions and dispositions, see Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, or MD&A, - *Acquisitions and Goodwill* and Notes 5, 14 and 15 to the consolidated financial statements. In each of the three years ended December 31, 2023, none of our acquisitions or dispositions, individually or in the aggregate, were material to our results of operations or financial position.

As described in Note 5 to the consolidated financial statements, on January 2, 2024, we acquired Flywheel Digital, the digital commerce business of Ascential plc, for a net cash purchase price of approximately \$845 million. Flywheel Digital provides services in e-commerce operations, media execution, and market intelligence. These services are complemented by a technology platform, which provides near real-time insights to clients. We expect Flywheel Digital to be a separate practice area within Omnicom, and we expect to integrate their services across our Advertising & Media, Precision Marketing and Commerce & Branding disciplines.

The various components of our business, including revenue by discipline and geographic area, and material factors that affected us in the three years ended December 31, 2023, are discussed in the MD&A.

Our Clients

Our clients operate in virtually every sector of the global economy. In many cases, multiple agencies, practice areas or networks serve different brands, product groups or both within the same client. For example, in 2023, our largest client represented 3.0% of revenue and was served by approximately 150 of our agencies. Our 100 largest clients, many of which represent the largest global companies, represented approximately 55% of revenue and were each served, on average, by approximately 55 of our agencies. Although we have a large and diverse client base, we are not immune to general economic downturns.

Government Regulations

We are subject to various local, state and federal laws and regulations in the countries in which we conduct business. Compliance with these laws and regulations in the normal course of business did not have a material effect on our business, results of operations or financial position. Additional information regarding the impact of government regulations on our business is included in Item 1A. Risk Factors - *Legal and Regulatory Risks*.

Human Capital Resources and Environmental Sustainability Initiatives

Our employees are our most important assets. We believe a critical component of our success depends on the ability to attract, develop and retain key personnel. The skill sets of our workforce across our agencies and within each discipline share many similarities. Common to all is the ability to understand a client's brand or product and its selling proposition and to develop a unique message to communicate the value of the brand or product to the client's target audience, whether through traditional channels or digital platforms. Recognizing the importance of this core competency, we support and develop our employees through training and development programs that build and strengthen employees' leadership and professional skills.

Human capital management strategies are developed collectively by senior management, including the management teams of our networks, practice areas, and agencies, and are overseen by our Board of Directors. We are committed to efforts that ensure that the workplace is equitable, ethical, fosters an inclusive work environment across our global workforce and respects human rights. Our social and human capital management priorities include, among other things, adopting codes of conduct and business ethics, providing competitive wages and benefits, comprehensive training programs, succession planning, promoting diversity and inclusion and implementing programs that foster the achievement of systemic equity throughout our organization.

At December 31, 2023, we employed approximately 75,900 people worldwide, including 31,200 people in the Americas, 27,400 people in EMEA, and 17,300 people in Asia-Pacific. The United States is our largest employee base, where we employed approximately 24,700 people. None of our regular employees in the United States are represented by a labor union. In certain countries outside the United States, primarily in Europe, some employees are represented by work councils. See the MD&A for a discussion of the effect of salary and related costs on our results of operations.

Our environmental sustainability initiatives focus on emissions reductions through efficiency of office space, energy usage, travel and vendor engagement. In connection with our environmental sustainability efforts, we are a signatory to the UN Global Compact, a principle-based framework to encourage businesses and firms worldwide to adopt sustainable and socially responsible policies. We support the UN Sustainable Development Goals, a collection of global goals designed to be a blueprint to achieve a better, more inclusive and sustainable future. Our emissions reductions strategy, in line with the 1.5 degree Celsius climate scenario, was submitted to and approved by the Science Based Target initiative (SBTi), which publicly audits companies on their emissions reduction efforts.

Information About Our Executive Officers

At February 1, 2024, our executive officers were:

<u>Name</u>	<u>Position</u>	<u>Age</u>
John D. Wren	Chairman of the Board and Chief Executive Officer	71
Daryl Simm	President and Chief Operating Officer	62
Philip J. Angelastro	Executive Vice President and Chief Financial Officer	59
Andrew L. Castellaneta	Senior Vice President, Chief Accounting Officer	65
Louis F. Januzzi	Senior Vice President, General Counsel and Secretary	50
Rochelle M. Tarlowe	Senior Vice President and Treasurer	53
Jonathan B. Nelson	CEO, Omnicom Digital	56

Mr. Simm was named President and Chief Operating Officer in November 2021 and previously served as Chief Executive Officer of Omnicom Media Group for more than 20 years. Mr. Januzzi was named Senior Vice President, General Counsel and Secretary in December 2022 and previously served as Senior Vice President & Deputy General Counsel - Corporate from

May 2021 to December 2022 and as Associate General Counsel - Corporate Development & Finance from March 2016 to May 2021. Ms. Tarlowe was named Senior Vice President and Treasurer in May 2019 and previously served as Senior Vice President and Treasurer of Avis Budget Group from 2007 until April 2019. All other executive officers have held their present positions for at least five years. Additional information about our directors and executive officers will appear in our definitive proxy statement, which is expected to be filed with the United States Securities and Exchange Commission, or SEC, in March 2024.

Available Information

We file annual, quarterly and current reports and any amendments to those reports, proxy statements and other information with the SEC. Documents we file with the SEC are available free of charge on our website at <http://investor.omnicomgroup.com>, as soon as reasonably practicable after such material is filed with the SEC. Any document we file with the SEC is available on the SEC's website at www.sec.gov. The information included on or available through our website is not part of this or any other report we file with the SEC.

Item 1A. Risk Factors

Economic Risks

Adverse economic conditions, a reduction in client spending, a deterioration in the credit markets or a delay in client payments could have a material effect on our business, results of operations and financial position.

Macroeconomic conditions have a direct impact on our business, results of operations and financial position. Adverse economic conditions, including high and sustained inflation, rising interest rates, supply chain issues affecting the distribution of our clients' products, or a disruption in the credit markets, pose a risk that clients may reduce, postpone or cancel spending on advertising, marketing and corporate communications projects. Such actions would reduce the demand for our services and could result in a reduction in our revenue, which would adversely affect our business, results of operations and financial position. A contraction or disruption in the credit markets may make it more difficult for us to meet our working capital requirements or refinance maturing debt, or negatively impact our clients' liquidity that could cause them to delay payment or take other actions that would negatively affect our working capital. In such circumstances, we may need to obtain additional financing to fund our day-to-day working capital requirements, which may not be available on favorable terms, or at all. Even if we take action to respond to adverse economic conditions, reductions in revenue and disruptions in the credit markets by aligning our cost structure and more efficiently managing our working capital, such actions may not be effective.

A period of sustained inflation across all the major markets in which we operate could result in higher operating costs.

Our principal operating expenses are salary and service costs and occupancy and related costs. Inflationary pressures typically result in increases to our operating expenses. In cases of sustained inflation across several of our major markets, it may become increasingly difficult to effectively control increases to our costs. In addition, the effects of inflation on consumers budgets could result in the reduction of our clients' spending plans on the advertising, marketing and communication services we provide. If we are unable to increase our fees or take other actions to mitigate the effect of the resulting higher costs, our business, results of operations and financial position could be negatively impacted.

In an economic downturn, the risk of a material loss related to media purchases and production costs incurred on behalf of our clients could significantly increase, and methods for managing or mitigating such risk may be less available or unavailable.

In the normal course of business, our agencies enter into contractual commitments with media providers and production companies on behalf of our clients at levels that can substantially exceed the revenue from our services. These commitments are included in accounts payable when the services are delivered by the media providers or production companies. If permitted by local law and the client agreement, many of our agencies purchase media and production services for our clients as an agent for a disclosed principal. In addition, while operating practices vary by country, media type and media vendor, in the United States and certain foreign markets, many of our agencies' contracts with media and production providers specify that our agencies are not liable to the media and production providers under the theory of sequential liability until and to the extent we have been paid by our client for the media or production services.

Where purchases of media and production services are made by our agencies as a principal or are not subject to the theory of sequential liability, the risk of a material loss as a result of payment default by our clients could increase significantly, and such a loss could have a material adverse effect on our business, results of operations and financial position.

While we use various methods to manage the risk of payment default, including obtaining credit insurance, requiring payment in advance, mitigating the potential loss in the marketplace or negotiating with media providers, these may be insufficient, less available, or unavailable during a severe economic downturn.

Geopolitical events, international hostilities or acts of terrorism could have a material adverse effect on our business, results of operations and financial position.

Current or future geopolitical events, international hostilities or acts of terrorism could impact global economies through, among other things, disruption of business operations and demand for client services, disruption in the credit markets, heightened risk of cybersecurity attacks and disruptions to our information technology infrastructure, increased energy costs and labor and supply chain disruptions. This could result in suspension of our, or our clients' businesses in the affected region, which could impact client spending on our services. These actions could have a significant and adverse impact on our business, results of operations and financial position in the future. For example, as a result of the war in Ukraine, in the first quarter of 2022, we suspended our business operations in Ukraine and disposed of all our businesses in Russia. In addition, economic sanctions were imposed on Russia by the United States, United Kingdom, and the European Union. The war in Ukraine is ongoing, and its duration is uncertain. We cannot predict the impact of the war in Ukraine or other international hostilities on our businesses and operations.

Global public health crises or pandemics, such as the COVID-19 pandemic, or other similar health crises could adversely impact our business, results of operations and financial position.

When a public health crisis arises, demand for certain of our services may be adversely affected by government measures, including restrictions on travel and business operations and quarantine and stay-at-home orders arising from the occurrence of a pandemic, or similar global public health crises. The extent of the impact on our business will depend on numerous factors that we are not able to accurately predict, including the geographic regions that may be affected.

Business and Operational Risks

Clients periodically review and change their advertising, marketing and corporate communications requirements and relationships. If we are unable to remain competitive or retain key clients, our business, results of operations and financial position may be adversely affected.

We operate in a highly competitive industry. Key competitive considerations for retaining existing clients and winning new clients include our ability to develop solutions that meet client needs in a rapidly changing environment, the quality and effectiveness of our services and our ability to serve clients efficiently, particularly large multinational clients, on a broad geographic basis. From time to time, clients may put their advertising, marketing and corporate communications business up for competitive review. We have won and lost accounts as a result of these reviews. To the extent that we are not able to remain competitive or retain key clients, our revenue may be adversely affected, which could have a material adverse effect on our business, results of operations and financial position.

Acquiring new clients and retaining existing clients depends on our ability to avoid and manage conflicts of interest arising from other client relationships, retaining key personnel and maintaining a highly skilled workforce.

Our ability to acquire new clients and retain existing clients may, in some cases, be limited by clients' perceptions of, or policies concerning, conflicts of interest arising from our other client relationships. If we are unable to maintain multiple agencies to manage multiple client relationships and avoid potential conflicts of interests, our business, results of operations and financial position may be adversely affected.

As a service business, our ability to attract and retain key personnel is an important aspect of our competitiveness. If we are unable to attract and retain key personnel, our ability to provide our services in the manner clients have come to expect may be adversely affected, which could harm our reputation and result in a loss of clients, which could have a material adverse effect on our business, results of operations and financial position.

The loss of several of our largest clients could have a material adverse effect on our business, results of operations and financial position.

In 2023, our 100 largest clients represented approximately 55% of our revenue. Clients generally are able to reduce or cancel current or future spending on advertising, marketing and corporate communications projects at any time on short notice for any reason. A significant reduction in spending on our services by our largest clients, or the loss of several of our largest clients, if not replaced by new clients or an increase in business from existing clients, would adversely affect our revenue and could have a material adverse effect on our business, results of operations and financial position.

We rely extensively on information technology systems, and cybersecurity incidents could adversely affect us.

We rely on our own and third-party service providers' information technology systems and infrastructure to connect with our clients, people and others, and to collect, store, transfer, process and use business, personal and financial data. We face cybersecurity risks that threaten the confidentiality, integrity and availability of our information technology systems or

data stored on such systems. Additionally, hardware, software applications or services that we develop or procure from third parties may contain defects in design or manufacture or other problems that could compromise the confidentiality, integrity or availability of our information technology systems or data stored on such systems.

Cybersecurity threats and attacks, including computer viruses, advanced persistent threats, malware, hacking, ransomware or other destructive or disruptive activities or software, are constantly evolving and pose a risk to our information technology systems and data. There can be no assurance that our cybersecurity risk management program and processes will be fully implemented, complied with or effective in detecting and preventing such threats or protecting our information technology systems or data. Security breaches, improper use of our systems and unauthorized access to our data and information by employees and others may pose a risk that data may be exposed to unauthorized persons. Such occurrences could adversely affect our business, results of operations, financial position and reputation and could result in litigation or regulatory action, as discussed below.

In addition, we make extensive use of third-party service providers, including cloud providers, that store, transmit and process data. These third-party service providers are also subject to malicious attacks and cybersecurity threats that could adversely affect our business, results of operations, financial condition and reputation and could result in litigation or regulatory action, as discussed below.

Currently, many of our agencies operate in a flexible working environment that allows for partial remote work. The number of personnel working remotely varies by market and is dependent on local conditions. When our employees work remotely, the risk of cybersecurity incidents and attacks and unauthorized exposure of sensitive business and client advertising and marketing information, as well as personal data or information, increases.

We and certain of our third-party providers regularly experience cyberattacks and other incidents, and we expect such attacks and incidents to continue. For example, we have experienced cybersecurity incidents that resulted in the disruption of our information technology systems and required us to engage third parties to remediate the issues. While to date no incidents have had a material impact on our operations or financial results, we cannot guarantee that material incidents will not occur in the future. Any attack or incident could result in legal claims or proceedings (such as class actions), regulatory investigations and enforcement actions, fines and penalties, negative reputational impacts, and/or significant incident response, system restoration or remediation and future compliance costs, which could materially adversely affect our business, results of operations and financial condition. We also cannot guarantee that any such costs or losses will be covered by our existing insurance policies or that applicable insurance will be available to us in the future on economically reasonable terms or at all.

We are subject to risks related to our use of generative AI, a new and emerging technology, which is in the early stages of commercial use.

We continually evaluate the use of AI in our business processes, and in 2023 we entered into strategic partnerships with leading AI technology companies, enabling enhanced product and service capabilities in generative AI. In recent years, the use of AI has come under increased scrutiny. This technology, which is a new and emerging technology in early stages of commercial use, presents a number of risks inherent in its use, including ethical considerations, public perception and reputation concerns, intellectual property protection, regulatory compliance and privacy and data security concerns, all of which could have a material adverse effect on our business, results of operations and financial position. Further, new laws, guidance and decisions in this area may limit our ability to use AI or decrease its usefulness. As a result, we cannot predict future developments in AI and related impacts to our business and our industry. If we are unable to successfully adapt to new developments related to, and risks and challenges associated with AI, our business, results of operations and financial position could be negatively impacted.

Risks Related to International Operations

Currency exchange rate fluctuations have impacted, and in the future could impact, our business, results of operations and financial position.

In 2023, our international operations represented approximately 49% of our revenue. We operate in all major international markets including the Euro Zone, the United Kingdom, or the U.K., Australia, Brazil, Canada, China and Japan. Our agencies transact business in more than 50 different currencies. Substantially all of our foreign operations transact business in their local currency and, accordingly, their financial statements are translated into U.S. Dollars. As a result, both adverse and beneficial fluctuations in foreign exchange rates impact our business, results of operations and financial position. In addition, funds transferred to the United States can be adversely or beneficially impacted by changes in foreign currency exchange rates.

We operate in high-growth markets and developing countries, which often carry greater risks and uncertainties that could have a material adverse effect on our business, results of operations and financial position.

The operational and financial performance of our international businesses are affected by global and regional economic conditions, competition for new business and personnel, currency exchange rate fluctuations, political conditions, differing tax and regulatory environments and other risks associated with extensive international operations. We conduct business

in numerous high-growth markets and developing countries. Such countries tend to have longer billing collection cycles, currency repatriation restrictions and commercial laws that can be undeveloped, vague, inconsistently enforced, retroactively applied or frequently changed. Our operations are also subject to the United States Foreign Corrupt Practices Act and other anti-corruption and anti-bribery laws and regulations. These laws and regulations are complex and stringent, and any changes and violations could have an adverse effect on our business and reputation. Our business, results of operations and financial position can be adversely affected if we are unable to effectively operate, or manage the risks associated with operating in these markets and countries. For financial information by geographic region, see Notes 3 and 8 to the consolidated financial statements.

Risks Related to Acquisitions

We may be unsuccessful in evaluating material risks involved in completed and future acquisitions.

We regularly evaluate potential acquisitions of businesses that are complementary to our businesses and client needs, and in some cases, associated technological capabilities and assets. As part of the process, we conduct business, legal and financial due diligence to identify and evaluate material risks involved in any particular transaction, including business strategy and operational execution. Despite our efforts, we may be unsuccessful in ascertaining or evaluating all such risks. As a result, the intended advantages of any given acquisition may not be realized. If we fail to identify certain material risks from one or more acquisitions, our business, results of operations and financial position could be adversely affected.

Our goodwill is an intangible asset that may become impaired, which could have a material adverse effect on our business, results of operations and financial position.

In accordance with generally accepted accounting principles in the United States, or U.S. GAAP or GAAP, we have recorded a significant amount of goodwill related to our acquisitions; a substantial portion of which represents the intangible specialized know-how of the acquired workforce. As discussed in Note 2 to the consolidated financial statements, we review the carrying value of goodwill for impairment annually on May 1 and whenever events or circumstances indicate the carrying value may not be recoverable. The estimates and assumptions about future results of operations and cash flows made in connection with the impairment testing could differ from future actual results of operations and cash flows. While we have concluded, for each year presented in the financial statements included in this report, that our goodwill is not impaired, future events could cause us to conclude that the intangible asset values associated with a given operation may become impaired. Any resulting non-cash impairment charge could have a material adverse effect on our business, results of operations and financial position.

Legal and Regulatory Risks

Laws and regulations and actions of consumer advocates may limit the scope and content of our services, affect our ability to meet our clients' needs, result in third-party claims, litigation, regulatory proceedings or government investigations, or otherwise have a material adverse effect on our business, results of operations and financial position.

Government agencies and consumer groups directly or indirectly affect or attempt to affect the scope, content and manner of presentation of advertising, marketing and corporate communications services, through regulation or other governmental action, which could affect our ability to meet our clients' needs. Such regulation may seek, among other things, to limit the tax deductibility of advertising expenditures by certain industries or for certain products and services. In addition, there has been a tendency on the part of businesses to resort to the judicial system to challenge advertising practices and claims, which could cause our clients affected by such actions to reduce their spending on our services, and from time to time we may be subject to claims, lawsuits, regulatory proceedings or government investigations into whether our business practices comport with applicable law. Regardless of the merit of such claims, lawsuits, proceedings or investigations, defending against them could cost us a significant amount of time and money and result in negative publicity. Any regulatory or judicial action that affects our ability to meet our clients' needs or reduces client spending on our services could have a material adverse effect on our business, results of operations and financial position.

Compliance with ever evolving federal, state, and foreign laws relating to the handling of information about individuals involves significant expenditure and resources, and any failure by us or our vendors to comply could materially adversely affect our business, results of operations and financial position.

We, and third-party vendors on our behalf, process information related to individuals, including from and about individuals we may advertise to, actual and prospective clients, employees, and service providers. We and our vendors are subject to a variety of federal, state, and foreign laws, rules, regulations, industry standards, and other requirements related to privacy, use of personal information, marketing and advertising, and internet tracking technologies. These requirements, and their application, interpretation, and amendments are constantly evolving and developing.

Among other things, such laws generally: require disclosures about the data collection, use, and disclosure practices of covered businesses, and provide individuals expanded rights to access, delete, and correct their personal information, and opt out of certain sales or transfers of personal information.

Our obligations related to data privacy and security are quickly changing in an increasingly stringent fashion, creating some uncertainty as to the future legal framework governing such matters. Preparing for and complying with these obligations requires us to devote significant resources. These obligations may necessitate changes to our practices and to those of any third parties that process personal data on our behalf. In addition, these laws, rules, and regulations could also affect the acceptance of new communications technologies and the use of current communications technologies as advertising media.

Any failure or perceived failure by us, or third parties on which we depend, to comply with data privacy laws, rules, regulations, industry standards and other requirements could result in legal claims or proceedings (such as class actions), regulatory investigations and enforcement actions, fines and penalties, negative reputational impacts and future compliance costs, which could materially and adversely affect our business, results of operations and financial condition. We also cannot guarantee that any such costs or losses will be covered by our existing insurance policies or that applicable insurance will be available to us in the future on economically reasonable terms or at all. Any of the foregoing could also affect our business and reduce demand for certain of our services, which could have a material adverse effect on our business, results of operations and financial position.

Expectations relating to environmental, social and governance considerations expose us to potential liabilities, reputational harm and other unforeseen adverse effects on our business.

Many governments, regulators, investors, employees, customers and other stakeholders are focused on environmental, social and governance considerations relating to businesses, including climate change and greenhouse gas emissions, human capital and diversity, equity and inclusion. We make statements about our environmental, social and governance goals and initiatives through information provided on our website, press statements and other communications, including through our Corporate Responsibility Report. Responding to these environmental, social and governance considerations and implementation of these goals and initiatives involves risks and uncertainties and requires ongoing investments. The success of our goals and initiatives may be impacted by factors that are outside our control. In addition, some stakeholders may disagree with our goals and initiatives and the focus and views of stakeholders may change and evolve over time and vary depending on the jurisdictions in which we operate. Any failure, or perceived failure, by us to achieve our goals, further our initiatives, adhere to our public statements, comply with federal, state or international environmental, social and governance laws and regulations, or meet evolving and varied stakeholder expectations and views could materially adversely affect our business, reputation, results of operations, financial position and stock price.

Item 1B. Unresolved Staff Comments

None.

Item 1C. Cybersecurity

Cybersecurity Risk Management and Strategy

We have developed and implemented a cybersecurity risk management program intended to protect the confidentiality, integrity, and availability of our critical systems and information. Our cybersecurity risk management program includes a cybersecurity incident response plan.

We use the National Institute of Standards and Technology Cybersecurity Framework, or NIST CSF, and the ISO 27001 framework as published by the International Organization for Standardization as guides to help us identify, assess, and manage cybersecurity risks relevant to our business. We have designed and assessed our program based on the NIST CSF and ISO 27001. This does not imply that we meet any particular technical standards, specifications, or requirements.

Our cybersecurity risk management program is integrated into our overall enterprise risk management program, and shares common methodologies, reporting channels, and governance processes that apply across the enterprise risk management program to other legal, compliance, strategic, operational, and financial risk areas.

Key aspects of our cybersecurity risk management program include:

- risk assessments designed to help identify material cybersecurity risks to our critical systems, and information;
- an internal security staff principally responsible for managing our cybersecurity risk assessment processes, our security controls, and our response to cybersecurity incidents;
- the use of external service providers, where appropriate, to assess, test, or otherwise assist with aspects of our security controls;

- cybersecurity awareness training of our employees, incident response personnel, and senior management;
- a cybersecurity incident response plan that includes procedures for responding to cybersecurity incidents; and
- a third-party risk management process for key service providers, suppliers, and vendors, including cloud-related service providers.

While we have experienced cybersecurity incidents that resulted in the disruption of our information technology systems and required us to engage third parties to remediate the issues, we have not identified risks from known cybersecurity threats, including as a result of any prior cybersecurity incidents, that have materially affected or are reasonably likely to materially affect us, including our operations, results of operations, or financial position. We face certain ongoing risks from cybersecurity threats that, if realized, are reasonably likely to materially affect us, including our business, results of operations and financial position. See Item 1A “Risk Factors - We rely extensively on information technology systems, and cybersecurity incidents could adversely affect us.”

Cybersecurity Governance

Our Board of Directors, or Board, considers cybersecurity risk as part of its risk oversight function and has delegated to its Audit Committee oversight of cybersecurity and other information technology risks. Our Audit Committee oversees management’s ongoing activities related to our cybersecurity risk management program.

Our Audit Committee receives periodic reports from management on our cybersecurity risks. In addition, management updates the Audit Committee, as necessary, regarding cybersecurity incidents.

Our Audit Committee reports to the full Board regarding its activities, including those related to cybersecurity. The full Board also receives briefings from management on our cybersecurity risk management program. Board members receive presentations on cybersecurity topics from our Chief Information Officer, or CIO, Chief Information Security Officer, or CISO, and Chief Information Risk Officer, or CIRO, and other security staff as part of the Board’s continuing education on topics that impact the Company.

Our management team, including our CIO, CISO and CIRO, is responsible for assessing and managing our material risks from cybersecurity threats. The team has primary responsibility for our overall cybersecurity risk management program and supervises both our internal cybersecurity personnel and our retained external cybersecurity advisors. Our Information Technology (IT) management team collectively hold over 50 years of strategic IT and global transformational experience, including having held IT advisory roles with top-tier organizations. Each member of the team has experience operating in complex, international business environments. The IT management team has demonstrated achievement in Information Security strategy development, risk management and implementation of security and risk management programs that drive awareness, decrease exposure and strengthen organizational IT controls.

Our management team is informed about and monitors the prevention, detection, mitigation, and remediation of key cybersecurity risks and incidents through various means, which may include briefings from internal security personnel, threat intelligence and other information obtained from governmental, public or private sources, including external advisors engaged by us, and alerts and reports produced by security tools deployed in the IT environment.

Item 2. Properties

We conduct business and maintain offices throughout the world. The facility requirements of our businesses are similar across geographic regions and disciplines. Substantially all our office space is leased under operating leases with varying expiration dates. Lease obligations of our foreign operations are generally denominated in their local currency. We believe that our facilities are adequate for our current operations and are well maintained. Our principal corporate offices are located at 280 Park Avenue, New York, New York; 1055 Washington Boulevard, Stamford, Connecticut; and 525 Okeechobee Boulevard, West Palm Beach, Florida. We also maintain executive offices in London, England; Shanghai, China; and Singapore. Notes 2 and 18 to the consolidated financial statements provide a description of our lease expense, which comprises a significant component of our occupancy and other costs, and our lease commitments.

Item 3. Legal Proceedings

In the ordinary course of business, we are involved in various legal proceedings. We do not expect that these proceedings will have a material adverse effect on our results of operations or financial position.

Item 4. Mine Safety Disclosures

Not Applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

Our common stock is listed and trades on the New York Stock Exchange under the symbol OMC. As of February 1, 2024, there were 1,788 shareholders of record.

Common stock repurchase activity during the three months ended December 31, 2023 was:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
October 1 - October 31, 2023	88,013	\$ 74.51	—	—
November 1 - November 30, 2023	—	—	—	—
December 1 - December 31, 2023	—	—	—	—
	88,013	\$ 74.51	—	—

During the three months ended December 31, 2023, we withheld 88,013 shares of common stock from employees to satisfy estimated statutory income tax obligations related to the vesting of restricted stock awards. The value of the stock withheld was based on the closing price of our common stock on the applicable vesting date.

There were no unregistered sales of equity securities during the three months ended December 31, 2023.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollars in tables in millions, except per share amounts.)

EXECUTIVE SUMMARY

Risks and Uncertainties

Global economic challenges, including geopolitical events, international hostilities, acts of terrorism, public health crises, high and sustained inflation in countries that comprise our major markets, high interest rates, and labor and supply chain issues could cause economic uncertainty and volatility. The impact of these issues on our business will vary by geographic market and discipline. We monitor economic conditions closely, as well as client revenue levels and other factors. In response to reductions in revenue, we can take actions to align our cost structure with changes in client demand and manage our working capital. However, there can be no assurance as to the effectiveness of our efforts to mitigate any impact of the current and future adverse economic conditions, reductions in client revenue, changes in client creditworthiness and other developments.

Our Business

We are a strategic holding company providing advertising, marketing and corporate communications services to many of the largest global companies. Our portfolio of companies includes our global networks, BBDO, DDB, TBWA, Omnicom Media Group, the DAS Group of Companies, and the Communications Consultancy Network. All our global networks integrate their service offerings with the Omnicom branded practice areas, including Omnicom Health Group, Omnicom Precision Marketing Group, Omnicom Commerce Group, Omnicom Advertising Collective, Omnicom Public Relations Group, and Omnicom Brand Consulting Group, as well as our Experiential businesses and Execution & Support businesses, which includes Omnicom Specialty Marketing Group.

As described in Note 5 to the consolidated financial statements, on January 2, 2024, we acquired Flywheel Digital, the digital commerce business of Ascential plc, for a net cash purchase price of approximately \$845 million. Flywheel Digital provides services in e-commerce operations, media execution, and market intelligence. These services are complemented by a technology platform, which provides near real-time insights to clients. We expect Flywheel Digital to be a separate practice area within Omnicom, and we expect to integrate their services across our Advertising & Media, Precision Marketing and Commerce & Branding disciplines.

On a global, pan-regional, and local basis, our networks, practice areas, and agencies provide a comprehensive range of services in the following fundamental disciplines: Advertising & Media, Precision Marketing, Commerce & Branding, Experiential, Execution & Support, Public Relations, and Healthcare. Advertising & Media includes creative services across digital and traditional media, strategic media planning and buying, performance media, and data analytics services. Precision Marketing includes digital and direct marketing, digital transformation consulting and data and analytics. Commerce & Branding services include brand and product consulting, strategy and research, retail, and e-commerce. Experiential marketing

services include live and digital events and experience design and execution. Execution & Support includes field marketing, digital and physical merchandising, point-of-sale, product placement, as well as other specialized marketing and custom communications services. Public Relations services include corporate communications, crisis management, public affairs, and media and media relations services. Healthcare includes corporate communications and advertising and media services to global healthcare and pharmaceutical companies. Our geographic markets include the Americas, which includes North America and Latin America, Europe, the Middle East and Africa (EMEA), and Asia-Pacific.

Our business model was built and continues to evolve around our clients. While our networks, practice areas and agencies operate under different names and frame their ideas in different disciplines, we organize our services around our clients. Our fundamental business principle is that our clients' specific marketing requirements are the central focus of how we structure our service offerings and allocate our resources. This client-centric business model requires that multiple agencies within *Omnicom collaborate in formal and informal virtual client networks utilizing our key client matrix organization structure*. This collaboration allows us to cut across our internal organizational structures to execute our clients' marketing requirements in a consistent and comprehensive manner. We use our client-centric approach to grow our business by expanding our service offerings to existing clients, moving into new markets and obtaining new clients. In addition, we pursue selective acquisitions of complementary companies with strong entrepreneurial management teams that currently serve or could serve our existing clients.

We believe generative AI will have a significant effect on how we provide services to our clients and how we enhance the productivity of our people. As with any new technology, we are working closely with our clients and technology partners to take advantage of the benefits of AI while being mindful of its limitations, risks, and privacy concerns. We are committed to responsible AI practices and collaboration to harness AI's potential, while evaluating related risks, such as ethical considerations, public perception and reputational concerns, intellectual property protection, regulatory compliance, privacy and data security concerns and our ability to effectively adopt this new emerging technology. The rapidly developing nature of AI technology makes it difficult to assess the full impact on our business at this time.

As a leading global advertising, marketing and corporate communications company, we operate in all major markets and have a large client base. For the year ended December 31, 2023, our largest client represented 3.0% of revenue, and our 100 largest clients, which represent many of the world's major marketers, represented approximately 55% of revenue. Our clients operate in virtually every sector of the global economy, with no one industry representing more than 17% of our revenue in 2023. *Although our revenue is generally balanced between the United States and international markets and we have a large and diverse client base, we are not immune to general economic downturns.*

Global economic conditions have a direct impact on our business and financial performance. Adverse global economic conditions pose a risk that our clients may reduce, postpone or cancel spending on advertising, marketing and corporate communications services, *which would reduce the demand for our services. Revenue is typically lower in the first and third quarters and higher in the second and fourth quarters, reflecting client spending patterns during the year and additional project work that usually occurs in the fourth quarter.*

Certain global events targeted by major marketers for advertising expenditures, such as the FIFA World Cup and the Olympics, and certain national events, such as the U.S. election process, *may affect our revenue period-over-period in certain businesses. Typically, these events do not have a significant impact on our revenue in any period.*

Given our size and breadth, we manage our business by monitoring several financial indicators. The key performance indicators that we focus on are revenue growth and variability of operating expenses. We analyze revenue growth by reviewing the components and mix of the growth, *including growth by principal regional market, practice area and marketing discipline, the impact from foreign currency exchange rate changes, growth from acquisitions, net of dispositions, and growth from our largest clients. Operating expenses are analyzed in the following categories: cost of services, selling, general and administrative expenses, or SG&A, and depreciation and amortization.*

Financial Performance

Worldwide revenue in 2023 increased to \$14,692.2 million compared to \$14,289.1 million in 2022. Worldwide organic growth increased revenue \$584.5 million, or 4.1%. Changes in foreign exchange rates reduced revenue \$28.3 million, or 0.2%, and acquisition revenue, net of disposition revenue, reduced revenue \$153.1 million, or 1.1%. The negative impact on revenue from acquisitions, net of dispositions, period to period was primarily due to dispositions in the Execution & Support discipline in the first and second quarters of 2023, including the sale of our research businesses, as well as the disposition of *our businesses in Russia in the first quarter of 2022, partially offset by acquisitions in our Advertising & Media and Public Relations disciplines during the year.*

The changes in worldwide revenue across our principal regional markets were: North America increased \$95.0 million, Europe increased \$256.4 million, Asia-Pacific increased \$31.0 million and Latin America increased \$57.8 million.

In North America for 2023 compared to the prior year period, increased organic revenue was driven primarily by the performance in the United States, especially in the Advertising & Media discipline, led by our media business, and our Precision Marketing, and Healthcare disciplines, partially offset by negative performance in our Experiential and Commerce & Branding disciplines, which faced difficult comparisons to the prior year, and our Execution & Support discipline.

In Europe, organic revenue for 2023 increased compared to 2022 across most countries of our major markets and in substantially all disciplines, especially our Advertising & Media discipline, led by our media business, and our Experiential discipline, partially offset by a decrease in our Public Relations discipline. Foreign currency changes increased revenue for 2023, primarily as a result of the strengthening of the Euro and British Pound against the U.S. Dollar period to period.

In Latin America, organic revenue for 2023 increased in all of our disciplines, led by our Advertising & Media discipline, and in substantially all countries in the region. The strengthening of most currencies, especially the Mexican Peso and Brazilian Real, partially offset by the weakening of the Argentine Peso against the U.S. Dollar, increased revenue in 2023 compared to 2022.

In Asia-Pacific, organic revenue for 2023 increased compared to 2022 across most major markets in the region, especially China, India, Australia, and Japan, and was led by our media business in our Advertising & Media discipline and our Experiential discipline. The organic revenue growth was partially offset by the weakening of certain foreign currencies against the U.S. Dollar period to period, especially the Australian Dollar, Japanese Yen, and Chinese Renminbi.

The changes in worldwide revenue in 2023, compared to 2022, in our fundamental disciplines were: Advertising & Media increased \$457.3 million, Precision Marketing increased \$46.9 million, Commerce & Branding increased \$5.6 million, Experiential increased \$15.8 million, Execution & Support decreased \$189.1 million, Public Relations increased \$26.2 million, and Healthcare increased \$40.4 million.

A summary of our full year consolidated results of operations period-over-period is as follows:

	2023	2022	\$ Change	% Change
Revenue	\$ 14,692.2	\$ 14,289.1	\$ 403.1	2.8 %
Operating Income ^{2,3}	\$ 2,104.7	\$ 2,083.3	\$ 21.4	1.0 %
Operating Margin ^{2,3}	14.3 %	14.6 %		(0.3)%
Interest expense, net	\$ 111.8	\$ 137.9	\$ (26.1)	(18.9)%
Net Income - Omnicom Group Inc. ^{2,3}	\$ 1,391.4	\$ 1,316.5	\$ 74.9	5.7 %
Net Income per Share - Omnicom Group Inc.: Diluted ^{2,3}	\$ 6.91	\$ 6.36	\$ 0.55	8.6 %
EBITA ^{1,2,3}	\$ 2,185.0	\$ 2,163.6	\$ 21.4	1.0 %
EBITA Margin ^{1,2,3}	14.9 %	15.1 %		(0.2)%

1) Reconciliation of Non-GAAP Financial Measures on page 26.

2) For the year ended December 31, 2023, operating expenses included real estate operating lease impairment charges, severance, and other exit costs of \$191.5 million (\$145.5 million after tax) related to repositioning actions we took in the first and second quarters of 2023 to reduce our real estate requirements, rebalance our workforce, and consolidate operations in certain markets (see Note 13 to the consolidated financial statements). In addition, in the second quarter of 2023, we recorded a gain of \$78.8 million (\$55.9 million after tax) on disposition of certain of our research businesses in the Execution & Support discipline (see Note 14 to the consolidated financial statements). Included in the fourth quarter of 2023 within selling, general and administrative expenses are acquisition transaction costs of \$14.5 million, primarily related to the purchase of Flywheel Digital in January 2024 (see Note 5 to the consolidated financial statements). The net aggregate impact of these items on Operating Income for the year ended December 31, 2023 was a reduction of \$127.2 million (\$102.6 million after tax). The net aggregate effect of these items for the year ended December 31, 2023 to diluted net income per share - Omnicom Group Inc. was a decrease of \$0.50 (see Notes 13 and 14 to the consolidated financial statements).

3) For December 31, 2022, operating expenses included \$113.4 million of charges recorded in the first quarter of 2022, as well as an additional net income tax charge of \$4.8 million, related to the disposition of our businesses in Russia, which reduced net income - Omnicom Group Inc. by \$118.2 million and diluted net income per share - Omnicom Group Inc. by \$0.57 (see Note 15 to the consolidated financial statements).

CRITICAL ACCOUNTING ESTIMATES

The following summary of our critical accounting policies provides a better understanding of our financial statements and the related discussion in this MD&A. We believe that the following policies may involve a higher degree of judgment and complexity in their application than most of our accounting policies and represent the critical accounting policies used in the preparation of our financial statements. Readers are encouraged to consider this summary together with our consolidated financial statements and the related notes, including Note 2, for a more complete understanding of the critical accounting policies discussed below.

Estimates

We prepare our financial statements in conformity with U.S. GAAP and are required to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. We use a fair value approach in testing our intangible assets, which primarily consist of goodwill, for impairment. Actual results could differ from those estimates and assumptions.

Acquisitions and Goodwill

We have made and expect to continue to make selective acquisitions. The evaluation of potential acquisitions is based on various factors, including specialized know-how, reputation, geographic coverage, competitive position and service offerings of the target businesses, as well as our experience and judgment.

Our acquisition strategy is focused on acquiring the expertise of an assembled workforce, and in some cases their associated technological capabilities and assets, in order to continue to build upon the core capabilities of our various *strategic business platforms and agency brands through the expansion of their geographic reach or their service capabilities* to better serve our clients. Additional key factors we consider include the competitive position and specialized know-how of the acquisition targets. Accordingly, as is typical in most service businesses, a substantial portion of the assets we acquire are intangible assets primarily consisting of the know-how of the personnel, which is treated as part of goodwill and is not required to be valued separately under U.S. GAAP. For each acquisition, we undertake a detailed review to identify other intangible assets that are required to be valued separately. A significant portion of the identifiable intangible assets acquired is derived from customer relationships, including the related customer contracts, as well as trade names. In valuing these identified intangible assets, we typically use an income approach and consider comparable market participant measurements.

In 2023, to better align with our internal financial processes, the date of our annual impairment test was changed from June 30 to May 1. We will continue to evaluate goodwill for impairment at least annually at May 1 and whenever events or circumstances indicate the carrying value may not be recoverable. Under FASB ASC Topic 350, *Intangibles - Goodwill and Other*, we have the option of either assessing qualitative factors to determine whether it is more-likely-than-not that the carrying value of our reporting units exceeds their respective fair value (Step 0) or proceeding directly to the quantitative goodwill impairment test. While there were no trigger events that required us to perform a quantitative test, we performed the annual quantitative impairment test and compared the fair value of each of our reporting units to its respective carrying value, including goodwill. We identified our regional reporting units as components of our operating segments, which are our six global agency networks. The regional reporting units and practice areas monitor performance and are responsible for the agencies in their region. The regional reporting units report to the segment managers and facilitate the administrative and logistical requirements of our key client matrix organization structure for delivering services to clients in their regions. We have concluded that for each of our operating segments, their regional reporting units have similar economic characteristics and should be aggregated for purposes of testing goodwill for impairment at the operating segment level. Our conclusion was based on a detailed analysis of the aggregation criteria set forth in FASB ASC Topic 280, *Segment Reporting*, and in FASB ASC Topic 350. Consistent with our fundamental business strategy, the agencies within our regional reporting units serve similar clients in similar industries, and in many cases the same clients. In addition, the agencies within our regional reporting units have similar economic characteristics, and the employees share similar skill sets. The main economic components of each agency are employee compensation and related costs, and direct service costs and occupancy and other costs, which include rent and occupancy costs, technology costs that are generally limited to personal computers, servers and off-the-shelf software and other overhead expenses. Finally, the expected benefits of our acquisitions are typically shared by multiple agencies in various regions as they work together to integrate the acquired business into our virtual client network strategy.

Goodwill Impairment Review - Estimates and Assumptions

We use the following valuation methodologies to determine the fair value of our reporting units: (1) the income approach, which utilizes discounted expected future cash flows, (2) comparative market participant multiples for EBITDA (earnings before interest, taxes, depreciation and amortization) and (3) when available, consideration of recent and similar acquisition transactions.

In applying the income approach, we use estimates to derive the discounted expected cash flows (“DCF”) for each reporting unit that serves as the basis of our valuation. These estimates and assumptions include revenue growth and operating margin, EBITDA, tax rates, capital expenditures, weighted average cost of capital and related discount rates and expected long-term cash flow growth rates. All of these estimates and assumptions are affected by conditions specific to our businesses, economic conditions related to the industry we operate in, as well as conditions in the global economy. The assumptions that have the most significant effect on our valuations derived using a DCF methodology are: (1) the expected long-term growth rate of our reporting units’ cash flows and (2) the weighted average cost of capital (“WACC”) for each reporting unit.

The assumptions used for the long-term growth rate and WACC in our evaluations:

	<u>May 1, 2023</u>	<u>June 30, 2022</u>
Long-Term Growth Rate	3.5%	3.5%
WACC	11.0% - 11.4%	11.1% - 12.0%

Long-term growth rate represents our estimate of the long-term growth rate for our industry and the geographic markets we operate in. For the past ten years, the average historical revenue growth rate of our reporting units and the Average Nominal GDP, or NGDP, growth of the countries comprising the major markets that account for substantially all of our revenue, was approximately 3.5% and 4.4%, respectively. We considered this history when determining the long-term growth rates used in our annual impairment test at May 1, 2023. Included in the 10-year history are the full year 2020 results that reflected the negative impact of the COVID-19 pandemic on the global economy and our revenue. We believe marketing expenditures over the long term have a high correlation to NGDP. Based on our past performance, we also believe that our growth rate can exceed NGDP growth in the short-term, notwithstanding the current inflationary environment, in the markets we operate in, which are similar across our reporting units. Accordingly, for our annual test as of May 1, 2023, we used an estimated long-term growth rate of 3.5%.

When performing the annual impairment test as of May 1, 2023 and estimating the future cash flows of our reporting units, we considered the current macroeconomic environment, as well as recent industry and market specific conditions. In the first half of 2023, our organic revenue increase was 4.3%, which excluded our net disposition activity and the impact from changes in foreign exchange rates.

The WACC is comprised of: (1) a risk-free rate of return, (2) a business risk index ascribed to us and to companies in our industry comparable to our reporting units based on a market derived variable that measures the volatility of the share price of equity securities relative to the volatility of the overall equity market, (3) an equity risk premium that is based on the rate of return on equity of publicly traded companies with business characteristics comparable to our reporting units, and (4) a current after-tax market rate of return on debt of companies with business characteristics similar to our reporting units, each weighted by the relative market value percentages of our equity and debt.

Our six reporting units vary in size with respect to revenue and the amount of debt allocated to them. These differences drive variations in fair value among our reporting units. In addition, these differences as well as differences in book value, including goodwill, cause variations in the amount by which fair value exceeds book value among the reporting units. The goodwill balances and debt vary by reporting unit primarily because our three legacy agency networks were acquired at the formation of Omnicom and were accounted for as a pooling of interests that did not result in any additional debt or goodwill being recorded. The remaining three agency networks were built through a combination of internal growth and acquisitions that were accounted for using the acquisition method and as a result, they have a relatively higher amount of goodwill and debt. Finally, the allocation of goodwill when components are transferred between reporting units is based on relative fair value at the time of transfer.

Goodwill Impairment Review - Conclusion

Based on the results of our impairment test, we concluded that our goodwill at May 1, 2023 was not impaired, because the fair value of each of our reporting units was in excess of its respective net book value. For our reporting units with negative book value, we concluded that the fair value of their total assets was in excess of book value. The minimum decline in fair value that one of our reporting units would need to experience in order to fail the goodwill impairment test was approximately 53%. Notwithstanding our belief that the assumptions we used for WACC and long-term growth rate in our impairment testing were reasonable, we performed a sensitivity analysis for each reporting unit. The results of this sensitivity analysis on our impairment test as of May 1, 2023 revealed that if the WACC increased by 1% and/or the long-term growth rate decreased by 1%, the fair value of each of our reporting units would continue to be in excess of its respective net book value and would pass the impairment test.

We will continue to perform our impairment test each year at May 1, unless events or circumstances trigger the need for an interim impairment test. There were no events through December 31, 2023 that would change our impairment assessment. The estimates used in our goodwill impairment test do not constitute forecasts or projections of future results of operations, but rather are estimates and assumptions based on historical results and assessments of macroeconomic factors affecting our reporting units as of the valuation date. We believe that our estimates and assumptions are reasonable, but they are subject to change from period to period. Actual results of operations and other factors will likely differ from the estimates used in our discounted cash flow valuation, and it is possible that differences could be significant. A change in the estimates we use could result in a decline in the estimated fair value of one or more of our reporting units from the amounts derived as of our latest valuation and could cause us to fail our goodwill impairment test if the estimated fair value for the reporting unit is less than the carrying value of the net assets of the reporting unit, including its goodwill. A large decline in estimated fair value of a reporting unit could result in a non-cash impairment charge and may have an adverse effect on our results of operations and financial position. Additional information about acquisitions and goodwill appears in Notes 2, 5 and 6 to the consolidated financial statements.

Revenue Recognition

Revenue is recognized when a customer obtains control and receives the benefit of the promised goods or services (the performance obligation) in an amount that reflects the consideration we expect to receive in exchange for those goods or services (the transaction price). We measure revenue by estimating the transaction price based on the consideration specified in the client arrangement. Revenue is recognized as the performance obligations are satisfied. Our revenue is primarily derived from the planning and execution of advertising communications and marketing services in the following fundamental disciplines: Advertising & Media, Precision Marketing, Commerce & Branding, Experiential, Execution & Support, Public Relations and Healthcare. Our client contracts are primarily fees for service on a rate per hour or per project basis. Revenue is recorded net of sales, use and value added taxes.

Performance Obligations. In substantially all our disciplines, the performance obligation is to provide advisory and consulting services at an agreed-upon level of effort to accomplish the specified engagement. Our client contracts are comprised of diverse arrangements involving fees based on any one or a combination of the following: an agreed fee or rate per hour for the level of effort expended by our employees; commissions based on the client's spending for media purchased from third parties; qualitative or quantitative incentive provisions specified in the contract; and reimbursement for third-party costs that we are required to include in revenue when we control the vendor services related to such costs and we act as principal. The transaction price of a contract is allocated to each distinct performance obligation based on its relative stand-alone selling price and is recognized as revenue when, or as, the customer receives the benefit of the performance obligation. Clients typically receive and consume the benefit of our services as they are performed. Substantially all our client contracts provide that we are compensated for services performed to date and allow for cancellation by either party on short notice, typically 90 days, without penalty.

Generally, our short-term contracts, which normally take 30 to 90 days to complete, are performed by a single agency and consist of a single performance obligation. As a result, we do not consider the underlying services as separate or distinct performance obligations because our services are highly interrelated, occur in close proximity, and the integration of the various components of a marketing message is essential to overall service. In certain of our long-term client contracts, which have a term of up to one year, the performance obligation is a stand-ready obligation, because we provide a constant level of similar services over the term of the contract. In other long-term contracts, when our services are not a stand-ready obligation, we consider our services distinct performance obligations and allocate the transaction price to each separate performance obligation based on its stand-alone selling price, including contracts for strategic media planning and buying services, which are considered to be multiple performance obligations, and we allocate the transaction price to each distinct service based on the staffing plan and the stand-alone selling price. In substantially all of our creative services contracts, we have distinct performance obligations for our services, including certain creative services contracts where we act as an agent and arrange, at the client's direction, for third parties to perform studio production efforts.

Revenue Recognition Methods. A substantial portion of our revenue is recognized over time, as the services are performed, because the client receives and consumes the benefit of our performance throughout the contract period, or we create an asset with no alternative use and are contractually entitled to payment for our performance to date in the event the client terminates the contract for convenience. For these client contracts, other than when we have a stand-ready obligation to perform services, revenue is recognized over time using input measures that correspond to the level of staff effort expended to satisfy the performance obligation on a rate per hour or equivalent basis. For client contracts when we have a stand-ready obligation to perform services on an ongoing basis over the life of the contract, typically for periods up to one year, where the scope of these arrangements is broad and there are no significant gaps in performing the services, we recognize revenue using

a time-based measure resulting in a straight-line revenue recognition. From time to time, there may be changes in the client service requirements during the term of a contract and the changes could be significant. These changes are typically negotiated as new contracts covering the additional requirements and the associated costs, as well as additional fees for the incremental work to be performed.

To a lesser extent, for certain other contracts where our performance obligations are satisfied in phases, we recognize revenue over time using certain output measures based on the measurement of the value transferred to the customer, including milestones achieved. Where the transaction price or a portion of the transaction price is derived from commissions based on a percentage of purchased media from third parties, the performance obligation is not satisfied until the media is run and we have an enforceable contract providing a right to payment. Accordingly, revenue for commissions is recognized at a point in time, typically when the media is run, including when it is not subject to cancellation by the client or media vendor.

Principal vs. Agent. In substantially all our businesses, we incur third-party costs on behalf of clients, including direct costs and incidental, or out-of-pocket costs. Third-party direct costs incurred in connection with the creation and delivery of advertising or marketing communication services include, among others: purchased media, studio production services, specialized talent, including artists and other freelance labor, event marketing supplies, materials and services, promotional items, market research and third-party data and other related expenditures. Out-of-pocket costs include, among others: transportation, hotel, meals, shipping and telecommunication charges incurred by us in the course of providing our services. Billings related to out-of-pocket costs are included in revenue since we control the goods or services prior to delivery to the client.

However, the inclusion of billings related to third-party direct costs in revenue depends on whether we act as a principal or as an agent in the client arrangement. In most of our businesses, including advertising, which also includes studio production efforts and media planning and buying services, public relations, healthcare advertising, precision marketing, commerce and branding, we act as an agent and arrange, at the client's direction, for third parties to perform certain services. In these cases, we do not control the goods or services prior to the transfer to the client. As a result, revenue is recorded net of these costs, equal to the amount retained for our fee or commission.

In certain businesses, we may act as principal when contracting for third-party services on behalf of our clients. In our experiential business and most of our execution and support businesses, including field marketing and certain specialty marketing businesses, we act as principal because we control the specified goods or services before they are transferred to the client and we are responsible for providing the specified goods or services, or we are responsible for directing and integrating third-party vendors to fulfill our performance obligation at the agreed upon contractual price. In such arrangements, we also take pricing risk under the terms of the client contract. In certain specialty media buying businesses, we act as principal when we control the buying process for the purchase of the media and contract directly with the media vendor. In these arrangements, we assume the pricing risk under the terms of the client contract. When we act as principal, we include billable amounts related to third-party costs in the transaction price and record revenue over time at the gross amount billed, including out-of-pocket costs, consistent with the manner that we recognize revenue for the underlying services contract. However, in media buying contracts where we act as principal, we recognize revenue at a point in time, typically when the media is run, including when it is not subject to cancellation by the client or media vendor.

Variable Consideration. Some of our client arrangements include variable consideration provisions, which include performance incentives, tiered commission structures and vendor rebates in certain markets outside of the United States. Variable consideration is estimated and included in total consideration at contract inception based on either the expected value method or the most likely outcome method. These estimates are based on historical award experience, anticipated performance and other factors known at the time. Performance incentives are typically recognized in revenue over time. Variable consideration for our media businesses in certain international markets includes rebate revenue and is recognized when it is probable that the media will be run, including when it is not subject to cancellation by the client. In addition, when we receive rebates or credits from vendors for transactions entered into on behalf of clients, they are remitted to the clients in accordance with contractual requirements or retained by us based on the terms of the client contract or local law. Amounts passed on to clients are recorded as a liability and amounts retained by us are recorded as revenue when earned, typically when the media is run.

NEW ACCOUNTING STANDARDS

See Note 24 to the consolidated financial statements for information on the adoption of new accounting standards and *accounting standards not yet adopted*.

CONSOLIDATED RESULTS OF OPERATIONS

The period-over-period change in results of operations were:

	Full Year			2023 v. 2022	2022 v. 2021
	2023	2022	2021	\$ Change	\$ Change
Revenue	\$ 14,692.2	\$ 14,289.1	\$ 14,289.4	\$ 403.1	\$ (0.3)

Revenue	\$ 14,692.2	\$ 14,289.1	\$ 14,289.4	\$ 403.1	\$ (0.3)
Operating Margin %	14.3 %	14.6 %	15.4 %	(0.3)%	(0.8)%
EBITA	\$ 2,185.0	\$ 2,163.6	\$ 2,277.9	\$ 21.4	\$ (114.3)
EBITA Margin %	14.9 %	15.1 %	15.9 %	(0.2)%	(0.8)%

- 1) For the year ended December 31, 2023, operating expenses included real estate operating lease impairment charges, severance, and other exit costs of \$191.5 million (\$145.5 million after tax) related to repositioning actions we took in the first and second quarters of 2023 to reduce our real estate requirements, rebalance our workforce, and consolidate operations in certain markets (see Note 13 to the consolidated financial statements). In addition, in the second quarter of 2023, we recorded a gain of \$78.8 million (\$55.9 million after tax) on disposition of certain of our research businesses in the Execution & Support discipline (see Note 14 to the consolidated financial statements). Included in the fourth quarter of 2023 within selling, general and administrative expenses are acquisition transaction costs of \$14.5 million, primarily related to the purchase of Flywheel Digital in January 2024 (see Note 5 to the consolidated financial statements). The net aggregate impact of these items on Operating Income for the year ended December 31, 2023 was a reduction of \$127.2 million (\$102.6 million after tax). The net aggregate effect of these items for the year ended December 31, 2023 to diluted net income per share - Omnicom Group Inc. was a decrease of \$0.50 (see Notes 13 and 14 to the consolidated financial statements).
- 2) For the year ended December 31, 2022, operating expenses included \$113.4 million of charges recorded in the first quarter of 2022, as well as an additional net income tax charge of \$4.8 million, related to the disposition of our businesses in Russia, which reduced net income - Omnicom Group Inc. by \$118.2 million and diluted net income per share - Omnicom Group Inc. by \$0.57 (see Note 15 to the consolidated financial statements).
- 3) For the year ended December 31, 2021, operating expenses were favorably impacted by the \$50.5 million gain recorded in connection with the disposition in the Advertising & Media discipline

Revenue

The components of period-over-period revenue change in the United States (“Domestic”) and the remainder of the world (“International”) were:

	Total		Domestic		International	
	\$	%	\$	%	\$	%
Twelve Months Ended December 31, 2022	\$ 14,289.1		\$ 7,367.3		\$ 6,921.8	
Components of revenue change:						
Foreign exchange rate impact	(28.3)	(0.2)%	—	— %	(28.3)	(0.4)%
Acquisition revenue, net of disposition revenue	(153.1)	(1.1)%	(87.2)	(1.2)%	(65.9)	(1.0)%
Organic growth	584.5	4.1 %	191.5	2.6 %	393.0	5.7 %
Twelve Months Ended December 31, 2023	\$ 14,692.2	2.8 %	\$ 7,471.6	1.4 %	\$ 7,220.6	4.3 %

	Total		Domestic		International	
	\$	%	\$	%	\$	%
Twelve Months Ended December 31, 2021	\$ 14,289.4		\$ 7,245.9		\$ 7,043.5	
Components of revenue change:						
Foreign exchange rate impact	(681.0)	(4.8)%	—	— %	(681.0)	(9.7)%
Acquisition revenue, net of disposition revenue	(665.6)	(4.7)%	(505.5)	(7.0)%	(160.1)	(2.3)%
Organic growth	1,346.3	9.4 %	626.9	8.7 %	719.4	10.2 %
Twelve Months Ended December 31, 2022	\$ 14,289.1	— %	\$ 7,367.3	1.7 %	\$ 6,921.8	(1.7)%

The components and percentages are calculated as follows:

- Foreign exchange rate impact is calculated by translating the current period’s local currency revenue using the prior period average exchange rates to derive current period constant currency revenue (in this case \$14,720.5 million and \$14,970.1 million for the Total column for December 31, 2023 and December 31, 2022, respectively). The foreign exchange impact is the difference between the current period revenue in U.S. Dollars and the current period constant currency revenue (\$14,692.2 million less \$14,720.5 million and \$14,289.1 million less \$14,970.1 million for the Total column for December 31, 2023 and December 31, 2022, respectively).
- Acquisition revenue is calculated as if the acquisition occurred twelve months prior to the acquisition date by aggregating the comparable prior period revenue of acquisitions through the acquisition date. As a result, acquisition revenue excludes the positive or negative difference between our current period revenue subsequent to the acquisition date and the comparable prior period revenue and the positive or negative growth after the acquisition is attributed to organic growth. Disposition revenue is calculated as if the disposition occurred twelve months prior to the disposition date by aggregating the comparable prior period revenue of dispositions through the disposition date. The acquisition revenue and disposition revenue amounts are netted in the table.
- Organic growth is calculated by subtracting the foreign exchange rate impact, and the acquisition revenue, net of disposition revenue components from total revenue growth.
- The percentage change is calculated by dividing the individual component amount by the prior period revenue base of that component (\$14,289.1 million and \$14,289.4 million for the Total column for December 31, 2023, and December 31, 2022, respectively).

Changes in the value of foreign currencies against the U.S. Dollar affect our results of operations and financial position. For the most part, because the revenue and expense of our foreign operations are both denominated in the same local currency, the economic impact on operating margin is minimized. Assuming exchange rates at February 1, 2024 remain unchanged, we expect the impact of changes in foreign exchange rates will be flat in the first quarter of 2024 and for the full year. Based on our acquisition and disposition activity to date, we expect that the net impact will increase revenue by 1.50% in the first quarter of 2024 and 2.0% for the full year.

Revenue by Discipline

To monitor the changing needs of our clients and to further expand the scope of our services to key clients, we monitor revenue across a broad range of disciplines and group them into the following categories: Advertising & Media, Precision Marketing, Commerce & Branding, Experiential, Execution & Support, Public Relations, and Healthcare.

The period-over-period change in revenue and organic growth by discipline was:

	Full Year					
	2023		2022		2023 vs. 2022	
	\$	% of Revenue	\$	% of Revenue	\$ Change	% Organic Growth
Advertising & Media	\$ 7,891.2	53.7 %	\$ 7,433.9	52.0 %	\$ 457.3	6.5 %
Precision Marketing	1,473.5	10.0 %	1,426.6	10.0 %	46.9	3.1 %
Commerce & Branding	853.7	5.8 %	848.1	5.9 %	5.6	1.2 %
Experiential	651.4	4.4 %	635.6	4.4 %	15.8	3.0 %
Execution & Support	880.8	6.0 %	1,069.9	7.5 %	(189.1)	(1.0)%
Public Relations	1,578.9	10.7 %	1,552.7	10.9 %	26.2	(0.8)%
Healthcare	1,362.7	9.4 %	1,322.3	9.3 %	40.4	3.8 %
Revenue	\$ 14,692.2		\$ 14,289.1		\$ 403.1	4.1 %

	Full Year					
	2022		2021		2022 vs. 2021	
	\$	% of Revenue	\$	% of Revenue	\$ Change	% Organic Growth
Advertising & Media	\$ 7,433.9	52.0 %	\$ 7,966.2	55.7 %	\$ (532.3)	7.3 %
Precision Marketing	1,426.6	10.0 %	1,205.2	8.4 %	221.4	17.0 %
Commerce & Branding	848.1	5.9 %	802.2	5.6 %	45.9	11.7 %
Experiential	635.6	4.4 %	536.0	3.8 %	99.6	26.4 %
Execution & Support	1,069.9	7.5 %	1,115.9	7.8 %	(46.0)	3.9 %
Public Relations	1,552.7	10.9 %	1,398.2	9.8 %	154.5	13.7 %
Healthcare	1,322.3	9.3 %	1,265.7	8.9 %	56.6	7.1 %
Revenue	\$ 14,289.1		\$ 14,289.4		\$ (0.3)	9.4 %

Effective January 1, 2023, we realigned the classification of certain services primarily within our Commerce & Branding, Execution & Support, and Experiential disciplines, and prior year amounts have been reclassified.

In the normal course of business, our agencies both gain and lose business from clients each year due to a variety of factors. Under our client-centric approach, we seek to broaden our relationships with all of our clients. Our largest client represented 3.0% and 2.7% of revenue for 2023 and 2022, respectively. Our ten largest and 100 largest clients represented 20.2% and 54.5% of revenue for 2023, respectively, and 19.1% and 53.1% of revenue for 2022, respectively.

2023 v. 2022

The period-over-period change in worldwide revenue for 2023, in our fundamental disciplines was: Advertising & Media increased \$457.3 million, Precision Marketing increased \$46.9 million, Commerce & Branding increased \$5.6 million, Experiential increased \$15.8 million, Execution & Support decreased \$189.1 million, Public Relations increased \$26.2 million, and Healthcare increased \$40.4 million. Organic revenue increased across substantially all of our disciplines, except for Public Relations, which faced a difficult comparison to the prior year, and Execution & Support. The impact of foreign exchange translation slightly reduced our revenue. The decrease in revenue from foreign exchange translation was primarily related to the weakening of several currencies against the U.S. Dollar, including the Australian Dollar, Canadian Dollar, Japanese Yen, and Chinese Renminbi, partially offset by the Euro and British Pound, which strengthened against the U.S. Dollar compared to the prior year. The negative impact on revenue from acquisitions, net of dispositions, period to period was primarily due to dispositions in the Execution & Support discipline in the first and second quarters of 2023, including the sale of our research businesses, as well as the disposition of our businesses in Russia in the first quarter of 2022, partially offset by acquisitions in our Advertising & Media and Public Relations disciplines during the year.

2022 v. 2021

The changes in worldwide revenue in 2022, compared to 2021, in our fundamental disciplines was: Advertising & Media decreased \$532.3 million, Precision Marketing increased \$221.4 million, Commerce & Branding increased \$45.9 million, Experiential increased \$99.6 million, Execution & Support decreased \$46.0 million, Public Relations increased \$154.5 million, and Healthcare increased \$56.6 million. Organic revenue increased across all disciplines. The impact of foreign exchange translation decreased revenue period to period as substantially all foreign currencies weakened against the U.S. Dollar, especially the British Pound and the Euro. The decrease in revenue in our Advertising & Media discipline period to period was primarily the result of the disposition of our businesses in Russia.

Revenue by Geography

The period-over-period change in revenue and organic growth in our geographic markets was:

	2023		Full Year 2022		2023 vs. 2022	
	\$	% of Revenue	\$	% of Revenue	\$ Change	% Organic Growth
	Americas:					
North America	\$ 7,951.0	54.2 %	\$ 7,856.0	55.0 %	\$ 95.0	2.6 %
Latin America	386.8	2.6 %	329.0	2.3 %	57.8	13.0 %
EMEA:						
Europe	4,266.9	29.0 %	4,010.5	28.1 %	256.4	6.2 %
Middle East and Africa	309.6	2.1 %	346.7	2.4 %	(37.1)	(5.8)%
Asia-Pacific	1,777.9	12.1 %	1,746.9	12.2 %	31.0	6.0 %
Revenue	\$ 14,692.2		\$ 14,289.1		\$ 403.1	4.1 %

	2022		Full Year 2021		2022 vs. 2021	
	\$	% of Revenue	\$	% of Revenue	\$ Change	% Organic Growth
	Americas:					
North America	\$ 7,856.0	55.0 %	\$ 7,709.7	53.9 %	\$ 146.3	8.7 %
Latin America	329.0	2.3 %	296.1	2.1 %	32.9	14.1 %
EMEA:						
Europe	4,010.5	28.1 %	4,219.6	29.5 %	(209.1)	10.1 %
Middle East and Africa	346.7	2.4 %	267.6	1.9 %	79.1	33.2 %
Asia-Pacific	1,746.9	12.2 %	1,796.4	12.6 %	(49.5)	6.6 %
Revenue	\$ 14,289.1		\$ 14,289.4		\$ (0.3)	9.4 %

The period-over-period change in worldwide revenue across our geographic markets for 2023 was: North America increased \$95.0 million, or 1.2%, Latin America increased \$57.8 million, or 17.6%, Europe increased \$256.4 million, or 6.4%, the Middle East and Africa decreased \$37.1 million, or 10.7%, and Asia-Pacific increased \$31.0 million, or 1.8%. Organic revenue for 2023 increased across most countries within our major markets.

The period-over-period change in worldwide revenue across our geographic markets for 2022 was: North America increased \$146.3 million, or 1.9%, Latin America increased \$32.9 million, or 11.1%, Europe decreased \$209.1 million, or 5.0%, the Middle East and Africa increased \$79.1 million, or 29.6%, and Asia-Pacific decreased \$49.5 million, or 2.8%. Organic revenue for 2022 increased across all countries within our major markets.

North America

2023 vs. 2022

In North America for 2023 compared to the prior year period, increased organic revenue was driven primarily by the performance in the United States, especially in the Advertising & Media discipline, led by our media business, and our Precision Marketing, and Healthcare disciplines, partially offset by negative performance in our Experiential and Commerce & Branding disciplines, which faced difficult comparisons to the prior year, and our Execution & Support discipline. Acquisitions net of dispositions negatively impacted revenue, primarily as a result of dispositions in the Execution & Support discipline in the first and second quarters of 2023, including the sale of our research businesses, partially offset by acquisitions during the year in the Advertising & Media, Precision Marketing, and Public Relations disciplines.

2022 vs. 2021

In North America, organic revenue increased across all our disciplines for 2022 compared to 2021, especially in our Advertising & Media, Precision Marketing and Public Relations disciplines, and was substantially offset by a reduction in acquisition revenue, net of disposition revenue, primarily due to the disposition in the Advertising & Media discipline in the second quarter of 2021.

Latin America

2023 vs. 2022

In Latin America, organic revenue for 2023 increased in all of our disciplines, led by our Advertising & Media discipline, and in substantially all countries in the region. The strengthening of most currencies, especially the Mexican Peso and Brazilian Real, partially offset by the weakening of the Argentine Peso against the U.S. Dollar, increased revenue in 2023 compared to 2022.

2022 vs. 2021

In Latin America, organic revenue for 2022, increased in most countries in the region, especially Brazil and Colombia. The increase in organic revenue was partially offset by negative performance in Mexico and the weakening of most currencies in the region against the U.S. Dollar.

EMEA

Europe 2023 vs. 2022

In Europe, organic revenue for 2023 increased compared to 2022 across most countries of our major markets and in substantially all disciplines, especially our Advertising & Media discipline, led by our media business, and our Experiential discipline, partially offset by a decrease in our Public Relations discipline. Foreign currency changes increased revenue for 2023, primarily as a result of the strengthening of the Euro and British Pound against the U.S. Dollar period to period. Acquisition revenue, net of disposition revenue, reduced revenue compared to the prior year, primarily due to the disposition of our businesses in Russia in the first quarter of 2022 and the disposition of certain businesses, primarily our research businesses in the Execution & Support discipline in the second quarter of 2023. Total revenue in the U.K. increased 4.0% in 2023 to \$1,587.3 million. Organic revenue growth period to period in the U.K. was 4.7%, with growth across most disciplines, led by our media business in our Advertising & Media discipline, partially offset by negative performance in our Precision Marketing and Public Relations disciplines. In Continental Europe, which includes the Euro Zone and the other European countries, organic growth period to period of 7.2% was led by Italy, France, and Germany across substantially all disciplines.

Europe 2022 vs. 2021

In Europe, organic revenue for 2022, increased in substantially all countries and in all disciplines, especially our Advertising & Media discipline, which was led by our media business, our Precision Marketing and Public Relations disciplines, and our Experiential discipline, as it continued to recover from the impact of the pandemic. The increase in organic revenue was offset by the weakening of substantially all foreign currencies against the U.S. Dollar, especially the British Pound and the Euro, as well as the disposition of our businesses in Russia in the first quarter of 2022.

Middle East and Africa 2023 vs. 2022 vs. 2021

In the Middle East and Africa for 2023, organic revenue decreased compared to 2022, primarily as a result of our Experiential discipline, which faced difficult comparisons in the region, partially offset by our Advertising & Media discipline. For 2023, the weakening of certain currencies in the region against the U.S. Dollar also decreased revenue period to period. For 2022 as compared to 2021, the increase in organic revenue was primarily related to the FIFA World Cup in the fourth quarter of 2022.

Asia-Pacific

2023 vs. 2022

In Asia-Pacific, organic revenue for 2023 increased compared to 2022 across most major markets in the region, especially China, India, Australia, and Japan, and was led by our media business in our Advertising & Media discipline and our Experiential discipline. The organic revenue growth was partially offset by the weakening of certain foreign currencies against the U.S. Dollar period to period, especially the Australian Dollar, Japanese Yen, and Chinese Renminbi.

2022 vs. 2021

In Asia-Pacific, organic revenue increased in most disciplines for 2022 compared to 2021, especially our Advertising & Media discipline, which was led by our media business, and in most of our major markets in the region, particularly Australia, India, Japan, and Korea. The increase in organic revenue was offset by the weakening of all currencies in the region against the U.S. Dollar and negative performance in our Experiential discipline, primarily caused by prolonged COVID-19 lockdowns in China.

Revenue by Industry

Revenue by type of client industry sector was:

	Full Year		
	2023	2022	2021
Pharmaceuticals and Healthcare	16 %	16 %	15 %

Cost of services	11,607.9		11,499.7		108.2	0.9 %
Selling, general and administrative expenses	378.5	2.6 %	379.7	2.7 %	(1.2)	(0.3)%
Depreciation and amortization	219.4	1.5 %	212.1	1.5 %	7.3	3.4 %
Total operating expenses	12,205.8	85.4 %	12,091.5	84.6 %	114.3	0.9 %
Operating Income	\$ 2,083.3	14.6 %	\$ 2,197.9	15.4 %	\$ (114.6)	(5.2)%

We measure cost of services in two distinct categories: salary and service costs and occupancy and other costs. As a service business, salary and service costs make up the significant portion of our operating expenses and substantially all these costs comprise the essential components directly linked to the delivery of our services. Salary and service costs include employee compensation and benefits, freelance labor, third-party service costs, and third-party incidental costs. Third-party service costs include vendor costs when we act as principal in providing services to our clients, and third-party incidental costs, which primarily consist of client-related travel and incidental out-of-pocket costs, which we bill back to the client directly at our cost and which we are required to include in revenue. Occupancy and other costs consist of the indirect costs related to the delivery of our services, including office rent and other occupancy costs, equipment rent, technology costs, general office expenses and other expenses. Adverse and beneficial fluctuations in foreign currencies from period to period impact our results of operations and financial position when we translate our financial statements from local foreign currencies to the U.S. Dollar. However, substantially all of our foreign operations transact business in their local currency, mitigating the impact of changes in foreign currency exchange rates on our operating margin percentage.

2023 vs. 2022

Operating expenses in 2023 increased 3.1% to \$12,587.5 million from \$12,205.8 million. Included in operating expenses for 2023 is the net impact of the gain on disposition of certain research businesses in our Execution & Support discipline, of \$78.8 million, repositioning costs related to real estate and other exit charges and severance costs of \$191.5 million (see Notes 13 and 14 to the consolidated financial statements) and acquisition transaction costs of \$14.5 million, primarily related to the Flywheel Digital acquisition that closed in January 2024.

The changes in our operating expenses period-over-period from foreign currency translation decreased slightly, in line with the percentage decrease in revenue from 2023 and 2022.

2022 vs. 2021

Operating expenses in 2022 increased \$114.3 million, or 0.9%, to \$12,205.8 million year-over-year. Operating expenses for 2022 reflect charges arising from the effects of the war in Ukraine of \$113.4 million. Operating expenses in 2021 were favorably impacted by the \$50.5 million gain recorded in connection with the disposition in the Advertising & Media discipline. The weakening of most foreign currencies, especially the British Pound and Euro, against the U.S. Dollar reduced operating expenses for 2022 as compared to the prior year, which was in line with the percentage reduction from changes in foreign currencies on revenue.

Operating Expenses - Salary and Service Costs

2023 vs. 2022

Salary and service costs in 2023, which tend to fluctuate with changes in revenue, are comprised of salary and related costs, third-party service costs, and third-party incidental costs. Salary and service costs for 2023 compared to the prior year period increased \$375.3 million, or 3.6%, to \$10,701.2 million. Salary and related costs for 2023 increased \$14.9 million,

or 0.2%, to \$7,212.8 million, primarily due to an increase in headcount. Headcount increased for 2023 as a result of organic growth and our acquisition activity; the increase was partially offset by the dispositions in our Execution & Support discipline in the first and second quarters of 2023. Third-party service costs for 2023 increased \$332.4 million, or 12.9%, to \$2,917.9 million due to changes in the mix of our businesses period to period, and were less impacted by the effects of our disposition activity during the year. Third-party incidental costs for 2023 increased \$28.0 million, or 5.2%, to \$570.5 million.

2022 vs. 2021

Salary and service costs in 2022, decreased \$76.1 million, compared to 2021, reflecting a decrease in third-party service costs of \$393.6 million, partially offset by an increase in third-party incidental costs of \$90.6 million and an increase in salary and related service costs of \$226.9 million. Third-party service costs decreased during the year primarily due to the disposition in the Advertising & Media discipline in the second quarter of 2021 and the disposition of our businesses in Russia in the first quarter of 2022. The increase in salary and related service costs primarily resulted from the increase in organic revenue and an increase in headcount, as well as an increase in travel and related costs, reflecting the post-pandemic return to the office of our workforce in most markets.

Operating Expenses - Occupancy and Other Costs

2023 vs. 2022

Occupancy and other costs for 2023, which are less directly linked to changes in revenue than salary and service costs, decreased slightly by \$0.2 million year-over-year. Lower rent expense was partially offset by an increase in other occupancy costs in the year.

In connection with the transition to a flexible working environment, a hybrid model which allows for partial remote work, we took certain actions in the first quarter of 2023 to reduce and reposition our office lease portfolio and recorded a charge of \$119.2 million, which included an \$80.4 million non-cash impairment charge for operating lease right-of-use, or ROU, assets, \$20.0 million for the write-off of the net book value of leasehold improvements at the affected locations, and \$18.8 million of other lease obligations that will be paid in less than one year. Substantially all of the operating lease payments related to the ROU assets will be paid out over three years (see Note 13 to the consolidated financial statements).

2022 vs. 2021

Occupancy and other costs for 2022 increased \$20.4 million year-over-year, primarily due to an increase in general office expenses and other costs, resulting from the return of our workforce to the office, partially offset by lower rent and other occupancy costs.

Operating Expenses - Selling, General & Administrative Expenses

SG&A expenses primarily consist of third-party marketing costs, professional fees, and compensation and benefits and occupancy and other costs of our corporate and executive offices, including group-wide finance and accounting, treasury, legal and governance, human resource oversight and similar costs. SG&A expenses for 2023 compared to 2022 increased by \$15.2 million, primarily as a result of higher professional fees in connection with our acquisition activity during the year, including the Flywheel Digital acquisition, which closed in January 2024. SG&A expenses for 2022 compared to 2021 were flat.

Operating Income

2023 vs. 2022

Operating income for 2023 compared to 2022, increased \$21.4 million to \$2,104.7 million, and operating margin decreased to 14.3% from 14.6%. EBITA decreased \$21.4 million to \$2,185.0 million, and EBITA margin decreased to 14.9% from 15.1%. In 2023, the effect of the real estate and other repositioning costs, the gain on disposition of subsidiaries (see Notes 13 and 14 to the audited consolidated financial statements) and acquisition transaction costs, reduced both operating income and EBITA by \$127.2 million, and reduced operating margin by 0.9% and EBITA margin by 0.8%. Operating income and EBITA in 2022 included a reduction of \$113.4 million related to the war in Ukraine (see Note 15 to the consolidated financial statements), which decreased both operating margin and EBITA margin by 0.8%.

2022 vs. 2021

Operating income decreased \$114.6 million to \$2,083.3 million, operating margin decreased to 14.6% from 15.4%, and EBITA margin decreased to 15.1% from 15.9%. Operating profit, operating margin and EBITA margin for 2022 were negatively impacted by the \$113.4 million charges arising from the effects of the war in Ukraine. Operating profit, operating margin and EBITA margin for 2021 were favorably impacted by the \$50.5 million gain recorded in connection with dispositions in the Advertising & Media discipline.

Net Interest Expense

2023 vs. 2022

Net interest expense in 2023 decreased \$26.1 million year-over-year to \$111.8 million. Interest expense increased by \$9.9 million year-over-year, primarily related to non-cash interest charges on pension and other postemployment benefits (see Note 12 to the consolidated financial statements). Interest income in 2023 increased \$36.0 million year-over-year to \$106.7 million, primarily as a result of higher interest rates on cash balances. Looking ahead we expect net interest expense to increase in 2024, primarily as a result of lower average cash balances resulting from the funding of the Flywheel Digital purchase, with cash on-hand in January 2024, as well as the expectation of lower investing rates overall.

2022 vs. 2021

Net interest expense in 2022 decreased \$71.2 million year-over-year to \$137.9 million. Interest expense on debt decreased \$21.9 million to \$191.3 million in 2022 compared to 2021, primarily as a result of the benefit from the early redemption in May 2021 of all the outstanding \$1.250 billion 3.625% Senior Notes due 2022, or 2022 Notes, which was partially offset by the issuance of the 2.60% Senior Notes due 2031 in May 2021, and the issuance of the €325 million 2.25% Senior Notes due 2033 in November 2021. Interest expense for 2021 includes a loss of \$26.6 million on the early redemption of the 2022 Notes. Interest income in 2022 increased \$43.4 million to \$70.7 million year-over-year, primarily as a result of higher interest rates on our cash balances and our short-term investments.

Income Taxes

2023 vs. 2022

Our effective tax rate for 2023 decreased period-over-period to 26.3% from 28.1%. The higher effective tax rate for 2022 was predominantly the result of the non-deductibility of the \$113.4 million charge recorded in the first quarter of 2022, arising from the effects of the war in Ukraine, as discussed below. Looking ahead to 2024 we expect our tax rate to increase to 27% primarily related to increases in the statutory rates of certain international markets.

The Inflation Reduction Act of 2022, or IRA, levies a 1% excise tax on net stock repurchases after December 31, 2022. The excise tax is recorded as a cost of acquiring treasury stock and is not material. Additionally, the IRA imposes a 15% corporate alternative minimum tax, or CAMT, for tax years beginning after December 31, 2022. The CAMT is not expected to have a material impact on our results of operations or financial position.

Numerous foreign jurisdictions have enacted or are in the process of enacting legislation to adopt a minimum effective tax rate described in the Global Anti-Base Erosion, or Pillar Two, model rules issued by the Organization for Economic Co-operation and Development, or OECD. A minimum effective tax rate of 15% would apply to multinational companies with consolidated revenue above €750 million.

Under the Pillar Two rules, a company would be required to determine a combined effective tax rate for all entities located in a jurisdiction. If the jurisdictional effective tax rate determined under the Pillar Two is less than 15%, a top-up tax will be due to bring the jurisdictional effective tax rate up to 15%. We are continuing to monitor the pending implementation of Pillar Two by individual countries and the potential effects of Pillar Two on our business. We do not expect the provisions effective in 2024 will have a materially adverse impact on our results of operations, financial position or cash flows.

2022 vs. 2021

Our effective tax rate for 2022 increased year-over-year to 28.1% from 24.6%. The higher effective tax rate for 2022 was predominantly the result of the non-deductibility of the \$113.4 million charge recorded in the first quarter of 2022, arising from the effects of the war in Ukraine, as well as an additional increase in income tax expense of \$4.8 million related to the disposition of our businesses in Russia. These charges were partially offset by the tax benefit arising from our share-based compensation awards. The effective tax rate for 2021 reflects a nominal tax applied to the book gain on the disposition in the Advertising & Media discipline resulting from the excess of tax over book basis and a reduction in income tax expense of \$32.8 million, primarily related to the favorable settlements of uncertain tax positions in certain jurisdictions.

Net Income and Net Income Per Share - Omnicom Group, Inc.

2023 vs. 2022

Net income - Omnicom Group Inc. in 2023 increased \$74.9 million to \$1,391.4 million from \$1,316.5 million. The year-over-year increase is due to the factors described above. Diluted net income per share - Omnicom Group Inc. increased to \$6.91 in 2023, from \$6.36 in 2022, due to the factors described above and the impact of the reduction in our weighted

average common shares outstanding resulting from the repurchases of our common stock, net of shares issued for stock option exercises and the employee stock purchase plan during the year. For 2023, the net impact of the real estate repositioning costs, gain on disposition of subsidiaries and acquisition transaction costs reduced net income - Omnicom Group Inc. by \$102.6 million and diluted net income per share - Omnicom Group Inc. by \$0.50.

2022 vs. 2021

Net income - Omnicom Group Inc. in 2022 decreased \$91.3 million to \$1,316.5 million from \$1,407.8 million in 2021. The year-over-year decrease is due to the factors described above. Diluted net income per share - Omnicom Group Inc. decreased to \$6.36 in 2022, compared to \$6.53 in 2021, due to the factors described above, partially offset by the impact of the reduction in our weighted average common shares outstanding resulting from repurchases of our common stock, net of shares issued for restricted stock awards, stock option exercises and the employee stock purchase plan during the year. The impact of the after-tax charges arising from the effect of the war in Ukraine reduced net income - Omnicom Group Inc. for 2022 by \$118.2 million and diluted net income per share - Omnicom Group Inc. by \$0.57. The combined effect of the after-tax gain on the disposition in the Advertising & Media discipline and the loss on the early redemption of the 2022 Notes increased net income - Omnicom Group Inc. in 2021 by \$31.0 million and increased diluted net income per share - Omnicom Group Inc. by \$0.14.

NON-GAAP FINANCIAL MEASURES

We use certain non-GAAP financial measures in describing our performance. We use EBITA and EBITA Margin as additional operating performance measures, which exclude the non-cash amortization expense of intangible assets (primarily consisting of amortization of intangible assets arising from acquisitions). We define EBITA as earnings before interest, taxes, and amortization of intangible assets, and EBITA margin as EBITA divided by revenue. We believe EBITA and EBITA Margin are useful measures for investors to evaluate the performance of our business. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with U.S. GAAP. Non-GAAP financial measures reported by us may not be comparable to similarly titled amounts reported by other companies.

Reconciliation of Non-GAAP Financial Measures

The following table reconciles the U.S. GAAP financial measure of Net Income - Omnicom Group Inc. to EBITA and EBITA Margin:

	Full Year		
	2023	2022	2021
Net Income - Omnicom Group Inc.	\$ 1,391.4	\$ 1,316.5	\$ 1,407.8
Net Income Attributed To Noncontrolling Interests	81.8	87.3	99.8
Net Income	1,473.2	1,403.8	1,507.6
Income From Equity Method Investments	5.2	5.2	7.5
Income Tax Expense	524.9	546.8	488.7
Income Before Income Taxes and Income From Equity Method Investments	1,992.9	1,945.4	1,988.8
Interest Expense	218.5	208.6	236.4
Interest Income	106.7	70.7	27.3
Operating Income	2,104.7	2,083.3	2,197.9
Add back: Amortization of intangible assets	80.3	80.3	80.0
Earnings before interest, taxes, and amortization of intangible assets ("EBITA")	\$ 2,185.0	\$ 2,163.6	\$ 2,277.9
Revenue	\$ 14,692.2	\$ 14,289.1	\$ 14,289.4
EBITA	\$ 2,185.0	\$ 2,163.6	\$ 2,277.9
EBITA Margin %	14.9 %	15.1 %	15.9 %

LIQUIDITY AND CAPITAL RESOURCES

Cash Sources and Requirements

Primary sources of short-term liquidity are net cash provided by operating activities and cash and cash equivalents. Additional liquidity sources include our \$2.5 billion unsecured multi-currency revolving credit facility, or Credit Facility, the ability to issue up to \$2 billion of U.S. Dollar denominated commercial paper and issue up to the equivalent of \$500 million in British Pounds or Euro under a Euro commercial paper program, and access to the capital markets. In June 2023, we amended the Credit Facility to, among other things, extend its termination date to June 2, 2028, and transition the benchmark rate for U.S. Dollar denominated loans from LIBOR to the Secured Overnight Financing Rate, or SOFR. In addition, certain of our international subsidiaries have uncommitted credit lines that are guaranteed by Omnicom, aggregating \$516.2 million. Our liquidity sources fund our non-discretionary cash requirements and our discretionary spending.

On January 3, 2024, we entered into a Delayed Draw Term Loan Agreement, or Term Loan Facility, that provides for a delayed-draw term loan up to an aggregate principal amount of \$600 million (see Note 7 to the consolidated financial statements).

Working capital, which we define as current assets minus current liabilities, is our principal non-discretionary funding requirement. Our working capital cycle typically peaks during the second quarter of the year due to the timing of payments for incentive compensation, income taxes and contingent purchase price obligations. In addition, we have contractual obligations related to our long-term debt (principal and interest payments), recurring business operations, primarily related to lease obligations, and acquisition related obligations. Our principal discretionary cash spending includes dividend payments to common shareholders, capital expenditures, strategic acquisitions and repurchases of our common stock. On January 2, 2024, we acquired Flywheel Digital for a net cash purchase price of approximately \$845 million (see Note 5 to the consolidated financial statements). We expect growth investment in Flywheel Digital and other technologies to increase our capital expenditures for 2024 compared to the prior year, which we will fund from operating cash flow.

Cash and cash equivalents increased \$150.2 million from December 31, 2022. The increase was composed of:

Sources	
Net cash provided by operating activities - as reported	\$ 1,421.9
Plus: Decrease in operating capital	462.9
Principal cash sources	1,884.8
Uses	
Capital expenditures	\$ (78.4)
Dividends paid to common shareholders	(562.7)
Dividends paid to noncontrolling interest shareholders	(70.9)
Acquisition payments, including payment of contingent purchase price obligations and acquisition of additional noncontrolling interests	(248.6)
Repurchases of common stock, net of proceeds from stock plans	(535.2)
Principal cash uses	(1,495.8)
Principal cash sources in excess of principal cash uses	389.0
Effect of foreign exchange rate changes on cash and cash equivalents	37.0
Other net financing and investing activities	187.1
Decrease in operating capital	(462.9)
Increase in cash and cash equivalents - as reported	\$ 150.2

Principal cash sources and principal cash uses are Non-GAAP liquidity measures. These amounts exclude changes in operating capital and other investing and financing activities. This presentation reflects the metrics used by us to assess our sources and uses of cash and was derived from our consolidated statement of cash flows. We believe that this presentation is meaningful to understand the primary sources and uses of our cash flow and the effect on our cash and cash equivalents. Non-GAAP liquidity measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with U.S. GAAP. Non-GAAP liquidity measures as reported by us may not be comparable to similarly titled amounts reported by other companies. Additional information regarding our cash flows can be found in our consolidated statement of cash flows and Note 16 to the consolidated financial statements.

At December 31, 2023, we have the following contractual obligations:

- Outstanding fixed-rate debt maturing at various times with an aggregate principal amount of \$5.7 billion, of which \$750 million is due in 2024. Depending on the conditions in the credit markets, we may refinance this debt, or we may use cash from operations and temporarily access our Credit Facility or Term Loan Facility, to repay this debt. Future interest payments on our debt total \$716.7 million, of which \$155.4 million is payable in 2024.
- The liability for our operating and finance lease payments is \$1,492.5 million, of which \$309.3 million is due in 2024.
- The obligation for our defined benefit pension plans is \$224.3 million, and the liability for our postemployment arrangements is \$142.2 million. In 2023, we contributed \$8.8 million to our defined benefit plans and paid \$10.9 million for our postemployment arrangements. We do not expect these payments to increase significantly in 2024.
- The liability for contingent purchase price payments (earn-outs) is \$229.5 million, of which \$62.4 million is payable in 2024.
- The remaining balance for the transition tax on accumulated foreign earnings imposed by the Tax Cut and Jobs Act of 2017 is \$68.9 million, of which \$27.7 million is payable in 2024.

Based on past performance and current expectations, we believe that net cash provided by operating activities and cash and cash equivalents will be sufficient to meet our non-discretionary cash requirements for the next twelve months. In addition, and over the longer term, our Credit Facility and Term Loan Facility are available to fund our working capital and contractual obligations.

Cash Management

Our regional treasury centers in North America, Europe and Asia manage our cash and liquidity. Each day, operations with excess funds invest those funds with their regional treasury center. Likewise, operations that require funds borrow from their regional treasury center. Treasury centers with excess cash invest on a short-term basis with third parties, with maturities generally ranging from overnight to 90 days. Certain treasury centers have notional pooling arrangements that are used to manage their cash and set-off foreign exchange imbalances. The arrangements require each treasury center to have its own notional pool account and to maintain a notional positive account balance. Additionally, under the terms of the arrangement, set-off of foreign exchange positions are limited to the long and short positions within their own account. To the extent that our treasury centers require liquidity, they have the ability to issue up to a total of \$2 billion of U.S. Dollar-denominated commercial paper and issue up to the equivalent of \$500 million in British Pounds or Euro under a Euro commercial paper program, or borrow under the Credit Facility or the uncommitted credit lines. This process enables us to manage our debt more efficiently and utilize our cash more effectively, as well as manage our risk to foreign exchange rate imbalances. In countries where we either do not conduct treasury operations or it is not feasible for one of our treasury centers to fund net borrowing requirements on an intercompany basis, we arrange for local currency uncommitted credit lines. We have a policy governing counterparty credit risk with financial institutions that hold our cash and cash equivalents, and we have deposit limits for each institution. In countries where we conduct treasury operations, generally the counterparties are either branches or subsidiaries of institutions that are party to the Credit Facility. These institutions generally have credit ratings equal to or better than our credit ratings. In countries where we do not conduct treasury operations, all cash and cash equivalents are held by counterparties that meet specific minimum credit standards.

At December 31, 2023, our foreign subsidiaries held approximately \$2.2 billion of our total cash and cash equivalents of \$4.4 billion. Substantially all of the cash is available to us, net of any foreign withholding taxes payable upon repatriation to the United States.

Our net debt position as of December 31, 2023, which we define as total debt, including short-term debt, less cash and cash equivalents and short-term investments decreased \$33.1 million to \$1.2 billion from December 31, 2022. The decrease in net debt primarily resulted from an increase in cash from net cash provided by operating activities of \$1.4 billion, and the proceeds from the disposition of subsidiaries and other investing activities of \$190 million, which is included in net cash provided by investing activities. These increases were substantially offset by our discretionary spending of \$1.5 billion, primarily consisting of our financing and acquisition activities. In addition, the net effect of foreign exchange rate changes on cash and cash equivalents and on our foreign currency denominated debt increased net debt by \$21.1 million.

Net debt:

	December 31,	
	2023	2022
Short-term debt	\$ 10.9	\$ 16.9
Long-term debt, including current portion	5,639.6	5,577.2
Total debt	5,650.5	5,594.1
Less: Cash and cash equivalents and short-term investments	4,432.0	4,342.5
Net debt	\$ 1,218.5	\$ 1,251.6

Net debt is a Non-GAAP liquidity measure. This presentation, together with the comparable U.S. GAAP liquidity measures, reflects one of the key metrics used by us to assess our cash management. Non-GAAP liquidity measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with U.S. GAAP. Non-GAAP liquidity measures as reported by us may not be comparable to similarly titled amounts reported by other companies.

Debt Instruments and Related Covenants

Our 2.45% Senior Notes due 2030, 4.20% Senior Notes due 2030 and 2.60% Senior Notes due 2031 are senior unsecured obligations of Omnicom that rank equal in right of payment with all existing and future unsecured senior indebtedness.

Omnicom and its wholly owned finance subsidiary, Omnicom Capital Inc., or OCI, are co-obligors under the 3.65% Senior Notes due 2024 and the 3.60% Senior Notes due 2026. These notes are a joint and several liability of Omnicom and OCI, and Omnicom unconditionally guarantees OCI's obligations with respect to the notes. OCI provides funding for our operations by incurring debt and lending the proceeds to our operating subsidiaries. OCI's assets primarily consist of cash and cash equivalents and intercompany loans made to our operating subsidiaries, and the related interest receivable. There are no restrictions on the ability of OCI or Omnicom to obtain funds from our subsidiaries through dividends, loans or advances. Such notes are senior unsecured obligations that rank equal in right of payment with all existing and future unsecured senior indebtedness.

Omnicom and OCI have, jointly and severally, fully and unconditionally guaranteed the obligations of Omnicom Finance Holdings plc, or OFH, a U.K.-based wholly owned subsidiary of Omnicom, with respect to the €500 million 0.80% Senior Notes due 2027 and the €500 million 1.40% Senior Notes due 2031, collectively the Euro Notes. OFH's assets consist of its investments in several wholly owned finance companies that function as treasury centers, providing funding for various operating companies in Europe, Australia and other countries in the Asia-Pacific region. The finance companies' assets consist of cash and cash equivalents and intercompany loans that they make or have made to the operating companies in their respective regions and the related interest receivable. There are no restrictions on the ability of Omnicom, OCI or OFH to obtain funds from their subsidiaries through dividends, loans or advances. The Euro Notes and the related guarantees are senior unsecured obligations that rank equal in right of payment with all existing and future unsecured senior indebtedness of OFH and each of Omnicom and OCI, respectively.

Omnicom has fully and unconditionally guaranteed the obligations of Omnicom Capital Holdings plc, or OCH, a U.K.-based wholly owned subsidiary of Omnicom, with respect to the Sterling Notes. OCH's assets consist of its investments in several wholly owned finance companies that function as treasury centers, providing funding for various operating companies in EMEA, Australia and other countries in the Asia-Pacific region. The finance companies' assets consist of cash and cash equivalents and intercompany loans that they make or have made to the operating companies in their respective regions and the related interest receivable. There are no restrictions on the ability of Omnicom or OCH to obtain funds from their subsidiaries through dividends, loans or advances. The Sterling Notes and the related guarantee are senior unsecured obligations that rank equal in right of payment with all existing and future unsecured senior indebtedness of OCH and Omnicom, respectively.

The Credit Facility contains a financial covenant that requires us to maintain a Leverage Ratio of consolidated indebtedness to consolidated EBITDA (earnings before interest, taxes, depreciation, amortization and non-cash charges) of no more than 3.5 times for the most recently ended 12-month period. At December 31, 2023, we were in compliance with this covenant as our Leverage Ratio was 2.3 times. Neither the Credit Facility nor the Term Loan Facility limits our ability to declare or pay dividends or repurchase our common stock.

At December 31, 2023, our long-term and short-term debt was rated BBB+ and A2 by S&P and Baa1 and P2 by Moody's. Our access to the commercial paper market and the cost of these borrowings are affected by market conditions and our credit ratings. The long-term debt indentures, Credit Facility and Term Loan Facility do not contain provisions that require acceleration of cash payments in the event of a downgrade in our credit ratings.

Credit Markets and Availability of Credit

In light of the uncertainty of future economic conditions, we will continue to take actions available to us to respond to changing economic conditions and will continue to manage our discretionary expenditures. We will also continue to monitor and manage the level of credit made available to our clients. We believe that these actions, in addition to the availability of our Credit Facility and Term Loan Facility, are sufficient to fund our near-term working capital needs and our discretionary spending. Information regarding our Credit Facility and Term Loan Facility is provided in Note 7 to the consolidated financial statements.

We have the ability to fund our day-to-day liquidity, including working capital, by issuing commercial paper or borrowing under the Credit Facility and Term Loan Facility. During 2021 and 2022, we did not issue commercial paper. For the year ended December 31, 2023, the maximum amount of commercial paper issued was \$200 million, the average amount outstanding was \$5.1 million, the average days outstanding were 1.7 days, and the weighted average interest rate was 5.24%.

We may issue commercial paper to fund our day-to-day liquidity when needed. However, disruptions in the credit markets may lead to periods of illiquidity in the commercial paper market and higher credit spreads. To mitigate any disruption in the credit markets and to fund our liquidity, we may borrow under the Credit Facility and Term Loan Facility or the uncommitted credit lines or access the capital markets if favorable conditions exist. We will continue to monitor closely our liquidity and

conditions in the credit markets. We cannot predict with any certainty the impact on us of any disruptions in the credit markets. In such circumstances, we may need to obtain additional financing to fund our day-to-day working capital requirements. Such additional financing may not be available on favorable terms, or at all.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

We manage our exposure to foreign exchange rate risk and interest rate risk through various strategies, including the use of derivative financial instruments. We use net investment hedges to manage the volatility of foreign exchange rates on the investment in our foreign subsidiaries. We may use forward foreign exchange contracts as economic hedges to manage the cash flow volatility arising from foreign exchange rate fluctuations. We do not use derivatives for trading or speculative purposes. Using derivatives exposes us to the risk that counterparties to the derivative contracts will fail to meet their contractual obligations. We manage that risk through careful selection and ongoing evaluation of the counterparty financial institutions based on specific minimum credit standards and other factors.

We evaluate the effects of changes in foreign currency exchange rates, interest rates and other relevant market risks on our derivatives. We periodically determine the potential loss from market risk on our derivatives by performing a value-at-risk, or VaR, analysis. VaR is a statistical model that uses historical currency exchange rate data to measure the potential impact on future earnings of our derivative financial instruments assuming normal market conditions. The VaR model is not intended to represent actual losses but is used as a risk estimation and management tool. Based on the results of the model, we estimate with 95% confidence a maximum one-day change in the net fair value of our derivative financial instruments at December 31, 2023 was not significant.

Foreign Currency Exchange Risk

In 2023, our international operations represented approximately 49% of our revenue. Changes in the value of foreign currencies against the U.S. Dollar affect our results of operations and financial position. For the most part, because the revenue and expenses of our foreign operations are denominated in the same local currency, the economic impact on operating margin is minimized. The effects of foreign currency exchange transactions on our results of operations are discussed in Note 2 to the consolidated financial statements.

We operate in all major international markets including the U.K., Euro Zone, Australia, Brazil, Canada, China and Japan. Our agencies transact business in more than 50 different currencies. As an integral part of our global treasury operations, we centralize our cash and use notional multicurrency pools to manage the foreign currency exchange risk that arises from imbalances between subsidiaries and their respective treasury centers. In addition, there are circumstances where revenue and expense transactions are not denominated in the same currency. In these instances, amounts are either promptly settled or hedged with forward foreign exchange contracts. To manage this risk, at December 31, 2022, we had outstanding forward foreign exchange contracts with an aggregate notional amount of \$40.3 million. The net fair value of the forward foreign contracts at December 31, 2022, was not material (see Note 22 to the consolidated financial statements). There were no outstanding forward foreign exchange contracts at December 31, 2023.

Foreign currency derivatives are designated as economic hedges; therefore, any gain or loss in fair value incurred on those instruments is generally offset by decreases or increases in the fair value of the underlying exposure. By using these financial instruments, we reduce financial risk of adverse foreign exchange changes by foregoing any gain which might occur if the markets move favorably. The terms of our forward foreign exchange contracts are generally less than 90 days.

We have fixed-to-fixed cross currency swaps with a notional value of \$150 million that hedge a portion of the net investment in our Japanese subsidiaries against volatility in the Yen/U.S. Dollar exchange rate. The swaps are designated and qualify as a hedge of a net investment in a foreign subsidiary and are scheduled to mature in 2025 and 2029. Changes in the fair value of the swaps are recognized in foreign currency translation and are reported in accumulated other comprehensive income (loss), or AOCI. Any gain or loss will remain in AOCI until the complete or substantially complete liquidation of our investment in the underlying operations. We have elected to assess the effectiveness of our net investment hedges based on changes in spot exchange rates. We receive net fixed U.S. Dollar interest payments. In 2023 and 2022, we recorded a reduction of interest expense of \$6.6 million and \$1.2 million, respectively. At December 31, 2023 and 2022, the liability for the swap fair value was \$6.6 million and \$16.5 million, respectively, and was recorded in long-term liabilities.

Interest Rate Risk

We may use interest rate swaps to manage our interest cost and structure our long-term debt portfolio to achieve a mix of fixed rate and floating rate debt. There were no interest rate swaps in 2023 and 2022. Long-term debt at December 31, 2023 and 2022 consisted entirely of fixed-rate debt.

Credit Risk

We provide advertising, marketing and corporate communications services to several thousand clients that operate in nearly every sector of the global economy, and we grant credit to qualified clients in the normal course of business. Due to the diversified nature of our client base, we do not believe that we are exposed to a concentration of credit risk as our largest client represented 3.0% of revenue in 2023. However, during periods of economic downturn, the credit profiles of our clients could change.

In the normal course of business, our agencies enter into contractual commitments with media providers and production companies on behalf of our clients at levels that can substantially exceed the revenue from our services. These commitments are included in accounts payable when the services are delivered by the media providers or production companies. If permitted by local law and the client agreement, many of our agencies purchase media and production services for our clients as an *agent for a disclosed principal*. In addition, while operating practices vary by country, media type and media vendor, in the United States and certain foreign markets, many of our agencies' contracts with media and production providers specify that our agencies are not liable to the media and production providers under the theory of sequential liability until and to the extent we have been paid by our client for the media or production services.

Where purchases of media and production services are made by our agencies as a principal or are not subject to the theory of sequential liability, the risk of a material loss as a result of payment default by our clients could increase significantly and such a loss could have a material adverse effect on our business, results of operations and financial position.

While we use various methods to manage the risk of payment default, including obtaining credit insurance, requiring payment in advance, mitigating the potential loss in the marketplace or negotiating with media providers, these may be insufficient, less available, or unavailable during a severe economic downturn.

Item 8. Financial Statements and Supplementary Data

See Item 15, "Exhibits, Financial Statement Schedules."

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports we file with the SEC is recorded, processed, summarized and reported within applicable time periods. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934, as amended, or the Exchange Act, is accumulated and communicated to management, including our Chief Executive Officer, or CEO, and Chief Financial Officer, or CFO, as appropriate to allow timely decisions regarding required disclosure. Management, including our CEO and CFO, conducted an evaluation of the effectiveness of our disclosure controls and procedures as of December 31, 2023. Based on that evaluation, our CEO and CFO concluded that, as of December 31, 2023, our disclosure controls and procedures are effective to ensure that decisions can be made timely with respect to required disclosures, as well as ensuring that the recording, processing, summarization and reporting of information required to be included in our Annual Report on Form 10-K for the year ended December 31, 2023 are appropriate.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Management, with the participation of our CEO, CFO and our agencies, conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, our CEO and CFO concluded that our internal control over financial reporting was effective as of December 31, 2023. There have not been any changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

KPMG LLP, an independent registered public accounting firm that audited our consolidated financial statements included in this Annual Report on Form 10-K, has issued an attestation report on Omnicom's internal control over financial reporting as of December 31, 2023, dated February 7, 2024, which is included on page F-2 of this 2023 Form 10-K.

Item 9B. Other Information

During the fiscal quarter ended December 31, 2023, none of the Company's directors or officers adopted, modified, or terminated a Rule 10b5-1 trading arrangement or a non-Rule 10b5-1 trading arrangement, in each case as defined in Item 408 of Regulation S-K.

Item 9C. Disclosure Regarding Foreign Jurisdictions That Prevent Inspections

Not applicable.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information required by this Item will be included in our definitive proxy statement, which is expected to be filed with the SEC within 120 days after December 31, 2023, in connection with the solicitation of proxies for our 2024 annual meeting of shareholders (the “2024 Proxy Statement”) and is incorporated herein by reference.

Item 11. Executive Compensation

The information required by this Item will be included in the 2024 Proxy Statement and is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information required by this Item will be included in the 2024 Proxy Statement and is incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information required by this Item will be included in the 2024 Proxy Statement and is incorporated herein by reference.

Item 14. Principal Accountant Fees and Services

Our independent registered public accounting firm is KPMG LLP, New York, NY, Auditor Firm ID: 185.

The information required by this Item will be included in the 2024 Proxy Statement and is incorporated herein by reference.

Item 16. Form 10-K Summary

None.

MANAGEMENT REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for the preparation of the consolidated financial statements and related information of Omnicom Group Inc., or Omnicom. Management uses its best judgment to ensure that the consolidated financial statements present fairly, in all material respects, Omnicom's consolidated financial position and results of operations in conformity with generally accepted accounting principles in the United States.

The financial statements have been audited by an independent registered public accounting firm in accordance with the standards of the Public Company Accounting Oversight Board. Their report expresses the independent accountant's judgment as to the fairness of management's reported financial position, results of operations and cash flows. This judgment is based on the procedures described in the fourth and fifth paragraphs of their report.

Omnicom management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Securities Exchange Act Rule 13a-15(f). Management, with the participation of our Chief Executive Officer, or CEO, Chief Financial Officer, or CFO, and our agencies, conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on that evaluation, our CEO and CFO concluded that our internal control over financial reporting was effective as of December 31, 2023. There have not been any changes in our internal control over financial reporting during our fourth fiscal quarter that have materially affected or are reasonably likely to affect our internal control over financial reporting.

KPMG LLP, an independent registered public accounting firm that audited our consolidated financial statements included in this Annual Report on Form 10-K, has issued an attestation report on Omnicom's internal control over financial reporting as of December 31, 2023, dated February 7, 2024.

The Board of Directors of Omnicom has an Audit Committee comprised of five independent directors. The Audit Committee meets periodically with financial management, Internal Audit and the independent auditors to review accounting, control, audit and financial reporting matters.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and Board of Directors
Omnicom Group Inc.:

Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting

We have audited the accompanying consolidated balance sheets of Omnicom Group Inc. and subsidiaries (the Company) as of December 31, 2023 and 2022, the related consolidated statements of income, comprehensive income, equity, and cash flows for each of the years in the three-year period ended December 31, 2023, and the related notes and financial statement schedule II (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2023, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Evaluation of the sufficiency of audit evidence over revenue recognition

As discussed in Note 3 to the consolidated financial statements, the Company provides an extensive range of advertising, marketing and corporate communication services through its networks, practice areas and agencies, which operate in all major markets throughout the Americas, EMEA and Asia-Pacific regions. Consolidated revenues across all disciplines and geographic markets was \$14,692.2 million for the year-ended December 31, 2023.

We identified the evaluation of the sufficiency of audit evidence over revenue recognition as a critical audit matter. Revenue is recognized from contracts with customers that are based on statements of work which are typically separately negotiated with the client at a local agency level and local agencies execute tens of thousands of contracts per year. Evaluating the sufficiency of audit evidence obtained required a high degree of auditor judgment because of the volume of contracts entered into across the networks and agencies for which revenue was recorded. This included selecting the locations where testing would be performed and the supervision and review of procedures performed at those locations.

The following are the primary procedures we performed to address this critical audit matter. We applied auditor judgment to determine the scope of agencies at which we performed audit procedures and the nature and extent of the procedures performed at each location. At each agency where procedures over revenue were performed, we (1) evaluated the design and tested the operating effectiveness of certain internal controls over revenue recognition, including controls to check that local agencies recorded revenue in accordance with the Company's accounting policies and billings were recorded and presented in accordance with client agreements, (2) examined a selection of contracts and assessed that the Company's accounting policies were applied consistently and accurately, and (3) assessed the recording of revenue by selecting certain transactions and comparing the amounts recognized for consistency with the underlying documentation including contracts with customers. We evaluated the sufficiency of audit evidence obtained by assessing the results of procedures performed over revenue recognition.

/s/ KPMG LLP

We have served as the Company's auditor since 2002.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

1. Presentation of Financial Statements

The terms "Omnicom," "the Company," "we," "our" and "us" each refer to Omnicom Group Inc. and its subsidiaries, unless the context indicates otherwise. The accompanying consolidated financial statements were prepared in accordance with generally accepted accounting principles in the United States, or U.S. GAAP or GAAP. All intercompany balances and transactions have been eliminated. The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates and assumptions.

Risks and Uncertainties

Global economic challenges, including geopolitical events, international hostilities, acts of terrorism, public health crises, high and sustained inflation in countries that comprise our major markets, high interest rates, and labor and supply chain issues could cause economic uncertainty and volatility. The impact of these issues on our business will vary by geographic market and discipline. We monitor economic conditions closely, as well as client revenue levels and other factors. In response to reductions in revenue, we can take actions to align our cost structure with changes in client demand and manage our working capital. However, there can be no assurance as to the effectiveness of our efforts to mitigate any impact of the current and future adverse economic conditions, reductions in client revenue, changes in client creditworthiness and other developments.

2. Significant Accounting Policies

Revenue Recognition. Revenue is recognized when a customer obtains control and receives the benefit of the promised goods or services (the performance obligation) in an amount that reflects the consideration we expect to receive in exchange for those goods or services (the transaction price). We measure revenue by estimating the transaction price based on the consideration specified in the client arrangement. Revenue is recognized as the performance obligations are satisfied. Our revenue is primarily derived from the planning and execution of advertising communications and marketing services in the following fundamental disciplines: Advertising & Media, Precision Marketing, Commerce & Branding, Experiential, Execution & Support, Public Relations and Healthcare. Our client contracts are primarily fees for service on a rate per hour or per project basis. Revenue is recorded net of sales, use and value added taxes.

Performance Obligations. In substantially all our disciplines, the performance obligation is to provide advisory and consulting services at an agreed-upon level of effort to accomplish the specified engagement. Our client contracts are comprised of diverse arrangements involving fees based on any one or a combination of the following: an agreed fee or rate per hour for the level of effort expended by our employees; commissions based on the client's spending for media purchased from third parties; qualitative or quantitative incentive provisions specified in the contract; and reimbursement for third-party costs that we are required to include in revenue when we control the vendor services related to these costs and we act as principal. The transaction price of a contract is allocated to each distinct performance obligation based on its relative stand-alone selling price and is recognized as revenue when, or as, the customer receives the benefit of the performance obligation. Clients typically receive and consume the benefit of our services as they are performed. Substantially all our client contracts provide that we are compensated for services performed to date and allow for cancellation by either party on short notice, typically 90 days, without penalty.

Generally, our short-term contracts, which normally take 30 to 90 days to complete, are performed by a single agency and consist of a single performance obligation. As a result, we do not consider the underlying services as separate or distinct performance obligations because our services are highly interrelated, occur in close proximity, and the integration of the various components of a marketing message is essential to overall service. In certain of our long-term client contracts, which have a term of up to one year, the performance obligation is a stand-ready obligation, because we provide a constant level of similar services over the term of the contract. In other long-term contracts, when our services are not a stand-ready obligation, we consider our services distinct performance obligations and allocate the transaction price to each separate performance obligation based on its stand-alone selling price, including contracts for strategic media planning and buying services, which are considered to be multiple performance obligations, and we allocate the transaction price to each distinct service based on the staffing plan and the stand-alone selling price. In substantially all of our creative services contracts, we have distinct performance obligations for our services, including certain creative services contracts where we act as an agent and arrange, at the client's direction, for third parties to perform studio production efforts.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Revenue Recognition Methods. A substantial portion of our revenue is recognized over time, as the services are performed, because the client receives and consumes the benefit of our performance throughout the contract period, or we create an asset with no alternative use and are contractually entitled to payment for our performance to date in the event the client terminates the contract for convenience. For these client contracts, other than when we have a stand-ready obligation to perform services, revenue is recognized over time using input measures that correspond to the level of staff effort expended to satisfy the performance obligation on a rate per hour or equivalent basis. For client contracts when we have a stand-ready obligation to perform services on an ongoing basis over the life of the contract, typically for periods up to one year, where the scope of these arrangements is broad and there are no significant gaps in performing the services, we recognize revenue using a time-based measure resulting in a straight-line revenue recognition. From time to time, there may be changes in the client service requirements during the term of a contract and the changes could be significant. These changes are typically negotiated as new contracts covering the additional requirements and the associated costs, as well as additional fees for the incremental work to be performed.

To a lesser extent, for certain other contracts where our performance obligations are satisfied in phases, we recognize revenue over time using certain output measures based on the measurement of the value transferred to the customer, including milestones achieved. Where the transaction price or a portion of the transaction price is derived from commissions based on a percentage of purchased media from third parties, the performance obligation is not satisfied until the media is run and we have an enforceable contract providing a right to payment. Accordingly, revenue for commissions is recognized at a point in time, typically when the media is run, including when it is not subject to cancellation by the client or media vendor.

Principal vs. Agent. In substantially all our businesses, we incur third-party costs on behalf of clients, including direct costs and incidental, or out-of-pocket costs. Third-party direct costs incurred in connection with the creation and delivery of advertising or marketing communication services include, among others: purchased media, studio production services, specialized talent, including artists and other freelance labor, event marketing supplies, materials and services, promotional items, market research and third-party data and other related expenditures. Out-of-pocket costs include, among others: transportation, hotel, meals, shipping and telecommunication charges incurred by us in the course of providing our services. Billings related to out-of-pocket costs are included in revenue since we control the goods or services prior to delivery to the client.

However, the inclusion of billings related to third-party direct costs in revenue depends on whether we act as a principal or as an agent in the client arrangement. In most of our businesses, including advertising, which also includes studio production efforts and media planning and buying services, public relations, healthcare advertising, precision marketing, commerce and branding businesses, we act as an agent and arrange, at the client's direction, for third parties to perform certain services. In these cases, we do not control the goods or services prior to the transfer to the client. As a result, revenue is recorded net of these costs, equal to the amount retained for our fee or commission.

In certain businesses we may act as principal when contracting for third-party services on behalf of our clients. In our experiential business and most of our execution and support businesses, including field marketing and certain specialty marketing businesses, we act as principal because we control the specified goods or services before they are transferred to the client and we are responsible for providing the specified goods or services, or we are responsible for directing and integrating third-party vendors to fulfill our performance obligation at the agreed upon contractual price. In such arrangements, we also take pricing risk under the terms of the client contract. In certain specialty media buying businesses, we act as principal when we control the buying process for the purchase of the media and contract directly with the media vendor. In these arrangements, we assume the pricing risk under the terms of the client contract. When we act as principal, we include billable amounts related to third-party costs in the transaction price and record revenue over time at the gross amount billed, including out-of-pocket costs, consistent with the manner that we recognize revenue for the underlying services contract. However, in media buying contracts where we act as principal, we recognize revenue at a point in time, typically when the media is run, including when it is not subject to cancellation by the client or media vendor.

Variable Consideration. Some of our client arrangements include variable consideration provisions, which include performance incentives, tiered commission structures and vendor rebates in certain markets outside of the United States. Variable consideration is estimated and included in total consideration at contract inception based on either the expected value method or the most likely outcome method. These estimates are based on historical award experience, anticipated performance and other factors known at the time. Performance incentives are typically recognized in revenue over time. Variable consideration for our media businesses in certain international markets includes rebate revenue and is recognized when it is probable that the media will be run, including when it is not subject to cancellation by the client. In addition, when we receive rebates or credits from vendors

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

for transactions entered into on behalf of clients, they are remitted to the clients in accordance with contractual requirements or retained by us based on the terms of the client contract or local law. Amounts passed on to clients are recorded as a liability and amounts retained by us are recorded as revenue when earned, typically when the media is run.

Operating Expenses. Operating expenses include cost of services, selling, general and administrative expenses, or SG&A, and depreciation and amortization. We measure cost of services in two distinct categories: salary and service costs and occupancy and other costs. As a service business, salary and service costs make up a significant portion of our operating expenses, and substantially all these costs comprise the essential components directly linked to the delivery of our services. Salary and service costs include employee compensation and benefits, freelance labor, third-party service costs, and third-party incidental costs. *Third-party service costs include vendor costs when we act as principal in providing services to our clients. Third-party incidental costs, primarily consist of client-related travel and incidental out-of-pocket costs, which we bill back to the client directly at our cost and which we are required to include in revenue.* Occupancy and other costs consist of the indirect costs related to the delivery of our services, including office rent and other occupancy costs, equipment rent, technology costs, general office expenses and other expenses. SG&A expenses primarily consist of third-party marketing costs, professional fees and compensation and benefits and occupancy and other costs of our corporate and executive offices, which includes group-wide finance and accounting, treasury, legal and governance, human resource oversight and similar costs.

Cash and Cash Equivalents. Cash and cash equivalents include cash in banks and highly liquid interest-bearing time deposits with original maturities of three months or less. Due to the short-term nature of these investments, carrying value approximates fair value. We have a policy governing counterparty credit risk for financial institutions that hold our cash and cash equivalents and we have deposit limits for each institution.

Short-Term Investments. Short-term investments represent time deposits with original maturities ranging from 91 to 364 days. These investments are classified as held-to-maturity securities because we have the positive intent and ability to hold until maturity. Held-to-maturity securities are carried at amortized cost, which approximates fair value. Fair value is based on observable interest rates for similar securities.

Work in Process. Work in process represents accrued costs incurred on behalf of customers, including media and production costs and fees, other third-party costs and contract assets that have not yet been billed. Media and production costs are billed during the production process in accordance with the terms of the client contract. Substantially all unbilled fees and costs will be billed within the next 30 days. Contract assets primarily include incentive fees, which are not material, and will be billed to clients in accordance with the terms of the client contract.

Property and Equipment. Property and equipment are carried at cost and are depreciated over the estimated useful lives of the assets using the straight-line method ranging from: three to five years for technology and related equipment, seven to ten years for furniture, and up to 40 years for office buildings. Leasehold improvements are amortized on a straight-line basis over the shorter of the lease term or the estimated useful life of the asset. Assets under finance leases are amortized on a straight-line basis over the lease term.

Equity Method Investments. Investments in companies where we exercise significant influence over the operating and financial policies of the investee and own less than 50% of the equity are accounted for using the equity method. Our proportionate share of the net income or loss of equity method investments is included in results of operations and any dividends received reduce the carrying value of the investment. *The excess of the cost of our investment over our proportionate share of the fair value of the net assets of the investee at the acquisition date is recognized as goodwill and included in the carrying amount of the investment.* Goodwill in the equity method investments is not amortized. Gains and losses from changes in our ownership interests are recorded in results of operations until control is achieved. In circumstances where a change in our ownership interest results in obtaining control, the existing carrying value of the investment is remeasured to the acquisition date fair value and any gain or loss is recognized in results of operations. We periodically review the carrying value of the equity method investments to determine if there has been an other-than-temporary decline in carrying value. A variety of factors are considered when determining if a decline in carrying value is other-than-temporary, including the financial condition and business prospects of the investee, as well as our investment intent.

Marketable Equity Securities. Marketable equity securities are measured at fair value and changes in fair value are recognized in results of operations.

Non-Marketable Equity Securities. Non-marketable equity securities do not have a readily determinable fair value and are measured at cost, less any impairment, and are adjusted for observable changes in fair value from transactions for identical or similar securities of the same issuer.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Business Combinations. In a business combination, the assets acquired, including identified intangible assets, liabilities assumed and any noncontrolling interest in the acquired business are recorded at acquisition date fair value. In circumstances where control is obtained and less than 100% of a business is acquired, goodwill related to the noncontrolling shareholders is recorded as if 100% were acquired. Acquisition-related costs, including advisory, legal, accounting, valuation and other costs are expensed as incurred. Certain acquisitions include an initial payment at closing and provide for future additional contingent purchase price payments (earn-outs), which are recorded as a liability at the acquisition date fair value using the discount rate in effect on the acquisition date. Subsequent changes in the fair value of the liability are recorded in results of operations. Amounts earned under the contingent purchase price arrangements may be subject to a maximum and payment is not contingent upon future employment. The results of operations of acquired businesses are included in results of operations from the acquisition date.

Goodwill and Intangible Assets. Goodwill represents the excess of the acquisition cost over the fair value of the net assets acquired. Goodwill is not amortized but is periodically reviewed for impairment. Intangible assets comprise customer relationships, including the related customer contracts and trade names, and purchased and internally developed software and are amortized over their estimated useful lives ranging from five to twelve years. We consider a number of factors in determining the useful lives and amortization method, including the pattern in which the economic benefits are consumed, as well as trade name recognition and customer attrition. There is no estimated residual value for the intangible assets.

In 2023, to better align with our internal financial processes, the date of our annual impairment test was changed from June 30 to May 1. We will continue to evaluate goodwill for impairment at least annually on May 1 and whenever events or circumstances indicate the carrying value may not be recoverable. The impairment evaluation compares the fair value of each reporting unit, which we identified as our six agency networks, to its carrying value, including goodwill. If the fair value of the reporting unit is equal to or greater than its carrying value, goodwill is not impaired. Goodwill is impaired when the carrying value of the reporting unit exceeds its fair value. Goodwill is written down to its fair value through a non-cash expense recorded in results of operations in the period the impairment is identified.

We identified our regional reporting units as components of our operating segments, which are our six global agency networks. The regional reporting units and practice areas monitor the performance and are responsible for the agencies in their region. The regional reporting units report to the segment managers and facilitate the administrative and logistical requirements of our key client matrix organization structure for delivering services to clients in their regions. We have concluded that, for each of our operating segments, their regional reporting units have similar economic characteristics and should be aggregated for purposes of testing goodwill for impairment at the operating segment level. Our conclusion was based on a detailed analysis of the aggregation criteria set forth in FASB ASC Topic 280, *Segment Reporting*, and in FASB ASC Topic 350. Consistent with our fundamental business strategy, the agencies within our regional reporting units serve similar clients in similar industries, and in many cases the same clients. In addition, the agencies within our regional reporting units have similar economic characteristics, and the employees share similar skill sets. The main economic components of each agency are employee compensation and related costs, and direct service costs and occupancy and other costs, which include rent and occupancy costs, technology costs that are generally limited to personal computers, servers and off-the-shelf software and other overhead expenses. Finally, the expected benefits of our acquisitions are typically shared by multiple agencies in various regions as they work together to integrate the acquired agency into our virtual client network strategy. We use the following valuation methodologies to determine the fair value of our reporting units: (1) the income approach, which utilizes discounted expected future cash flows, (2) comparative market participant multiples of EBITDA (earnings before interest, taxes, depreciation and amortization) and (3) when available, consideration of recent and similar acquisition transactions. The market assumptions used in our assessment reflected the current economic environment (see Note 1 – *Risks and Uncertainties*).

Based on the results of the annual impairment test, we concluded that at May 1, 2023 and June 30, 2022, goodwill was not impaired because either the fair value of each reporting unit was substantially in excess of its respective net book value, or for reporting units with a negative book value, fair value of assets exceeds total assets. Subsequent to the annual goodwill impairment test, there have been no events or circumstances that triggered the need for an interim impairment test.

Debt Issuance Costs. Debt issuance costs are capitalized and amortized in interest expense over the life of the related debt and are presented as a reduction to the carrying amount of debt.

Temporary Equity - Redeemable Noncontrolling Interests. Owners of noncontrolling equity interests in some of our subsidiaries have the right in certain circumstances to require us to purchase all or a portion of their equity interests at fair value as defined in the applicable agreements. The intent of the parties is to approximate fair value at the time of redemption

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

by using a multiple of earnings that is consistent with generally accepted valuation practices used by market participants in our industry. These contingent redemption rights are embedded in the equity security at issuance, are not free-standing instruments, do not represent a de facto financing and are not under our control.

Treasury Stock. Repurchases of our common stock are accounted for at cost and are recorded as treasury stock. The excise tax on net stock repurchases is recorded as a cost of acquiring treasury stock. Reissued treasury stock, primarily in connection with share-based compensation plans, is accounted for at average cost. Gains or losses on reissued treasury stock arising from the difference between the average cost and the fair value of the award are recorded in additional paid-in capital and do not affect results of operations.

Noncontrolling Interests. Noncontrolling interests represent equity interests in certain subsidiaries held by third parties. Noncontrolling interests are presented as a component of equity and the proportionate share of net income attributed to the noncontrolling interests is recorded in results of operations. Changes in noncontrolling interests that do not result in a loss of control are accounted for in equity. Gains and losses resulting from a loss of control are recorded in results of operations.

Foreign Currency Translation and Transactions. Substantially all of our foreign subsidiaries use their local currency as their functional currency. Assets and liabilities are translated from the local functional currency into U.S. Dollars at the exchange rate on the balance sheet date and revenue and expenses are translated at the average exchange rate for the period. Translation adjustments are recorded in accumulated other comprehensive income. Foreign currency gains and losses arising from transactions not in the subsidiaries' local currency are recorded in results of operations. We recorded foreign currency transaction losses of \$14.0 million and \$3.3 million in 2023 and 2021, respectively, and recorded foreign currency transaction gains of \$1.1 million in 2022. Foreign currency gains and losses for hyper-inflationary economics are recorded in results of operations.

Share-Based Compensation. Share-based compensation for restricted stock and stock option awards is measured at the grant date fair value. The fair value of restricted stock awards is determined and fixed using the closing price of our common stock on the grant date and is recorded in additional paid-in capital. The fair value of stock option awards is determined using the Black-Scholes option valuation model. For awards with a service only vesting condition, compensation expense is recognized on a straight-line basis over the requisite service period. For awards with a performance vesting condition, compensation expense is recognized on a graded-vesting basis. Typically, all share-based awards are settled with treasury stock. See Note 10 for additional information regarding our specific award plans.

Salary Continuation Agreements. Arrangements with certain present and former employees provide for continuing payments for periods up to ten years after cessation of full-time employment in consideration for agreement by the employees not to compete with us and to render consulting services during the postemployment period. Such payments, which are subject to certain limitations, including our operating performance during the postemployment period, represent the fair value of the services rendered and are expensed in such periods.

Severance. The liability for one-time termination benefits, such as severance pay or benefit payouts, is measured and recognized at fair value in the period the liability is incurred. Subsequent changes to the liability are recognized in results of operations in the period of change.

Defined Benefit Pension Plans and Postemployment Arrangements. The funded status of our defined benefit plans is recorded as an asset or liability. Funded status is the difference between the fair value of plan assets and the benefit obligation at December 31, the measurement date, determined on a plan-by-plan basis. The benefit obligation for the defined benefit plans is the projected benefit obligation, or PBO, which represents the actuarial present value of benefits expected to be paid upon retirement based on estimated future compensation levels. The fair value of plan assets represents the current market value. Overfunded plans, where the fair value of plan assets exceeds the benefit obligation, are aggregated and recorded as a prepaid pension asset equal to the excess. Underfunded plans, where the benefit obligation exceeds the fair value of plan assets, are aggregated and recorded as a liability equal to the excess. The benefit obligation liability for our postemployment arrangements is the PBO and these arrangements are not funded. The current portion of the benefit obligation for the defined benefit plans and postemployment arrangements, which represents the actuarial present value of benefits payable in the next twelve months that exceed the fair value of plan assets, is recorded in other current liabilities and the long-term portion is recorded in long-term liabilities.

Deferred Compensation. Some of our subsidiaries have deferred compensation arrangements with certain executives that provide for payments over varying terms upon retirement, cessation of employment or death. The cost of these arrangements is accrued during the employee's service period.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Income Taxes. We use the asset and liability method of accounting for income taxes. Under this method, income tax expense is recognized for the amount of taxes payable for the current period and the deferred taxes recognized during the period. Deferred income taxes reflect the temporary difference between assets and liabilities that are recognized for financial reporting purposes and income tax purposes and are recorded as noncurrent. Deferred income taxes are measured using the enacted tax rates that are assumed to be in effect when the differences reverse. Valuation allowances are recorded where it is more likely than not that all or a portion of a deferred tax asset will not be realized. In assessing the need for a valuation allowance, we evaluate factors such as prior earnings history, expected future earnings, carry-back and carry-forward periods and tax strategies that could potentially enhance the likelihood of the realization of a deferred tax asset.

Interest and penalties related to tax positions taken in our tax returns are recorded in income tax expense. We record a liability for uncertain tax positions that reflects the treatment of certain tax positions taken in our tax returns that do not meet the more-likely-than-not threshold, or that meet the more-likely-than-not threshold but have measurement related unrecognized tax benefits. Until these positions are sustained by the taxing authorities or the statute of limitations concerning such issues lapses, we do not generally recognize the tax benefits resulting from such positions.

Net Income Per Share. Basic net income per share is based on the weighted average number of common shares outstanding during the period. Diluted net income per share is based on the weighted average number of common shares outstanding, plus the dilutive effect of common share equivalents, which include outstanding stock options and restricted stock awards.

Leases. At the inception of a contract, we assess whether the contract is, or contains, a lease. A lease is classified as a finance lease if any one of the following criteria are met: the lease transfers ownership of the asset by the end of the lease term, the lease contains an option to purchase the asset that is reasonably certain to be exercised, the lease term is for a major part of the remaining useful life of the asset or the present value of the lease payments equals or exceeds substantially all of the fair value of the asset. A lease is classified as an operating lease if it does not meet any one of the criteria. Substantially all our operating leases are office space leases, and substantially all our finance leases are office furniture and technology equipment leases.

For all leases a right-of-use, or ROU, asset and lease liability are recognized at the lease commencement date. The lease liability represents the present value of the lease payments under the lease. The ROU asset is initially measured at cost, which includes the initial lease liability, plus any initial direct costs incurred, consisting mainly of brokerage commissions, less any lease incentives received. All ROU assets are reviewed for impairment. The lease liability is initially measured as the present value of the lease payments, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, our secured incremental borrowing rate for the same term as the underlying lease. For real estate and certain equipment operating leases, we use our secured incremental borrowing rate. For finance leases, we use the rate implicit in the lease or our secured incremental borrowing rate if the implicit lease rate cannot be determined.

Lease payments included in the measurement of the lease liability comprise: the fixed noncancelable lease payments, payments for optional renewal periods where it is reasonably certain the renewal period will be exercised, and payments for early termination options unless it is reasonably certain the lease will not be terminated early. Lease components, including fixed payments for real estate taxes and insurance for office space leases, are included in the measurement of the initial lease liability.

Office space leases may contain variable lease payments, which include payments based on an index or rate. Variable lease payments based on an index or rate are initially measured using the index or rate in effect at lease commencement. Additional payments based on the change in an index or rate, or payments based on a change in our portion of the operating expenses, including real estate taxes and insurance, are recorded as a period expense when incurred. Lease modifications result in remeasurement of the lease liability.

Operating lease expense is recognized on a straight-line basis over the lease term. Lease expense may include variable lease payments incurred in the period that were not included in the initial lease liability. Finance lease expense consists of the amortization of the ROU asset on a straight-line basis over the lease term and interest expense determined on an amortized cost basis. Finance lease payments are allocated between a reduction of the lease liability and interest expense.

Concentration of Credit Risk. We provide advertising, marketing and corporate communications services to several thousand clients that operate in nearly every industry sector of the global economy, and we grant credit to qualified clients in the normal course of business. Due to the diversified nature of our client base, we do not believe that we are exposed to a concentration of credit risk as our largest client accounted for 3.0% of revenue in 2023.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Derivative Financial Instruments. All derivative instruments, including certain derivative instruments embedded in other contracts, are recorded at fair value. Derivatives qualify for hedge accounting if: the hedging instrument is designated as a hedge, the hedged exposure is specifically identifiable and exposes us to risk, and a change in fair value of the derivative financial instrument and an opposite change in the fair value of the hedged exposure have a high degree of correlation. The method of assessing hedge effectiveness and measuring hedge ineffectiveness is formally documented. Hedge effectiveness is assessed, and hedge ineffectiveness is measured at least quarterly throughout the designated hedge period. Changes in the fair value of a fair value hedge are offset against the change in fair value of the hedged asset, liability or firm commitment through results of operations. Changes in the fair value of a cash flow hedge are recognized in other comprehensive income until the hedged item is recognized in results of operations. Foreign currency hedges of the net investment in our foreign operations are recorded in accumulated other comprehensive income (loss), or AOCI. Any gain or loss will remain in AOCI until the complete or substantially complete liquidation of our investment in the underlying operation. We do not use derivatives for trading or speculative purposes. Using derivatives exposes us to the risk that counterparties to the derivative contracts will fail to meet their contractual obligations. We manage that risk through careful selection and ongoing evaluation of the counterparty financial institutions based on specific minimum credit standards and other factors.

Fair Value. We apply the fair value measurement guidance in FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, for our financial assets and liabilities that are required to be measured at fair value and for our nonfinancial assets and liabilities that are not required to be measured at fair value on a recurring basis, which includes goodwill and other identifiable intangible assets. The measurement of fair value requires the use of techniques based on observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions.

The inputs create the following fair value hierarchy:

- Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2 - Unadjusted quoted prices in active markets for similar assets or liabilities; unadjusted quoted prices for identical assets or liabilities in markets that are not active; and model-derived valuations with observable inputs.
- Level 3 - Unobservable inputs for the asset or liability.

We use unadjusted quoted market prices to determine the fair value of our financial assets and liabilities and classify such items in Level 1. We use unadjusted quoted market prices for similar assets and liabilities in active markets and model-derived valuations and classify such items in Level 2.

In determining the fair value of financial assets and liabilities, we consider certain market valuation adjustments that market participants would consider in determining fair value, including: counterparty credit risk adjustments applied to financial assets and liabilities, taking into account the actual credit risk of the counterparty when valuing assets measured at fair value and credit risk adjustments applied to reflect our credit risk when valuing liabilities measured at fair value.

3. Revenue

Nature of our services

We provide an extensive range of advertising, marketing and corporate communications services through various client-centric networks that are organized to meet specific client objectives. Our networks, practice areas and agencies provide a comprehensive range of services in the following fundamental disciplines: Advertising & Media, Precision Marketing, Commerce & Branding, Experiential, Execution & Support, Public Relations and Healthcare. Advertising & Media include creative services across digital and traditional media, strategic media planning and buying, performance media and data analytics services. Precision Marketing includes digital and direct marketing, digital transformation consulting and data and analytics. Commerce & Branding services include brand and product consulting, strategy and research, retail and e-commerce. Experiential marketing services include live and digital events and experience design and execution. Execution & Support includes field marketing, sales support, digital and physical merchandising, point-of-sale and product placement, as well as other specialized marketing and custom communications services. Public Relations services include corporate communications, crisis management, public affairs and media and media relations services. Healthcare includes corporate communications and advertising and media services to global healthcare and pharmaceutical companies. At the core of all our services is the ability to create or develop a client's marketing or corporate communications message into content that can be delivered to a target audience across different communications mediums.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Economic factors affecting our revenue

Global economic conditions have a direct impact on our revenue. Adverse economic conditions pose a risk that our clients may reduce, postpone or cancel spending for our services, which would impact our revenue.

Revenue by discipline:

	Year Ended December 31,		
	2023	2022	2021
Advertising & Media	\$ 7,891.2	\$ 7,433.9	\$ 7,966.2
Precision Marketing	1,473.5	1,426.6	1,205.2
Commerce & Branding	853.7	848.1	802.2
Experiential	651.4	635.6	536.0
Execution & Support	880.8	1,069.9	1,115.9
Public Relations	1,578.9	1,552.7	1,398.2
Healthcare	1,362.7	1,322.3	1,265.7
Revenue	\$ 14,692.2	\$ 14,289.1	\$ 14,289.4

Effective January 1, 2023, we realigned the classification of certain services, primarily within our Commerce & Branding, Execution & Support and Experiential disciplines and prior year amounts have been reclassified.

Revenue by geographic market:

	Year Ended December 31,		
	2023	2022	2021
Americas:			
North America	\$ 7,951.0	\$ 7,856.0	\$ 7,709.7
Latin America	386.8	329.0	296.1
EMEA:			
Europe	4,266.9	4,010.5	4,219.6
Middle East and Africa	309.6	346.7	267.6
Asia-Pacific	1,777.9	1,746.9	1,796.4
Revenue	\$ 14,692.2	\$ 14,289.1	\$ 14,289.4

The Americas is comprised of North America, which includes the United States, Canada and Puerto Rico, and Latin America, which includes South America and Mexico. EMEA is comprised of Europe, the Middle East and Africa. Asia-Pacific includes Australia, Greater China, India, Japan, Korea, New Zealand, Singapore and other Asian countries. Revenue in the United States in 2023, 2022 and 2021 was \$7,471.6 million, \$7,367.3 million and \$7,245.9 million, respectively.

Contract balances

Contract balances include work in process and customer advances, which primarily consist of advance billings to customers in accordance with the terms of the client contracts, primarily for the reimbursement of third-party costs.

	December 31,	
	2023	2022
Work in process:		
Media and production costs	\$ 664.4	\$ 725.1
Unbilled fees and costs and contract assets	678.1	529.5
Work in process	\$ 1,342.5	\$ 1,254.6
Customer advances	\$ 1,356.2	\$ 1,492.3

There were no impairment losses to work in process recorded in 2023 or 2022.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

4. Net Income per Share

Basic and diluted net income per share:

	Year Ended December 31,		
	2023	2022	2021
Net income - Omnicom Group Inc.	\$ 1,391.4	\$ 1,316.5	\$ 1,407.8
Weighted average shares (millions):			
Basic	199.4	205.6	214.3
Dilutive stock options and restricted shares	2.0	1.4	1.3
Diluted	201.4	207.0	215.6
Anti-dilutive stock options and restricted shares (millions)	—	4.3	4.7
Net income per share - Omnicom Group Inc.:			
Basic	\$ 6.98	\$ 6.40	\$ 6.57
Diluted	\$ 6.91	\$ 6.36	\$ 6.53

5. Business Combinations

In 2023, we completed six acquisitions that increased goodwill by \$340.0 million. In addition, during 2023, we acquired additional equity interests in certain majority owned subsidiaries, which are accounted for as equity transactions, and no additional goodwill was recorded. None of the acquisitions in 2023, either individually or in the aggregate, were material to our results of operations or financial position.

On January 2, 2024, we acquired Flywheel Digital, the digital commerce business of Ascential plc, for a net cash purchase price of approximately \$845 million. Since the acquisition occurred subsequent to December 31, the allocation of the purchase price to the underlying assets acquired and liabilities assumed is subject to a formal valuation process that has not yet been completed. The major assets acquired include trade receivables, goodwill and intangible assets, and the major liabilities assumed include trade and other payables. The Flywheel Digital acquisition is not material to our results of operations and financial position. We will include the results of Flywheel Digital in our 2024 results of operations from the date of acquisition. In the fourth quarter of 2023 we incurred transaction costs of \$14.5 million primarily related to the acquisition of Flywheel Digital.

The evaluation of potential acquisitions is based on various factors, including specialized know-how, reputation, geographic coverage, competitive position and service offerings, as well as our experience and judgment. Our acquisition strategy is focused on acquiring the expertise of an assembled workforce in order to continue to build upon the core capabilities of our strategic business platforms and agency brands, through the expansion of their geographic area or their service capabilities to better serve our clients. Certain acquisitions include an initial payment at closing and provide for future additional contingent purchase price payments (earn-outs), which are derived using the performance of the acquired company and are based on predetermined formulas. At December 31, 2023 and 2022, contingent purchase price obligations were \$229.5 million and \$115.0 million, respectively, of which \$62.4 million and \$39.2 million, respectively, are recorded in other current liabilities.

For each acquisition, we undertake a detailed review to identify other intangible assets that are required to be valued separately. We use several market participant measurements to determine fair value. This approach includes consideration of similar and recent transactions, as well as utilizing discounted expected cash flow methodologies, and when available and as appropriate, we use comparative market multiples to supplement our analysis. As is typical for most service businesses, a substantial portion of the intangible asset value we acquire is the specialized know-how of the workforce, which is treated as part of goodwill and is not valued separately. A significant portion of the identifiable intangible assets acquired is derived from customer relationships, including the related customer contracts, as well as trade names. One of the primary drivers in executing our acquisition strategy is the existence of, or the ability to, expand our existing client relationships. The expected benefits of our acquisitions are typically shared across multiple agencies and regions.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

6. Goodwill and Intangible Assets

Change in goodwill:

	December 31,	
	2023	2022
January 1	\$ 9,734.3	\$ 9,738.6
Acquisitions	51.7	211.7
Noncontrolling interests in acquired businesses	128.6	48.0
Contingent purchase price obligations of acquired businesses	159.7	8.7
Dispositions	(120.6)	(19.6)
Foreign currency translation	128.6	(253.1)
December 31	\$ 10,082.3	\$ 9,734.3

There were no goodwill impairment losses recorded in 2023 or 2022, and there are no accumulated goodwill impairment losses.

Intangible assets:

	December 31,					
	2023			2022		
	Gross Carrying Value	Accumulated Amortization	Net Carrying Value	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
Purchased and internally developed software	\$ 369.1	\$ (306.6)	\$ 62.5	\$ 374.8	\$ (309.1)	\$ 65.7
Customer related and other	861.4	(557.0)	304.4	758.5	(510.8)	247.7
Intangible Assets	\$ 1,230.5	\$ (863.6)	\$ 366.9	\$ 1,133.3	\$ (819.9)	\$ 313.4

7. Debt

Credit Facilities

In June 2023, we amended our existing \$2.5 billion unsecured multi-currency revolving credit facility, or Credit Facility, to, among other things, extend its termination date to June 2, 2028, and transition the benchmark rate for U.S. Dollar denominated loans from LIBOR to the Secured Overnight Financing Rate, or SOFR. We have the ability to issue up to \$2 billion of U.S. Dollar denominated commercial paper and issue up to the equivalent of \$500 million in British Pounds or Euro under a Euro commercial paper program. During 2021 and 2022, we did not issue commercial paper. For the year ended December 31, 2023, the maximum amount of commercial paper issued was \$200 million, the average amount outstanding was \$5.1 million, the average days outstanding were 1.7 days, and the weighted average interest rate was 5.24%. At December 31, 2023, there were no outstanding borrowings under the Credit Facility and no outstanding commercial paper issuances. In addition, certain of our international subsidiaries have uncommitted credit lines that are guaranteed by Omnicom aggregating \$516.2 million. All of these facilities provide additional liquidity sources for operating capital and general corporate purposes.

The Credit Facility contains a financial covenant that requires us to maintain a Leverage Ratio of consolidated indebtedness to consolidated EBITDA (earnings before interest, taxes, depreciation, amortization and non-cash charges) of no more than 3.5 times for the most recently ended 12-month period. At December 31, 2023, we were in compliance with this covenant as our Leverage Ratio was 2.3 times. The Credit Facility does not limit our ability to declare or pay dividends or repurchase our common stock.

On January 3, 2024, we entered into a Delayed Draw Term Loan Agreement, or Term Loan Facility, that provides for a delayed-draw term loan up to an aggregate principal amount of \$600 million. The Term Loan Facility terminates on December 31, 2026, and contains a financial covenant that requires us to maintain a Leverage Ratio of consolidated indebtedness to consolidated EBITDA of no more than 3.5 times for the most recently ended 12-month period. The Term Loan Facility does not limit our ability to declare or pay dividends or repurchase our common stock.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Short-Term Debt

Short-term debt of \$10.9 million and \$16.9 million at December 31, 2023 and 2022, respectively, represented bank overdrafts and short-term borrowings primarily of our international subsidiaries. The weighted average interest rate was 12.0% and 10.3%, respectively. Due to the short-term nature of this debt, carrying value approximates fair value.

Long-Term Debt

	December 31,	
	2023	2022
3.65% Senior Notes due 2024	\$ 750.0	\$ 750.0

€500 Million 1.40% Senior Notes due 2031	553.0	534.9
2.60% Senior Notes due 2031	800.0	800.0
£325 Million 2.25% Senior Notes due 2033	413.9	392.0
Long-Term Debt, Gross	5,669.9	5,611.8
Unamortized discount	(7.8)	(9.0)
Unamortized debt issuance costs	(22.3)	(26.2)
Unamortized deferred gain (loss) from settlement of interest rate swaps	(0.2)	0.6
Current portion	(750.5)	—
Long-Term Debt	\$ 4,889.1	\$ 5,577.2

Our 2.45% Senior Notes due 2030, 4.20% Senior Notes due 2030 and 2.60% Senior Notes due 2031 are senior unsecured obligations of Omnicom that rank equal in right of payment with all existing and future unsecured senior indebtedness.

Omnicom and its wholly owned finance subsidiary, Omnicom Capital Inc., or OCI, are co-obligors under the 3.65% Senior Notes due 2024 and the 3.60% Senior Notes due 2026. These notes are a joint and several liability of Omnicom and OCI, and Omnicom unconditionally guarantees OCI's obligations with respect to the notes. OCI provides funding for our operations by incurring debt and lending the proceeds to our operating subsidiaries. OCI's assets primarily consist of cash and cash equivalents and intercompany loans made to our operating subsidiaries, and the related interest receivable. There are no restrictions on the ability of OCI or Omnicom to obtain funds from our subsidiaries through dividends, loans or advances. Such notes are senior unsecured obligations that rank equal in right of payment with all existing and future unsecured senior indebtedness.

Omnicom and OCI have, jointly and severally, fully and unconditionally guaranteed the obligations of Omnicom Finance Holdings plc, or OFH, a U.K.-based wholly owned subsidiary of Omnicom, with respect to the €500 million 0.80% Senior Notes due 2027 and the €500 million 1.40% Senior Notes due 2031, collectively the Euro Notes. OFH's assets consist of its investments in several wholly owned finance companies that function as treasury centers, providing funding for various operating companies in Europe, Australia and other countries in the Asia-Pacific region. The finance companies' assets consist of cash and cash equivalents and intercompany loans that they make or have made to the operating companies in their respective regions and the related interest receivable. There are no restrictions on the ability of Omnicom, OCI or OFH to obtain funds from their subsidiaries through dividends, loans or advances. The Euro Notes and the related guarantees are senior unsecured obligations that rank equal in right of payment with all existing and future unsecured senior indebtedness of OFH and each of Omnicom and OCI, respectively.

Omnicom has fully and unconditionally guaranteed the obligations of Omnicom Capital Holdings plc, or OCH, a U.K.-based wholly owned subsidiary of Omnicom, with respect to the £325 million 2.25% Senior Notes due 2033, or Sterling Notes. OCH's assets consist of its investments in several wholly owned finance companies that function as treasury centers, providing funding for various operating companies in EMEA, Australia and other countries in the Asia-Pacific region. The finance companies' assets consist of cash and cash equivalents and intercompany loans that they make or have made to the operating companies in their respective regions and the related interest receivable. There are no restrictions on the ability of

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Omnicom or OCH to obtain funds from their subsidiaries through dividends, loans or advances. The Sterling Notes and the related guarantee are senior unsecured obligations that rank equal in right of payment with all existing and future unsecured senior indebtedness of OCH and Omnicom, respectively.

8. Segment Reporting

Our branded agency networks operate in the advertising, marketing and corporate communications services industry, and are organized into agency networks, virtual client networks, regional reporting units and operating groups or practice areas. Our networks, virtual client networks and agencies increasingly share clients and provide clients with integrated services. The main economic components of each agency are employee compensation and related costs, direct service costs and occupancy and other costs which include rent and occupancy costs, technology costs and other overhead expenses. Therefore, given these similarities, we aggregate our six operating segments, which are our agency networks, into one reporting segment.

The agency networks' regional reporting units comprise three principal regions: the Americas, EMEA and Asia-Pacific. The regional reporting units monitor the performance and are responsible for the agencies in their region. Agencies within the regional reporting units serve similar clients in similar industries and in many cases the same clients and have similar economic characteristics.

Revenue and long-lived assets and goodwill by geographic region:

	Americas	EMEA	Asia-Pacific
	December 31, 2023		
Revenue	\$ 8,337.8	\$ 4,576.5	\$ 1,777.9
Long-lived assets and goodwill	7,749.5	3,523.3	730.8
	December 31, 2022		
Revenue	\$ 8,185.0	\$ 4,357.2	\$ 1,746.9
Long-lived assets and goodwill	7,727.0	3,315.2	757.2
	December 31, 2021		
Revenue	\$ 8,005.8	\$ 4,487.2	\$ 1,796.4
Long-lived assets and goodwill	7,629.2	3,615.5	689.0

9. Equity Method Investments

Income from our equity method investments was \$5.2 million in each of 2023 and 2022 and \$7.5 million in 2021. At December 31, 2023 and 2022, our proportionate share in the net assets of the equity method investments was \$17.0 million and \$18.3 million, respectively. Equity method investments are not material to our results of operations or financial position; therefore, summarized financial information is not required to be presented.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

10. Share-Based Compensation Plans

Share-based incentive awards are granted to employees under the 2021 Incentive Award Plan, or the 2021 Plan, which was approved by the shareholders. The 2021 Plan is administered by the Compensation Committee of the Board of Directors, or the Compensation Committee. Awards include stock options, restricted stock and other performance-based stock awards. The maximum number of shares of common stock that can be granted under the 2021 Plan is 14.7 million shares plus any shares awarded under the 2021 Plan and any prior plan that have been forfeited or have expired. All awards reduce the number of shares available for grant on a one-for-one basis. The terms of each award and the exercise date are determined by the Compensation Committee. The 2021 Plan does not permit the holder of an award to elect cash settlement under any circumstances. At December 31, 2023, there were 8,604,042 shares available for grant under the 2021 Plan.

Share-based compensation expense in 2023, 2022 and 2021 was \$84.8 million, \$81.7 million and \$84.7 million, respectively. At December 31, 2023, unamortized share-based compensation that will be expensed over the next five years is \$195.8 million.

We recognize a tax benefit in income tax expense and record a deferred tax asset for the share-based compensation expense recognized for financial reporting purposes that has not been deducted on our income tax return. Excess tax benefits and deficiencies represent the difference between the actual compensation deduction for tax purposes, which is calculated as the difference between the grant date price of the award, and the price of our common stock on the vesting or exercise date. Any excess tax benefit or deficiency related to share-based compensation is recorded in results of operations, as a component of income tax expense, upon vesting of restricted stock awards or exercise of stock options. In 2023 and 2022, we recognized a tax benefit of \$6.7 million and \$1.9 million, respectively.

Stock Options

The exercise price of stock option awards cannot be less than 100% of the market price of our common stock on the grant date and have a maximum contractual life of 10 years.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

The grant date fair value for the 2022 and 2021 option awards of \$12.60 and \$8.47, respectively, was determined using the Black-Scholes option valuation model. The assumptions, without adjusting for forfeitures and lack of liquidity, were: in 2022, an expected life ranging from 6.5 years to 7.5 years, risk free interest rate ranging from 3.0% to 3.1%, expected volatility ranging from 24.5% to 24.7%, and dividend yield ranging from 4.2% to 4.5%, and in 2021, an expected life of 8.0 years, risk free interest rate of 1.4%, expected volatility of 23%, and dividend yield of 4.6%.

Restricted Stock

Restricted stock activity:

	Year Ended December 31,		
	2023	2022	2021
January 1	3,010,343	2,932,836	3,012,988
Granted	1,010,575	1,147,496	1,017,895
Vested	(915,245)	(889,736)	(899,372)
Forfeited	(303,376)	(180,253)	(198,675)
December 31	2,802,297	3,010,343	2,932,836
Weighted average grant date fair value of shares granted in the period	\$ 84.33	\$ 59.02	\$ 68.99
Weighted average grant date fair value at December 31	\$ 64.84	\$ 61.11	\$ 63.09

Generally, restricted shares vest ratably over five years from the grant date provided the employee remains employed by us. Restricted shares do not pay a dividend, and may not be sold, transferred, pledged or otherwise encumbered until the forfeiture restrictions lapse. Under most circumstances, the employee forfeits the shares if employment ceases prior to the end of the restriction period.

Performance Restricted Stock Units

The Compensation Committee grants certain employees performance restricted stock units, or PRSU. Each PRSU represents the right to receive one share of common stock on vesting. The ultimate number of PRSUs received by the employee depends on the Company's average return on equity over a three-year period compared to the average return on equity of a peer group of principal competitors over the same period. The PRSUs vest three years from the grant date. The PRSUs have a service and performance vesting condition and compensation expense is recognized on a graded-vesting basis. Over the performance period, compensation expense is adjusted upward or downward based on our estimate of the probability of achieving the performance target for the portion of the awards subject to the performance vesting condition. We have assumed that all PRSUs will vest.

PRSU activity:

	Year Ended December 31,					
	2023		2022		2021	
	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value

December 31	563,036	\$ 81.11	570,235	\$ 71.19	533,890	\$ 70.42

Employee Stock Purchase Plan

The employee stock purchase plan, or ESPP, enables employees to purchase our common stock through payroll deductions over each plan quarter at 95% of the market price on the last trading day of the plan quarter. Purchases are limited to 10% of eligible compensation as defined by the Employee Retirement Income Security Act of 1974, or ERISA. In 2023, 2022 and 2021, employees purchased 65,644 shares, 72,672 shares and 73,250 shares, respectively. All shares purchased were issued from treasury stock, for which we received \$5.3 million, \$5.2 million and \$5.0 million, respectively. At December 31, 2023, there were 8,296,140 shares available under the ESPP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

11. Income Taxes

Income before income taxes:

	Year Ended December 31,		
	2023	2022	2021
Domestic	\$ 696.0	\$ 789.3	\$ 845.9
International	1,296.9	1,156.1	1,142.9
Income Before Income Taxes	\$ 1,992.9	\$ 1,945.4	\$ 1,988.8

Income tax expense (benefit):

	Year Ended December 31,		
	2023	2022	2021
Current:			
U.S. federal	\$ 154.2	\$ 180.1	\$ 144.0
U.S. state and local	34.8	57.0	16.5
International	330.8	287.4	303.9
	519.8	524.5	464.4
Deferred:			
U.S. federal	10.9	11.1	40.0
U.S. state and local	1.3	(0.3)	(11.6)
International	(7.1)	11.5	(4.1)
	5.1	22.3	24.3
Income Tax Expense	\$ 524.9	\$ 546.8	\$ 488.7

Reconciliation from the statutory U.S. federal income tax rate to effective tax rate:

	Year Ended December 31,		
	2023	2022	2021
Statutory U.S. federal income tax rate	21.0 %	21.0 %	21.0 %
U.S. state and local income taxes, net of U.S. federal income tax benefit	1.4	2.3	0.2
Impact of foreign operations	3.9	3.5	3.6
Other, including impact of war in Ukraine	—	1.3	(0.2)
Effective tax rate	26.3 %	28.1 %	24.6 %

Our effective tax rate for 2023 decreased year-over-year to 26.3% from 28.1%. The higher effective tax rate for 2022 was predominantly due to the non-deductibility of the \$113.4 million of charges recorded in the first quarter of 2022, arising from the effects of the war in Ukraine, as well as an additional increase in income tax expense of \$4.8 million related to the disposition of our businesses in Russia.

The Inflation Reduction Act of 2022, or IRA, levies a 1% excise tax on net stock repurchases after December 31, 2022. The excise tax is recorded as a cost of acquiring treasury stock and is not material. Additionally, the IRA imposes a 15% corporate alternative minimum tax, or CAMT, for tax years beginning after December 31, 2022. The CAMT is not expected to have a material impact on our results of operations or financial position.

Numerous foreign jurisdictions have enacted or are in the process of enacting legislation to adopt a minimum effective tax rate described in the Global Anti-Base Erosion, or Pillar Two, model rules issued by the Organization for Economic Co-operation and Development, or OECD. A minimum effective tax rate of 15% would apply to multinational companies with consolidated revenue above €750 million.

Under the Pillar Two rules, a company would be required to determine a combined effective tax rate for all entities located in a jurisdiction. If the jurisdictional effective tax rate determined under the Pillar Two is less than 15%, a top-up tax will be due to bring the jurisdictional effective tax rate up to 15%. We are continuing to monitor the pending implementation of Pillar Two by individual countries and the potential effects of Pillar Two on our business. We do not expect the provisions effective in 2024 will have a materially adverse impact on our results of operations, financial position or cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

The Tax Cuts and Jobs Act of 2017, or the Tax Act, imposed a one-time tax, the transition tax, on the accumulated earnings of foreign subsidiaries. At December 31, 2023 and 2022, the remaining transition tax liability was \$68.9 million and \$88.8 million, respectively. The transition tax is expected to be fully paid by 2026. The Tax Act also implemented a territorial tax system that allows us to repatriate earnings of our foreign subsidiaries without incurring additional U.S. tax by providing a 100% dividend exemption. While a territorial tax system limits U.S. federal income tax to domestic source income, foreign source income is subject to tax in the appropriate foreign jurisdiction at the local rate, which in certain jurisdictions may be higher than the U.S. federal statutory income tax rate of 21%. Therefore, the foreign tax rate differential will cause our effective tax rate to be higher than the U.S. federal statutory income tax rate. The international tax rate differentials in 2023 and 2022 are primarily attributed to our earnings in Germany, Australia, Italy, Japan and Canada being taxed at higher rates than the U.S. statutory tax rate.

We have elected to account for any tax on the global intangible low-taxed income, or GILTI, in the period in which it is incurred. We provided \$17.0 million and \$10.9 million in 2023 and 2022, respectively, for tax impact of GILTI.

Deferred tax assets and liabilities and balance sheet classification:

	December 31,	
	2023	2022
Deferred tax assets:		
Compensation	\$ 153.8	\$ 197.6
Tax loss and credit carryforwards	78.6	77.1
Basis differences from acquisitions	41.2	31.0
Basis differences from short-term assets and liabilities	33.3	20.5
Other, net	19.5	(18.6)
Deferred tax assets	326.4	307.6
Valuation allowance	(18.9)	(21.1)
Deferred tax assets, net	\$ 307.5	\$ 286.5
Deferred tax liabilities:		
Goodwill and intangible assets	\$ 687.3	\$ 653.3
Unremitted foreign earnings	71.1	34.9
Basis differences from investments	3.8	6.9
Financial instruments	0.9	0.3
Deferred tax liabilities	\$ 763.1	\$ 695.4
Long-term deferred tax assets	\$ 73.5	\$ 66.8
Long-term deferred tax liabilities	\$ 529.1	\$ 475.7

We have concluded that it is more likely than not that we will be able to realize our net deferred tax assets in future periods because results of future operations are expected to generate sufficient taxable income. At December 31, 2023 and 2022, the valuation allowance of \$18.9 million and \$21.1 million, respectively, relates to tax losses and tax credit carryforwards in the U.S. and in international jurisdictions. Tax loss and credit carryforwards for which there is no valuation allowance are available for periods ranging from 2024 to 2043, which is longer than the forecasted utilization of such carryforwards.

Reconciliation of unrecognized tax benefits:

	December 31,	
	2023	2022
January 1	\$ 167.6	\$ 162.8
Additions:		
Current year tax positions	3.3	2.7
Prior year tax positions	4.3	4.7
Reduction of prior year tax positions	(7.9)	(1.5)
Settlements	—	(0.9)
Foreign currency translation	0.5	(0.2)
December 31	\$ 167.8	\$ 167.6

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Substantially all the liability for uncertain tax positions is recorded in long-term liabilities. At December 31, 2023 and 2022, approximately \$161.7 million and \$161.8 million, respectively, of the liability for uncertain tax positions would affect our effective tax rate upon resolution of the uncertain tax positions.

Income tax expense in 2023, 2022 and 2021 includes \$3.2 million, \$4.3 million and \$2.1 million, respectively, of interest, net of tax benefit, and penalties related to tax positions taken on our tax returns. At December 31, 2023 and 2022, accrued interest and penalties were \$19.9 million and \$15.9 million, respectively.

We file a consolidated U.S. federal income tax return and income tax returns in various state and local jurisdictions. Our subsidiaries file tax returns in various foreign jurisdictions. Our principal foreign jurisdictions include the U.K., France and Germany. The Internal Revenue Service has completed its examination of our U.S. federal tax returns through 2017. Tax returns in the U.K., France and Germany have been examined through 2021, 2019 and 2015, respectively.

12. Pension and Other Postemployment Benefits

Defined Contribution Plans

Our domestic and international subsidiaries provide retirement benefits for their employees primarily through defined contribution profit sharing and savings plans. Contributions to the plans vary by subsidiary and have generally been in amounts up to the maximum percentage of total eligible compensation of participating employees that is deductible for income tax purposes. Contribution expense was \$127.9 million, \$123.2 million and \$115.5 million in 2023, 2022 and 2021, respectively.

Defined Benefit Pension Plans

Two of our U.S. businesses and several of our non-U.S. businesses sponsor noncontributory defined benefit pension plans. These plans provide benefits to employees based on formulas recognizing length of service and earnings. The U.S. plans are subject to ERISA and cover approximately 700 participants. These plans are closed to new participants and do not accrue future benefit credits. The non-U.S. plans, which include statutory plans, are not subject to ERISA and cover approximately 9,000 participants.

We have a Senior Executive Restrictive Covenant and Retention Plan, or Retention Plan, for certain executive officers selected by the Compensation Committee. The Retention Plan is a non-qualified deferred compensation severance plan that is not subject to ERISA. The Retention Plan was adopted to secure non-competition, non-solicitation, non-disparagement and ongoing consulting services from such executive officers and to strengthen the retention aspect of executive officer compensation. The Retention Plan provides annual payments upon termination following at least seven years of service with Omnicom or its subsidiaries to the participants or to their beneficiaries. A participant's annual benefit is payable for 15 consecutive calendar years following termination, but in no event prior to age 55. The annual benefit is equal to the lesser of (i) the participant's final average pay times an applicable percentage, which is based upon the executive's years of service as an executive officer, not to exceed 35% or (ii) \$1.5 million adjusted for cost-of-living, beginning with the second annual payment, not to exceed 2.5% per year. The Retention Plan is not funded, and benefits are paid when due.

Net periodic benefit expense:

	Year Ended December 31,		
	2023	2022	2021
Service cost	\$ 2.4	\$ 2.8	\$ 5.2
Interest cost	11.1	5.6	4.2
Expected return on plan assets	(0.3)	(1.4)	(1.5)
Amortization of prior service cost	0.3	0.4	0.8
Amortization of actuarial loss	0.7	4.0	9.3
	<u>\$ 14.2</u>	<u>\$ 11.4</u>	<u>\$ 18.0</u>

Included in AOCI at December 31, 2023 and 2022 were unrecognized costs for actuarial losses and prior service cost of \$15.9 million (\$11.0 million net of income taxes) and \$23.4 million (\$15.9 million net of income taxes), respectively, that have not yet been recognized in net periodic benefit cost. The unrecognized costs for actuarial gains and losses and prior service cost included in AOCI and expected to be recognized in net periodic benefit cost in 2024 is \$1.0 million.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Weighted average assumptions:

	Year Ended December 31,		
	2023	2022	2021
Discount rate	4.7 %	2.1 %	1.4 %
Compensation increases	2.6 %	2.6 %	2.7 %
Expected return on plan assets	1.5 %	1.6 %	5.0 %

The expected long-term rate of return for plan assets for the U.S. plans is based on several factors, including current and expected asset allocations, historical and expected returns on various asset classes and current and future market conditions. A total return investment approach using a mix of equities and fixed income investments maximizes the long-term return. This strategy is intended to minimize plan expense by achieving long-term returns in excess of the growth in plan liabilities over time. The discount rate used to compute net periodic benefit cost is based on yields of available high-quality bonds and reflects the expected cash flow as of the measurement date. The expected returns on plan assets and discount rates for the non-U.S. plans are based on local factors, including each plan's investment approach, local interest rates and plan participant profiles.

Experience gains and losses and the effects of changes in actuarial assumptions are generally amortized over a period no longer than the expected average future service of active employees.

Our funding policy is to contribute amounts sufficient to meet minimum funding requirements in accordance with the applicable employee benefit and tax laws that the plans are subject to, plus such additional amounts as we may determine to be appropriate. In 2023 and 2022, we contributed \$8.8 million and \$8.2 million, respectively, to the defined benefit pension plans. We do not expect the contributions for 2024 to differ materially from the 2023 contributions.

2028	13.1
2029 - 2033	52.9

13. Real Estate and Other Repositioning Costs

In connection with the transition to a flexible working environment, a hybrid model that allows for partial remote work, we took certain actions in the first quarter of 2023 to reduce and reposition our office lease portfolio. In the second quarter of 2023, as a result of our continuing efforts to increase efficiencies and relevant skill sets to meet client demands, we incurred severance charges and other exit costs associated with rebalancing our workforce and consolidating operations in certain markets.

As a result, for the year ended December 31, 2023, operating expenses included \$191.5 million (\$145.5 million after tax), primarily related to non-cash impairment charges for the operating lease right-of-use, or ROU, assets, severance charges, and other exit costs. All severance and other costs were paid during the year ended December 31, 2023. Substantially all of the operating lease payments related to the ROU assets will be paid out over three years.

14. Dispositions of Subsidiaries

In April 2023, we disposed of certain research businesses included in our Execution & Support discipline. As a result, we recorded a pretax gain of \$78.8 million. The disposition will not have a material impact on our ongoing results of operations or financial position.

15. Charges Arising from the Effects of the War in Ukraine

In 2022, we disposed of our businesses in Russia. In the first quarter of 2022, we recorded pretax charges of \$113.4 million, which included cash charges of \$47.6 million and primarily consisted of the loss on the disposition of our net investment in our Russian businesses and included charges related to the suspension of operations in Ukraine. All the charges related to the disposition of our businesses in Russia have been paid as of December 31, 2022, and substantially all of our commitments related to the suspension of operations in Ukraine have been paid.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

16. Supplemental Cash Flow Data

Change in operating capital:

	Year Ended December 31,		
	2023	2022	2021
(Increase) decrease in accounts receivable	\$ (513.9)	\$ (129.1)	\$ (989.1)
(Increase) decrease in work in process and other current assets	(121.8)	(197.9)	(281.7)
Increase (decrease) in accounts payable	602.3	(350.1)	921.3
Increase (decrease) in customer advances, taxes payable and other current liabilities	(399.6)	(97.8)	338.8
Change in other assets and liabilities, net	(29.9)	(69.1)	171.2
Increase (decrease) in operating capital	\$ (462.9)	\$ (844.0)	\$ 160.5

Supplemental financial information:

	Year Ended December 31,		
	2023	2022	2021
Income taxes paid	\$ 474.3	\$ 450.3	\$ 454.4
Interest paid	\$ 162.8	\$ 173.9	\$ 219.3

Interest paid for 2021 includes a \$37.7 million cash payment on the early redemption of all the outstanding \$1.25 billion principal amount of 3.625% Senior Notes due 2022.

Non-cash increase in lease liabilities:

	Year Ended December 31,	
	2023	2022
Operating leases	\$ 206.9	\$ 241.7
Finance leases	\$ 48.2	\$ 74.5

17. Noncontrolling Interests

Changes in the ownership interests in our less than 100% owned subsidiaries:

	Year Ended December 31,		
	2023	2022	2021
Net income attributed to Omnicom Group Inc.	\$ 1,391.4	\$ 1,316.5	\$ 1,407.8
Net transfers (to) from noncontrolling interests	(88.1)	(17.1)	(12.2)
Change from net income attributed to Omnicom Group Inc. and transfers (to) from noncontrolling interests	\$ 1,303.3	\$ 1,299.4	\$ 1,395.6

18. Leases and Property and Equipment

Leases

	Year Ended December 31,	
	2023	2022
Lease cost:		
Operating lease cost	\$ 216.2	\$ 243.8
Variable lease cost	29.9	23.5
Short-term lease cost	2.5	2.5
Sublease income	(3.7)	(3.8)
Total Operating Leases	244.9	266.0
Finance lease cost:		
Depreciation of ROU assets	58.9	55.1
Interest	7.4	5.7
Total Finance Leases	66.3	60.8
Total Lease Cost	\$ 311.2	\$ 326.8

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Future lease payments:

	December 31	
	Operating Leases	Finance Leases
2024	\$ 251.6	\$ 57.7
2025	206.8	44.5
2026	176.5	27.5
2027	134.7	12.7
2028	105.4	3.0
Thereafter	470.0	2.1
Total lease payments	1,345.0	147.5
Less: Interest	274.7	9.3
Present Value of Lease Liabilities	\$ 1,070.3	\$ 138.2

Balance sheet classification of operating leases:

	December 31,	
	2023	2022
Operating Lease ROU Assets	\$ 1,046.4	\$ 1,165.0
Lease liability:		
Other current liabilities	\$ 217.3	\$ 207.9
Long-term liability - operating leases	853.0	900.0
Total Operating Lease Liability	\$ 1,070.3	\$ 1,107.9

At December 31, 2023 and 2022, office space and equipment operating leases had a weighted average remaining lease term of 6.4 and 6.9 years, respectively, and a weighted average discount rate of 3.7% and 3.4%, respectively.

Property and Equipment

Property and equipment:

	December 31,	
	2023	2022
Property and equipment - owned	\$ 1,620.9	\$ 1,684.6
Equipment under finance leases	404.4	383.0
Property and Equipment, Gross	2,025.3	2,067.6
Accumulated depreciation	(1,150.4)	(1,167.5)
Property and Equipment, Net	\$ 874.9	\$ 900.1

At December 31, 2023 and 2022, finance leases had a weighted average remaining lease term of 2.9 years and 3.1 years, respectively, and a weighted average discount rate of 6.6% and 5.1%, respectively.

19. Temporary Equity - Redeemable Noncontrolling Interests

Owners of noncontrolling equity interests in certain of our subsidiaries have the right in certain circumstances to require us to purchase all or a portion of their equity interest at fair value as defined in the applicable agreements. Assuming that the subsidiaries perform at their current and projected profit levels, at December 31, 2023, the aggregate estimated amount we could be required to pay in future periods is \$414.6 million, of which \$120.9 million is currently exercisable by the holders. If these rights are exercised, there would be an increase in net income attributable to Omnicom as a result of our increased ownership interest and the reduction of net income attributable to noncontrolling interests. The ultimate amount paid could be significantly different because the redemption amount depends on the future results of operations of the subject businesses, the timing of the exercise of these rights and changes in foreign currency exchange rates. Upon redemption, the difference between the estimated redemption value and the actual amount paid is recorded in additional paid-in capital.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

20. Commitments and Contingent Liabilities

In the ordinary course of business, we are involved in various legal proceedings. We do not expect that these proceedings will have a material adverse effect on our business, results of operations or financial position.

21. Accumulated Other Comprehensive Income (Loss)

Changes in AOCI, net of income taxes:

	Cash Flow Hedge	Defined Benefit Pension Plans and Postemployment Arrangements	Foreign Currency Translation	Total
January 1, 2022	\$ (16.1)	\$ (90.4)	\$ (1,145.8)	\$ (1,252.3)
Other comprehensive income (loss) before reclassifications	—	41.5	(238.7)	(197.2)
Reclassification from accumulated other comprehensive income (loss)	4.0	7.6	—	11.6
December 31, 2022	(12.1)	(41.3)	(1,384.5)	(1,437.9)
Other comprehensive income (loss) before reclassifications	—	(4.8)	97.7	92.9
Reclassification from accumulated other comprehensive income (loss)	4.0	3.4	—	7.4
December 31, 2023	\$ (8.1)	\$ (42.7)	\$ (1,286.8)	\$ (1,337.6)

22. Fair Value

Financial assets and liabilities measured at fair value on a recurring basis:

	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Assets:				
Cash and cash equivalents	\$4,432.0			\$ 4,432.0
Marketable equity securities	0.9			0.9
Liabilities:				
Cross currency swaps - net investment hedge		\$ 6.6		\$ 6.6
Contingent purchase price obligations			\$ 229.5	229.5
December 31, 2022				
Assets:				
Cash and cash equivalents	\$4,281.8			\$ 4,281.8
Short-term investments		\$ 60.7		60.7
Marketable equity securities	0.9			0.9
Liabilities:				
Foreign currency derivatives		\$ 0.1		\$ 0.1
Cross currency swaps - net investment hedge		16.5		16.5
Contingent purchase price obligations			\$ 115.0	115.0

Changes in contingent purchase price obligations:

	December 31,	
	2023	2022
January 1	\$ 115.0	\$ 167.1
Acquisitions	217.4	13.3
Revaluation and interest	(36.1)	(26.0)
Payments	(67.7)	(32.7)
Foreign currency translation	0.9	(6.7)
December 31	\$ 229.5	\$ 115.0

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

Carrying amount and fair value of our financial assets and liabilities:

	December 31,			
	2023		2022	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Assets:				
Cash and cash equivalents	\$ 4,432.0	\$ 4,432.0	\$ 4,281.8	\$ 4,281.8
Short-term investments	—	—	60.7	60.7
Marketable equity securities	0.9	0.9	0.9	0.9
Non-marketable equity securities	6.7	6.7	5.6	5.6
Liabilities:				
Short-term debt	\$ 10.9	\$ 10.9	\$ 16.9	\$ 16.9
Foreign currency derivatives	—	—	0.1	0.1
Cross currency swaps – net investment hedge	6.6	6.6	16.5	16.5
Contingent purchase price obligations	229.5	229.5	115.0	115.0
Long-term debt	5,639.6	5,237.8	5,577.2	4,993.4

The estimated fair values of the cross-currency swaps and foreign currency derivative instruments are determined using model-derived valuations, taking into consideration foreign currency rates, interest rates, and counterparty credit risk. The estimated fair value of the contingent purchase price obligations is calculated in accordance with the terms of each acquisition agreement and is discounted. The fair value of long-term debt is based on quoted market prices.

23. Derivative Instruments and Hedging Activities

We manage our exposure to foreign exchange rate risk and interest rate risk through various strategies, including the use of derivative financial instruments. We use net investment hedges to manage the volatility of foreign exchange rates on the investment in our foreign subsidiaries. We may use forward foreign exchange contracts as economic hedges to manage the cash flow volatility arising from foreign exchange rate fluctuations related to foreign currency transactions. We do not use derivatives for trading or speculative purposes. Using derivatives exposes us to the risk that counterparties to the derivative contracts will fail to meet their contractual obligations. We manage that risk through careful selection and ongoing evaluation of the counterparty financial institutions based on specific minimum credit standards and other factors.

We evaluate the effects of changes in foreign currency exchange rates, interest rates and other relevant market risks on our derivatives. We periodically determine the potential loss from market risk on our derivatives by performing a value-at-risk, or VaR, analysis. VaR is a statistical model that uses historical currency exchange rate data to measure the potential impact on future earnings of our derivative financial instruments assuming normal market conditions. The VaR model is not intended to represent actual losses but is used as a risk estimation and management tool. Based on the results of the model, we estimate with 95% confidence a maximum one-day change in the net fair value of our derivative financial instruments at December 31, 2023 was not significant.

Foreign Currency Exchange Risk

As an integral part of our global treasury operations, we centralize our cash and use notional multicurrency pools to manage the foreign currency exchange risk that arises from imbalances between subsidiaries and their respective treasury centers. In addition, there are circumstances where revenue and expense transactions are not denominated in the same currency. In these instances, amounts are either promptly settled or hedged with forward foreign exchange contracts. To manage this risk, at December 31, 2022, we had outstanding forward foreign exchange contracts with an aggregate notional amount of \$40.3 million. There were no outstanding forward foreign exchange contracts at December 31, 2023.

Foreign currency derivatives are designated as fair value hedges; therefore, any gain or loss in fair value incurred on those instruments is recorded in results of operations and is generally offset by decreases or increases in the fair value of the underlying exposure. By using these financial instruments, we reduce financial risk of adverse foreign exchange changes by foregoing any gain which might occur if the markets move favorably. The terms of our forward foreign exchange contracts are generally less than 90 days.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in tables in millions, except per share amounts.)

We have fixed-to-fixed cross currency swaps with a notional value of \$150 million that hedge a portion of the net investment in our Japanese subsidiaries against volatility in the Yen/U.S. Dollar exchange rate. The swaps are designated and qualify as a hedge of a net investment in a foreign subsidiary and are scheduled to mature in 2025 and 2029. Changes in the fair value of the swaps are recognized in foreign currency translation and are reported in AOCI. Any gain or loss will remain in AOCI until the complete or substantially complete liquidation of our investment in the underlying operations. We have elected to assess the effectiveness of our net investment hedges based on changes in spot exchange rates. We receive net fixed U.S. Dollar interest payments from the swaps, and we recorded a reduction of interest expense of \$6.6 million and \$1.2 million in 2023 and 2022, respectively. At December 31, 2023 and 2022, the liability for the swap fair value was \$6.6 million and \$16.5 million, respectively, and was recorded in long-term liabilities.

Interest Rate Risk

We may use interest rate swaps to manage our interest cost and structure our long-term debt portfolio to achieve a mix of fixed rate and floating rate debt. There were no interest rate swaps in 2023 and 2022. Long-term debt at December 31, 2023 and 2022 consisted entirely of fixed-rate debt.

24. New Accounting Standards

On November 27, 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures* ("ASU 2023-07"), that requires disclosure of significant expenses that are regularly provided to the chief operating decision maker. ASU 2023-07 is effective for annual periods beginning after December 15, 2023, and for interim periods within fiscal years beginning after December 15, 2024. ASU 2023-07 requires retrospective application in the period of initial application. We will apply ASU 2023-07 for annual periods beginning on January 1, 2024, and for interim periods beginning on January 1, 2025. ASU 2023-07 affects financial statement disclosure only, and its adoption will not affect our results of operations or financial position.

On December 14, 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures* ("ASU 2023-09"), that requires, among other things, greater disaggregation of information in the rate reconciliation, and income taxes paid disaggregated by jurisdiction. ASU 2023-09 is effective for annual periods beginning after December 15, 2024. We will apply ASU 2023-09 on January 1, 2025. ASU 2023-09 affects financial statement disclosure only and its adoption will not affect our results of operations or financial position.

25. Subsequent Events

As described in Note 5, on January 2, 2024, we acquired Flywheel Digital, the digital commerce business of Ascential plc, for a net cash purchase price of approximately \$845 million. As described in Note 7, on January 3, 2024, we entered into a Term Loan Facility that provides for a delayed-draw term loan up to an aggregate principal amount of \$600 million. We have evaluated events subsequent to the balance sheet date and determined there have not been any other events that have occurred that would require adjustment to or disclosure in the consolidated financial statements.
