Strategic report

The directors present the strategic report of Associated British Ports for the year ended 31 December 2025

1. Principal activities

The principal activities of Associated British Ports (“ABP”) comprise the ownership, operation and development of port facilities and the provision of related services in the United Kingdom (“UK”)

The company owns 21 general cargo ports around the UK and provides facilities (principally land, quays, storage sheds and warehouses, cargo handling equipment and access to open water) and services (including stevedoring, warehousing and bagging) to users of its ports in the form of contracts with customers and rental income from investment properties

2. Development and performance of the business

2.1 Health and Safety

Health and safety (H&S) remains the underpinning core value for ABP, and management is fully committed to providing safe workplaces and effectively managing risk across all operations. Throughout 2025, ABP continued to strengthen its H&S capability, consistency, and leadership.

Strengthening foundational controls

During the year, ABP introduced its new Life-Saving Rules. These principles ensure that workplace hazards with the potential to cause serious harm remain central to all risk assessments and safe systems of work. Implementation of the Life-Saving Rules has been supported by extensive communication and training, and this work will continue into 2026 with an increased focus on compliance monitoring and assurance.

Digital transformation of safety processes

ABP began the process of digitising several H&S processes during 2025. The “Spot-It!” incident reporting system transitioned to a new digital platform, improving the visibility, quality, and timeliness of safety data. This enables managers and teams to view actions in real time, strengthening feedback loops and enabling more proactive risk management.

Additional digital initiatives, including improved analytics dashboards and assurance capability, are planned for phased rollout during 2026.

Strategic report (continued)

2. Development and performance of the business (continued)

2.1 Health and Safety (continued)

Investing in people and safety culture

ABP continues to invest in building a strong, proactive safety culture. The mandatory annual H&S training programme, Beyond Zero, focused this year on the new Life-Saving Rules and on sharing learning from incidents, including examples where employees have stopped work due to unsafe conditions.

Specific capability-building initiatives included.

- Lead the Line – targeted safety leadership training for frontline supervisors, equipping them with practical tools to engage teams, identify hazards early and reinforce safe behaviours
- Thrive – ABP’s immersive one-day H&S programme concluded this year, with more than 1,500 employees having completed the training over the past four years

Performance

ABP uses a range of metrics to measure and strengthen H&S performance. Performance against the company’s primary H&S metric for 2025 was as follows:

Metric	Target 2025	Actual 2025	2024 Result	Change from 2024
Number of lost time incidents (LTIs)	<9	9	5	+80%

While ABP’s safety performance remains strong compared with the wider port sector and similar industrial environments, the number of LTIs increased during 2025. Severity levels remained low, with slips, trips, falls and manual handling events continuing to be the most common incident types—consistent with wider industry trends.

The function reports regularly to the ABP Executive, Harbour Authority and Safety Board and Major Risk Group, providing updates on performance, emerging risks, and strategic developments in H&S.

Marine safety

The Marine Accident Investigation Branch (MAIB) has now published its report into the tragic fatal incident involving an ABP pilot in the Humber in January 2023. The report sets out the actions ABP took following the incident, together with two further recommendations for ABP and several recommendations for the wider UK maritime and ports industry, including the need for ports to ensure that pilots are fit to climb a pilot ladder. ABP is carefully reviewing the report and remains fully committed to acting on all relevant findings.

Security

The company continues to maintain a secure operating environment for ABP and its port users. Security breaches and illegal activities are not tolerated at any ABP port. The company works closely with local police forces and other agencies to deter, detect, delay, and respond to security threats, ensuring that people, assets and supply chains remain protected.

Strategic report (continued)

2. Development and performance of the business (continued)

2.1 Health and Safety (continued)

Looking ahead

During 2026, ABP will focus on

- Continued rollout and assurance of the Life-Saving Rules
- Expanding digital safety tools and analytics
- Enhancing contractor safety management
- Further strengthening leadership capability across operational teams
- Embedding consistent standards and processes across all ports

ABP remains committed to continual improvement in health, safety and security, ensuring that all colleagues and stakeholders return home safe every day.

2.2 Financial performance and KPIs

The following KPIs (both financial and non-financial) are considered by the Board of Associated British Ports, to provide a good representation of the performance of the business

- Tonnage and unitised volumes indicate the level of cargo throughput at the company's ports which is a key driver of revenue;
- Passenger volumes is an indication of the level of cruise activities at the company's ports. Passenger numbers will have an impact on associated revenue,
- Revenue, operating profit, and profit before tax indicate the financial performance of the business,
- Capital expenditure indicates the level of investment the company undertakes to maintain and increase the scope of operations and obtain future economic benefits. The delivery of capital projects is tracked as they may have significant impacts on financial performance,
- Total assets reflect the company's overall financial position, providing insights into its ability to generate revenue and manage its resources effectively; and
- Cash generated by operations which shows the conversion of profit into cash

Performance against each of these KPIs is as follows

- Bulk cargo tonnage handled across the company's ports decreased by 3.0% to 42.5m tonnes in 2025 (2024: 43.8m tonnes), mainly due to liquid bulks and steel production with other commodities remaining broadly stable. Unitised cargo remained flat at 3.1m units (2024: 3.1m units), reflecting new services at Southampton Container Terminals and stable RO/RO volumes.
- Passenger volumes increased by 0.1% to 3,821.7k (2024: 3,819.4k), exceeding 3 million passengers for the second consecutive year, this was driven by strong occupancy levels and out-of-season cruise activity.
- The company's revenue increased by 4.8% to £792.5m (2024: £756.6m) driven mainly by indexed contract uplifts, increase in property rental and new business wins. Minimum volume guarantees helped offset lower bulk volumes.

Strategic report (continued)**2. Development and performance of the business (continued)****2.2 Financial performance and KPIs (continued)**

- Pre-tax profit amounted to £528.8m (2024: £499.3m) and the company recognised a tax charge for the year of £135.5m (2024: £134.8m)
- Cash generated by operations totalled £401.6m (2024: £400.8m)
- Net cash outflow from investing activities of £165.7m (2024: £195.3m), includes £170.1m (2024: £204.8m) of capital expenditure

The company's activities form the principal activities of the group of its intermediate parent undertaking, ABPA Holdings Limited ("ABPAH"). Further details of the development, performance and outlook of the ABPAH group and information relating to financial and non-financial KPIs are provided within the Annual Report and Accounts of ABPAH

The company had net assets of £3,636.8m as at 31 December 2025 (2024: £3,238.4m) including cash and cash equivalents of £119.6m (2024: £53.5m). The company's cash resources are managed through a centralised treasury function, which closely monitors and manages risks of the group owned by the company's ultimate parent undertaking, ABP (Jersey) Limited ("ABPJ"), in relation to liquidity, interest rate and capital risks, along with credit risk relating to cash

2.3 People**People Data**

During 2025, the monthly average number of people employed by the company was 2,315 (2024: 2,353)

The table below sets out the staff turnover rate as a percentage of headcount for the year ended 31 December

	Target	2025 % of total	2024 % of total	Change from 2024
Annual leavers as a percentage of headcount	5-10%*	13.3%	13.3%	0%

*Note: Based on external market data the average UK total turnover ranges from 14%-19% and voluntary turnover ranges from 10%-13%

The average headcount has fallen by 39 in the last year, reflecting our commitment to the continuous improvement programme

Annual leavers as a percentage of headcount remained at 13.3% in 2025, still exceeding the targeted range. Of these leavers, 9.4% (2024: 8.8%) were voluntary leavers, while the remaining 3.9% (2024: 4.5%) left for other reasons such as ill health, TUPE transfers, redundancy, end of fixed-term contracts, or dismissal.

The percentage of women in our workforce remained at 17% in 2025 (2024: 17%). Additionally, female representation on our Executive Team was c. 22%, down from 30% the previous year. The Gender Pay Gap 2025 results confirm that our mean pay gap has narrowed from -1.6% to -0.1%, and the median pay gap has narrowed from -5.2% to -3.3%. This shift is supported by a 2% increase in female representation across the Lower Middle and Lower quartiles, with a 0.9% increase in the Lower Middle quartile and a 1.1% increase in the Lower quartile compared with 2024, reflecting growth in lower-paid roles and contributing to the overall change. It is important to note that in future years, the pay gap may fluctuate up or down depending on the make-up of the workforce at various levels and the payments made.

Strategic report (continued)

2. Development and performance of the business (continued)

2.3 People (continued)

People Roadmap

In 2025, we redesigned our People Roadmap to set priorities and actions through to 2029, focusing on three People Pillars Attract, Develop, and Retain, supported by our People Tools. The roadmap embeds our people vision – To be an Employer of Choice where great people thrive and play their role in Keeping Britain Trading and Enabling the Energy Transition We embrace Safety, Sustainability, and Continuous Improvement in all that we do through our People, and support our four foundations: Safety, People, Sustainability, and Continuous Improvement – ensuring these principles run through every HR initiative

Safety

Our Beyond Zero 2025 training was delivered virtually across the business, and this year reinforced the 9 Lifesaving Rules to drive consistent safe behaviours This interactive safety training was mandatory for all colleagues

The Health & Safety trainers along with the Safety teams also developed an additional piece of safety training, aimed at front line supervisors, “Lead the Line Safety Workshop” This workshop provided a better understanding of their role as safety leaders, equipped them to explain the 9 Lifesaving Rules, and provided practical guidance to be able to STOP the job for any unsafe processes, a total of 278 colleagues attended

Our Thrive immersive safety behaviour training also continued, with 7 sessions delivered in 2025, engaging 203 colleagues in building a strong safety culture

Looking ahead, the Academy is working closely with Port Skills & Safety (PSS) to develop more opportunities to deliver external courses for PSS in 2026 and beyond.

As a safety-critical organisation, it is part of our contract with employees that we will randomly test a sample of employees, in addition to contractors every month for the presence of drugs and/or alcohol We also conduct tests when there has been an incident at our ports or when an employee is suspected of being impaired During 2025, we continued to rollout ‘in-house’ drug and alcohol testing in the Wales and Short Sea Ports region. In direct response to an uptick in positive drug tests, we reviewed and amended our random testing regime to now provide on-site immediate indicative results for drugs This change allows us to take immediate appropriate action if an employee or contractor produces a non-negative drug result, further supporting our commitment to provide a safe environment for employees, workers, port users and the public We also launched a poster campaign to create awareness of the consequences of a positive test for drugs and/or alcohol and to encourage any employee with a dependency issue to come forward for support

Attract

We remain committed to attracting and developing talent through our Early Careers programmes. In 2025, we welcomed 6 graduates into diverse functions across ABP, while our 2023 cohort successfully completed their scheme, with 8 transitioning into permanent roles

Strategic report (continued)

2. Development and performance of the business (continued)

2.3 People (continued)

We also welcomed 13 new apprentices in September 2025, alongside 7 internal colleagues who began apprenticeships to enhance their skills, supported by the levy and Welsh Apprenticeship funding. Beyond this, we invested in professional development by funding 13 colleagues through qualifications outside the levy. Of those completing apprenticeships in 2025, 91.3% moved into full-time roles, demonstrating strong retention and progression. Both graduates and apprentices are vital to building a sustainable talent pipeline.

To strengthen links with education providers, we piloted a sponsorship with Ron Dearing University Technical College, supporting Science, Technology, Engineering, and Mathematics STEM education in the Humber region and enabling us to influence curriculum content to better align with ABP's needs, with plans to replicate nationally if successful. We also delivered student talks to showcase the diverse career opportunities within the ports industry and the exciting roles available at ABP.

In addition, we welcomed 278 new colleagues who attended one of 30 corporate inductions held fortnightly in 2025.

Develop

Our commitment to learning continued with over 5,500 e-learning modules completed and 1,800 training courses delivered, ensuring our workforce remains skilled and competent. The content delivered included safety training, data protection and support managers and leaders.

We strengthened management capability through the Lead my Team Programme, now ABP's foundational programme for People Managers. In 2025, we delivered 8 three-day sessions, and since launch, 150 managers have attended, with over 98% of attendees recommending it to others. This programme is recognised by the Institute of Leadership and Management which has been renewed for the second year.

The PRINT psychometric tool remains our primary team development resource, with 71 reports completed this year and over 480 colleagues having participated in Discovery Sessions, individually or within their teams, helping colleagues work better together and build a deeper understanding of the role they play within a team.

We also piloted a leadership programme, Agents of Change, in collaboration with FranklinCovey, completed in April by 8 Senior Leadership Team members. Feedback was positive, and we continue to evolve our leadership offering.

Retain

We continued to provide a comprehensive range of benefits and programmes designed to support the health and wellbeing of our colleagues. These initiatives reflect our commitment to creating a safe, healthy, and productive working environment. Each year, we offer a free flu voucher programme ahead of the winter season to help protect our people. In addition, we provide free health MOTs at key locations across the group, which include assessments such as cholesterol and blood pressure checks. These checks offer early insight into potential health issues, enabling colleagues to take proactive steps towards better health. All employees can participate in our private medical insurance and dental plans, ensuring access to quality healthcare when needed.

Strategic report (continued)

2. Development and performance of the business (continued)

2.3 People (continued)

In 2025, we introduced a new preventative health and wellbeing initiative: Physio at Work. Stay Fit, Stay Focused. Musculoskeletal Disorders (MSDs) can cause pain and discomfort, impacting daily life and work performance. This service focuses on prevention, treatment, and rehabilitation to reduce MSD-related issues and promote long-term wellbeing. Following a successful pilot in the Humber region, we are expanding this initiative across the business in 2026.

From April 2025, we have set employee salaries at a level that enabled all employees to participate in SMART pension arrangements with an 8% contribution rate (max employee pension contribution under MyPension Plan). This ensured full access to the maximum SMART contribution level, maximising National Insurance savings for employees.

We provide all employees with a total reward statement every year, helping them understand the total value of their remuneration package, including any benefits they take up. This provides an opportunity for ABP to showcase other benefits that may be relevant and valuable to them, potentially saving them money or supporting their lifestyle, health, and wellbeing.

We reviewed and updated several employment policies, procedures, and processes to simplify them and ensure that they are up to date and compliant with employment legislation and ABP practise. We introduced a new Neonatal Care Leave policy, reflecting the statutory rights of employees to neonatal care leave and pay following the birth or adoption of a baby that is admitted to neonatal care. The policy is designed to support employees at this difficult time and to help them navigate this complex area of employment legislation.

During 2025, we continued to develop the functionality for recording absence in the MyHR/Time Off system, enabling non-shift employees to request holiday, sickness absence and other leave types. This enables absence and any associated pay entitlement to be captured and reported accurately. It gives managers, individuals and teams greater visibility and ownership of this data, subject to relevant permissions. We carried out a detailed scoping exercise to understand how we can best enable this functionality for shift employees, to increase efficiency and support labour deployment.

Diverse and Inclusive Workforce

In 2025, we continued to harness colleagues' lived experiences to drive meaningful change and strengthen our commitment to being an inclusive employer. This work was championed by our Diversity & Inclusion (D&I) networks: Ability (Disability & Mental Health), FREE (Faith & Religion, Ethnicity & Everyone), ABP GEN (Gender), and ABP Pride (LGBTQ+).

We saw gradual improvements in workforce diversity, with colleagues from non-white ethnic backgrounds increasing from 3.4% to 3.5%, while female representation remained at 17%.

Our ABP GEN network led *Project Pink*, auditing female facilities across the business and introducing eco-friendly sanitary products and sanitary bag dispensers on ABP vessels. Networks also launched awareness campaigns, including a joint initiative by Ability and ABP GEN on menstrual health, delivering two training sessions – one for all colleagues and one for managers. Additional sessions covered active bystander training and preventing sexual harassment, reinforcing ABP's zero-tolerance stance and our enhanced Bullying and Harassment policy.

During National Inclusion Week, we hosted powerful sessions including external guest speakers whose talk helped inspire and build our understanding of inclusion.

Strategic report (continued)

2. Development and performance of the business (continued)

2.3 People (continued)

We further demonstrated our commitment to fair treatment of the Armed Forces community when ABP signed the Armed Forces Covenant on behalf of ABP in March 2025. Since then, we've expanded engagement through the Career Transition Programme, Forces Families job boards, and improvements to our Reservist Policy.

Operationally, we implemented targeted recruitment initiatives to attract more women into front-line roles in Operations, Engineering, and Marine, using inclusive job advertising and LinkedIn storytelling. These efforts delivered a 21.3% increase in female hires within front-line operations in Newport.

Our efforts earned significant external recognition:

- Highly Commended at the British Diversity Awards for ABP GEN
- Winner of the Diversity category at the Solent Maritime Awards
- Highly Commended for the Powering Equity Award EDI Excellence in Renewables' category at the Renewable UK Global Offshore Wind Awards
- Finalists at the British Port Association Awards, Multimodal, and Maritime UK Awards

This external recognition reflects the progress we've made in positioning ABP as a diverse and inclusive employer – not only within the maritime sector but across UK industries.

3. Risks and uncertainties

ABP's policy with respect to risk management is to direct resources to ensure that ABP, as far as possible, aligns its exposure to risk with defined risk appetite thresholds that are based on preventing harm to colleagues, and other port users, and preventing adverse financial impacts.

The principal risks facing the company, based on the residual risk to the business, are recorded in the risk and control register of the ABP (Jersey) Limited group ("group"). The top risks are grouped based on their potential to impact on health and safety or the group's financial results.

The company's principal safety risks relate to the potential for a major incident, either on a tenanted site or an ABP controlled site, as a result of the high-risk operations carried out across the ports and the potential for fatalities, or serious injuries, to colleagues, or other port users, as a result of either their actions or a workplace transport incident.

- **Tenant Loses Control of Operation** ABP's predominantly landlord-tenant operating model means that a high proportion of activities carried out across our ports are done so outside of ABP's direct control. These activities may include heavy industrial operations and the handling of dangerous cargoes such as ammonium nitrate. Consequently, there is a risk that a tenant, operating independently, experiences a fire or explosion on their site that results in harm to colleagues, or other port users, and prolonged business interruption at a port. ABP has in place processes to ensure only tenants who can operate safely are onboarded and to assure ourselves of a tenant's compliance to their statutory and contractual obligations. Even with these control checks in place, ABP acknowledges that this will remain a significant risk to the business given the potential for a catastrophic health and safety outcome and the limited control ABP has at tenanted sites.

Strategic report (continued)

3. Risks and uncertainties (continued)

- **Fire/Explosion.** With ABP's role in operations, there is a risk of a fire or explosion on an ABP controlled site. Robust, proactive controls are in place which help to prevent this risk from materialising. Controls include fire and Dangerous Substances and Explosive Atmospheres Regulations ("DSEAR") risk assessments to identify potential hazards, cargo care measures and essential maintenance of plant and equipment. ABP colleagues are also trained to respond to an incident should it arise. Fire and Control of Major Accident Hazards ("COMAH") regulations awareness training are complemented by regular drilling of emergency plans, which involve local resilience forums and other key stakeholders. Undertaking 'lessons learned' and sharing best practice across the group will continue to help to further improve ABP's controls, whilst audits are undertaken to verify the effectiveness of current controls.
- **Workplace Transport Incident.** There is a risk that ABP are not able to keep staff and other port users (including the general public) safe when moving around the port estate. Moving plant, heavy goods vehicles and cars present a risk to those on the port premises. There are controls in place at the ports which help to mitigate the risk, including segregation of plant and people, the use of speed cameras, safe systems of work, training and telematics in ABP company vehicles. Additional actions being progressed to further reduce this risk include improvements to road conditions, road markings and signage.
- **Public Injured on Port Estate.** There is a risk that members of the public entering the port estate may be fatally injured. This is a particular concern given the number of sites that can be easily accessed. At some ports there are specific challenges relating to dilapidated buildings and structures being accessed by the public and members of the public attempting to swim within the port estate. Controls are in place, including fencing, signage, security staff and CCTV, to help prevent public access to high risk areas of ports.

The company's principal financial risks relate to the loss of business from a major customer and multiple customers or tenant failures leading to an adverse impact on the company's EBITDA. In response to these risks, ABP has reviewed the risk status of top customers and proactively engages with them to find commercial solutions and retain their business. ABP monitors all its customers and maintains close relationships with key customers.

Further significant financial risks relate to the potential for major development projects, to deliver business growth, being delayed or cancelled due to customer financial constraints, market conditions, increases in construction costs or difficulties in obtaining the necessary development approvals. ABP follows a strong approach to governance to ensure only sound project business cases are progressed, that customer requirements are well understood, that appropriate procurement strategies are followed and that project plans fully take account of consenting and approval requirements.

The company's principal technological risk remains that of cyber-attack. There is a risk that ABP's corporate computer systems could be compromised by the use of an e-mail or web based cyber-attack which results in employees being unable to operate connected devices and software because of the disruption caused by the attack, containment of the attack and the subsequent system restoration. Preventative controls are in place to detect and block attacks, along with training to raise staff awareness such as simulated phishing emails. Data back-ups are routinely undertaken. Penetration testing is undertaken to identify vulnerabilities, so that weaknesses can be addressed. Incident response plans are tested and Business Continuity Plans are in place covering critical business activities.

Emerging and longer-term risks that could impact company's business beyond the current five-year plan, have been identified and categorised as follows.

Strategic report (continued)

3. Risks and uncertainties (continued)

- **Environment.** Predicted long term changes to our climate and weather patterns, beyond those already being experienced, not only have the potential to directly further impact our operations but may also result in increasingly restrictive environmental legislation. The global drive towards decarbonisation also poses challenges for ABP and our customers in the timeframe considered. In response to these challenges ABP launched its Sustainability Strategy in February 2023. ABP has undertaken flood risk assessments across all its ports, and these are being used as part of the critical asset management processes and the development of long-term strategic flood risk plans for high risk port locations. These will support flood risk consideration when ABP develop new, or replace existing, port infrastructure.
- **Power Supply Capacity.** Electrical power demand from customers at some of ABP's ports is expected to increase significantly in the coming years as customers seek to reduce their use of fossil fuels and achieve environmental targets. ABP is working with customers and Distribution Network Operators to help ensure customer power requirements can be met.
- **Public Policy and Regulation:** ABP recognises that both the maritime industry and key sectors of ABP's business are susceptible to changes in public policy, regulatory requirements, and government support.
- **Technology, Innovation and Competition:** ABP endeavours to keep pace with technological change to remain competitive and to keep port users and assets safe and secure. ABP also acknowledges that as our economy becomes more technology-focussed, competition for certain skills will intensify.
- **Economic:** ABP recognises the risk to earnings should a global slowdown or recession cause drops in consumer goods (containers, RoRo, Automotive), tourism spending (cruise) and construction projects (steel, aggregates). Changes in trade tariffs could also present a risk to ABP's earnings.

Financial risk management

Treasury matters throughout the group are controlled centrally and carried out in compliance with policies approved by the Board of Associated British Ports Holdings Limited ("ABPH"), an immediate parent undertaking of the company. The Board of ABPH monitors treasury matters and recommends financing decisions to the relevant group companies. The treasury function's purpose is to identify and mitigate, where appropriate, financial risks inherent in the company's business operations and capital structure. The company's main financial risks are access to liquidity, interest rates, foreign exchange, capital and credit risk as described below. The company aims to manage these risks to an acceptable level.

The company does not use financial instruments for speculative purposes.

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement

ABP recognises that climate change poses significant risks to our business, including physical impacts like flooding and changes in our customer base due to evolving technology, regulation, market demand, and geo-political events. We are committed to achieving net zero emissions from our operations by 2040 and supporting our customers' decarbonisation goals

ABP continues to invest in green technology, plant and equipment including expanding operational wind and solar energy capacity across our ports. Strategically, we are supporting the UK's decarbonisation efforts through our strategy, which is built around two core missions 'Keeping Britain Trading' and 'Enabling the Energy Transition'. ABP continues to support initiatives such as floating offshore wind, steel decarbonisation and carbon capture across the UK.

ABP had launched its sustainability strategy, Ready for Tomorrow (RfT) in 2023, outlining a long-term investment programme of £2 billion in low-carbon and energy resilient infrastructure over the next 15+ years. This capital allocation is designed to support the decarbonisation of ABP's own operational footprint, in line with our net-zero objective (net zero by 2040), while enabling customers to transition to lower-emission energy solutions through enhanced port infrastructure and integrated sustainability services.

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.1 Governance

The following section outlines the governance bodies/structure within the group for the oversight and management of climate-related risks and opportunities. The hierarchy represents the reporting and feedback lines within the organisation.

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.2 Climate-related Risks and Opportunities

Climate change related risks are considered as part of the risk management processes described above and where necessary specific projects to further assess these risks are undertaken, with specialist third-party support as required. Details of the company's risk management can be found in section 3 of this strategic report. ABP has the potential to be impacted by both physical and transition risks and opportunities which could possibly cause a material impact on the value of ABP and its assets.

Physical risks are those arising from climatic events and long-term shifts in climate patterns. These include the increased frequency and severity of extreme weather events as well as rising sea levels, leading to more frequent flooding. We consider that by far the greatest physical risk to ABP and its operations is that of flooding from the sea, with long-term sea-level rise increasing the height of extreme water levels during storm events. Other physical risks (such as increases in temperature or changes in rainfall patterns) are found to cause neither a significant material impact on the value of our assets nor greatly impede operations so are not mentioned further here.

Transition risks and opportunities are those arising from the changes in technology, markets, policy, regulation, and consumer sentiment which will result from our transition to net zero. Our business is sensitive to our customers' markets, with changes in the type and volume of commodities passing through our ports impacting revenue.

Both categories are intricately linked and inter-dependent, with overlap especially apparent between markets and government policy.

Given the high level of uncertainty surrounding future climate conditions, ABP has developed two key scenarios that allow us to explore ABP's resilience to climate-related risks and identify potential opportunities. These are:

- **Divergent Net Zero ("DNZ")** – where the UK achieves its 2050 net zero target. However, significant and abrupt changes in policy, high carbon prices, and sudden changes to investment practices, along with greater socio-economic effects occur, and
- **Hot House World ("HHW")** – this scenario considers a future in which net zero targets are relaxed, with energy security and growth prioritised over policies controlling CO₂ emissions.

The scenarios are not intended to be projections or predictions but instead represent plausible versions of the future on which to base the risk analysis (see next section).

The climate scenarios and impact assessment methodologies have been developed to understand risk in the short term (to 2028), medium term (to 2050) and long term (to 2100). The risk assessment considers the magnitude of impact in terms of estimated financial impact or opportunity using a five-point scale ranging from immaterial (less than £3m EBITDA recurring/or <£15m one off cash payment) through to catastrophic or transformational (where estimates are greater than £70m EBITDA recurring/or >£600m one off cash payment). It also considers the associated probability of the impact occurring, again using a five-point scale ranging from a remote chance (less than 5%) through to almost certain (greater than 95%). The risk assessment calculates the level of risk by multiplying the impact and probability scores with low being up to 6, medium 8-12 and high being 15-25.

Both the physical and transition risks and opportunities have been analysed over the short (to 2028), medium (to 2050) and long term (to 2100). It should be noted that the most pronounced transitional risks and opportunities will emerge over short to medium timescales, whilst flood risk will be greatest over longer timescales.

Strategic report (continued)**4. Non-Financial and Sustainability Information Statement (continued)****4.2 Climate-related Risks and Opportunities (continued)****Physical Risks Analysis*****Flood Risk***

Relevance to ABP	Flooding from the sea is the most significant physical risk facing ABP's business with potential to damage assets and infrastructure, interrupt trade and limit development of low-lying areas of the port estate The risk of flooding differs at each of ABP's ports, with some ports currently well defended or have high land elevations, whilst others <u>are at</u> greater risk even in the short term. It is the exposure of critical assets within each port estate to flooding that defines the level of risk															
Time Horizon/Materiality (unmitigated)	Risk Assessment <table><tr><td></td><td>Short Term</td><td>Medium Term</td><td>Long Term</td></tr><tr><td>Divergent Net Zero</td><td>Low</td><td>Low</td><td>Medium</td></tr><tr><td>Hot House World</td><td>Low</td><td>Medium</td><td>High</td></tr></table>					Short Term	Medium Term	Long Term	Divergent Net Zero	Low	Low	Medium	Hot House World	Low	Medium	High
	Short Term	Medium Term	Long Term													
Divergent Net Zero	Low	Low	Medium													
Hot House World	Low	Medium	High													
Potential Financial Impacts	Direct impacts – damage to both ABP and customer assets/infrastructure, as well as loss of earnings. Scale of impact will depend on storm surge magnitude and port preparedness. Indirect impacts – cost of insurance, increase in credit risk (if ABP is not able to demonstrate preparedness), constraints on development (due to planning policy in flood risk areas)															
ABP Risk Mitigations	In recent years, ABP has commissioned several investigations to enhance understanding of flood risk at each port location. These have considered present day and future time horizons (out to 2115). A strategic group-wide approach to the determination and management of flood risk is currently being implemented, building upon these investigation studies. This will help determine overall infrastructure and operational resilience and will ensure that flood risk management and climate change risk is integrated into existing asset management and decision-making processes In 2024 a report was commissioned to enhance understanding of flood risk by producing spatial (GIS) information on our coastal flood defence assets Following the 2024 report, in 2025 ABP conducted physical inspections to verify flood risk defence mechanisms in certain ports. This information was fed into GIS for better data quality and improvement in the scenario analysis. In 2026, we will continue to enhance ABP's understanding around flood risk and review emergency response plans for flooding															

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.2 Climate-related Risks and Opportunities (continued)

Transition Risks Analysis

Market Transition – Risks

Relevance to ABP	ABP's financial position is intimately linked to the strength of the markets our customers operate within. Many of ABP's main customers and primary market sectors have the potential to be impacted by climate and environment-related statutory policy decisions over the coming decades in particular customers in the energy sector.			
Time Horizon/Materiality (unmitigated)	Risk Assessment			
		Short Term	Medium Term	Long Term
	Divergent Net Zero	Low	High	High
	Hot House World	Low	Low	Low
Potential Financial Impacts	The transition to lower carbon energy could result in the loss of customers or downscaling of their operations. This could significantly impact both property rental income and commercial revenue. The impact would not be equally felt across all ports but would be dependent on the nature of the trade and degree of exposure to climate-related market changes.			
ABP Risk Mitigations	Risks will be managed by a programme of investment focused on infrastructure and facilities supporting customers to decarbonise their operations and customers within the clean energy sectors. This will diversify revenue streams and offset expected long-term declines in traditional fossil-fuel based energy sources such as coal, oil and petroleum.			

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.2 Climate-related Risks and Opportunities (continued)

Policy & Legal Transition – Risks

Relevance to ABP	Government policy could affect ABP's development costs, operating costs, and asset values. Future carbon levies and higher carbon prices may increase the cost of diesel vessels and drive investment in alternative technologies. Tighter rules on flood-risk development and building energy standards may also raise compliance costs. In addition, policy changes could impact the viability and profitability of ABP's customers, indirectly affecting ABP.			
Time Horizon/Materiality (unmitigated)	Risk Assessment			
		Short Term	Medium Term	Long Term
	Divergent Net Zero	Medium	Medium	Low
	Hot House World	Medium	Low	Low
Potential Financial Impacts	Potential impacts include increased operating costs (e.g. higher tax burden, compliance costs and increased insurance premiums), asset impairment and early retirement of existing assets, increased development/capex costs to achieve compliance with policy, and increased cost of capital if ABP is unable to provide sufficient reassurance to markets as to the adequacy of measures to manage climate-related financial risks.			
ABP Risk Mitigations	ABP continues to invest in green technology, upgrading energy infrastructure and has 32.5 MWp (by 2025) of wind and solar energy generation capacity across 18 of our 21 ports. ABP also plans to invest further capital to decarbonise own infrastructure and equipment between 2026 and 2040 to continue to reduce scope 1 and 2 GHG emissions. ABP continues to prepare for known changes in planning regulations in flood-prone areas and for new Minimum Energy Efficiency Standards. We also monitor for changes in law and regulation on an ongoing basis, so appropriate planning can be undertaken.			

Policy & Legal Transition Opportunities

The decarbonisation of the shipping industry poses potential opportunities for ABP. As the industry moves to reduce carbon intensity, new bunkering opportunities associated with the use of green fuels, such as hydrogen, methanol, etc. may arise.

ABP has installed shore power facilities in the port of Southampton. Shore power-enabled ships can plug in at the port's Horizon Cruise Terminal and Mayflower Cruise Terminal, for zero emissions at berth. Opportunities for further shore power deployment across ABP's ports are being kept under review but are dependent on local grid infrastructure capacity and the economics of shore power given high UK electricity costs (see further below for Technology Transition Risk).

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.2 Climate-related Risks and Opportunities (continued)

Technology Transition – Risks

Relevance to ABP	Technology drives (and is influenced by) market change and therefore also directly impacts ABP through the viability/profitability of its customers' businesses Electricity grid infrastructure is heavily constrained in areas around the UK with the network not having capacity to transport the electricity required or produced from a new connection. Grid constraints are limiting the ability to deploy green energy generated on ABP's port estates Continued electricity grid constraints could also impact the future development of offshore wind opportunities															
Time Horizon/Materiality (unmitigated)	Risk Assessment <table><tr><td></td><td>Short Term</td><td>Medium Term</td><td>Long Term</td></tr><tr><td>Divergent Net Zero</td><td>Low</td><td>Low</td><td>Low</td></tr><tr><td>Hot House World</td><td>Low</td><td>Low</td><td>Low</td></tr></table>					Short Term	Medium Term	Long Term	Divergent Net Zero	Low	Low	Low	Hot House World	Low	Low	Low
	Short Term	Medium Term	Long Term													
Divergent Net Zero	Low	Low	Low													
Hot House World	Low	Low	Low													
Potential Financial Impacts	Lost future revenue generation opportunities.															
ABP Risk Mitigations	ABP continues to engage with Distribution Network Operators (DNOs) to understand grid restrictions and timescales to reduce system constraints There are several ports facing grid connection delays for new generation assets ABP believes that industrial sites deploying renewable energy assets should receive grid prioritisation alongside the Clean Power 2030 criterion															

Technology Transition – Opportunities

Both ABP and its customers have an increasing demand for clean energy in the short/medium term, making on port-based generation of energy increasingly in demand. Potential new customers regularly ask about the availability of on-site direct decarbonised renewable energy. ABP will continue to explore the potential for new renewable/decarbonised energy projects and will actively engage with customers to improve our understanding of their short- and medium-term energy requirements so we are well positioned to respond to potential future demand. Investment in automation, such as Terminal Operating Systems which streamline the flow of goods and bring efficiencies to ABP and its customers, also offer opportunities to reduce carbon emissions.

Strategic report (continued)**4. Non-Financial and Sustainability Information Statement (continued)****4.2 Climate-related Risks and Opportunities (continued)*****Reputational Risks***

Relevance to ABP	Several of ABP's ports handle carbon intensive commodities (especially oil and petroleum products) and raw materials for carbon intensive industries (such as iron ore and coal for steel making) These industries have their own decarbonisation agendas There is a risk that divergent approaches to decarbonisation could have an adverse impact on the delivery of ABPs sustainability strategy			
Time Horizon/Materiality (unmitigated)	Risk Assessment			
		Short Term	Medium Term	Long Term
	Divergent Net Zero	Low	Low	Low
	Hot House World	Low	Low	Low
Potential Financial Impacts	Impact from operational disruption/direct loss of earnings due to protests, loss of customers/new business due to actual or perceived risk of disruption, or reduced revenue from negative impacts on workforce management and planning			
ABP Risk Mitigations	In addition, we will continue to invest in high growth green industries like floating offshore wind which can play a key part in decarbonising the economy We will also maintain dialogue with regulators, developers and non-governmental organisations to understand and mitigate the impacts of development and operations on the marine environment			

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.3 Sustainability reporting

Progress against the group's primary sustainability performance indicator is detailed below.

	Target	2025	Restated 2024 ³	Reported 2024	Change from restated 2024
ABP Direct tCO ₂ e emissions (tonnes) – market-based ¹	< prior year	25,198	28,521	28,987	-12%
ABP Direct tCO ₂ e emissions (tonnes) – location-based ²	< prior year	32,072	37,008	37,008	-13%

¹ Scope 1 & Scope 2 GHG emissions (market-based) Defined as the total GHG emissions from ABP's direct operations Scope 1 GHG emissions derived from fuel usage in ABP port operations (Crans, Reach stackers, etc), road transport vehicles (cars) and ABP marine (dredging, pilotage, etc) and Scope 2 GHG emissions are calculated from the specific contractual instruments for grid electricity purchase such as Renewable Energy Guarantees of Origin (REGO) certificates From Q1 2019 ABP has purchased most of its grid electricity backed by REGOs , by doing this ABP's Scope 2 GHG emissions are considered zero, under market-based method for this grid electricity usage

² Scope 1 & Scope 2 GHG emissions (location-based) Defined as the total GHG emissions from ABP's direct operations Scope 1 GHG emissions derived from fuel usage in ABP port operations (Crans, Reach stackers, etc), road transport vehicles (cars) and ABP marine (dredging, pilotage, etc) and Scope 2 GHG emissions calculated, assuming all the grid electricity the organisation purchased consists of the UK grid average mix of sources

³ 2024 figures were restated following 2025 sustainability data audit which identified third party emissions in the group figures

ABP have demonstrated continuous improvement towards overall sustainability data management and reporting following continued third party limited-assurance review of its key sustainability KPIs. ABP's key sustainability metrics are third party verified since 2021 Below are the sustainability KPIs that were reviewed and third party assured annually:

- Total GHG emissions (tCO₂e) - location & market based
 - Total Scope 1 GHG emissions (tCO₂e)
 - Total Scope 2 GHG emissions (tCO₂e) location & market based
- Total Energy Consumed (Fuel, Grid electricity and Renewable electricity) (GWh)
- Water withdrawal (million litres)
- Waste Generated & Waste Recycled (metric tonnes)

In 2025 the group's reported GHG emissions (market-based) decreased by 12% compared to 2024 and the group's reported carbon emissions (location-based) decreased by 13%. Overall, the reduction in the GHG emissions is triggered due to usage of biofuel (HVO) within port operations, better tracking and customer allocation of fuel use and improvement in the UK grid mix emission factor from 2024.

Following external audits, the group's Environmental Management System continues to be certified to ISO 14001 and the ABP Energy Management System successfully retained certification to ISO 50001.

The information below is reported in accordance with requirements under The Companies (Directors' Report) and Limited Liability Partnerships (Energy and Carbon Report) Regulations 2018. All figures reported are for the period of 1 January to 31 December and relate to the emissions of the ultimate group, (ABP (Jersey) Limited and all subsidiaries) in the United Kingdom and offshore areas

Strategic report (continued)**4. Non-Financial and Sustainability Information Statement (continued)****4.3 Sustainability reporting (continued)****Energy use and sources of Green House Gas (“GHG”) Emissions**

Total energy use	Energy used (GWh)¹	CO₂e emissions (tCO₂e)²	Intensity (tCO₂e/ GWh)
2025	177.8	32,072	180
2024	177.2	37,008	209

¹Calculated based on the group's consumption of purchased grid electricity, on-site renewable energy generation, gas used for heating, and fuel (operation, marine & road transport)

²ABP Direct GHG emissions – (location based) method

GHG Emissions by scope

	GHG emissions (tCO₂e)	Group Revenue (£m)	Intensity (tCO₂e/£m)
2025			
Scope 1 ¹	24,032	819.8	29.3
Scope 2 ²	8,040	819.8	9.8
Total	32,072	819.8	39.1
2024			
Scope 1 ¹	26,801	783.5	34.2
Scope 2 ²	10,207	783.5	13.0
Total	37,008	783.5	47.2

¹ Scope 1 GHG emissions derived from fuel usage in ABP port operations, road transport vehicles and ABP marine (dredging, pilotage, etc.)

² Calculated based on the group's consumption of grid-electricity, private wire connections and renewable electricity purchased (location-based). This method excludes Renewable Energy Guarantees of Origin (REGO) certificates consideration. Under the market-based method, Scope 2 GHG emissions for these REGO backed kWh are zero.

Methodology

In terms of sustainability data management, energy and fuel consumption data are collected from utility billing statements, direct meter readings, and sub-metering systems across ABP operations. GHG emissions are calculated in accordance with the GHG Protocol Corporate Standard and Scope 2 Guidance, using the GreenstonePlus (part of Cority) platform. The platform incorporates annually updated emission and conversion factors issued by the UK Government (DEFRA/DESNZ), including fuel combustion factors, electricity grid factors, well-to-tank (WTT) data, and transmission & distribution (T&D) loss factors.

Scope 1 emissions include direct releases from ABP-controlled combustion of fuels and fugitive emissions from refrigerants (F-gases). Scope 2 emissions include indirect emissions from the purchase of electricity and other imported energy, calculated using both the location-based and market-based methods where applicable. Scope 3 emissions include energy-related indirect emissions such as energy sold to third parties, WTT emissions of fuels and electricity, and other relevant downstream categories. All calculations follow standard activity-data × emission-factor methodologies, in line with DEFRA's methodology and the GHG Protocol.

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.3 Sustainability reporting (continued)

Each year ABP engages an independent assurance provider to perform a limited assurance engagement over specified sustainability data and information. This assurance is carried out annually in accordance with the Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard (Revised 2015), and aligned with recognised international assurance best practice, including the International Standard on Assurance Engagements ISAE 3000 (Revised) issued by the International Auditing and Assurance Standards Board (IAASB). The most recently completed assurance relates to the 2024 reporting year, for which the assurance provider concluded that nothing had come to their attention to suggest that the selected sustainability metrics were not prepared, in all material respects, in accordance with ABP's reporting criteria.

Energy Efficiency and Emissions Reduction Action Taken

As part of ABP's continued commitment to improving energy performance and maintaining ISO 50001 certification for its energy management system, the organisation continued to identify, implement, and monitor a range of energy-efficiency and emission-reduction projects throughout 2025.

ABP continues to operate renewable energy generation assets at 18 of its 21 ports during the reporting period. In 2025, total onsite renewable generation reached 26.6 GWh, representing an increase of approximately 26% compared with 2024. The improvement also reflects ABP's continued efforts to enhance asset reliability through proactive repair & maintenance, installation of smart meters towards efficient monitoring of generation output. This additional renewable generation reduced the requirement for grid electricity purchases, resulting in an estimated 1,000 tCO₂e of avoided GHG emissions under scope 2 category.

ABP assessed the use of Biofuel- Hydrotreated Vegetable Oil (HVO) within port operations. In 2025, HVO was introduced at three key locations: Hull, Immingham (Humber), and Newport (Wales); enabling the conversion of nearly all diesel-powered mobile plant and machinery at these sites to biofuel. Operational performance remained strong under HVO, and the transition delivered significant emission reductions compared with conventional diesel. Approximately 30% of ABP's total operational fuel use in 2025 was attributed to HVO, contributing to an estimated 3,000 tCO₂e reduction in Scope 1 GHG emissions.

Strategic report (continued)**4. Non-Financial and Sustainability Information Statement (continued)****4.4 Targets and Metrics**

A series of KPIs have been identified to assist ABP in managing climate-related risks and to realise climate-related opportunities. These will build upon our existing metrics and targets to help guide the implementation of our sustainability strategy. These are set out below, together with the KPIs identified to assess progress.

Risks and impacts requiring management	Target	Relevance to future ABP operations	Key performance indicator(s) (KPIs)	Time frame before target met/ implemented
1: Physical risk: flooding - Damage to assets - Increased development costs - Interruption to operations	Development of long-term strategic flood risk plans for high-risk port locations identified in the 2021 ABP port flood risk assessment. This to be done in four stages: 1 Enhance understanding of risk 2 Define the potential consequence of flooding 3 Develop Flood Resilience Plans for each port 4 Implement and integrate the plans into business planning and operations	This will improve understanding of long-term vulnerability to sea level rise, identifying where and when investment in improved flood defence infrastructure may be required at each port. It will also help improve long-term resilience through future land use planning, enabling (for instance) cargoes sensitive to flooding to be stored in less flood-prone areas.	Number of high-risk ports with long-term strategic flood risk plans A report covering stage 1 of the development was completed in 2024. A report to be obtained in 2026 for revised scenario assessment and updated flood risk data.	Short-term flood risk mitigation plans to be developed by 2028.
2a: Transitional risk: markets - Reliance on customers operating in carbon-intensive sectors	Our strategy includes an indicative £1.4bn cumulative investment in infrastructure and facilities supporting customers involved in the energy transition.	This investment will capture new market opportunities, diversifying existing revenue streams and reducing reliance on carbon-intensive markets/commodities.	Approx. £74 million Capex spent on energy transition projects between 2023-2025.	Medium-term (met by 2040)

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.4 Targets and Metrics (continued)

Risks and impacts requiring management	Target	Relevance to future ABP operations	Key performance indicator(s) (KPIs)	Time frame before target met/implemented
2b: Transitional risk: markets – Increased stakeholder concern regarding carbon intensity/ environmental sustainability of ABP customer operations	Achievement of net zero by scope 1 and 2 by 2040 as set out in the Sustainability Strategy	Our reputation for environmental responsibility is important, both to our customers and to our staff. Our customers have increasingly strict climate and wider sustainability requirements for their supply chain, and these must be met to ensure we retain (or secure) their business. ABP's Sustainability Strategy articulates the strategy for creating a positive impact on the environment and the wider support we are providing to our customers to achieve their own decarbonisation ambitions.	Tracking of sustainability implementation to be based on progress against net zero target by 2040 (Scope 1 and 2).	Short to Medium term (first implementation milestone to be assessed by 2030)

Strategic report (continued)

4. Non-Financial and Sustainability Information Statement (continued)

4.4 Targets and Metrics (continued)

Risks and impacts requiring management	Target	Relevance to future ABP operations	Key performance indicator(s) (KPIs)	Time frame before target met/implemented
3: Transitional risk: policy - Carbon taxation driving higher energy costs for operations, reducing profitability.	Additional 40 MWp of installed wind & solar energy (above 2022 baseline).	Higher carbon taxes have the potential to erode profitability. The measures/ targets identified will reduce this tax burden whilst also achieving wider environmental benefits	As of now ABP have total 32.5 MWp generation capacity installed across its ports	Short term (met by 2030)
	Net Zero Scope 1 & 2 greenhouse gas emissions		(tCO ₂ e)/ year) See section 4.3.	Medium term (met by 2040)
4: Transitional risk: technology - Costs to transition to lower emissions technology	Our strategy includes an indicative £600m investment to decarbonise ABP infrastructure and equipment. Investment will result in emission reductions from the 2022 baseline of -37% by 2030 -64% by 2035 -90% by 2040	ABP has a large amount of infrastructure and equipment across its 21 ports replacing this with zero-carbon alternatives will be capital intensive. We have set out a strategic plan for achieving an orderly transition that minimises the risk of write-offs and early retirement of existing assets	Approx £18 million Capex spent on decarbonisation projects between 2023-2025	Medium term (met by 2040)

Strategic report (continued)

5. Section 172 (1) Statement

The Board recognises the importance of stakeholder engagement in delivering the long-term and sustainable success of the company. When making decisions the directors have regard to the potential consequences over the short, medium, and long term, the reputation of the business and their responsibilities and duties to the company’s shareholder and other stakeholders.

Under the Transport Act 1981 the company is deemed to be a wholly-owned subsidiary of Associated British Ports Holdings Limited (ABPH). The Board ensures it is acting in accordance with legal requirements as well as internally approved group governance frameworks to ensure that the company acts fairly towards its holding company.

ABP’s wider stakeholders are its employees, customers, local and national government, suppliers, the communities in which ABP operates, the environment and lenders.

To support directors and assist them in complying with their duties, board papers include details on engagement with stakeholders so that the impact on, and views of, key stakeholders can be considered as part of the decision-making process.

The following section outlines how the company engages with, and has regard to, each of the key stakeholder groups.

5.1 Employees

The company’s employees are fundamental to our success, and we cannot deliver our strategy and continue to grow without a safe, engaged, skilled and well-trained workforce. We obtain feedback and views from our employees on a regular basis which enables us to continuously improve and develop, particularly in relation to our health and safety processes and practices. See our ‘Health and Safety’ and ‘People’ sections respectively for further information.

What matters to our employees

- | | |
|--|--|
| • A safe and healthy working environment | • Recognition and fair reward |
| • Diversity, equality and inclusion | • Communication |
| • Growth and development opportunities | • Correct tools and equipment to perform their roles safely and well |
| • Training and upskilling | |

How ABP measures

- | | |
|---|---|
| • Safety metrics including lost time incidents and Serious Injury & Fatality Potential (SIFp) incidents, and sickness absence rates | • Employee turnover |
| • Gender pay gap and diversity of employees | • Employee engagement survey responses |
| • Internal hire rates (including promotions) | • ‘Spot-Its’ and safety conversations |
| | • Whistleblowing reports |
| | • Attendees on development programmes and training attendance |

Strategic report (continued)

Section 172 (1) Statement (continued)

5.1 Employees (continued)

How ABP engages

-
- | | |
|---|--|
| <ul style="list-style-type: none"> • Weekly 'Pulse' newsletter on updates from around the business • Direct and regular engagement with trade unions • Regular employee 'Town Halls' • Issuing safety alerts and giving 'toolbox' talks • CEO business briefings at port locations and virtually • Annual Senior Leadership Team conference | <ul style="list-style-type: none"> • Actioning and reviewing near misses, incidents or concerns identified through the 'Spot-It' portal • Anonymous employee engagement survey with associated action plans • Sharing regular information on financial and economic factors affecting the performance of the group • Regular engagement call with Senior Leadership Team to discuss performance and key business updates |
|---|--|

How the Board complements the engagement

-
- | | |
|--|---|
| <ul style="list-style-type: none"> • Visits to ports of Ipswich, Hull and Lowestoft by Board members • Gender Pay Gap report considered by the Board • Health and safety updates provided at Board meetings | <ul style="list-style-type: none"> • Oversight of whistleblowing reports by ABPH's Audit and Risk Committee • Oversight on key health and safety metrics/KPIs |
|--|---|

Actions and Decisions

-
- | | |
|---|---|
| <ul style="list-style-type: none"> • New Life Saving Rules (LSR) launched in 2025 to support safety culture • Lead the Line safety training was delivered to all frontline managers to empower them to deliver safety • Approval of updated Pay and Benefits Policy and Recognition Policy | <ul style="list-style-type: none"> • Mandatory online or in person health and safety training for all employees • Greater involvement of safety reps in our port locations to follow up on specific safety issues |
|---|---|

5.2 Customers

The company's future success is dependent on the maintenance and development of its relations with current and potential customers ABP works closely with our customers at port, regional and corporate level to understand their needs and develop facilities and services to meet their requirements

What matters to our customers

-
- | | |
|--|---|
| <ul style="list-style-type: none"> • Building long term sustainable partnerships of mutual value • Availability of infrastructure and resources to support customer operations | <ul style="list-style-type: none"> • Clear communication regarding port-based activities • Sustainability and de-carbonisation of port operations |
|--|---|

Strategic report (continued)**5. Section 172 (1) Statement (continued)****5.2 Customers (continued)****How ABP measures**

- | | |
|--|---|
| <ul style="list-style-type: none"> • Direct customer feedback through day-to-day activities and joint projects • Business growth | <ul style="list-style-type: none"> • Regular engagement with customer senior management representatives • Performance surveys conducted |
|--|---|

How ABP engages

- | | |
|--|--|
| <ul style="list-style-type: none"> • Regular dialogue with our customers to understand current and future challenges • Port user groups meet across major ABP ports to provide a forum for feedback and discussion on key topics • Updates to customers • Annual tenanted site inspections • Monthly customer KPI performance meetings to measure Service Level Agreement (SLA's) in various ports, as required | <ul style="list-style-type: none"> • Publication of the Annual Review • Attending industry events alongside customers and partners, including the Floating Offshore Wind Conference 2025 and the Harbour Energy Reception • Hosting customer events • Regular quarterly meetings and account management reviews with major customers • Sharing safety alerts and learning |
|--|--|

How the Board complements the engagement

- | | |
|--|---|
| <ul style="list-style-type: none"> • Considering feedback from customers, including when discussing new projects and opportunities • The Board meeting with select customers at regional events to provide direct feedback | <ul style="list-style-type: none"> • Consideration of update from management on customer engagement survey responses and action plans • The Board visiting customer sites to better understand customer priorities and projects |
|--|---|

Actions and Decisions

- | | |
|--|---|
| <ul style="list-style-type: none"> • Continuing implementation of customer engagement plans • Continuing investment in onsite roof-based solar | <ul style="list-style-type: none"> • Investment in new infrastructure and equipment to support customer activities, including for Stena Line, Volkswagen, Brittany Ferries, ADM, Newminerals and We Soda |
|--|---|

5.3 Local Authorities and National Government

ABP has a unique position as the UK's largest port operator. It is an essential part of the supply chain for key industries throughout the UK, a key enabler of infrastructure for the energy transition and a catalyst for jobs and prosperity in coastal communities. Government policy in respect of matters such as trade, the environment and industrial strategy impact the way that businesses operate. Accordingly, engagement with government bodies at local, regional and national levels allows ABP to understand the regulatory and policy landscape that impacts its business and to work with both government and our customers on areas of shared interest to deliver practical long term outcomes.

What matters to Local Authorities and National Government

- | | |
|--|---|
| <ul style="list-style-type: none"> • Employment opportunities, prosperity and economic growth • Support for the objectives of governments, such as economic growth and enabling the energy transition • Long term sustainability for future generations | <ul style="list-style-type: none"> • Enabling the efficient and controlled movement of people and goods into/out of the UK • Effective support of supply chains and supply chain resilience for local businesses and industry/agriculture |
|--|---|

Strategic report (continued)

5. Section 172 (1) Statement (continued)

5.3 Local Authorities and National Government (continued)

How ABP measures

- | | |
|--|---|
| <ul style="list-style-type: none"> • Using our interaction with government at all levels to ensure solutions are achieved that deliver tangible benefits to all stakeholders • Ability to deliver core business objectives with consent and support of relevant government and arm's length bodies | <ul style="list-style-type: none"> • Engagement with UK and local government to understand and positively input into relevant policy through both formal processes (e.g. consultations, local plan formation) and ongoing dialogue • Feedback from discussions on projects, consultations and submissions |
|--|---|

How ABP engages

- | | |
|---|---|
| <ul style="list-style-type: none"> • Directly with UK government departments, including the Department for Transport, the Department for Energy Security & Net Zero, Devolved Administrations and local government bodies relevant to ABP's ports • Membership of trade associations and business groups that engage with government on policy issues e.g. the UK Major Ports Group, British Ports Association, UK Warehousing Association and Renewable UK | <ul style="list-style-type: none"> • Pro-active engagement with executive agencies of the government including the Marine Maritime Organisation and the Environment Agency • Regular dialogue with Local Authorities and local collective bodies and fora • Providing thought leadership on key topics where ABP has a distinctive, authoritative perspective • Hosting and attending engagement events, regionally and centrally |
|---|---|

How the Board complements the engagement

- | | |
|---|--|
| <ul style="list-style-type: none"> • Directors meeting with government representatives • Liaising with the Executive Team on key priorities and aligning Government engagement, where appropriate • Coordinating with specialists within Shareholder organisations on topics of mutual benefit | <ul style="list-style-type: none"> • Consideration of engagement and views of local and national government when reviewing project proposals, e.g. for the Future Port Talbot and Solent Gateway 2 projects • Receiving regular updates on government engagement |
|---|--|

Actions and Decisions

- | | |
|--|---|
| <ul style="list-style-type: none"> • Working closely with government bodies on key industry issues, including in relation to the green energy transition, industrial strategy and economic growth • Taking into account feedback from civil society stakeholders as ABP formulates business strategies and project proposals | <ul style="list-style-type: none"> • Attendance at civil society conferences and fora, sponsoring roundtable discussions and webinars and speaking at events on relevant policy issues where ABP has a qualified perspective • Working with stakeholders and independently to secure a positive investment environment for UK ports and associated industries |
|--|---|

Strategic report (continued)

5. Section 172 (1) Statement (continued)

5.4 Suppliers

ABP relies on its suppliers to provide products and services that enable us to deliver our strategy. We seek to engage the best supply chain partners to sustainably deliver value and performance for the business and we regularly work with local and small businesses in our port communities.

We recognise that strong relationships, regular communication and engagement with our suppliers are key to delivering our projects in a timely and cost-efficient manner and ensuring that specifications are aligned with the needs of the business and our customers.

What matters to suppliers

-
- | | |
|--|---|
| • Clear and transparent communication of requirements and expectations | • Smooth onboarding of new suppliers |
| • Timely decision making | • Payment in accordance with agreed terms |

How ABP measures

-
- | | |
|---|--|
| • By successful outcomes, such as delivery of equipment on time and on budget | • Monitoring of payment period for invoices, and delays in the process (e.g. due to failure to match an invoice with a purchase order) |
| • By seeking regular supplier feedback in respect of payment processes and the use of supplier portal | • By developing key performance criterion with stakeholders for suppliers to deliver these responsibilities contractually |
| • Absence of disputes/unresolved issues | |

How ABP engages

-
- | | |
|--|--|
| • Through the use of a supplier portal to enable organisations to register and tender for contracts, complete due diligence and correspond directly with ABP | • Through regular dialogue and close collaboration with suppliers and contractors to ensure projects are delivered on time and in budget |
|--|--|

How the Board complements the engagement

-
- | | |
|---|--|
| • Receiving reports on project progress updates and any supplier issues | • Review by ABPH's Audit and Risk Committee of whistleblowing reports, which would include any concerns or suspicions of malpractice raised by suppliers |
| • Regular review of credit risk reports | |

Strategic report (continued)

5. Section 172 (1) Statement (continued)

5.4 Suppliers (continued)

Actions and Decisions

-
- | | |
|---|--|
| <ul style="list-style-type: none"> • Launch supplier engagement days for upcoming projects, goods, and services to drive active participation from key supply chain partners, including local SMEs. These sessions enabled early collaboration, fostered innovation, and strengthened strategic partnerships while proactively addressing challenges. In addition, the introduction of pipeline sharing for Infrastructure projects across all regions to provide visibility, enhance planning, and optimise resource alignment within the supply chain e.g. supplier engagement days were held in Hull and Southampton to share capex project pipelines across regions and gather feedback from suppliers on how ABP can improve collaboration. | <ul style="list-style-type: none"> • Following feedback from the relationship management questionnaire, earlier contractor engagement and more focus on publicising ABP pipeline opportunities within various categories • A new property-focused engagement event was also held in 2025, with a strong emphasis on supporting small and medium enterprises. |
|---|--|

5.5 Communities

ABP recognises the importance of local communities to its continued success and the impact its decisions can have on those communities across its port estate. We seek to develop relationships based on mutual trust and respect and to understand the issues that matter locally

What matters to local communities

-
- | | |
|--|---|
| <ul style="list-style-type: none"> • Job creation and contribution to regional economy • Being a good neighbour and supporting the local community • Acceptable levels of noise and air pollution | <ul style="list-style-type: none"> • Company's commitment to sustainability • Consultation with local community, particularly when significant projects are planned |
|--|---|

How ABP measures

-
- | | |
|---|--|
| <ul style="list-style-type: none"> • Ensuring a regular cadence of community / civil society engagement touch points • Monitoring air quality and greenhouse gas emissions • Tracking social and environmental feedback • Donations to charities and local/national community organisations | <ul style="list-style-type: none"> • By measuring the group's wider economic impact, principally through <ul style="list-style-type: none"> - the value of trade handled at our ports - jobs supported in regions where we operate - the value of our contribution to the economy measured in Gross Value Added ("GVA") |
|---|--|

Strategic report (continued)**5. Section 172 (1) Statement (continued)****5.5 Communities (continued)****How ABP engages**

- | | |
|--|--|
| <ul style="list-style-type: none"> • Proactive communications to local communities around developments and changes to business practices • Seeking feedback from communities and residents on significant project proposals • Port and heritage open days | <ul style="list-style-type: none"> • Through sponsorship of and fundraising by ABP and its employees for a number of charities and community organisations • Through regular engagement with community representatives (e.g. councillors, MPs) and local residents |
|--|--|

How the Board complements the engagement

- | | |
|--|---|
| <ul style="list-style-type: none"> • Through allocation of budget to support community and charity projects • Investment in sites to mitigate the effect of habitat loss | <ul style="list-style-type: none"> • Through consideration of local community impacts when project proposals are being reviewed by the Board for approval • Overseeing the group's sustainability strategy • Receiving regular updates on community engagement |
|--|---|

Actions and Decisions

- | | |
|---|---|
| <ul style="list-style-type: none"> • Sponsorship of a variety of national and regional charities located in the communities where ABP's ports operate against a company-wide consistent set of evaluation criteria • Cross ABP programme of sponsorship of mass participation running events in Southampton, Newport, Cardiff, Ipswich and the Humber, attracting over 50,000 runners | <ul style="list-style-type: none"> • Proactive communication and engagement programmes with communities around major projects such as Future Southampton. Feedback received as part of the local consultation for Future Southampton (the potential expansion of the Port) has been largely supportive • Programme of port open days and visits |
|---|---|

5.6 Environment

ABP is committed to developing its business to meet the needs of its customers in a sustainable way, with due regard for both its operations and the environment. Engaging with stakeholders is key to supporting our planning and licence applications and ensuring we are able to meet legislative requirements. When planning projects, ABP also works with stakeholders to ensure sustainability and mitigate or reduce the impact of its projects on the environment where possible.

What matters in respect of the Environment

- | | |
|---|--|
| <ul style="list-style-type: none"> • Commitment to Net Zero greenhouse gas emissions ("GHG") by 2040 • Promotion of biodiversity/protection of wildlife • Less water consumption within ABP operations | <ul style="list-style-type: none"> • Better air quality and pollution control • Noise control/reduction • Effective waste management practices, minimizing environmental impact by improved recycling and waste diversion from landfill |
|---|--|

Strategic report (continued)

5. Section 172 (1) Statement (continued)

5.6 Environment (continued)

How ABP measures

- | | |
|---|--|
| <ul style="list-style-type: none"> • Ambient air quality monitoring • Tracking waste generation and disposal • Tracking water consumption within ABP & customer operations • Undertaking biodiversity related assessment and development work | <ul style="list-style-type: none"> • Monitoring energy utilisation within ABP and customer operations • Forecasting and monitoring of annual GHG emissions (Scope 1 & 2) • ISO 14001 environmental management system (EMS) and ISO 50001 Energy Management system (EnMS) certification across all ports and terminals |
|---|--|

How ABP engages

- | | |
|--|---|
| <ul style="list-style-type: none"> • Engaging with key environmental stakeholders, the Environment Agency, the Department for Environment, Food & Rural Affairs and the Marine Management Organisation in respect of major projects and initiatives | <ul style="list-style-type: none"> • Attendance at local port user groups to understand the key issues faced by port users and give feedback on how any environmental issues or concerns are being addressed • Member of the Zero Carbon Humber initiative and a signatory to the Green City Charter in Southampton |
|--|---|

How the Board complements the engagement

- | | |
|--|--|
| <ul style="list-style-type: none"> • Investment in a number of renewable energy projects and energy efficiency initiatives which align with the group's sustainability strategy • Oversight of implementation and progress of the ABP sustainability strategy with a target of reaching net zero GHG emissions by 2040 | <ul style="list-style-type: none"> • Consideration of the environmental impact as a key aspect of the decision-making process, particularly in all major project decisions • Development and oversight of the ABP strategy which includes energy generation and storage as a key strategic direction |
|--|--|

Actions and Decisions

- | | |
|---|---|
| <ul style="list-style-type: none"> • Continued commitment of Board to achieve Net Zero GHG emissions by 2040 • Alignment to Science Based Targets initiative (SBTi) demonstrating credibility in Net Zero delivery • Annual engagement towards independent assurance of sustainability KPIs (Scope 1 & 2 GHG emissions, Total energy usage in ABP operations, Waste generation & recycling, Water consumption) as per ISAE 3000 (Revised) (International Standard on Assurance Engagements 3000) methodology | <ul style="list-style-type: none"> • Undertook a project towards usage of biofuel (HVO) within ABP port operations in Humber and Wales regions, which demonstrated the GHG emissions reduction and feasibility of biofuel (HVO) in ports machinery & equipment • Continued improvement towards air quality monitoring by maintenance and upgrade of air quality monitors • Engagement with the external agency towards review of internal practices and development of strategy roadmap towards biodiversity, air quality and water KPIs |
|---|---|

Strategic report (continued)**5. Section 172 (1) Statement (continued)****5.7 Lenders**

The group raises debt and undertakes related hedging with a number of counterparties. Sources of debt and facilities include public bond markets, loans and private placements. We recognise the importance of providing these stakeholders with information to ensure they are kept up to date with the development, growth and strategy of the business and continue to recognise the benefits of investing in ABP.

What matters to our lenders

-
- | | |
|---|--|
| <ul style="list-style-type: none"> • Debt service and covenant compliance • Clear and transparent communication • Regular updates on performance • Access to management | <ul style="list-style-type: none"> • Credit ratings of ABP Finance Plc and ABP Acquisitions UK Limited • Insight into the drivers of performance and business growth |
|---|--|

How ABP measures

-
- | | |
|--|---|
| <ul style="list-style-type: none"> • Through positive relationships with lenders and an understanding of the main drivers behind investing in ABP | <ul style="list-style-type: none"> • Loan covenant compliance monitoring • Reporting by rating agencies |
|--|---|

How ABP engages

-
- | | |
|--|--|
| <ul style="list-style-type: none"> • By providing regular information on the group's performance, major investments and other forward-looking data to lenders | <ul style="list-style-type: none"> • By directly engaging with lenders through an annual update as well as regular calls and meetings as required |
|--|--|

How the Board complements the engagement

-
- By agreeing the strategy for the long-term capital requirements and the financing methods available

Actions and Decisions

-
- | | |
|--|---|
| <ul style="list-style-type: none"> • Continuing to manage ABP's debt portfolio in line with the Board agreed strategy | <ul style="list-style-type: none"> • New long-term debt issued. In 2025 ABP Finance plc issued an updated prospectus on the London Stock Exchange and issued £550m of new public bonds. The group also raised £51.8m in new private placement debt and £100m in new term loans |
|--|---|

Strategic report (continued)

6. Principal and Strategic Decisions

Outlined below are examples of principal and strategic decisions which have been taken by the Board during the year and how they have had regard to the interests of stakeholders

6.1 Customer Investment

Stakeholders, Issues and Factors Considered Customers, Infrastructure Investment, UK Government, Local Communities

Throughout the year, the Board has considered and approved several capital expenditure projects which support customers across the regions. Examples include

- approval of increased expenditure to build the Immingham Eastern Ro-Ro Terminal to support Stena Line's requirement for a river terminal for its ferries,
- approval of expenditure to develop land in Grimsby to store additional Volkswagen (VW) cars and support VW growth,
- approval of expenditure to support Tata Steel UK's import of coil and slab through the Ports of Newport and Cardiff, and
- approval of funding to begin the next phase exploring the potential expansion of the Port of Southampton

In making the decisions to proceed with these projects, the Board received management proposals following negotiations with the customer, internal assessments and financial modelling and considered other key factors, including benefits for the community and the local economy from increased activities within the region

6.2 Sustainability Strategy Projects

Stakeholders, Issues and Factors Considered Environment, UK Government, Customers, Local Communities, Business Reputation

ABP is committed to supporting progress towards the UK's legal commitment to net zero greenhouse gas emissions ("GHG") by 2050 and has set itself the target of reaching net zero GHG emissions by 2040. ABP continues to invest in assets, facilities and ways of working that will reduce its carbon footprint and improve the environments in which it operates. ABP believes it is important to support its customers in building more sustainable supply chains, encouraging more freight movement by rail and water and supporting the increasing use of renewable energy. Throughout 2025, the Board has considered and approved projects which support this sustainability strategy. One such example was the approval of an agreement for lease with BW ESS Development UK Limited (BW ESS) and investment to allow BW ESS to develop a Front of Meter Battery Energy Storage System (BESS) on Marchwood Industrial Park at the Port of Southampton. Considerations for the Board, when approving this investment, included the opportunity to support improvement to grid efficiencies and the energy transition.

Strategic report (continued)

7. Outlook

ABP's ports continue operating with minimal disruption to serve our customers due to the resilience and hard work of all our frontline and marine colleagues

The company's strong financial performance has continued in 2025. Driven by steady revenue growth across break bulks, agri-bulks, RoRo and container sectors, reflecting increased activity and benefiting from contract price escalation linked to inflation. This is offset by the performance in the automotive sector with lower vehicle volumes passing through our ports. Higher revenues, along with the company's disciplined cost management, have resulted in strong year-on-year EBITDA growth.

ABP's latest business plan forecasts continued strong growth in the financial performance from 2026 to 2030. This growth is to be achieved through commercial strategy, strong cost management and investment in new facilities. The company's diverse customer and service base, along with the strong financial position, provides the resilience to macroeconomic challenges.

ABP plans to deliver on its investment programme to progress the company's strategic objectives with a particular focus on growth areas that support the UK's clean energy transition. The investments not only benefit the UK's plans for a low-carbon economy but will provide significant growth and benefits to local regions including the provision of jobs for supply chains and local businesses. Supported by a refreshed strategy and to reflect the changing environment, in addition to 'Keeping Britain Trading', ABP has added 'Enabling the Energy Transition' to newly create twin missions.

Key investments continue to progress into 2026 and beyond including notably

Immingham Eastern RoRo Terminal ("IERRT") – a £200m investment in a new Ro-Ro terminal that will allow for quicker sailing times and larger vessels to cater for increased freight demand from exporters and importers from across the UK.

Helm Immingham – is a 227-acre industrial, logistics, and automotive scheme located in Stallingborough. Phase 1, which started on site January 2026, will comprise eight brand new industrial and warehouse units ranging in size from 6,076-30,090 sq ft with anticipated completion in Q3 2026.

ABP also plans to continue making significant investment in existing infrastructure, equipment and people to ensure our ports are well placed to provide reliable and efficient customer service and deliver on our twin missions.

Management recognises the potential for impact on the company's activities of the recent military action in the Middle East that commenced on 28 February 2026. The trade and financial impacts remain uncertain, and management will continue to be monitoring developments closely over the coming period and ensure that it responds effectively as the situation evolves.

By Order of the Board

M S Atwal
Director
31 March 2026

Directors' report

The directors present their report and the audited company financial statements for the year ended 31 December 2025.

1. Principal office

The company is domiciled in England and its principal office is 25 Bedford Street, London, WC2E 9ES

2. Dividends

No dividends were paid during the year (2024 £80m). The directors do not recommend the payment of a final dividend (2024 £nil).

3. Directors

The directors of the company during the year and up to the date of these accounts were as follows:

Director	Role
Atwal, MS	Chief Financial Officer
Bristowe, P	Chief of Staff
Dawes, A	Regional Director, Humber
Pedersen, HL	Chief Executive Officer
Paonessa, FA	Capital Projects Director
Rumsey, AJ	Chief HR Officer (resigned 30 April 2025)
Walker, JW	Chief Commercial Officer & Regional Director, Wales & Short Sea Ports
Welch, AJM	Regional Director, Southampton

4. Directors' indemnities

ABP (Jersey) Limited, the company's ultimate parent undertaking, maintains directors' and officers' liability insurance and pension fund trustees' liability insurance which give appropriate cover for any legal action brought against the directors and officers of the company

Qualifying third party indemnity provisions (as defined by s 234 of the Companies Act 2006) for the benefit of directors and officers were in force for all directors and officers during the year and remain in force in relation to certain losses and liabilities which directors and officers may incur (or have incurred) in connection with their duties, powers or office

5. Human resources policies

ABP's personnel resources strategy includes commitments to the highest possible standards of health and safety, equal opportunities, employee development, clear and fair terms of employment, access to information, provision of market-competitive salaries, incentive schemes and benefits, as well as the maintenance of effective relationships with unions and contractors. Details of how ABP engages with employees are provided in the Employees section of the Section 172 Statement in section 5.1 of the strategic report. The group of companies owned by ABP (Jersey) Limited ("the group") monitors a range of indicators to assist it with the management of its employees.

5. Human resources policies (continued)

The group monitors the gender and ethnic diversity of all employees and is committed to ensuring that all segments of its communities have the opportunity to participate in and contribute towards the success of its business. The group is also committed to giving full and fair consideration to applicants for employment who are disabled and to provide disabled employees with opportunities for training, career development and promotion. If an employee becomes disabled during their employment every effort is made to ensure that, wherever possible, the person can either continue in their present role or a different role by arranging appropriate training and making reasonable adjustments.

6. Corporate Governance Statement

In line with the requirements of the Companies (Miscellaneous Reporting) Regulations 2018, Associated British Ports (“ABP”) has adopted the Wates Corporate Governance Principles for Large Private Companies (“Wates Principles”) as its corporate governance code. The company is the principal operating subsidiary within the group headed up by ABP (Jersey) Limited and adheres to a group-wide corporate governance framework which follows best practice and is considered suitable for its ownership, size, structure, and complexity of operations.

Details of how the company has applied the Wates Principles throughout the year are outlined below. Further information on the wider governance framework can be found in the annual report and financial statements of ABPA Holdings Limited.

6.1 Principle One – Purpose and Leadership

The group’s ports are an integral part of supply chains within multiple sectors of the UK economy and the Board has set a well developed and defined purpose for the group to serve our customers and our communities in pursuit of the ambitious missions of “Keeping Britain Trading” and “Enabling the Energy Transition”. ABP’s purpose and twin missions are underpinned by our strong commitment to providing a safe and healthy environment for our people and port users. Our core health and safety values are embodied in our Beyond Zero vision and behaviours and are further supported by a culture of continuous safety improvement and learning.

The group proactively works to identify and control hazards and reduce health and safety risks through the reporting of incidents, near misses and safety observations on the Group’s Spot-It system. Safety conversations are both encouraged and recorded, providing further opportunity to identify health and safety trends and opportunities for improvements. Both Spot-Its and safety conversations are also used to recognise positive safety behaviours and good practice. During the year, new health and safety initiatives were introduced, including the launch of the 9 Life Saving Rules and introduction of the Serious Injury Fatality potential (SIFp) metric, giving a renewed focus on learning lessons from safety events to prevent future incidents. Health and safety performance is regularly reported to and reviewed by the Board and Executive team and communicated to the business through CEO and regional briefings.

Directors have regular dialogue with, and receive feedback from, the group’s shareholders whose representatives sit on the Board of Associated British Ports Holdings Limited (“ABPH”), the company’s immediate parent undertaking.

6. Corporate Governance Statement (continued)

6.2 Principle Two – Board Composition

The Board of ABP comprises members of the group's Executive Team, the Chief Executive Officer ("CEO"); Chief Financial Officer ("CFO"), three Regional Directors, and directors of key functions (listed in section 3). The size and composition of the Board is considered to be appropriate given the nature of the company and its position within the group. Appointments to the Board of ABP are made by the Board of ABPH, on the recommendation of the group's Remuneration and Nomination Committee ("RemCo").

During the year no new directors were appointed to the Board.

The Board benefits from directors who have a broad range of skills, backgrounds and knowledge. Their experience of the ports industry, in addition to other sectors and industries, allows them to add a valuable contribution.

ABP recognises the benefits of diversity on the Board and throughout the organisation and has continued to support efforts to increase diversity across the Maritime Industry, remaining a signatory of the Women in Maritime and Mental Health in Maritime pledges as well as being a Diversity in Maritime Charter organisation.

Board meetings are chaired by the CEO and provide an open and constructive forum for directors to be kept up to date on developments across all business areas, provide oversight of operational matters and make informed decisions. Directors have agreed those matters which are reserved for the Board's consideration and an annual governance calendar is used to support the setting of the Board's agenda, ensuring relevant matters are considered at appropriate times throughout the year. During the year, two Board meetings were held at different ports, so directors have the opportunity to visit locations and meet local staff and customers.

On appointment, directors receive a thorough induction programme which includes port visits, meetings with key members of management and the group's shareholder representatives. In addition, directors all receive training on their duties and other key legislation/regulation, as required.

6.3 Principle Three – Directors' Responsibilities

Each director has a clear understanding of their accountability and responsibilities. The Board receives accurate, comprehensive and timely information on the company's business and financial performance to enable appropriate monitoring and effective oversight of key matters. The group's finance function is staffed by appropriately qualified individuals who ensure the integrity of financial information provided to the Board. The group is externally audited by PricewaterhouseCoopers LLP ("PwC"), with internal audit services provided by appropriate internal and external specialists to assess financial and other internal controls and health and safety processes.

6. Corporate Governance Statement (continued)

6.3 Principle Three – Directors’ Responsibilities (continued)

As noted above, there is a schedule of matters reserved specifically for the Board, although where appropriate, some decisions are delegated to, or led by, those directors with the most relevant knowledge and industry experience. This schedule of matters reserved was updated during the year to increase approval thresholds reflecting the larger revenue base, market cost inflation and the overall increase in the size of the business, allowing the Board more time to focus on strategic matters. In addition, certain material matters are required under a shareholders’ agreement to also be approved by the Board of ABPH and, in some cases, the group’s shareholders. The Company Secretary maintains an annual calendar to ensure that matters, including strategy, business planning, operational deep dives, treasury, risk and governance are considered by the Board at appropriate times in the business cycle. Papers for Board meetings are circulated a week in advance to ensure sufficient time for directors’ review and consideration.

The Board has at least four formal scheduled meetings each year, with ad hoc meetings held as necessary, to ensure matters are considered and progressed in a timely manner. In addition, the company is the Statutory Harbour Authority (“SHA”) for 22 ports and harbours, including the Humber Estuary. The Board meets separately, at least four times a year, as the Harbour Authority and Safety Board (“HASB”) to exercise certain duties as the SHA. The HASB has its own remit in relation to its powers and duties as a SHA and in respect of health and safety matters. Papers for Board and HASB meetings are usually circulated a week in advance of a scheduled meeting to ensure sufficient time for directors’ review and consideration.

On an annual basis, each director is required to declare any potential conflicts of interest, and at each Board meeting directors are prompted to raise any conflicts of interest they have in any matters that are to be discussed. If conflicts of interest are raised, appropriate safeguards are put in place.

6. Corporate Governance Statement (continued)

6.4 Principle Four – Opportunity and Risk

The Board is committed to the long-term sustainable growth of the company and to seeking opportunities whilst ensuring effective oversight and mitigation of risk. Longer term and strategic initiatives to create value are identified through the strategic review, annual five-year planning exercises and the Port Master Planning process. This also enables the business to determine the level of long-term infrastructure investment that may be required to secure and achieve growth. Other opportunities may also be identified through regular business updates, discussions with customers and potential customers, and day to day activities.

The Board recognises the importance of effective risk management to preserve value. Risks are managed in accordance with the group risk management policy and within the group's risk appetite, both of which are approved by the Board of ABPH, on the recommendation of the group's Audit and Risk Committee. The risk management policy, risk appetite thresholds and longer-term emerging risks are kept under review and updated, as appropriate, at least annually. ABP has a Fraud Risk Management Framework which is regularly reviewed. As part of this, the Fraud Policy was revised to reflect the new "failure to prevent fraud" offence introduced by the Economic Crime and Corporate Transparency Act 2023 and additional mandatory training offered.

Processes are in place to ensure that inherent and emerging risks are identified in a timely manner and are then appropriately managed. The group maintains risk registers covering key operational and strategic risks and regular reports are provided to the Board, as part of their oversight of risk management and controls. Proposals for Board approval are always required to detail risk considerations and mitigation. Further information on the company's principal risks can be found in section 3 of the Strategic Report.

6.5 Principle Five – Remuneration

ABP is committed to executive remuneration structures which are aligned to the company's culture and values and promote the long-term sustainable success of the business and the interests of the company's shareholder. The company's policy is to provide appropriate and fair levels of remuneration and incentives at a level which attracts and retains high-quality directors, senior management and employees.

The remuneration of the CEO, CFO and other ABP directors is determined by the Board of ABPH, on the recommendation of the RemCo. The RemCo comprises entirely Non-Executive Directors of ABPH and no director of ABP is present during discussion of their own remuneration. In line with its terms of reference, the RemCo seeks to provide responsible incentives that encourage enhanced performance and reward individual contributions to the long-term strategic goals of the company. When considering the remuneration of the ABP Board, including annual salary increases, the RemCo takes into account the pay and conditions of employees across the wider ABP group.

The Board annually publishes on its website ABP's Gender Pay Gap Report, which details the progress made to reduce the pay gap between men and women.

6. Corporate Governance Statement (continued)

6.6 Principle Six – Stakeholder Relationships and Engagement

The Board recognises the impact its decisions can have on its internal and external stakeholders and understands the importance of engagement with stakeholders to achieving its long-term strategy. Further information on the company's stakeholders and engagement methods can be found in section 5 of the Strategic Report.

7. Future outlook

The directors do not foresee any material changes in the principal activities of the company.

8. Auditors' appointment

The auditors, PricewaterhouseCoopers LLP, were appointed by Associated British Ports Holdings Limited, the company's Holding Company, in accordance with s 10(1) of Schedule 2 of the Transport Act 1981 and, having indicated its willingness to continue in office, PricewaterhouseCoopers LLP will continue as auditor to the company.

9. Going concern

The directors confirm that, in their opinion, the company has sufficient financial resources and facilities available to continue to trade for the foreseeable future and at least 12 months from the date of approval of these financial statements. ABP (Jersey) Limited ("ABPJ"), the company's ultimate parent undertaking, has confirmed that it will continue to support the company to enable it to meet its liabilities as they fall due for at least 12 months from the date of these financial statements. Accordingly, the directors continue to adopt the going concern basis in preparing the Annual Report and Financial Statements. For further details see note 1 of the financial statements.

10. Matters disclosed in the strategic report

The directors consider the following matters of strategic importance and have chosen to disclose these in the strategic report:

- Financial risk management objectives and policies and details of the company's exposure to liquidity, interest rate, foreign exchange, credit and capital risk and other risk disclosures, and
- Employee involvement and engagement and how the directors have had regard to employee interests, the need to foster business relationships with stakeholders and the impact on the environment, including on principal and strategic decisions; and
- Carbon emission and energy use reporting, including intensity metrics and steps taken to increase energy efficiency.

By Order of the Board

A M Morgan
Secretary

31 March 2026

Company Number ZC000195

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual Report and Financial Statements in accordance with applicable law and regulation

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with UK-adopted international accounting standards ("IAS").

Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- state whether applicable UK-adopted international accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- make judgements and accounting estimates that are reasonable and prudent, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions, to disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006

The directors are responsible for the maintenance and integrity of the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions

Directors' confirmations

In the case of each director in office at the date the directors' report is approved

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware, and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information

By Order of the Board

A M Morgan
Secretary
31 March 2026

Independent auditors' report to the members of Associated British Ports

Report on the audit of the financial statements

Opinion

In our opinion, Associated British Ports' financial statements

- give a true and fair view of the state of the company's affairs as at 31 December 2025 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with UK-adopted international accounting standards, and
- have been prepared in accordance with the requirements of the Companies Act 2006

We have audited the financial statements, included within the Annual Report and Financial Statements (the "Annual Report"), which comprise

- the Balance sheet as at 31 December 2025,
- the Income statement for the year then ended,
- the Statement of comprehensive income for the year then ended,
- the Statement of cash flows for the year then ended,
- the Statement of changes in equity for the year then ended, and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to other entities of public interest, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided.

Other than those disclosed in note 4, we have provided no non-audit services to the company in the period under audit.

Independent auditors' report to the members of Associated British Ports (continued)

Conclusions relating to going concern

Our evaluation of the directors' assessment of the company's ability to continue to adopt the going concern basis of accounting included

- obtaining management's latest going concern paper and forecasts that support the Board's assessment and conclusions with respect to the going concern basis of preparation of the financial statements for ABP (Jersey) Limited and its subsidiaries, including Associated British Ports (together the 'Group'),
- testing the mathematical accuracy of management's forecasts,
- reperforming the calculation of covenants attached to the Group's debt facilities both at the balance sheet date and at the measurement dates in the going concern period based on forecast performance, and considering available headroom to lock-up and default,
- considering the outturn of previous forecasts to assess management's forecasting accuracy,
- corroborating management's base case forecast to appropriate supporting documentation including board approved budgets, and
- evaluating management's base case forecast and downside scenarios, challenging the underlying data and adequacy and appropriateness of the assumptions used in making their assessment. We also evaluated the directors' plans for future actions in relation to their going concern assessment, should these be required

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information

Independent auditors' report to the members of Associated British Ports (continued)

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' report for the year ended 31 December 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Independent auditors' report to the members of Associated British Ports (continued)

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to UK health and safety and employment regulations, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as UK tax legislation and the Companies Act 2006. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to the posting of inappropriate journal entries and management bias in key accounting estimates to improve the reported performance for the period. Audit procedures performed by the engagement team included:

- Discussions with management, in house legal team and those charged with governance including consideration of known or suspected instances of non-compliance with laws and regulation and fraud,
- Understanding and evaluation of management's controls designed to prevent and detect irregularities,
- Review of board minutes throughout the year and post year end,
- Challenging assumptions and judgements made by management in their significant accounting estimates,
- Identifying and testing journal entries, in particular any journal entries posted with unusual account combinations. Specifically we tested journal entries which increased the result for the period with unusual offset entries, and we tested a risk based sample of journal entries impacting revenue with unusual offset entries to detect any potentially fraudulent revenue being recognised, and
- Reviewing financial statement disclosures and testing to supporting documentation to assess compliance with applicable laws and regulations

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Independent auditors' report to the members of Associated British Ports (continued)

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion

- we have not obtained all the information and explanations we require for our audit, or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us, or
- certain disclosures of directors' remuneration specified by law are not made, or
- the financial statements are not in agreement with the accounting records and returns

We have no exceptions to report arising from this responsibility

Notes to the financial statements

1. Accounting policies

1.1 Basis of preparation

The financial statements have been prepared on a going concern basis and on the historical cost basis, except for investment property and derivative financial instruments which have been measured at fair value.

The financial statements are presented in sterling and all values are rounded to the nearest tenth of a million (£m) except where otherwise indicated. Where current presentation has been changed to aid understanding of the financial statements the comparatives have been reclassified to follow the new presentation.

Statement of compliance

These financial statements have been prepared in accordance with UK adopted International Accounting Standards ("IAS") and with the requirements of the Companies Act 2006 as applicable to companies reporting under those standards.

Consolidation exemption

These separate financial statements contain information about Associated British Ports as an individual company and do not contain consolidated financial information as the parent of a group. The company has taken advantage of the exemption available under s400 of the Companies Act 2006, from the requirement to prepare and deliver consolidated financial statements, as the results of the group are included in the consolidated financial statements of its intermediate parent undertaking, ABPA Holdings Limited, which are available from 25 Bedford Street, London, WC2E 9ES.

Under the Transport Act 1981, Associated British Ports Holdings Limited, the company's immediate parent undertaking, has powers over Associated British Ports ("ABP") corresponding to the powers of a holding company over a wholly owned subsidiary undertaking.

Going concern basis

The directors confirm that, in their opinion, the company has sufficient financial resources and facilities available to continue to trade for the foreseeable future and until at least 12 months from the date of approval of these financial statements. Accordingly, they continue to adopt the going concern basis in preparing the Annual Report and Financial Statements.

The company's future viability is ultimately dependent upon the performance of the wider trading group owned by the company's intermediate parent undertaking, ABPA Holdings Limited ("ABPAH"), and group management's decisions on the flow of capital. ABP (Jersey) Limited ("ABPJ"), the company's ultimate parent undertaking, has confirmed that it will continue to support the company to enable it to meet its liabilities as they fall due until at least 12 months from the date of approval of these financial statements.

Notes to the financial statements

1. Accounting policies (continued)

1.1 Basis of preparation (continued)

In arriving at their decision, the Directors have considered:

- The group's latest business plan forecasts strong growth from 2026 to 2030, continuing the improvement in the group's financial position. This growth is to be achieved through commercial strategy, strong cost management and investment in new facilities. The plan was developed taking in consideration the impact of the current macroeconomic environment.
- Management modelled scenarios. These include a severe but plausible downside scenario, where volumes in key markets fall up to 30% which represents a market downturn and or loss of a major customer. This would result in the erosion of headroom against the leverage covenant within the going concern period. Should this occur, the group has the option of pursuing mitigating measures that are under its own control to cut costs and preserve cash. These include reductions in variable costs to match reduced activity, delaying or holding back its capital programme, reassessing amounts distributed to shareholders and, if the downside period persists, structurally reviewing costs for further savings.
- That debt maturities are spread over a range of dates, limiting the group's exposure to a material refinancing in any one year.
- The company's track record of its ability to refinance debt and generate cash flows and as at 31 December held cash and cash equivalents of £119.6m.
- During the going concern period the group is due to refinance £360m of public loan notes and private placement debt. The group has access to £400m of committed and undrawn borrowing facilities.
- The group has access to £227m of debt service reserve liquidity facilities to cover annual interest costs.

New standards and amendments adopted

No new standards or amendments have been adopted for the first time for the annual reporting period commencing 1 January 2025.

New standards, amendments and interpretations issued but not yet effective

The IASB has issued a number of standards and amendments. IFRIC has not issued any interpretations that are not yet effective.

- IFRS 7 and IFRS 9 on the classification and measurement of financial instruments, and the Annual Improvements volume 11 all have an effective date of implementation for accounting periods beginning on or after 1 January 2026. The impact of these new standards will be fully analysed during the period ending 31 December 2026. They are not expected to have a material impact on the financial statements of the company; and
- IFRS 18 on the presentation and disclosure in financial statements; and IFRS 19 subsidiaries without public accountability have an effective date of implementation for accounting periods beginning on or after 1 January 2027. IFRS 18 is not expected to have a material impact on the financial results of the company. IFRS 19 is not expected to have a material impact on the financial statements of the company.

The company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Notes to the financial statements

1. Accounting policies (continued)

1.2 Significant estimates, judgements and assumptions

The preparation of the financial statements requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amount, event or actions, actual results may ultimately differ from those estimates

Estimates

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below

- The fair value of investment property – this depends on inputs used in the valuation of investment property, the critical estimate is the yield. The yield input and its impact on the estimate are set out in note 10.
- Pension liabilities – those assumptions used in arriving at the defined benefit pension scheme assets and liabilities under IAS 19. The key assumptions and their possible impact are disclosed in note 14

Judgements

In the process of applying the company's accounting policies, management have made the following judgements which have the most significant effect on the amounts recognised in the financial statements

- Investment property – management makes judgements on whether an asset is classified as investment property using the criteria set out in the accounting policy in note 1.4
- Deferred taxation on investment property – assessing the expected realisation of the value of investment property through sale or use requires judgements to be made based on past experience and the current tax environment. Management have made a judgement that the non-land element of investment properties will be recovered through use

1.3 Climate impact on financial disclosures

The group's sustainability strategy is set out in the strategic report of ABPA Holdings Limited which is available from Companies House. As part of this strategy, where feasible, assets are intended to be replaced with more sustainable alternatives at the end of their existing useful lives.

During the ongoing development of our commercial strategy and business planning, management thoroughly considers the impacts of climate change. Our strategy includes implementing sustainable practices, investing in green technologies, and enhancing our infrastructure to withstand the risks posed by extreme weather events, principally flood risk. All major capital projects must consider these risks. Management believes our investment plans adequately provide for these risks.

The group's business plan contains financial forecasts that factor in the sustainability strategy and the impact of climate change on the financial statements, including as part of impairment reviews over assets.

Notes to the financial statements

1. Accounting policies (continued)

1.4 Material accounting policies

The directors consider the following to be the most important accounting policies in the context of the company's operations.

Revenue recognition

Revenue comprises the amounts receivable in respect of contracts with customers and rental income from investment properties.

Revenue from contracts with customers

Revenue from contracts with customers is recognised when the performance obligations under the contract have been satisfied. The allocation of the transaction price to the performance obligations depends on the type of service being provided.

- Call revenue is related directly to the visit of a vessel to the port and includes fees for pilotage, conservancy, environmental charges, dues for accessing the port, and mooring fees. Each service is a performance obligation and revenue is recognised once provision of the service is complete. All call related performance obligations are completed once a vessel has docked at the port.
- Traffic revenue is related to the volumes of cargo crossing the quay and primarily consists of consolidated rate charges covering multiple services including cargo dues, passenger dues, carriage and the loading and unloading of cargo from vessels. Each service is an individual performance obligation. Revenue is allocated to each service based on the estimated standalone selling price of that service, usually based on a tariff rate. Revenue is recognised once provision of the service is complete.
- Cargo operations revenue relates to the handling, processing and storage of cargo before or after it has been loaded to a vessel. Each process or service is a performance obligation and usually has an identifiable selling price. Revenue is recognised when the process or service is complete. Storage revenue is recognised over the period that the cargo is stored.
- Shortfall revenue relates to contracts with customers that have minimum volume guarantees which, if not achieved by the customer result in additional revenue to the company to cover the shortfall in volumes. These shortfall revenues, are assessed both over the life of the contract as well as each reporting period end, and subsequently recognised over the remaining term of the contract when it is highly probable a significant reversal will not occur.
- Fixed revenue does not vary with the number of vessel visits, volumes of cargo or any other measure of customer activity, and primarily consists of fixed payments to compensate the company for investments in capital infrastructure for specific customers. Fixed revenue is largely recognised over time, spread over the term of the underlying contract.
- Utilities revenue relates to the supply of electricity and other utilities to tenants. Revenue is recognised as utilities are supplied.
- Dredging revenue relates to dredging services both for specific customers at our own ports and by ABP's dredging operations working in non-ABP locations. Revenue is recognised when the dredging work is completed.

Notes to the financial statements

1. Accounting policies (continued)

1.4 Material accounting policies (continued)

Revenue recognition (continued)

Revenue from contracts with customers (continued)

- Other revenue consists of individual services provided to customers, primarily sales of environmental consultancy services and provision of marina facilities. Each service is a performance obligation and revenue is recognised at a point in time when the performance obligation is complete or, where appropriate, over time as the service is provided. Where revenue is recognised over time the transaction price is allocated based on the time spent on the performance obligation in the period of recognition against the time the performance obligation will take to complete.

If a customer pays consideration before the performance obligations under the contract are completed, a contract liability is recognised at the earlier of the date payment is made or is due. Contract liabilities are recognised as revenue when the performance obligations are complete.

Agent versus principal relationships

When a third party is involved in providing goods or services to the company's customers, management determines whether the company is a principal or an agent in these transactions by evaluating the nature of the promise to the customer. The company is a principal and records revenue on a gross basis if it controls the promised goods or services before transferring them to the customer. If the company's role is only to arrange for a third party to provide the goods or services, then the company is an agent and will record revenue at the net amount that it retains for its agency services.

Lease income from investment properties

Lease income from operating leases is recognised as lease income over the lease term on a straight-line basis. Variable lease income is recognised as lease income in the period in which it is earned.

Impairment of non-financial assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired.

The following criteria are also applied in assessing impairment of specific assets:

Intangible assets

Intangible assets with finite useful lives are reviewed for indications of impairment at least annually, either individually or at each cash-generating unit level, as appropriate. When circumstances indicate that the carrying value may be impaired, an impairment review is carried out.

Notes to the financial statements

1. Accounting policies (continued)

1.4 Material accounting policies (continued)

Investment property

Property (including land held for development and property held by the company as a right of use asset under a lease) is classified as investment property if:

- it is not occupied by the company or used by the company for the provision of operational port services that are material in nature (e.g. stevedoring),
- it is a defined area (land, buildings, jetties and other fixed structures) and one or more users pay an amount, whether rent or commercial revenue for use of that area for a period of one or more years; and
- any “ancillary services” provided by the company at the property are insignificant to the arrangements as a whole. Ancillary services are deemed to be significant when they take place within the property, the value of the services exceeds one quarter of the estimated rental value of the property and they are provided under a non-cancellable contract

All completed investment property is measured at fair value. Investment property in the course of construction is measured at cost (including borrowing costs and other appropriate net outgoings) until such time as it is possible to determine fair value, consistent with the criteria in measuring completed investment property, with the exception of underlying land, which is included at carrying value before construction commenced.

Valuations are conducted annually by qualified valuers employed by the group utilising external valuers when appropriate. Significant properties are valued as part of a rolling five year programme of valuations by independent, RICS qualified, external valuers. Surpluses or deficits arising on the revaluation of investment property are recognised in the income statement and then transferred from retained earnings to the revaluation reserve.

Transfers of property from property, plant and equipment to investment property are at carrying value. After transfer investment property is carried at fair value. Initial revaluation gains are recognised in other comprehensive income. Losses, to the extent that they reverse any revaluation gain previously recognised in the revaluation reserve, are recognised in other comprehensive income. All other losses are recognised in the income statement.

Transfers of investment properties to property, plant and equipment or land held for sale are made at fair value at the date of change in use or classification.

Unrealised increases in the fair value of investment property are recorded in the revaluation reserve. Decreases in the fair value of investment property are recognised in the revaluation reserve to the extent that they reverse increases previously recognised.

Notes to the financial statements

1. Accounting policies (continued)

1.4 Material accounting policies (continued)

Property, plant and equipment

Property, plant and equipment is measured at cost, subject to depreciation and impairment and includes assets held by the group as right of use assets under leases

Depreciation is provided on a straight-line basis spread over the expected useful lives of the various types of asset and having taken account of the estimated residual values. Estimated residual values are reviewed and updated annually.

Estimated useful lives extend up to a maximum of

- 50 years for buildings, dock structures, quays and dredging,
- 30 years for floating craft, and
- 30 years for plant and equipment

Freehold land is not depreciated

Retirement benefits

In respect of defined benefit plans, obligations are measured at their discounted present value using the projected unit credit method, while plan assets are recorded at fair value. The operating and financing costs of such defined benefit plans are recognised as staff costs in the income statement, operating costs are spread systematically over the expected service lives of employees and financing costs are recognised in the periods in which they arise. Actuarial gains and losses and the effect of the asset ceilings are recognised immediately in the statement of other comprehensive income. Curtailment gains and losses arising as a consequence of either significant amendments to the terms of defined benefit plans, or significant reductions in the number of employees covered by the plans, are recognised in the income statement when the curtailment occurs.

The net retirement benefit liability or asset recognised in the balance sheet represents the actual deficit or surplus in the company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

The company participates in a number of multi-employer defined benefit pension schemes. Where the company is able to determine its share of the assets and liabilities on a consistent and reliable basis it accounts for these schemes as defined benefit schemes, where it is unable, it accounts for these schemes as defined contribution schemes. Further information on these schemes is contained within note 14.

Payments to defined contribution schemes are charged as an expense as they fall due.

Notes to the financial statements

1. Accounting policies (continued)

1.4 Material accounting policies (continued)

Financial instruments

The company measures financial assets at amortised cost if both of the following conditions are met.

- The financial asset is held in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses (“ECLs”)

At each reporting date, the company performs an impairment analysis for all trade and other receivables to measure the allowance for ECLs. Movements in the provision for expected credit losses of receivables are recorded within administrative expenses.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost, using the effective interest method.

Borrowings are recognised initially at fair value, net of transaction costs (being incremental costs that are directly attributable to the inception of borrowings) incurred and are subsequently held at amortised cost. Any difference between the amount initially recognised and the redemption amount is recognised in the income statement over the period of the loan, using the effective interest method.

Derivative financial instruments utilised by the company comprise fuel swaps and caps and forward foreign exchange contracts. All derivative financial instruments are initially recorded in the balance sheet at fair value and are measured at fair value thereafter.

The company’s derivatives are not designated as hedges, therefore fair value gains and losses are taken to the income statement following the same classification as the underlying transaction.

Financial assets and financial liabilities are offset and the net amount is reported in the company balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis and to realise the assets and settle the liabilities simultaneously.

Provisions

Provisions are recognised when the company has an obligation in respect of a past event, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made of the amount. Provisions are discounted when the time value of money is considered material.

When some or all of a provision is to be reimbursed, principally insurance related, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the income statement net of any reimbursement.

Notes to the financial statements

1.4 Material accounting policies (continued)

Taxation

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Deferred tax is recognised in respect of temporary differences. Temporary differences are differences between the tax base value of assets and liabilities and their carrying amount as stated in the financial statements. These arise from differences between the valuation, recognition and amortisation bases used in tax computations compared with those used in the preparation of financial statements.

Deferred tax assets or liabilities are measured at the tax rates that are expected to apply in the periods in which the temporary differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available to facilitate the realisation of such assets.

1.5 Other accounting policies

Finance income

Interest income is calculated and recorded using the effective interest method. Interest income is included in finance income in the income statement and interest received within operating activities on the cash flow statement.

Finance costs

Finance costs consist of interest and other costs that the company incurs in connection with the borrowing of funds. Interest expense is calculated and recorded using the effective interest method. Finance costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective assets, including qualifying assets within investment properties measured at fair value. All other finance costs are expensed in the period in which they occur. Interest paid is recorded within operating activities on the cashflow statement.

Leases

Company as lessor

Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as lease income. Variable lease income is recognised as lease income in the period in which it is earned.

Notes to the financial statements

1. Accounting policies (continued)

1.5 Other accounting policies (continued)

Leases (continued)

Company as lessee

Lease liabilities are recognised at the commencement date of the lease. Lease liabilities are measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The present value of the lease payments are calculated using the company's incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable.

After the commencement date, finance expense is recognised over the lease term to reflect the accretion of interest and this increases the amount of lease liabilities. The lease liabilities are reduced by the capital and interest payments made.

The company's lease liabilities are included in borrowings (note 15)

Variable lease payments are recognised as expenses in the period in which they fall due

The company applies the short term lease recognition exemption to its leases with a lease term of 12 months or less and also applies the lease of low value assets recognition exemption to leases that are considered of low value. Lease payments on short term leases and leases of low value assets are recognised as expenses on a straight-line basis over the lease term.

Right of use assets are recognised at the commencement date of the lease, which is the date the underlying asset is available to use. Right of use assets are initially measured at cost. The cost of the right of use assets includes the amount of lease liabilities recognised, initial direct costs incurred and lease payments made at or before the commencement date less any lease incentives received.

Right of use operating assets are subsequently measured at cost less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The recognised right of use operating assets are depreciated on a straight-line basis over the shorter of their estimated useful lives and the lease term. Right of use operating assets are included within property, plant and equipment and are subject to impairment.

Right of use assets that meet the definition of investment property are classified as investment property and subsequently measured at fair value.

Intangible assets

Purchased intangible assets are recognised at fair value on the date of acquisition if they relate to a business combination or otherwise are recognised at cost.

Amortisation is provided on a straight-line basis spread over the expected useful lives of the various types of asset and having taken account of the estimated residual values. Estimated residual values are reviewed and updated annually.

Notes to the financial statements

1. Accounting policies (continued)

1.5 Other accounting policies (continued)

Intangible assets (continued)

Estimated useful lives extend up to a maximum of.

- 30 years for customer relationships,
- 15 years for software, and
- 30 years for other intangible assets.

Software as a service is recognised in operating costs unless it meets the criteria for capitalisation under IAS 38

Development costs incurred on internal projects are only capitalised when the project has been demonstrated to be viable i.e. technically feasible and expected to generate economic benefits

Investments in subsidiaries

Investments in subsidiaries are stated at cost. The company assesses at each reporting date whether there is any indication that the investment may be impaired.

Cash and cash equivalents

The company defines cash and cash equivalents as short-term highly liquid investments readily convertible into known amounts of cash. They are normally represented by bank deposits with an original maturity of less than three months and without significant penalties on early access/redemption that are repayable on demand.

Government grants

Government grants relating to assets, for example amounts in respect of major infrastructure projects, are recognised in the Income Statement on a systematic and rational basis over the expected useful life of the asset to which the grant relates. Grants received, but not immediately recognised in the Income Statement, are included in deferred income in the Balance Sheet. Cash received relating to grants for assets is shown in the cashflow statement under investing activities.

Foreign currencies

Transactions in currencies, other than an entities' functional currency, are recognised at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at that date. Exchange differences are recognised in the profit and loss in the period in which they arise.

Dividends

Dividends are recognised in the period when they become a binding obligation on the paying company.

Notes to the financial statements

1. Accounting policies (continued)

1.5 Other accounting policies (continued)

Inventories

Inventories are valued at the lower of cost and net realisable value. Cost comprises direct materials and other direct costs and is determined on the first-in, first out ("FIFO") basis. Net realisable value is calculated on an item-by-item basis but, if this is impracticable, groups of similar items are valued together.

The carrying value of inventories is subject to regular review and obsolete or devalued items are written off or written down in value, respectively. An appropriate inventory obsolescence provision is recognised against the risk of obsolescence and inventory loss.

Segmental Reporting

The company's principal activity is that of the ownership, operation and development of port facilities and the provision of related services in the UK. The company is required to determine and present its operating segments based on the way in which financial information is organised and reported to the chief operating decision-maker ("CODM"). The CODM has been identified as the Board of Directors, as this makes the key operating decisions of the Group and is responsible for allocating resources and assessing performance.

Key internal reports received by the CODM, primarily the management accounts, focus on the performance of the company as a whole. The operations of all elements of the business are driven by the activity at the ports and hence have fundamentally the same economic characteristics. All operational decisions made are focused on the performance and growth of the port operations and the ability of the business to meet the demands of its customers.

The company has considered the overriding core principles of IFRS 8 'Operating segments' as well as its internal reporting framework, management and operating structure. The Directors' conclusion is that the company has one operating segment, that of ports and transport.

Notes to the financial statements

2. Revenue

The disaggregation of the company's revenue by type of services is set out below

	2025 £m	2024 £m
Call	128.2	120.9
Traffic	298.3	282.2
Cargo operations	47.9	49.0
Shortfall	21.8	27.2
Utilities	33.0	32.7
Dredging	11.5	12.5
Fixed	28.4	25.6
Other	36.6	30.2
Total revenue from contracts with customers	605.7	580.3
Lease income from investment properties	186.8	176.3
Revenue	792.5	756.6

The timing of revenue recognition often differs from contract payment schedules, resulting in revenue that has been earned but not billed. These amounts are included in accrued income. Amounts billed in advance but not yet earned are recorded and presented as part of deferred income. Invoiced revenue should be received in accordance with the terms agreed within the revenue contract typically within 60 days. Contracts do not contain significant financing components. Included in revenue from contracts with customers is £86.7m (2024: £86.5m) recognised over time.

Revenue from contracts with customers

The transaction price allocated to performance obligations that are unsatisfied or partially satisfied as at 31 December is as follows:

	2025 £m	2024 £m
Not later than one year	0.5	0.4
Total	0.5	0.4

Notes to the financial statements**3. Operating profit**

Operating profit is stated after charging/(crediting)

	2025 £m	2024 £m
Depreciation included in cost of sales	102.9	95.8
Depreciation included in administrative expenses	6.2	5.6
Amortisation included in cost of sales	0.2	0.2
Amortisation included in administrative expenses	11.8	12.1
Loss/(profit) on disposal of property, plant and equipment, investment property, property and land held for sale and right of use assets	1.8	(0.2)
Expenses relating to short term leases	0.2	2.3
Repairs and maintenance expenditure on investment property and property, plant and equipment	28.6	24.7
Third party labour and sub-contractor haulage	40.9	37.9
Utilities and fuel	41.5	44.9
Net (decrease)/increase of the provision for expected credit losses of trade and other receivables	(0.4)	2.2

4. Audit fees

Remuneration received by PricewaterhouseCoopers LLP is detailed below

	2025 £000	2024 £000
Fees payable to the company's auditors for the audit of the company's annual accounts	656	465
Fees payable to the company's auditors in respect of		
Audit of the prior year financial statements of the company and other group companies	380	-
Other audit related services	23	22

Notes to the financial statements

5. Directors and employees

Staff costs are analysed as follows

	2025 £m	2024* £m
Wages and salaries*	135.3	136.7
Social security costs	18.9	16.8
Pension costs (note 14)*	15.9	15.0
Total staff costs	170.1	168.5

*The company's main pension scheme The Legal & General Worksave Mastertrust is offered as a salary sacrifice. Employees contractually agree to a lower salary in exchange for an equivalent increase in employer contributions into the pension. The comparator in the table above has been reclassified to reflect the pension cost borne by the company.

The monthly average number of people employed during the year is analysed by departmental group as follows

	2025	2024
Operations and Marine	1,419	1,435
Engineering	373	316
Administrative functions	523	602
Total average headcount	2,315	2,353

Directors' emoluments are analysed as follows

	2025 £m	2024 £m
Short-term employee benefit	4.8	6.1
Amounts due for long-term incentive plan	-	29.8
Post-employment benefit	0.4	0.4
Other long-term benefits	0.1	-
Total directors' emoluments	5.3	36.3

Emoluments comprise amounts paid to the directors of the company by the company for their services to the company and its subsidiaries to which they are also directors. Two (2024: three) of the directors are paid by the immediate parent undertaking.

Key management compensation is analysed as follows

	2025 £m	2024 £m
Short-term employee benefit	4.8	6.1
Amounts due for long-term incentive plan	-	29.8
Post-employment benefit	0.4	0.4
Other long-term benefits	0.1	-
Total key management compensation	5.3	36.3

Key management comprises the directors of the company including two (2024: three) directors who were also directors of the immediate parent undertaking.

Notes to the financial statements**5. Directors and employees (continued)**

Eight (2024: twelve) directors of the company were eligible to join the Legal & General Workplace Mastertrust Pension Plan. At 31 December 2025, four (2024: six) directors are members of the Legal & General Workplace Mastertrust Pension Plan and eight (2024: eleven) directors received an allowance for contributions towards pension schemes unconnected with the group.

	2025 £m	2024 £m
Highest paid director		
Short-term employee benefit	1.9	1.8
Amounts due for long-term incentive plan	-	7.0
Post-employment benefit	0.1	0.1
Total emolument of highest paid director	2.0	8.9

6. Finance costs/(income)

	2025 £m	2024 £m
Interest on amounts due from parent undertaking	59.8	60.4
Interest on lease liabilities	0.5	0.4
Interest on amounts due to subsidiary undertaking	0.1	-
Interest charge on net defined benefit liability (note 14)	-	0.4
Other finance costs	0.5	0.4
Less interest capitalised on non-current assets under construction	(4.6)	(5.7)
Finance costs	56.3	55.9
Dividend income	-	(4.3)
Other finance income	(2.1)	(2.9)
Interest income on net defined benefit asset (note 14)	(0.5)	-
Finance income	(2.6)	(7.2)
Net finance costs	53.7	48.7

7. Taxation charge

The taxation charge for the year is analysed as follows:

	2025 £m	2024 £m
Current year tax	72.1	65.9
Adjustments in respect of prior years	(8.9)	0.2
Current tax	63.2	66.1
Current year deferred tax (note 20)	60.7	57.3
Rate change adjustments	-	(0.1)
Prior year adjustments	11.6	11.5
Deferred tax (note 20)	72.3	68.7
Total tax charge for the year	135.5	134.8

The deferred tax charge (2024: charge) results from the fair value movements on investment property, pensions and movements resulting from qualifying additions to capital allowances pools.

Notes to the financial statements

7. Taxation charge (continued)

Tax on items credited/(charged) to other comprehensive income is analysed as follows:

	2025 £m	2024 £m
Deferred tax associated with actuarial (loss)/gain relating to net retirement benefit assets	1.6	(1.9)
Deferred tax on revaluation of investment property	(1.4)	7.6

The taxation charge (2024: charge) for the year is higher (2024: higher) than the standard rate of taxation in the UK of 25.0% (2024: 25.0%). The differences are explained below:

	2025 £m	2024 £m
Profit before taxation	528.8	499.3
Profit before taxation multiplied by standard rate of corporation tax in the UK of 25.0% (2024: 25.0%)	132.2	124.8
Effects of:		
Related party interest not deductible for tax	(1.5)	(1.6)
Depreciation - Non qualifying assets	2.8	0.7
Other non-qualifying net income	(0.7)	(0.7)
Rate change adjustments to deferred tax	-	(0.1)
Tax in respect of prior years	2.7	11.7
Total tax charge for the year	135.5	134.8

Tax in respect of prior years relates predominantly to revised allocation of capital expenditure in the filed corporation tax returns.

The company is within the scope of the OECD Pillar Two model rules. Pillar Two legislation has been enacted in the UK. Under the legislation, the company is liable to pay a top-up tax in the UK for the difference between the GloBE effective tax rate for each jurisdiction and the 15% minimum rate.

The company is required to file a Pillar II return by 30 June 2026 for the 2024 calendar year but does not expect to be subject to the top-up tax.

Notes to the financial statements**9. Property, plant and equipment (continued)****Right of use assets (continued)**

The company as the lessee leases various operational land, buildings and plant and equipment under non-cancellable lease agreements. The lease terms vary and range from 1 to 999 years for operational land, 10 to 22 years for buildings and 1 to 16 years for plant and equipment. These leases have various escalation clauses and renewal rights and there are no financial restrictions placed upon the lessee by entering into these leases.

10. Investment property

	Port-related investment properties £m	Other investment properties £m	Land at ports held for development £m	Total £m

At 31 December	2,531.1	359.7	133.6	3,024.4

Notes to the financial statements

10. Investment property (continued)

During the year £11.8m (2024. £15.3m) was credited directly to the revaluation reserve reflecting the increase to fair value of the properties transferred from property, plant and equipment to investment property (previously recorded at cost). An increase of £239.8m (2024. £233.4m) in the fair value of investment properties was recognised directly in the income statement.

There are no restrictions on the realisability of investment property or the remittance of income and proceeds of disposals.

The amount of borrowing costs capitalised within investment property during the year ended 31 December 2025 was £3.1m (2024. £3.2m). The weighted average rate used to determine the amount of borrowing costs eligible for capitalisation was 6.5% (2024. 6.6%).

Port-related investment properties, are those that are occupied (or available for occupation), by tenants whose business in some way generates ships' dues, conservancy, wharfage or any other port-related type of income for the group.

Other investment properties are those identified as not being port-related, and are all tenanted (or available to be tenanted). This category includes areas of bare land which local management is marketing in its existing state to obtain non-port related tenancies and anticipate letting within one year.

Basis of valuation

Investment properties fair value has been estimated on the basis of market value in accordance with the Appraisal and Valuation Standards issued by The Royal Institution of Chartered Surveyors ("RICS"), which is consistent with fair value as defined by IFRS 13. Investment property valuations are conducted annually by the group's internal valuation team, utilising external valuers when appropriate. The group's internal valuation team comprises regionally based Chartered Surveyors, including RICS Registered Valuers. Significant properties are valued as part of a rolling five year programme of valuations by independent, RICS qualified, external valuers.

The investment property valuations are reviewed by the regional and group finance teams and discussions are held with the internal valuation team to determine whether changes in the valuation from the prior year are reasonable. Discussions are then held with the Chief Financial Officer before presenting the results to the group's independent auditors.

The highest and best use for all investment property is considered by management to be the current use. Where a property is in the process of being developed its future intended use is considered to be its highest and best use.

The valuation of investment property has been categorised as a Level 3 fair value measurement under IFRS 13, being a recurring fair value measurement using significant unobservable inputs.

The valuations adopt conventional investment valuation methodology by assessing the income from the investment assets and then capitalising against an investment yield. Income from investment assets typically falls into two parts, a core rental for the asset or other income, in some cases both. The other income is derived, for example, by reference to the volume of goods or equivalent brought across the dock. The valuations also take into account the wider port operating costs by an adjustment to the yield. Deductions have been made to reflect stamp duty and the other costs that would be incurred by a purchaser of the asset, namely legal and surveyors' fees.

Notes to the financial statements**10. Investment property (continued)****Significant inputs, including estimates and judgments*****Estimated Rental Value (“ERV”) – Core rental***

The ERV for the core rental income stream is the valuer’s professional opinion as to the open market rent which, on the date of valuation, could reasonably be expected to be obtained on a new letting or rent review of a property. The valuers will refer to historic data, comparable properties and their knowledge of the relevant specialist sector to assess the likely ERV for vacant properties and future reversion

Estimated Rental Value (“ERV”) – Other income

Other income from investment assets are either entirely variable or subject to a minimum guaranteed amount with the excess being variable. In order to assess the likely sustainable variable income stream the valuers refer to historic and projected data and their knowledge of the relevant specialist sector

Yields

Yields are set reflecting the investment assets specific prospects and associated risks. The valuers consider the prevailing market yields and adjust for the nature of the assets, the potential variability or sustainability of income and the impact of the wider port operating costs.

Purchasing costs

Costs that are assumed to be incurred by a purchaser are 1.7% of the gross valuation plus Stamp Duty Land Tax at the relevant rate.

Sensitivity

Yields are the most significant of the unobservable inputs used in the fair value measurement of the company’s principal investment properties. The table below summarises the inputs used.

	Port-related investment properties	Other investment properties	Total
2025			
Yield – average %	9.6	8.9	9.4
Yield – range %	5.5 – 17.0	4.5 – 16.0	4.5 – 17.0
	Port-related investment properties	Other investment properties	Total
2024			
Yield – average %	11.2	11.9	11.4
Yield – range %	5.0 – 25.0	5.0 – 17.5	5.0 – 25.0

A decrease in the average yield of 0.5% would result in an increase in the aggregate valuation of £185.3m (2024: £138.8m) and an increase in the average yield of 0.5% would result in a decrease in the aggregate valuation of £166.6m (2024: £127.1m)

Notes to the financial statements**10. Investment property (continued)****Lease income**

Lease income, excluding other income, generated from the company's investment property portfolio amounted to £186.8m (2024: £176.3m) and related operating expenses amounted to £2.0m (2024: £2.0m). Direct operating expenses relating to vacant property are considered to be immaterial.

11. Investments in subsidiaries

Investments in subsidiaries	£m
At 31 December 2024	54.6
At 31 December 2025	54.6

A list of the company's subsidiary undertakings is set out in note 26

The company has direct investments in all its subsidiaries with the exception of W.E.D. Services Limited which is owned indirectly through W.E. Dowds (Shipping) Limited. Following an assessment of the financial position and performance of the company's investments no impairment triggers were identified as at the balance sheet date (2024: no triggers).

12. Trade and other receivables

Trade and other receivables are analysed as follows.

	2025 £m	2024 £m
Non-current		
Accrued income	0.2	0.1
Other receivables	0.1	0.1
Total non-current trade and other receivables	0.3	0.2
Current		
Gross trade receivables	129.1	90.0
Amounts due from group undertakings	2.4	2.1
Prepayments	9.7	11.4
Accrued income	30.1	31.0
Other receivables	4.3	21.8
Provision for expected credit losses	(6.3)	(8.8)
Total current trade and other receivables	169.3	147.5

Amounts due from group undertakings are not overdue for repayment and are not considered impaired. Details of the amounts due from related parties are disclosed in note 22.

All trade receivables are non-interest bearing. Disclosure of the financial risks related to these financial instruments is in note 16.

Notes to the financial statements**12. Trade and other receivables (continued)**

Other receivables mainly comprise costs incurred relating to damage to property that is recoverable from third parties, including insurers, costs incurred where compensation, at least equal to the costs, is expected to be obtained and recoverable VAT.

The company's loss allowance movements measured at an amount equal to the lifetime expected credit losses are as follows.

	2025 £m	2024 £m
At 1 January	(8.8)	(7.2)
Provision for expected credit losses	(4.7)	(5.6)
Expected credit losses reversed	5.2	3.4
Receivables written off as uncollectable	2.0	0.6
At 31 December	(6.3)	(8.8)

The provision for expected credit losses relates to trade receivables and accrued income.

As at 31 December 2025 the company held trade receivables that were past due but not impaired, as set out in the table below. These relate to a number of independent customers for whom there is no recent history of default and where terms and amounts have not been renegotiated in the last year

The ageing of these trade receivables is as follows

	2025 £m	2024 £m
Up to 3 months	11.6	-
3 to 6 months	0.5	0.5
Greater than 6 months	-	0.3
Total past due but not impaired receivables	12.1	0.8

There are no significant receivables of the company that are denominated in foreign currencies. The company does not hold any collateral as security

13. Inventories

	2025 £m	2024 £m
Consumable spares	6.7	8.1

Notes to the financial statements**14. Pension commitments**

The company participates in several pension schemes. They are accounted for as follows:

Define Benefit

- The Associated British Ports Group Pension Scheme ("ABPGPS")
- The Pilots National Pension Fund ("PNPF")
- Unfunded retirement benefit arrangements in respect of former employees

Defined Contribution

- The Legal & General Worksave Mastertrust ("MyPension Plan")
- The Merchant Navy Officers Pension Fund ("MNOFP")
- The Civil Service Pension
- The People's Pension

Except for unfunded retirement benefit arrangements, the assets of the company's pension arrangements are held in trust funds independent of the company.

All the schemes operate under the UK regulatory framework. The primary regulatory authority overseeing these pension schemes is The Pensions Regulator.

Summary***Income statement***

The total pension charge included in the company income statement was as follows:

	2025 £m	2024 £m
ABPGPS and unfunded retirement benefit arrangements	0.6	0.7
Industry wide schemes	0.3	0.2
Defined contribution arrangements	15.0	14.1
Net pension charge recognised within operating profit	15.9	15.0
Net interest (credit)/charge on net defined benefit assets	(0.5)	0.4
Net pension charge recognised in profit before taxation	15.4	15.4

Balance sheet

The retirement benefit assets and obligations as at 31 December were:

	2025 £m	2024 £m
Net retirement benefit assets total	24.9	28.2
Net retirement benefit obligations total	(18.5)	(23.4)
Net retirement benefit asset	6.4	4.8
Analysed by scheme		
ABPGPS – net funded pension assets	24.9	28.2
ABPGPS – net unfunded pension liability	(1.4)	(1.6)
	23.5	26.6
PNPF	(17.1)	(21.8)
Net retirement benefit asset	6.4	4.8

Notes to the financial statements

14. Pension commitments (continued)

Summary (continued)

During the year the ABPGPS scheme recorded an actuarial gain due to changes in the financial assumptions and member experience, partially offset by negative returns on the scheme's assets. As a result the scheme's surplus has decreased to £23.5m (2024: £26.6m surplus)

The Pilots National Pension Fund scheme recorded an actuarial loss during the year due to changes in financial assumptions, negative returns on the scheme's assets, and a loss arising from experience. As a result the scheme's deficit decreased to £17.1m (2024: £21.8m deficit)

Schemes accounted for on a defined benefit basis

ABPGPS and unfunded retirement benefit arrangements

The ABPGPS is a final salary defined benefit scheme closed to new members but has continued accrual

The last triennial valuation of the ABPGPS as at 31 December 2023 was finalised in October 2024. The deficit recovery plan from the prior valuation remained in place with contributions due in 2025 contingent on there being a technical provisions deficit as at 30 June 2025.

There was no technical provisions deficit at this date and therefore no deficit repair contributions were paid in 2025 and there are no further scheduled deficit repair contributions

The valuation of the liabilities as at 31 December 2025 has been derived by projecting forward the position as at 31 December 2023. This exercise was performed by an independent actuary, Willis Towers Watson. The present value of the defined benefit obligations and the related current service cost were measured using the Projected Unit Credit method.

The present value of pension liabilities has been determined by discounting pension commitments (including an allowance for salary growth) using a high-quality corporate bond yield.

The liability associated with the unfunded retirement benefit arrangement has also been determined by the actuary, Willis Towers Watson, using the same assumptions as those used for the ABPGPS.

The benefits provided under the Scheme are uncertain to the extent that the impact of Guaranteed Minimum Pensions (GMP) equalisation has not yet been fully reflected in Scheme benefits. An allowance has been included in the liabilities to reflect the expected value of these additional benefits, in line with what was calculated at the previous year end. It has been estimated by the actuary, Willis Towers Watson, that the financial effect of equalising benefits due to the GMPs in the ABPGPS was approximately a 0.1% increase of the funded defined benefit obligation.

The average duration of the defined benefit plan obligation at the end of the reporting period is 10 years. There are no asset ceiling issues arising under IFRIC 14 as the group would be able to derive economic benefit from the existing IAS 19 surplus either through a reduction in future contributions or through a refund of the surplus if the Scheme is run on until all members have left. At that point, on the winding-up of ABPGPS, there would be no benefits to be increased using the surplus. The group has the unconditional right to a refund of any surplus assets on the winding up of ABPGPS.

The surplus is recognised gross of tax as it is anticipated that the recovery will be by way of reduced contributions over the life of the ABPGPS. Deferred tax on the difference between the amounts recognized and payments made is included within deferred tax through the income statement or other comprehensive income to follow the recognition in the changes in value.

Notes to the financial statements

14. Pension commitments (continued)

Schemes accounted for on a defined benefit basis (continued)

The Scheme holds insured annuities in respect of certain members of the Ipswich section, with benefits secured through Aviva and paid via the Scheme. The insured annuities have been valued at £1.4m as at 31 December 2025 (2024: £1.7m).

The Pilots National Pension Fund ("PNPF")

The PNPF ("The Fund") is a centralised final salary multi-employer defined benefit pension scheme for non-associated employers. It provides benefits for employed and self-employed maritime Pilots and other marine or non-marine workers upon retirement and also on death before or after retirement. The Fund is administered by a separate Trustee Company which is legally separate from the group. The Trustee Directors are required by law to act in the interests of all relevant beneficiaries and are responsible for the Fund's investment policy and day-to-day administration.

The Defined Benefit Section of the Fund was closed to new entrants on 31 December 2020. From 1 January 2021, new entrants join the Cash Balance Section of the Fund. The defined benefit obligation includes allowance for both the Defined Benefit Section and Cash Balance Section.

The last actuarial valuation of the Fund was completed as at 31 December 2022 and showed a higher than anticipated deficit under an existing Recovery Plan, requiring an increase in the deficit contributions payable by Participating Bodies.

A new Recovery Plan reflecting an additional deficit repair contribution payable in 2029 was put in place. The new contribution in 2029, as well as the assets and defined benefit obligations, reflect the company's share of the liabilities in the Fund at the most recent valuation. Under the Recovery Plan the company paid contributions of £7.7 million in 2025 and will pay future contributions increasing at 3.4% p.a. thereafter until 31 December 2028. The company may also pay contributions in respect of the future accrual of benefits by active Pilots and/or other marine or non-marine workers. The average duration of the defined benefit plan obligation at the end of the reporting period is 9 years.

The next triennial valuation is being undertaken as at 31 December 2025.

The Trustee of the PNPF has the power to determine how any excess of the Fund's assets over its liabilities that is not required shall be used. This could include reductions in contributions or refunds to participating bodies.

As at the 31 December 2025 there is no expectation that any surplus will arise in the future because of the contributions promised by the company and therefore no provisions of IFRIC 14 impact the balance sheet.

Under the terms of the PNPF scheme rules and the trustee powers the company is exposed to actuarial risks associated with the current and former employees of other participating entities. As such, the company's share of the liabilities of the scheme is sensitive to changes in the overall membership composition of the scheme and the experience in rates of retirement, mortality, cash commutations, augmentations and increase in salaries.

Notes to the financial statements**14. Pension commitments (continued)****Schemes accounted for on a defined benefit basis (continued)**

The PNPF scheme consists of a number of Participating Bodies which are all UK Competent Harbour authorities. ABP has the largest share of historic liabilities although no longer has any active employees in the main section. All Participating Bodies are mutually liable for the entire PNPF obligations. The allocation of liabilities between Participating Bodies is determined by the PNPF Scheme Actuary at each scheme triennial valuation. If a Participating Body were to withdraw from the PNPF, a section 75 debt would be due based on the Participating Body's share of the ECHA statutory employer liabilities as at the most recent triennial valuation. ABP's share of this liability is calculated at 43.59% as at the 2022 valuation, which is then applied to the Fund's deficit on a solvency basis and then adjusted for historic voluntary contributions paid into the Fund by ABP.

Other risks associated with the company's share of the net liabilities of the scheme include potential challenges from participating bodies to the allocation of liabilities in relation to self-employed members to sponsoring employers and the impact of participating bodies leaving the scheme (e.g. under Section 75 of the Pensions Act)

Assumptions

The major financial assumptions used by the actuary as at 31 December were as follows:

	ABPGPS		PNPF	
	2025 %	2024 %	2025 %	2024 %
Inflation CPI	2.40	2.75	2.20	2.40
Inflation RPI	2.80	3.15	2.70	3.10
Rate of increase in pensionable salaries	2.00	2.00	2.20	2.40
Rate of increase for pensions in payment ¹	2.70	2.95	2.70	3.00
Rate of increase for pensions in payment ²	2.15	2.30	3.50	3.70
Rate of increase for pensions in payment ³	2.40	2.75	2.20	2.40
Discount rate	5.45	5.50	5.40	5.40

¹ ABPGPS - (earned before 1 April 2007) (RPI capped at 5% p.a.), PNPF - (maximum 5%, minimum 0%)

² ABPGPS - (earned on or after 1 April 2007) (RPI capped at 3% p.a.), PNPF - (maximum 5%, minimum 3%)

³ ABPGPS - (earned before 1 April 2007) (CPI uncapped), PNPF - (in deferment in excess of Guaranteed Minimum Pension)

Assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions which, due to the timescales covered, may not necessarily be borne out. The most significant assumption is the discount rate.

The mortality assumptions are based on standard mortality tables which allow for future mortality improvements. The assumptions as at 31 December were as follows:

	ABPGPS		PNPF	
	2025 Years	2024 Years	2025 Years	2024 Years
Male life expectancy retiring at age 60 in 15 years	26.3	26.0	27.7	27.6
Female life expectancy retiring at age 60 in 15 years	28.5	28.4	29.3	30.3

Notes to the financial statements

14. Pension commitments (continued)

Schemes accounted for on a defined benefit basis (continued)

Sensitivities

The sensitivity analysis below has been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period assuming all other assumptions are held constant

	ABPGPS		PNPF	
	2025	2024	2025	2024
	£m	£m	£m	£m
Impact on net liabilities of:				
Decrease in discount factor by 0.5%	17.1	18.0	3.9	4.0
Increase in inflation rate by 0.5%	12.0	12.6	1.9	2.0
Increase in rate of mortality of a 60 year old by 1 year	13.9	12.4	3.0	6.0
Increase in allocated share of the PNPF liability by 5%	-	-	4.2	4.5

Balance sheet

Changes in fair value of scheme assets were as follows

	ABPGPS		PNPF	
	2025	2024*	2025	2024
	£m	£m	£m	£m
Fair value of scheme assets at 1 January	372.4	411.8	66.4	70.0

Experience (loss)/gain	(3.4)	10.0	(1.2)	1.2
Contributions by employees	(0.1)	(0.1)	(0.1)	(0.1)
Benefits paid directly by the company	0.2	0.2	-	-
Benefits paid	26.5	26.8	8.4	8.5
Administrative expenses paid*	-	-	0.3	0.3
Fair value of scheme obligations at 31 December	(338.1)	(345.8)	(85.0)	(88.2)

*The administrative expenses charged and paid in the ABPGPS in 2024 have been reclassified and netted off

The current service cost represented 22% (2024: 22%) for the ABPGPS and unfunded retirement benefit arrangements, of the applicable pensionable payroll.

As at 31 December 2025, the cumulative remeasurement result recognised in the group's other comprehensive income amounted to a loss of £109.4m (2024: loss of £104.5m) for the ABPGPS and unfunded retirement benefit arrangements and a gain of £9.8m (2024: gain of £11.8m) for the PNPF.

Returns on assets and interest on liabilities are determined by reference to the actuarial assumptions adopted at the beginning of each financial period. The actual return on assets for 2025 was a gain of £14.9m (2024: loss of £17.7m) for the ABPGPS and unfunded retirement benefit arrangements and a gain of £2.4m (2024: loss of £2.4m) for the PNPF.

Schemes accounted for on a defined contribution basis

The Merchant Navy Officers Pension Fund ("MNOPF")

The MNOPF is a multi-employer arrangement operated across the shipping industry. It operates with no segregation of the assets and liabilities relating to different employers and the trustees allocating a 'share' of funding deficits to employers. The MNOPF closed to future benefit accrual on 31 March 2016. ABP has approximately a 0.1% share of the MNOPF deficit based on the liabilities in respect of former employees and a share of the orphan liabilities.

The MNOPF has secured liabilities in respect of certain pensioner members with Pension Insurance Corporation through two transactions in 2020 and 2022. The buy-in transactions remove the financial and demographic risks associated with the insured pensioner members. The most recent triennial actuarial valuation as at 31 March 2024 showed assets of £1,956 million, a technical provisions funding level of 99%. There are no new recovery plans in place following the latest triennial valuation.

In 2025 the company made no contributions to this scheme and no contributions are payable in 2026.

The company recognises that this pension scheme should be accounted for as a defined benefit scheme under IAS 19, however given the company's immaterial exposure, the lack of availability of data and the limited influence the group has over the affairs of this scheme, the company intends to continue to account for it as a defined contribution scheme.

The Legal & General Worksave Mastertrust ("MyPension Plan")

This is the company's primary pension arrangement for new and current employees, is a qualifying arrangement to meet auto enrolment legislation, and has approved mastertrust status from the Pensions Regulator.

In 2025 the company expensed as defined contribution pension costs a total of £14.4m (2024: £14.6m) of contributions to this plan.

Notes to the financial statements

14. Pension commitments (continued)

Schemes accounted for on a defined contribution basis (continued)

The Civil Service pension

The Civil Service pension arrangements, comprise the Principal Civil Service Pension Scheme (PCSPS) and the Civil Servants and Others Pension Scheme (Alpha). Both are unfunded, Defined Benefit (DB), contributory, public service occupational pension scheme made under the Superannuation Act 1972. PCSPS and Alpha are unfunded schemes and the cash required to meet the payment of pension benefits is paid from public funds provided by Parliament. Members contribute on a 'pay-as-you-go' basis. These contributions (and those made by employers) are credited to the Exchequer under arrangements governed by the aforementioned Acts. As at 31 August 2025 the company no longer had any active participants in this scheme. During the year, the company made contributions of £nil (2024: £0.1m) to this scheme in relation to its active members.

The People's Pension

The People's Pension is a defined contribution scheme, with approved mastertrust status from the pension regulator to meet auto enrolment legislation requirements. During the year, the company made contributions of £nil (2024: £0.1m) to this scheme in relation to its active members. As at 31 August 2025 the company no longer had any active participants in this scheme.

Section 37 certification

In June 2023, and subsequently upheld by the Court of Appeal in July 2024, the *Virgin Media v NTL Pension Trustees* judgment confirmed that amendments to contracted-out defined benefit schemes affecting section 9(2B) rights are void if made without the actuarial confirmation required under section 37 of the Pension Schemes Act 1993. The UK Government has indicated its intention to introduce legislation to allow retrospective actuarial confirmation for historic amendments.

The ABP Group Pension Scheme Trustees and Associated British Ports have reviewed all relevant amendments and confirmed that the required section 37 actuarial confirmations were obtained at the time of each amendment. Management has concluded that no adjustment to the defined benefit obligation recognised under IAS 19 is required.

The PNPF Trustee has commenced a review of the potential implications of the judgment and has indicated that it has no reason to believe that any amendments to the PNPF Rules were made without the necessary statutory confirmation. Based on the information available and the governance processes in place, management considers the liabilities recognised in respect of the PNPF to represent the best estimate of the obligations at the reporting date. The Group will continue to monitor the progress of the proposed legislative remedy.

Notes to the financial statements

15. Borrowings

Borrowings are analysed as follows

	2025 £m	2024 £m
Current:		
Lease liabilities	1.6	2.3
Total current borrowings	1.6	2.3
Non-current:		
Amounts due to parent undertaking	619.2	667.0
Lease liabilities	5.6	4.5
Total non-current borrowings	624.8	671.5

Amounts due to parent undertaking represents a loan from the company's immediate parent undertaking, Associated British Ports Holdings Limited. More detail on the company's related party borrowings is set out in note 22.

Interest on the loan amounts due to parent undertaking due in 31 December 2027, accruing interest at 9.7% (2024: 9.5%) per annum plus SONIA compound accrues annually in arrears and can be settled in cash at any time or deferred until maturity of the facility.

The carrying amounts of lease liabilities and the movements during the year are set out below.

	2025 £m	2024 £m
At 1 January	6.8	5.0
Additions	4.7	4.7
Interest expense	0.5	0.4
Payments	(4.8)	(3.3)
At 31 December	7.2	6.8

Lease liabilities are secured on the related leased assets. Disclosure of the financial risks related to these financial instruments is disclosed in note 16. Expenses relating to short term and low value asset leases are disclosed in note 3.

Notes to the financial statements

16. Financial instruments

Treasury operations

Treasury matters throughout the group are controlled centrally and carried out in compliance with policies approved by the Board of Associated British Ports Holdings Limited ("ABPH"), the company's immediate parent undertaking. The Board of ABPH monitors treasury matters and recommends financing decisions to the relevant group companies. The treasury function's purpose is to assess the group's ongoing capital requirements, to raise funding on a timely basis and to identify, mitigate and hedge financial risks inherent in the group's business operations and capital structure.

The group does not use financial instruments for speculative purposes.

Financial risk management

The company's main financial risks are liquidity, market, credit and capital risk. The company aims to manage these risks to an acceptable level.

Liquidity risk

Liquidity risk is managed in accordance with the Treasury Policy by the wider group, owned by the group's ultimate parent undertaking, ABP (Jersey) Limited. This ensures that cash and committed borrowing facilities are maintained at levels that provide a reasonable headroom in excess of the forecast requirements of all entities within the group. Management monitors rolling forecasts of the group's liquidity reserve (comprised of committed undrawn borrowing facilities and cash and cash equivalents) on the basis of expected cash flows.

Interest rate risk

The company's loan with its immediate parent undertaking, ABPH, is linked to the wider group's cost of debt. Interest rate risk is managed on a group basis by the wider group, owned by the company's ultimate parent undertaking, ABP (Jersey) Limited, maintaining an appropriate balance between fixed and floating debt and using interest rate swaps when appropriate to economically hedge against changes in interest rates. Further detail on how the group manages interest rate risk is included in the strategic report of ABPA Holdings Limited.

Foreign exchange risk

The company principally invoices its customers and settles its expenses in sterling. Accordingly, currency exposure arising from transactions being settled in other currencies tends to arise infrequently. Where such exceptions are significant, any related exposure is managed through forward currency contracts.

Credit risk

Credit risk with banks and financial institutions is managed by the wider group. The group monitors the credit risk of banking counterparts, tracking credit default swap rates and credit ratings of actual and potential counterparties. Cash deposits of the group at the year-end were all with counterparties with a credit rating of A3 or better and the weighted average maturity of deposits was 1 day from 31 December 2025.

Customer credit risk is managed locally in line with a group policy which is designed to ensure that the group's exposure to concentration of credit is appropriately managed through implementation of credit checks, using external credit rating agencies, and limits.

Notes to the financial statements**16. Financial instruments (continued)****Financial risk management (continued)**

Based on the quality and diversity of its customer base and institutions with which cash is deposited, management considers the group's exposure to concentration of credit risk not to be material

An impairment analysis is performed at each reporting date to determine the expected credit losses. The analysis reflects the time value of money and reasonable and supportable information that is available at the reporting date about past events, current condition and forecasts of future economic conditions. Based on the impairment analysis the group ensures that the allowance for expected credit losses is at least 0.5% (2024 at least 0.5%) of the amount of trade receivables and accrued income held on the balance sheet at the reporting date. Expected credit losses for other financial assets is considered immaterial.

Management considers the company's exposure to credit risk to be minimal. The maximum exposure to credit risk at 31 December 2025 is the carrying amount of each class of receivable. The maximum exposure to credit risk at the reporting date for derivative instruments is their fair value.

Capital risk

The company manages its capital to ensure that it will be able to continue as a going concern while maximising shareholder value and to ensure that it has the resources and the capacity to meet its operational requirements and to facilitate the execution of its strategy.

The company holds a long term loan balance with its immediate parent undertaking, ABP Holdings Limited "ABPH". Under the Transport Act 1981 the company is restricted to borrowing only from its immediate parent ABPH at levels predetermined by the board of ABPH. Ultimate realisation of principal balances depends on the performance of the company and the ability of the ports and transport operation to generate cash flows.

The company's overall strategy remains unchanged from 2025.

Contractual maturity of financial liabilities

The table below analyses the group's financial liabilities and related accrued interest, based on undiscounted contractual payments.

	Borrowings (excluding lease liabilities) £m	Lease liabilities £m	Trade and other payables £m	Total £m
2025				
Not later than one year	56.1	2.2	160.3	218.6
More than one year but not more than two years	634.2	1.5	71.1	706.8
More than two years but not more than five years	-	1.6	-	1.6
More than five years	-	51.6	-	51.6
Total payments	690.3	56.9	231.4	978.6

Notes to the financial statements

16. Financial instruments (continued)

Financial risk management (continued)

2024	Borrowings (excluding lease liabilities) £m	Lease liabilities £m	Trade and other payables £m	Total £m
Not later than one year	63.0	2.7	202.1	267.8
More than one year but not more than two years	63.0	1.5	64.7	129.2
More than two years but not more than five years	730.1	2.1	-	732.2
More than five years	-	50.1	-	50.1
Total payments	856.1	56.4	266.8	1,179.3

Fair value of financial instruments

The company considers the carrying amounts of financial instruments are reasonable approximations of fair value.

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities,
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly, and
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data

During the year to 31 December 2025, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

Notes to the financial statements**16. Financial instruments (continued)****Derivative financial instruments**

The company uses derivatives to manage its exposure to fuel prices and foreign exchange rates. As the company does not designate any of its derivatives as hedges, the fair value changes are recognised in the income statement in accordance with the company's accounting policy set out in note 1. The terms and fair value of derivative financial assets and liabilities held by the company at the balance sheet date are:

	Expiry date	Notional litres	Financial assets £m	Financial liabilities £m
2025				
Forward foreign exchange contracts			-	(0.2)
Fuel swaps and caps	2026-2027	14.4m litres	-	(0.9)
Fair value of derivative financial instruments			-	(1.1)
Net amount of derivatives			-	(1.1)

	Expiry date	Notional litres	Financial assets £m	Financial liabilities £m
2024				
Forward foreign exchange contracts			-	(0.4)
Fuel swaps and caps	2025-2026	18.0m litres	-	(0.5)
Fair value of derivative financial instruments			-	(0.9)
Net amount of derivatives			-	(0.9)

Derivatives are analysed between current and non-current as follows

	2025 £m	2024 £m
Current assets:	-	-
Total assets	-	-
Current liabilities	(0.8)	(0.8)
Non-current liabilities	(0.3)	(0.1)
Total liabilities	(1.1)	(0.9)

Notes to the financial statements

17. Trade and other payables

	2025 £m	2024 £m
Current:		
Trade payables	28.2	34.6
Amounts due to group undertakings	59.2	58.9
Amounts due to subsidiary undertakings	14.4	14.1
Accruals	51.7	83.0
Other creditors	6.7	6.6
Taxation	5.4	5.1
Total current trade and other payables	165.6	202.3
Non-current:		
Amounts due to subsidiary undertakings	45.8	45.8
Accruals	10.8	5.5
Other creditors	14.5	13.4
Total non-current trade and other payables	71.1	64.7

All trade and other payables are non-interest bearing. Details on amounts due to related parties are disclosed in note 22

Other creditors is made up of non-recurring non-trade payables, and includes rent related security deposits of £14.1m (2024: £12.9m) along with amounts due for 3rd party insurance and damages liabilities

18. Deferred income

	Contract liabilities £m	Deferred property income £m	Government capital grants £m	Total £m
At 1 January 2024	8.8	100.8	42.8	152.4
Credited to income statement during the year	(4.7)	(41.4)	(6.0)	(52.1)
Amounts received in advance and deferred	5.8	58.7	5.2	69.7
At 31 December 2024	9.9	118.1	42.0	170.0
Credited to income statement during the year	(9.9)	(43.0)	(7.7)	(70.7)
Amounts received in advance and deferred	14.3	38.2	4.5	67.1
At 31 December 2025	14.3	113.3	38.8	166.4

Government capital grants relate to amounts provided for the construction of port related assets for which there are no unfulfilled conditions or associated contingencies

Deferred income is analysed between non-current and current as follows

	2025 £m	2024 £m
Current	59.9	52.1
Non-current	106.5	117.9
Total deferred income	166.4	170.0

Notes to the financial statements**18. Deferred income (continued)**

The non-current deferred income principally relates to deferred property income received in advance for investment properties which will be spread over the terms of the leases

19. Provisions

	Property	Retrospective employer liabilities	Other	Total
2025	£m	£m	£m	£m
At 1 January	30.3	8.4	5.4	44.1
Charged to income statement during the year	2.7	-	1.7	4.4
Credited to income statement during the year	(0.3)	(1.1)	(1.5)	(2.9)
Utilised in the year	(0.2)	-	(0.6)	(0.8)
Unwind of discounting	-	0.4	-	0.4
At 31 December	32.5	7.7	5.0	45.2
Expected utilisation within one year	11.5	0.3	5.0	16.8

	Property	Retrospective employer liabilities	Other	Total
2024	£m	£m	£m	£m
At 1 January	32.5	8.1	3.6	44.2
Charged to income statement during the year	3.1	-	5.0	8.1
Credited to income statement during the year	(3.8)	-	(1.1)	(4.9)
Utilised in the year	(1.5)	-	(2.1)	(3.6)
Amortisation of discounting	-	0.3	-	0.3
At 31 December	30.3	8.4	5.4	44.1
Expected utilisation within one year	13.2	0.3	5.4	18.9

Provisions are analysed between non-current and current as follows

	2025 £m	2024 £m
Current	16.8	18.9
Non-current	28.4	25.2
Total provisions	45.2	44.1

Notes to the financial statements

19. Provisions (continued)

Property

Property provisions that will be utilised as the work is performed, the timing of which is uncertain, include

- £6.2m (2024: £6.2m) in respect of a Grade II listed building where ABP has a constructive obligation to maintain the building and recognises the need to carry out essential works
- £19.0m (2024: £18.3m) in respect of land at various ports which has been identified as contaminated as a result of previous use. The land was occupied by tenants who have not met their obligations so remediation has fallen to ABP as the owners of the land. The provisions are in respect of remediation needed to ensure that ABP remains in compliance with environmental regulations and represents the current expectation of remediation costs based on surveys of the land
- £4.3m (2024: £4.5m) relating to the demolition of a structure posing a potential hazard to navigation based on the best estimate of costs that will be incurred

Retrospective employer liabilities

The company carries a provision in respect of employer's liability in relation to certain industrial diseases.

The company's exposure in relation to retrospective industrial diseases was last subject to a full review and an updated model constructed by an independent actuary in 2025. Potential liabilities have been projected forward until 2065 using information on incidence type, number of claims, life expectancy of claimants, value of claims and the group's share of the exposure. Cash flows, where appropriate, have been projected and discounted on a pre-tax basis using a discount rate of 6.3% (2024: 6.3%). The actuarial assessment identified a reasonable discounted estimate of the reserves to be in the range £4.0m to £8.6m (2024: £5.6m to £9.7m). In the light of uncertainty associated with asbestos related claims, the group provides within the range

Other provisions

Other provisions relate primarily to claims for uninsured damages to customer property and will be utilised as formal claims are agreed the timing of which is uncertain

Notes to the financial statements

20. Deferred tax liabilities

The movement on deferred tax is shown below

		Adjustments in respect of previous periods charged/ (credited) to	(Credited)/ charged to	(Credited)/ charged to	
	2024	income statement	income statement	OCI	2025
	£m	£m	£m	£m	£m
2025					
Accelerated tax depreciation	118.4	11.5	(1.4)	-	128.5
Revaluation of operational land and investment properties	284.7	-	60.0	1.4	346.1
Capital losses	(0.4)	-	-	-	(0.4)
Retirement benefit obligations	1.1	0.1	2.0	(1.6)	1.6
Other	(1.2)	-	0.1	-	(1.1)
Net deferred tax liability	402.6	11.6	60.7	(0.2)	474.7

		Adjustments in respect of previous periods (credited)/ charged to	(Credited)/ charged to	(Credited)/ Charged to	
	2023	income statement	income statement	OCI	2024
	£m	£m	£m	£m	£m
2024					
Accelerated tax depreciation	122.3	(0.1)	(3.8)	-	118.4
Revaluation of operational land and investment properties	234.0	-	58.3	(7.6)	284.7
Capital losses	(12.0)	11.6	-	-	(0.4)

Other	(1.2)	-	-	-	(1.2)
Net deferred tax liability	339.6	11.5	57.2	(5.7)	402.6

It is not possible to quantify the amount of deferred tax expected to be settled or realised within the next 12 months

The company has unrecognised deferred tax assets of £78.5m (2024: £78.5m) in relation to capital losses of £314.1m (2024: £314.1m) that relate to operational assets excluding land. These losses have no expiry date and are only available for offset against gains from future sales of land and buildings, which cannot be projected with sufficient certainty, from the port estates.

Notes to the financial statements

21. Cash flow reconciliations

Reconciliation of profit before taxation to cash generated by operations

	2025 £m	2024 £m
Profit before taxation	528.8	499.3
Finance costs	56.3	55.9
Finance income	(2.6)	(7.2)
Net unrealised loss on operating derivatives	0.4	0.2
Depreciation of property, plant and equipment and right of use assets	109.1	101.4
Amortisation of intangible assets	12.0	12.3
Loss/(gain) on write off of intangibles and disposal of property, plant and equipment, investment property, property and land held for sale and right of use assets	1.8	(0.2)
Increase/(decrease) in provisions	0.7	(1.0)
Increase in fair value of investment properties	(239.8)	(233.4)
Defined benefit pension charge through profit and loss	0.5	1.2
Pension contributions paid	(8.5)	(13.0)
Operating cash flows before movements in working capital	458.7	415.5
Decrease in inventories	1.4	-
Increase in trade and other receivables	(6.8)	(21.2)
(Decrease)/increase in trade and other payables and deferred income	(51.7)	6.5
Cash generated by operations	401.6	400.8

The table below shows the cash and non-cash changes in liabilities and related assets arising from financing activities:

	At 1 January liability	Cash flows	Non-cash changes	At 31 December (liability)/ asset
2025	£m	£m	£m	£m
Long-term intercompany borrowings	(667.0)	136.6	(88.8)	(619.2)
Lease liabilities	(6.8)	4.8	(5.3)	(7.3)
Total	(673.8)	141.4	(94.1)	(626.5)

	At 1 January liability	Cash flows	Non-cash changes	At 31 December liability
2024	£m	£m	£m	£m
Long-term intercompany borrowings	(663.5)	177.0	(180.5)	(667.0)
Lease liabilities	(5.0)	3.3	(5.1)	(6.8)
Total	(668.5)	180.3	(185.6)	(673.8)

Notes to the financial statements**21. Cash flow reconciliations (continued)**

Cash and cash equivalents comprises

	2025 £m	2024 £m
Cash	8.5	4.7
Deposits	97.0	36.5
Rent deposit accounts	14.1	12.3
Cash and cash equivalents at 31 December	119.6	53.5

22. Related party transactions**Transactions with the Trustee of the Associated British Ports Group Pension Scheme**

The company has multiple pension arrangements, predominantly defined contribution, and also operates a defined benefit scheme managed by the Trustee of the Associated British Ports Group Pension Scheme ("ABPGPS") (see note 14). During the year, the company charged ABPGPS £nil (2024 £0.3m) in respect of administrative services. At 31 December 2025, £nil (2024 £nil) remained owing to the company by ABPGPS in respect of these charges.

Transactions with key management personnel

Details of compensation of key management personnel are set out in note 5.

Notes to the financial statements**22. Related party transactions (continued)****Transactions with fellow group companies**

The company has also entered into related party transactions and/or holds balances with the following related parties

Name	Relationship
Associated British Ports Holdings Limited	Immediate parent
ABP Acquisitions UK Limited	Intermediate parent
ABP (Aldwych) Limited	Group undertaking

Total current account balances	(117.4)	(116.7)

Notes to the financial statements**22. Related party transactions (continued)**

The current account transactions that have been entered into by the company with related parties, together with period end balances, for the relevant financial year are shown in the following tables show.

	2025 £m	2024 £m
ABP Marine Environmental Research Limited		
Intercompany payable at start of the year	(0.7)	(3 6)
Movement for the year	(0.2)	2 9
Intercompany payable at end of the year	(0.9)	(0 7)

	2025 £m	2024 £m
Grosvenor Waterside Investments Limited		
Intercompany payable at start of the year	(39.0)	(39 0)
Movement for the year	(0.3)	-
Intercompany payable at end of the year	(39.3)	(39 0)

	2025 £m	2024 £m
Solent Gateway Limited		
Intercompany payable at start of the year	(0.4)	(0 3)
Movement for the year	0.2	(0 1)
Intercompany payable at end of the year	(0.2)	(0.4)

Intercompany receivable at start of the year	0.6	0 3
Movement for the year	0.3	0 3
Intercompany receivable at end of the year	0.9	0 6

	2025 £m	2024 £m
W.E. Dowds (Shipping) Limited		
Intercompany payable at start of the year	(2.4)	(4 1)
Movement for the year	(0.7)	1 7
Intercompany payable at end of the year	(3.1)	(2 4)

23. Financial commitments

Significant capital expenditure contracted for at the end of the reporting period but not recognised as liabilities is as follows

	2025 £m	2024 £m
Property, plant and equipment	201.3	49.1
Investment property	25.3	10 5
Intangible assets	0.8	1 7

Notes to the financial statements

24. Contingent liabilities

The company makes contributions to two industry-wide defined benefit pension schemes, which have various funding levels. The company's ability to control these schemes is limited and therefore the impact on the company's future cash flows and cost base from these schemes is uncertain. Further details on these schemes are set out in note 14. In the event of the funding position of these schemes deteriorating ABP could have a resulting liability. It is not possible to quantify the possible liability.

25. Leases

Company as lessor

The company's lease income is set out in note 2.

Operating lease receivables

The company leases various areas of land, buildings and other operational assets across its port facilities to its customers. The lease terms vary depending on the nature of the property and are unique to each property. The length of lease for properties contributing to the lease income receivable below ranges from less than one year to 119 years. Where renewal rights exist, these rights are either contractual or statutory in nature.

Maturity analysis of future minimum lease income receivable under non-cancellable operating leases is as follows:

	2025 £m	2024 £m
Not later than one year	139.1	137.5
More than one year but not more than two years	119.0	119.2
More than two years but not more than three years	109.2	105.2
More than three years but not more than four years	98.6	98.9
More than four years but not more than five years	88.8	90.0

Company as lessee

Expenses relating to short term leases, leases of low value assets and variable lease expense are set out in note 3.

The nature of the company's leasing activities, the carrying amounts of right of use assets recognised and the movements during the year are set out in note 9. Right of use assets that meet the definition of investment property are included in note 10.

The carrying amounts of lease liabilities and the movements during the year are set out in note 15. The maturity analysis of lease liabilities is set out in note 16.

During the year the company had total cash outflows for lease payments of £4.8m (2024: £3.3m).

Notes to the financial statements**26. Subsidiary undertakings**

All subsidiaries have a registered address of 25 Bedford Street, London, WC2E 9ES and operate in England and Wales, unless otherwise stated. The company's controlling interest in subsidiary undertakings is represented by ordinary shares. All ordinary shares have voting rights in the same proportion to the shareholding.

27. Holding company and ultimate controlling parties

Under the Transport Act 1981, Associated British Ports Holdings Limited has powers over Associated British Ports corresponding to the powers of a holding company over a wholly-owned subsidiary undertaking. The company's intermediate parent undertaking, ABPA Holdings Limited ("ABPAH"), produces consolidated financial statements that comply with UK adopted International Accounting Standards ("IAS"). Copies of these financial statements may be obtained from ABPAH, at its registered office at 25 Bedford Street, London, WC2E 9ES, which is also the principal office of Associated British Ports ("ABP"). The consolidated financial statements of ABPAH are the smallest group in which ABP is included.

Notes to the financial statements

27. Holding company and ultimate controlling parties (continued)

The ultimate parent undertaking and controlling party is ABP (Jersey) Limited ("ABPJ"), a limited liability company registered in Jersey. ABPJ produces consolidated financial statements that comply with IFRS and are available from its registered office at 3rd floor, 44 Esplanade, St Helier, Jersey, JE4 9WG. The consolidated financial statements of ABPJ are the largest group in which the company is included

ABPJ is owned by a consortium of investors as shown below
